NCPA will assist Region 14 ESC in evaluating proposals. Award(s) will be made to the prospective vendor whose response is determined to be the most advantageous to Region 14 ESC, NCPA, and its participating agencies. To qualify for evaluation, response must have been submitted on time, and satisfy all mandatory requirements identified in this document.

- ◆ Contract Administration
 - The contract will be administered by Region 14 ESC. The National Program will be administered by NCPA on behalf of Region 14 ESC.
- ◆ Contract Term
 - The contract term will be for three (3) years starting from the date of the award. The contract may be renewed for up to five (5) additional one-year terms.
- ◆ Contract Waiver
 - Any waiver of any provision of this contract shall be in writing and shall be signed by the duly authorized agent of Region 14 ESC. The waiver by either party of any term or condition of this contract shall not be deemed to constitute waiver thereof nor a waiver of any further or additional right that such party may hold under this contract.
- ◆ Products and Services additions
 - Products and Services may be added to the resulting contract during the term of the contract by written amendment, to the extent that those products and services are within the scope of this RFP.
- ◆ Competitive Range
 - It may be necessary for Region 14 ESC to establish a competitive range. Responses not in the competitive range are unacceptable and do not receive further award consideration.
- ◆ Deviations and Exceptions
 - Deviations or exceptions stipulated in response may result in disqualification. It is the intent of Region 14 ESC to award a vendor's complete line of products and/or services, when possible.
- ◆ Estimated Quantities
 - The estimated dollar volume of Products and Services purchased under the proposed Master Agreement is \$2 - \$10 million dollars annually. This estimate is based on the anticipated volume of Region 14 ESC and current sales within the NCPA program. NCPA will assist the lead agency in evaluating proposals. Recommendations for contract awards will be based on multiple factors, each factor being assigned a point value based on its importance.

- ◆ Formation of Contract
 - A response to this solicitation is an offer to contract with Region 14 ESC based upon the terms, conditions, scope of work, and specifications contained in this request. A solicitation does not become a contract until it is accepted by Region 14 ESC. The prospective vendor must submit a signed Signature Form with the response thus, eliminating the need for a formal signing process.
- ◆ NCPA Administrative Agreement
 - The vendor will be required to enter and execute the National Cooperative Purchasing Alliance Administration Agreement with NCPA upon award with Region 14 ESC. The agreement establishes the requirements of the vendor with respect to a nationwide contract effort.
- ◆ Clarifications / Discussions

Tab 4 – Vendor Profile

Please provide the following information about your company:

- ◆ **Company's official registered name.**

American Office Products Distributors, Inc.

- ◆ **Brief history of your company, including the year it was established.**

Established in 1978, American Office Products Distributors (AOPD) and its affiliated member dealers have long stood as the premier national independent dealer marketing organization in North America. The members of AOPD represent the best independent dealers in their respective markets.

As North America's oldest and most dependable office products marketing group, AOPD has continuously provided office products purchasing and distribution programs to local, regional and national commercial/government business partners. From a historical perspective, AOPD was formed by a group of the largest Independent dealers back in 1978, to provide the ability to market to and service both regional and national accounts. Through the development and growth of AOPD, the dealer members are enabled to provide exemplary service and competitive price schedules to business partners across North America. By capitalizing on the strengths and resources of the entire dealer network, AOPD provides programs to business partners with quality branded products, personalized service and competitive price programs.

While there are many independent office product dealers in the U.S., the elite members of AOPD are of the largest, most sophisticated and most successful. Every AOPD dealer member is classified as small business (SBE) with less than 500 employees. In addition, many carry various socioeconomic designations such as Woman Owned, Minority Owned, HUB Zone, and Veteran Owned. Through the various designations of our member dealers, AOPD is able to satisfy a multitude of socioeconomic requirements of many of our business partners. At present, AOPD services over 440 national accounts and is the designated contract holder for two government (GSA/NCPA), one health care (Premier) and one major Chamber (Affinity) contracts.

The AOPD network consists of 70 independent dealers in the US and network dealer groups in Australia, Canada and Europe. Through their affiliation, AOPD is able to provide extensive coverage in the markets our member's service.

From a service perspective, AOPD is able to provide 1-3 business day consistent delivery, vast ordering method options (standard and Internet) and customized services to meet the needs of our business partners.

AOPD's core purpose is to "provide local service, nationwide", by implementing national programs that use the services of local providers. By doing so, local tax dollars stay within local communities, supporting local economies. All services are provided by a local AOPD distributor.

AOPD is headquarters in St. Charles, Illinois, a suburb of Chicago. It is managed by a group of dedicated professionals with over 130 years combined experience in the office products industry.

Through the many changes within the office products industry, AOPD has stood the test of time. By providing stellar programs with outstanding service, our reputation of being the number one national office products program provider has sustained and will sustain AOPD in the many years to come.

◆ **Define your standard terms of payment.**

NET 30 DAYS (non-credit card purchases). Any other payment terms are negotiable.

◆ **Who is your competition in the marketplace?**

At present, our major competitors are Staples, Office Depot, and WB Mason (in the North East). There are also some non AOPD member independent dealers in various markets that are AOPD competitors.

◆ **What differentiates your company from competitors?**

AOPD's service capabilities and program customization are the two distinct differentiators that set us above our competitors. AOPD provides a much higher level of service to our Business Partners on an everyday basis. By providing personal customer service support, branded products and the ability to create customized program offerings, AOPD is able to exceed customer expectations. The dealer members of AOPD are empowered to make decisions at the dealership level and do not have to wait for approval from a corporate location or decision maker in another city/state. The local AOPD dealers are therefore able to offer quick response to any service request to satisfy our Business Partners' requirements.

◆ **Describe how your company will market this contract if awarded.**

AOPD has had the pleasure of being the NCPA contract holder for the past 5 years. Through that time, we have developed a very effective go to market strategy that supports all the inherent goals and objectives of the NCPA program.

The overall value of a continued relationship with AOPD is simply that all the "heavy lifting" is done. Through our association with NCPA over the past five years, we have developed highly effective and comprehensive go to market strategies that have resulted in great success through our combined efforts.

Based on our gained experience, we have developed the best strategies for addressing existing and potential business partners. Our current and go forward implementation objectives are as follows:

- ◆ All AOPD dealer members are provided with the appropriate contract information, price schedules and tools necessary to market and engage
- ◆ All AOPD dealer members have been trained to assure full understanding of the contract, its value adds and implementation strategies/requirements
- ◆ All AOPD dealers are linked to AOPD HQ via Acsellerate to support the necessary sales

management and sales data reports required to support the contract

- ◆ AOPD has provided all dealer members the appropriate marketing collateral to engage in customer awareness and presentation campaigns
- ◆ All AOPD dealer members can provide an extensive online reporting tool to business partners (CXI Intelligence) enabling business partners to view their total and overall purchasing activities online
- ◆ All AOPD dealer members understand the value of business reviews and the ‘re-selling’ of the NCPA agreement to their business partners
- ◆ All dealers understand the value in providing custom program offerings to business partners to meet their individual business requirements
- ◆ AOPD has added the staff resource of a Director of Business Development, who is responsible for the overall sales and marketing activities of the NCPA agreement

◆ **Describe how you intend to introduce NCPA to your company.**

The value of an extended relationship with AOPD is that through our servicing the contract for the past five years, the NCPA contract is now a part of our sales culture throughout our entire organization. Rather than an introduction, we will provide a refresh announcement, indicating any updates to the existing agreement with NCPA.

NCPA has been and continues to be AOPD’s fastest growing and substantial contract. Our entire network of dealers are extremely versed with the contract and will continue to promote it without interruption, provided an award is received.

Through a re-award of the contract to AOPD, you can be assured of a seamless rollover into the new contract terms, without interruption.

◆ **Describe your firm’s capabilities and functionality of your on-line catalog / ordering website.**

Every AOPD dealer website has on-line purchasing as a standard offering for their customers to utilize an easy ordering process. The AOPD dealers’ on-line purchasing programs offer a fully functional website complete with a customized and net-priced Internet catalog. AOPD customers can manage their supply purchases using various approval levels and notifications that show complete pricing and product information, and the order history for their account(s).

Flexibility is vital to our success. As our customer’s requirements and order entry programs and technology changes, the AOPD dealers upgrade programs to match these changes. What won’t change is the level of local service we provide.

Customers are offered a variety of functionality settings in their set up as an AOPD customer. These include custom product lists for easy ordering, product(s) blocking, approval levels, order tracking capabilities, easy returns, invoicing/payment methods, and reporting.

Some of the additional features of the AOPD dealers’ order entry programs are:

- Ability to order for multiple cost centers and/or departments and ship to addresses

- Quick order items from favorites list
- Contract items can be set up as first source or to come up first in search
- Save shopping carts to add more products or submit later
- View cart, to see or print what is in the cart...add or delete, save again or submit

All orders are entered into, tracked through, invoiced, and reported from our dealers' computer systems. This gives you a completely auditable ordering program.

Each NCPA customer will receive their own login(s) and specific ordering instructions, including diagrams, from their local AOPD member. Personal training is also available if needed.

◆ **Describe your company's Customer Service Department (hours of operation, number of service centers, etc.)**

AOPD's program allows our entire membership to participate in servicing contract customers across the country. The points of customer service and maintenance are managed through AOPD and carried out by the AOPD members. One of our strengths is *local* customer service; we call this Local Service, Nationwide. The service point of contact for NCPA customers will therefore be the local customer service teams at the AOPD members servicing the respective locations. AOPD local customer service teams are responsible for understanding and supporting contract accounts including order entry requirements, delivery specifications, invoicing methods and preferred product choices.

NCPA customers can expect the same higher level of excellent service that all AOPD customers receive. The average experience level for customer service representatives at AOPD member companies is over 20 years.

AOPD customer service teams have extensive knowledge of current office supply items as well as a familiarity with products from 20+ years ago. They are able to recommend alternatives for discontinued items, suggest items more suitable for a particular task (e.g. such as a particular marker for a white board, rather than a non-erasable marker), and question possible incorrect orders to prevent delay in receiving the correct item (e.g. an end user orders letter size file folders but needs legal size hanging folders). This proactive approach saves the customer time and money.

The local customer service team size will be based on the size of the customer and their respective service requirements. Every customer is assigned to one or more Customer Service Representatives with back up CSR's to provide assistance and cover absenteeism.

Customer Service Representatives are available to purchasers via phone (toll free numbers will be provided where needed), fax, and/or email. Additionally, AOPD dealers offer "live chat" which enables end users to quickly communicate via the Internet with their local customer service representatives. There will be a local customer service representative available from 0700 to 1800 hours Monday through Friday.

◆ Green Initiatives

- As our business grows, we want to make sure we minimize our impact on the Earth's climate. We are taking every step we can to implement innovative and responsible environmental practices throughout NCPA to reduce our carbon footprint, reduce waste, energy conservation, and ensure efficient computing and much more. To that effort we ask respondents to provide their companies environmental policy and/or green initiative.

AOPD is committed to important social and environmental initiatives and incorporates this leadership into its offerings to customers. AOPD has clearly identified categories where green products are available in building proposals, contract item listings, and catalogs for companies and customers who are environmentally conscientious.

We offer a range of green options from Energy Star products to EPA green-classified products and Sustainable Forestry Initiative products. Green products are available from a wide variety of manufacturers offering products in categories such as copier papers, filing products, file storage boxes, cleaning products, desk accessories, Post It products and toner and ink products. AOPD identifies each in our catalog with important information, including those which meet criteria for post-consumer waste and total recycled content according to the EPA.

AOPD dealers all offer recycling programs for toner and ink cartridge products. If a NCPA customer has used toner or inkjet cartridges they'd like to recycle, all they need to do is put the used cartridge in the new cartridge box, affix the accompanying recycle label, and give them to their delivery driver when the next delivery is made. The cartridges will be recycled and reused, saving them from being dumped in a landfill.

The efforts of AOPD are supported by programs and initiatives created and offered by our manufacturer Business Partners. Information about green initiatives and programs offered by the AOPD manufacturer Business Partners are accessible on AOPD dealer websites. AOPD dealers also work with customers to shrink the overall carbon footprint resulting from procurement processes. Larger customers may request that regular orders are bundled and delivered on specified delivery days. This allows the dealer to condense the deliveries made to the customer's site, thus reducing the greenhouse emissions resulting from the operation of delivery vehicles. It is to be noted that this is a suggestion and that AOPD would never compromise services to our customers. If a customer needs a product next day, the dealer will of course comply with the customer's request for next day delivery.

- ◆ Vendor Certifications (if applicable)

- Provide a copy of all current licenses, registrations and certifications issued by federal, state and local agencies, and any other licenses, registrations or certifications from any other governmental entity with jurisdiction, allowing respondent to perform the covered services including, but not limited to, licenses, registrations, or certifications. Certifications can include M/WBE, HUB, and manufacturer certifications for sales and service.

AOPD dealers are all considered to be small businesses by the SBA. Additionally, many of the AOPD dealers are certified under various other socioeconomic designations and some dealers carry multiple socioeconomic designations. AOPD does not have copies of the dealers' certification documents but they would be available from each of the individual dealers. Here is a breakdown of the socioeconomic designations that we have listed for the 70 U.S. dealer members.

The non-core extended catalog is contained on the accompanying USB's, as instructed

Confidentiality Statement

All items and prices listed in the market basket and the accompanying Not To Exceed Pricing Catalog, including those marked with a ++, are requested to be held as confidential and subject to exception to The Open Records Act under section 552.104(a) Information Relating to Competition or Bidding as outlined on pages 86 and 87 of the Texas Public Information Handbook, 2016. Release of specific proprietary pricing information would provide an advantage to competition.

Tab 8 – Value Added Products and Services

- ◆ Include any additional products and/or services available that vendor currently performs in their normal course of business that is not included in the scope of the solicitation that you think will enhance and add value to this contract for Region 14 ESC and all NCPA participating entities.

AOPD EXPERIENCE AND KNOWLEDGE

Of the value adds listed below, one of the most significant is the fact that for the past five years, AOPD and NCPA have built a strong, solid, and mutually beneficial relationship.

From the initial award of the NCPA agreement, AOPD has proven success on a continued basis. The contract has grown to a significant level and the overall NCPA member satisfaction is very high. There is great value in extending a relationship that has and continues to be proven successful.

One key factor in the overall analysis of the agreement is to consider the cost of conversion. In some cases, vendor conversion can reach as high as 15%.

The value add through the relationship with AOPD is simply that everything is currently in place to assure future success. Through a future award of the agreement, AOPD will continue to service the NCPA membership (and new opportunities) in a prompt, efficient, effective and cost savings manner, with no vendor change or service disruption.

Recycled and Green Products for responsible conservation

AOPD dealers have made a significant effort and commitment to providing environmentally friendly office supplies. Our manufacturer suppliers offer many globally friendly, and EPA approved product choices to minimize the impact on our planet home. Here are some of the categories of green products offered to consumers who are looking to choose sustainable supplies.

Paper

Paper is the most common product and commodity that can be, in many cases, made from recycled materials. Paper is used in all offices for everything from printing and filing, to products used in break rooms and restrooms. Every year even a small office uses hundreds of pounds of paper. The manufacturers of copier and printer papers offer numerous green and recycled content paper products for specific purposes.

The following page lists some examples of other paper products made from various levels of recycled content.

- ◆ Calendars/planners, file cards, mailers, binders are available with 10% to 30% recycled-content and some
- ◆ File folders, manila, pressboard and classification folders exceed 30%
- ◆ Self-stick note, notebooks, envelopes, easel pads and ad rolls are made from 30% to 100% recycled content
- ◆ Note pads utilize 40% or 50% recycled-paper content
- ◆ "Accordion" files (up to 100%), corrugated storage boxes (65%), and stackable reinforced-paper storage drawers (35%...and there is much more
- ◆ The purchase of break room and restroom papers, made with recycled content...hand towels, kitchen-towel rolls, facial tissues, and toilet tissue... are additional opportunities for offices to go green.

Other Environmentally Friendly Products

Remanufactured Toner and Printer Cartridges

- ◆ An estimated 500 million laser and printer cartridges are produced each year. Tens of millions of these cartridges are recycled and are getting multiple service lives out each cartridge. The use of remanufactured toner cartridges helps the environment by removing up to 3 lbs. of waste, per cartridge...waste that would otherwise go to a landfill.
- ◆ Recycling programs are offered free by several manufacturers, including Hewlett Packard. Brother has also come out with a toner saver mode to extend the lifespan of cartridges.

Plastics

- ◆ Long term use products such as vinyl binders, letter trays and organizers, clip boards, and even staplers are available made with 20% to 100% recycled content. Pens and writing instruments, highlighters and markers, are available in a variety of types made with up to 82% recycled plastic content. These products write with acid-free nontoxic ink.
- ◆ For the break room, drink cups and lids made from recycled plastic or compostable corn-based plastic and trash bags made of biodegradable plastic are available from the AOPD dealers.

Rechargeable Batteries

- ◆ Batteries are used in many offices for everything from adding machines and wall clocks to cameras, tape recorders, and smoke detectors. These batteries, if discarded, just add more toxic waste to our landfills. Rechargeable batteries are a smart and easily available alternative. Energizer batteries with wall plug-in chargers can charge 4 AA or AAA batteries in just 15 minutes.

Metal Products

- ◆ Manufacturers are offering desktop accessories such as slant racks, lock boxes, vertical organizers and sorting racks, made from an average of 30% recycled content. Consider the common used paper clip... you can now buy paper clips made from scrap metal, many are made using up to 100% recycled metal.

Fluorescent Bulbs

- ◆ Compact fluorescent light bulbs with their now characteristic "spiral-twisted top" are being used more and more in eco-friendly business offices. These energy-saving light bulbs offer a long life span of up to 12,000 hours each, and, unlike standard light bulbs, give off more light than heat.

Cleaning Products

- ◆ Cleaning products can contain toxic ingredients or petroleum-based solvents capable of emitting fumes into the atmosphere, or the air in your office. Today there are smart and effective natural alternatives to chemicals used in cleaning products. These kitchen/bathroom cleaners, degreasers and floor/carpet cleaners, soaps and hand cleaners are available made with lemon oil, coconut-based cleaning agents, corn-based alcohol and neutral-pH surfactants.

Departmental and Desktop Delivery

- ◆ All of the AOPD dealers' delivery drivers currently provide departmental delivery for large customers that require this service. AOPD delivery drivers have many years of experience performing and it is always done in a very efficient and accurate manner.

In special circumstances desktop delivery service can be negotiated between customers and the AOPD dealers. Desktop delivery is not always practical and can be disruptive in certain office environments. Desktop delivery is therefore not offered as a standard service but can be discussed for viability between customers and the AOPD dealers.

Structured Delivery

AOPD dealers are able to provide next day service to most non-metropolitan areas as long as orders are received by 4 pm. Additional discounts can be negotiated if a customer agrees to a structured delivery plan.

- ◆ These plans are set up to offer a customer a set delivery pattern, say for instance, deliveries only on Tuesday and Thursday mornings. By agreeing to limited deliveries, the customer is not only reducing air pollution, but they are cutting delivery time and the amount of fuel needed to deliver products every day, which directly helps the dealers.
- ◆ Single location delivery for larger locations is also a time and energy saver and is another structured delivery option. The savings realized by utilizing structured delivery plans can be passed on to the customer in the form of reduced prices and discounts.

Get acquainted with AOPD

We want NCPA customers to notice AOPD immediately, so as a part of a get acquainted campaign we will offer:

1. An additional 1% rebate for orders of \$250.00 or more over the first three month period a new customer utilizes the AOPD NCPA Program.
2. Guaranteed savings over current program of at least 7% during the first year as long as the customer accepts our recommended subs (includes rebates).

Catalogs and Program Support Collateral

Over the past several years, there has been a push for our industry to reduce the amount of printed catalogs and sales collateral from a sustainability perspective. At the same time, AOPD recognizes the fact that some customers still prefer the use of printed catalogs to support their ordering process.

In the event any customer would like to receive printed catalogs and collateral, AOPD will provide them at no additional cost to the NCPA participating member(s).

Vendor Managed Inventory

While the trend in the office products industry is to implement stockless purchasing arrangements whenever possible, AOPD recognizes that there are some business partners that require the use of an on-site inventoried area to support their office products program.

Through our value-added program offerings, in the event any participating NCPA member has a stocking requirement, AOPD will offer the services of our members dealers to provide a dealer managed inventory system within the NCPA participants facility.

Through this offering, the AOPD dealer member will actually handle all aspects of the inventory levels, replenishment and organization of the stock area. This service will be provided on a case by case basis, through dialog with the NCPA participant.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.
