Johnson Building, 2nd Floor
Columbia, MO 65201

Dear Betty,

The purpose of this letter is to provide our recommendation on the appropriate job classification for Sarah Bailey in the Public Works Department.

We have reviewed the position description questionnaire that you forwarded, and then analyzed the job descriptions for related types of jobs. Based on this information, we recommend that her position be classified as Account Specialist (job code 1004). Her position requires approximately 65% of her time be allocated to accounting work, related to inventory and the GASB34.

Betty, we are pleased to hear that the program is moving along well. Please let me know if we can help in any way.

Sincerely,

Rick McRoy

**CONDITIONAL USE PERMIT
BOONE COUNTY, MISSOURI**

PROPERTY OWNER: Richard and Carol Samuels
On behalf of United States Cellular Operating Company of Columbia

ADDRESS: 15365 W Hwy BB, Rocheport, MO 65279

LEGAL DESCRIPTION: SE ¼ of Section 1, Township 48 North, Range 15 West.

ZONING: A-2 (Agriculture)

DATE DENIED: April 2, 2002

CONDITIONAL USE: Transmission Facility

ORDER OF DENIAL

The Boone County Commission through its presiding officer hereby denies issuance of the above conditional use permit as prescribed above. The Commission finds in denying this permit that all requirements for issuance are not satisfied and that the Commission further makes its findings of fact and conclusions of law in accordance with the provisions shown on the attached pages, validating denial of this permit.

ATTEST:

Wendy J. Horen sr
County Clerk

BOONE COUNTY, MISSOURI
BOONE COUNTY COMMISSION

by Karen M. Pullen
Presiding Commissioner

APPROVED:

Jim Lawrence
Director, Boone County Planning and Building Inspection

Dated: 4/23/02

FINDINGS OF FACT

The Boone County Commission further finds as fact in support of denial of this conditional use permit the following to be true:

That the Boone County Planning and Zoning Commission conducted a public hearing on this matter on March 21, 2002.

That at the public hearing conducted 3/21/02 property owners within 1,000 feet of the subject tract testified there are eleven existing transmission facilities in the vicinity of the subject site.

That at the public hearing conducted 3/21/02 property owners within 1,000 feet of the subject tract testified that the proposed site of the transmission facility was located on the main approach to the town of Rocheport, which is listed as a Historic District on the National Historic Register.

That at the public hearing conducted 3/21/02 property owners within 1,000 feet of the subject tract testified that the proposed transmission facility will be visible to the surrounding property owners, most of the inhabitants of the City of Rocheport, the Historic District, and the general public driving to and from the town of Rocheport.

That at the public hearing conducted 3/21/02 property owners within 1,000 feet of the subject tract testified that the transmission facility will be in their direct line of sight and will substantially diminish the use and enjoyment of their property.

That at the public hearing conducted 3/21/02, a resolution of the Board of Aldermen of the City of Rocheport was submitted to the Planning and Zoning Commission stating their unanimous opposition to the transmission facility stating that it will detract from the historic and aesthetic interests of the City of Rocheport.

That at the public hearing conducted 3/21/02, the applicant provided testimony that no single existing transmission facility could provide the service area that they were seeking to provide service to. The applicant failed to demonstrate to the Planning and Zoning Commission that a combination of existing facilities could not be used to meet the service needs.

That at the public hearing conducted 3/21/02 property owners within 1,000 feet of the subject tract and residents of the City of Rocheport testified that at least two cellular services and standard phone service was available within the City of Rocheport.

That following the hearing conducted 3/21/02 the Boone County Planning and Zoning Commission recommended that the request be denied.

That the applicants filed a timely appeal of the recommendation to deny their request and were provided an opportunity to appear before the Boone County Commission.

That on April 2, 2002 the Boone County Commission conducted a public hearing on the appeal.

That at the public hearing conducted on 4/2/02 the County Commission accepted into the record the minutes of the 3/21/02 hearing of the Planning and Zoning Commission.

That at the public hearing conducted on 4/2/02 property owners within 1,000 feet of the subject tract testified that they could not fully enjoy the use of their property and were concerned about property values.

That at the public hearing conducted on 4/2/02 property owners within 1,000 feet of the subject tract testified that the transmission facility would have a negative impact on the City of Rocheport which is registered on the National Register of Historic Places.

The credible evidence at the public hearing conducted on 4/2/02 also demonstrated that there are other towers in the area that can be used to meet the requested service need, notwithstanding the applicants' testimony, in that the applicants' have not satisfied the criteria of Section 15.B.(4) (a)&(b) of the Zoning Ordinance and the applicants do not have a right to have their own tower when their substantive service needs can be satisfied in parity with other providers.

CONCLUSIONS OF LAW

Based upon the foregoing findings of fact, the Boone County Commission finds and concludes as a matter of law in denial of this permit that:

1. The conditional use permit requested hereunder will be injurious to the use and enjoyment of other property in the immediate vicinity of the property which is the subject of this permit with respect to the purposes already permitted by these regulations, and
2. That there is no public necessity for the issuance of the conditional use permit hereunder, and
3. That the applicants' have not satisfied the criteria of Section 15.B.(4) (a)&(b) of the Zoning Ordinance in that there are other towers in the area that can be used to meet the requested service need.

The Commission, by authorizing denial of the conditional use permit hereunder, further concludes as a matter of law that denial of the permit is proper under the zoning regulations of Boone County in effect at the time of denial and the general statutes and laws of the state.
