To: David Mink Director of Public Works Boone County

From: Ken Roberts Manager Boone County F/M

Subject: Scanning radio for BCFM office

Date: May 26, 2005

Facility Maintenance has a base station radio in the downtown office that is used to communicate with BCFM staff through handheld and truck mounted radios. We have a maintenance man also located at the Boone County Jail and he is on different frequency than the other three maintenance workers.

I need to replace our current base station with new radio that is capable of scanning both the maintenance and jail frequency so we can monitor traffic from both our work sites and better serve the customers downtown and the jail. Our current radio is capable of only monitoring one frequency at a time. We have taken great strides to get all of maintenance personal on the same schedule with work orders and ticket reporting and the last weak link in the chain is this inability to listen to both channels.

I propose that the commission allow us to purchase a replacement radio for \$441.50 with the money we saved in the 995 mower deck replacement out of class 9 account 92300. The radio would be a replacement so the funding would also be a class 9 account 92300. This would require the commission to authorize a non budgeted class 9 purchase. We have \$600 available to cover this cost.

Ken Roberts
Manager BCFM
