PROCLAMATION PROMOTING INVESTMENTS IN YOUNG CHILDREN AND FAMILIES FROM PRENATAL TO AGE THREE

- Whereas,* the most rapid period of brain development occurs within the first years of life from birth to age three, building the foundation for all future learning, behavior and health; and
- Whereas,* toddlers receiving what their growing brains need become healthy children who are confident, empathetic and ready for school and life; and
- Whereas,* many families are not connected to networks or early childhood supports that can offer guidance and confidence to navigate the earliest months and years of their children's lives; and
- Whereas,* parents are a child's first and most important caregivers and play the lead role in their child's healthy development; at the same time, communities and governments can also effectively provide families with an array of comprehensive support at this especially critical time; and
- Whereas,* counties routinely provide an array of programs and services to an estimated 16 million children ages birth to three in the United States; and
- Whereas,* in 2016, about 35 percent of counties had more than a quarter of all children living in poverty; and
- Whereas,* programs and policies that support healthy development from birth to age three result in better social, economic and health outcomes and build a more productive workforce that strengthens our economy now and in the future; and
- Whereas,* research shows that when we invest in the first three years of a child's life, the returns for the community are the highest, and we can reduce the need for more expensive interventions later; and
- Whereas,* Boone County and all counties take pride in our responsibility to protect and enhance the health, welfare and safety of residents in cost-effective ways—especially for the most vulnerable community members in our area; and
- Whereas,* the National Association of Counties (NACo) and other national organizations joined the National Collaborative for Infants and Toddlers (NCIT), a project of the Pritzker Children's Initiative (PCI), in a groundbreaking partnership to work with communities and states across the country to focus on early childhood development for young children from birth to three.
- Therefore,* we do hereby recognize the importance of prioritizing and investing in prenatal-to-three efforts that promote a healthy start at birth, support for families with infants and toddlers, high-quality care and learning environments, and utilization of the resources available through NACo and the NCIT.

FINDING OF PUBLIC NUISANCE AND ORDER FOR ABATEMENT

NOW on this 6th day of December 2018, the County Commission of Boone County, Missouri met in regular session and entered the following findings of fact, conclusions of law and order for abatement of nuisance:

Findings of Fact and Conclusions of Law

The County Commission finds as fact and concludes as a matter of law the following:

1. The Boone County Code of Health Regulations (the "Code") are officially noticed and are made a part of the record in this proceeding.
2. The City of Columbia/Boone County Health Department administrative record is made a part of the record in this proceeding and incorporated herein by reference. In addition, any live testimony of the official(s) of the department and other interested persons are made a part of the record in this proceeding.
3. A public nuisance exists described as follows: trash, rubbish, garbage and other refuse on the premises.
4. The location of the public nuisance is as follows: 4312-4314 West Bethany Drive, Columbia, MO, a/k/a parcel# 16-712-29-02-042.00 01, Bellview Acres Block 2, Lot 24, Section 29, Township 48, Range 13 as shown by deed book 4620 page 0079, Boone County.
5. The specific violation of the Code is: trash, rubbish, garbage and other refuse in violation of section 6.5 of the Code.
6. The Health Director's designated Health Official made the above determination of the existence of the public nuisance at the above location. Notice of that determination and the requirement for abatement was given in accordance with section 6.10.1 of the Code on the 19th day of October 2018, to the property owner.
7. The above described public nuisance was not abated. As required by section 6.10.2 of the Code, the property owner was given notice of the hearing conducted this date before the Boone County Commission for an order to abate the above nuisance at government expense with the cost and expense thereof to be charged against the above described property as a special tax bill and added to the real estate taxes for said property for the current year.
8. No credible evidence has been presented at the hearing to demonstrate that no public nuisance exists or that abatement has been performed or is unnecessary; accordingly,

in accordance with section 6.10.2 of the Code and section 67.402, RSMo, the County Commission finds and determines from the credible evidence presented that a public nuisance exists at the above location which requires abatement and that the parties responsible for abating such nuisance have failed to do so as required by the Health Director or Official's original order referred to above.

Order For Abatement Chargeable As a Special Assessment To The Property

Term. 20 18

In the County Commission of said county, on the 6th day of December 20 18

the following, among other proceedings, were had, viz:

Now on this day the County Commission of the County of Boone does hereby accept the recommendation from the Personnel Advisory Committee and temporarily modifies County Policy 3.7 as follows:

The County Commission may appropriate funds in the annual budget for salary adjustments. The salaries of employees who are being compensated at a rate that is higher than the top of their identified salary range will be included in the merit pool calculation for the employees' respective offices or departments for budget years 2019 and 2020. After that time, employees with pay rates at or above the top of their assigned range will not be included in the merit pool calculation of the employees' respective offices or departments. In general, there are two (2) categories of salary adjustments:

1. Merit Increase: This increase is allocated by the Administrative Authority from funds authorized by the County Commission and is based upon employees' documented meritorious performance. Increases may vary from employee to employee depending upon performance levels. Appointing authorities may award a merit increase to an employee who is being compensated at a rate higher than the top of their identified salary range.
2. Biennial Adjustment: Every two years, in odd numbered years beginning in 2017, the County will evaluate its pay ranges to determine if an increase is warranted due to inflation and/or other factors which impact the market competitiveness of the County's pay ranges. The Human Resources Department will review the Consumer Price Index as certified by the Missouri State Tax Commission to measure inflation since the last time pay ranges were adjusted and report that information to the County Commission. The Commission will make a determination of whether, and to what extent, to adjust pay ranges. Subject to availability of funding and approval, the County will increase the minimum and maximum rate of pay for each range at a uniform rate.

An employee whose rate of pay is below the adjusted minimum for their position will receive a pay increase up to the adjusted minimum, effective on the date the ranges are adjusted.

The Personnel Advisory Committee met on December 3, 2018 and reviewed and discussed a request to modify Personnel Policy 3.7 Salary Adjustment, to include a temporary modification of the policy that would allow employees at or above the top of the range to be included in the merit pool calculation for budget years 2019 and 2020. WITNESSETH: The Lessor, in consideration of the covenants hereinafter set forth, hereby demises and leases the Premises to the Lessee under the following terms and conditions:

1. TERM OF LEASE

- (a) This Lease shall commence upon the last signature of this Lease and end **June 30, 2023**.

All the conditions of this Lease shall remain in effect, insofar as they are applicable to a month-to-month tenancy.

2. RENTS

- (a) The annual rent shall be in the amount of **ONE DOLLAR and NO CENTS (\$1.00)**.

- (a) Either party may terminate this Lease upon thirty (30) days written notice to the other party for any reason.
- (b) In the event that the Tower or Equipment Facility is destroyed or substantially damaged, either party may elect to terminate this Lease without cost or penalty immediately following the event of casualty by notifying the other party in writing of such termination.
- (c) This Lease shall immediately become null and void with no further obligation by either party if it is determined that the Tower cannot safely bear the Lessee's Equipment and desired improvements, or does not otherwise meet the needs of the Lessee contemplated by this Lease, unless both parties mutually agree that structural modification or repairs shall be made to the Tower on mutually agreeable terms.

4. SERVICES AND TAXES

- (a) The Lessee shall provide and pay for all utilities necessary for its use of the Premises. The Lessee shall ensure that separately metered utility services are installed for its use.

- (c) The Lessor, at its sole discretion, has the right to grant other licenses, leases or rights of use, of any kind or nature, to parties other than the Lessee with respect to the Tower and the Equipment Facility, provided that any such uses entered into following the date of this Lease shall not interfere with the Lessee's operation of the Lessee's Equipment.
- (d) The Lessee agrees not to allow any use of the Lessee's Equipment or the Premises that may cause interference with the Lessor's use of or the proper functioning of the Tower or the Equipment Facility, the Lessor's equipment, the Lessor's communications signal or system, or any third party's equipment or communications system located on the Tower or in the Equipment Facility. In the event the Lessee's Equipment or Lessee's use of the Premises causes such interference, the Lessee shall promptly remedy such interference at the Lessee's cost and shall immediately cease operations (other than tests) upon notice until such interference is corrected to the Lessor's sole satisfaction.

- (e) If the Lessee wishes to obtain a structural analysis report stating that the Tower is of sufficient structural capacity to safely accommodate the Lessee's Equipment and desired improvements, as well as all other equipment currently on the Tower, the Lessee may do so at the Lessee's sole cost and expense.
- (f) The Lessor hereby grants to the Lessee, and the Lessee's agents, servants, employees and contractors, an easement of ingress and egress for access to the Premises over existing roads, and an easement for the installation and location of utility services as agreed to by the Lessor prior to installation.
- (g) The Lessee may access the Premises at any time without prior notice to the Lessor. In order to facilitate access to the Premises, the Lessor will provide the Lessee with one (1) copy of the key to the gate leading to the surrounding property and one (1) copy of the key to the Equipment Facility. The Lessee will keep such keys in a secure location and provide them only to employees of the Lessee who require access to the Premises in the course and scope of their employment.
- (h) The Lessee, its agents and employees must use the Premises and the surrounding property owned by the Lessor in a manner consistent with all applicable State, federal and local laws, regulations and ordinances. Alcohol, tobacco products, hazardous materials, and weapons of any kind are prohibited on the Premises or the surrounding property owned by the Lessor.
- (i) The Lessee shall ensure that the Lessee's use, installation, or modification of the Lessee's Equipment at the Premises does not cause the radio frequency exposure levels of all the existing equipment located on the Premises and in the surrounding vicinity, including equipment owned by the Lessor and others, to exceed the levels permitted by the Federal Communications Commission ("FCC").
 - 1. If the radio frequency levels at the Premises and/or in the surrounding vicinity exceed the exposure levels set by the FCC, and the responsible party causing such exposure cannot be identified, then the Lessee shall reconfigure the Lessee's Equipment, including but not limited to reducing power levels, as reasonably directed by the Lessor, and shall participate in all activities and efforts necessary in order to meet the FCC compliance levels.
 - 2. The Lessee agrees that in the event that there is any change to applicable rules, regulations, and procedures governing exposure to radio frequency radiation that place the Premises in non-compliance, the Lessee will cooperate with the Lessor to bring the Premises into compliance, including, but not limited to, sharing pro rata the costs associated with bringing the Premises into compliance.
 - 3. The Lessee acknowledges and agrees that, upon reasonable prior notice (except for emergencies), the Lessee shall reduce operating power or cease operation of

Lessee's Equipment when it is necessary to prevent the overexposure of individuals on the Premises to radio frequency radiation.

8. ALTERATIONS AND IMPROVEMENTS

- (c) The Lessee's alterations or installations shall not adversely affect the Tower's integrity, cause unusual hazards to those climbing or working on the Tower, or affect the use of the Tower by others. All wiring pertaining to the Lessee's alterations or installation shall be properly grounded and shielded so that there will be no unusual electrical hazards or signal interference with other users of the Tower.
- (d) Fixtures or equipment placed upon or attached to the Premises by the Lessee shall be and remain the property of the Lessee, and may be removed and otherwise disposed of by the Lessee without authorization from the Lessor.

9. MAINTENANCE

- (a) The Lessor is not obligated to provide any maintenance to the Tower, Equipment Facility or surrounding property. The Lessee accepts the Premises as is, and understands that any upkeep of the Premises or surrounding property by the Lessor is voluntary and creates no obligations under this Lease.
- (b) The Lessor may access and inspect the Premises at any time.
- (c) The upkeep, maintenance and repair of the Lessee's Equipment and fixtures on the Premises are the sole responsibility of the Lessee.

10. RESTORATION OF LESSOR'S PROPERTY

12. PERMITS

Should any permits, licenses, or other governmental approvals be required for the Lessee's use of the Premises, the Lessee shall apply for such permits, licenses or approvals at its own cost and expense. The Lessor agrees to sign any application or other documents required for such permits, licenses or approvals and to cooperate with and assist the Lessee in obtaining such permits, license or approvals. The Lessee shall be responsible, at its sole cost and expense, for maintaining any necessary permits, license or approvals.

- (b) Notwithstanding the foregoing, the obligation imposed by the Lessor for the Lessee to maintain a policy of insurance shall not be construed to be a waiver of sovereign immunity on the part of the Lessor.

Re: RFPC30034901600735 Law Enforcement/Public Safety Gear/Supplies/Equipment BAFO #001

Dear Ms. Palazzolo:

Thank you for the opportunity to respond to the referenced RFP with a "best and final offer".

As we discussed, our interest in this statewide contract is considerable.

In response to Item 1, Identified Deficiencies and Areas of Concern/Clarification, Section 1.1:

Although our reasoning for providing multiple levels of discounts varying from manufacturer to manufacturer was solely based on our perceived best interests of the State of Missouri and the potential using municipalities, we understand the logistical consequences from that offer. In lieu of that approach, we would request that our response be adjusted so that there be a 12% discount for each of the manufacturers we suggested. This should provide favorable pricing in a manner that is more easily managed.

In response to Item 1, Identified Deficiencies and Areas of Concern/Clarification, Section 1.2:

Leon Uniform Company has been a Missouri-based institution since 1907. Our product offerings have grown based on at least two factors. Those factors include: the Customers' specific product needs and our ability to satisfy those needs with those products efficiently and professionally.

Through a very quick search of a municipal procurement database, such as Smart Procure, Leon Uniform Company is clearly the predominant supplier of uniforms, duty gear, body armor and other personally used Public Safety items in Missouri. In addition, the State of Missouri's own Highway Patrol trusts Leon Uniform Company to provide items that bridge a few of the categories as described in the referenced RFP.

The consequences of not awarding a "Tier Two" contract to Leon Uniform Company could bring disastrous results for the employees of Leon Uniform Company, the State and local municipalities it serves and the tax revenues of the State of Missouri as well.

As we have discussed, RFPC30034901600735 is the first version of this type of contract for these types of services and commodities. (I have included "services" here as it is sometimes overlooked that the real value that Leon Uniform Company provides is the efficient and professional services that surround some of the "commodities" in this RFP.) By allowing Leon Uniform Company to continue to do what it does best; the State will continue to benefit and Leon Uniform Company will continue to benefit. The Tier One contracts that are awarded to out of state firms will have a direct impact on this Missouri based business and our Missouri resident employees.

To not award a Tier Two contract to Leon Uniform Company based solely on the arbitrarily pre-selected categories appears to be a severely harsh penalty for a century old Missouri company and provides an incredible advantage to the out-of-state competitors that have responded to this RFP.

Leon Uniform Company recognizes that paragraph 3.7.1 addresses a change to an awarded sub-category. We also believe that by awarding Leon Uniform Company a Tier Two contract as we have suggested provides a real opportunity for this Missouri-based company to compete with the products that are already being provided to Customers in Missouri.

I certainly hope that we have made our point sufficiently to be awarded a Tier Two contract for the items that we have suggested. Of course, we are always open to continuing the dialogue towards that conclusion.

Thanks again.

Sincerely,

A handwritten signature in black ink, appearing to read "Howard Roper", written in a cursive style.

Best And Final Offer Request List

BAFO #001 for RFPC30034901600735

1. **IDENTIFIED DEFICIENCIES AND AREAS OF CONCERN/CLARIFICATION:**

1.1 Leon Uniform Company is offering a Tier Two proposal but has quoted multiple discounts for various manufacturer lines. Requirements of RFPC30034901600735 state that only one single discount shall be quoted for line item 11 for Tier Two proposals (see paragraph 4.7.6 and line item 11 on the Pricing Page of RFPC30034901600735).

In its BAFO #001 response, Leon Uniform Company must quote only one single firm, fixed discount for Tier Two.

1.2 In its proposal, Leon Uniform Company says that "...the category that Leon Uniform Company has responded to is one compromised [sic.] of uniform and very personal equipment items. (Items that can be worn in or on a person.) ... (We also believe that Section 3.7.1 allows for the merging of these sub-categories seamlessly for the State.)"

In its BAFO #001 response, Leon Uniform Company must clarify how its offering meets the definition of Tier Two in RFPC30034901600732 paragraph 3.1.4. Additionally, the BAFO response must acknowledge that RFPC30034901600735 paragraph 3.7.1 addresses a change to an awarded sub-category of public safety and law enforcement equipment, supplies and gear that is under contract, not one that has been proposed and is not awarded.

2. **OFFEROR RESPONSE TO CHANGED REQUIREMENTS :** Requirements of RFPC30034901600735 have been revised by the BAFO #001 Request to RFPC30034901600735. Re: RFPC30034901600735 Law Enforcement/Public Safety Gear/Supplies/Equipment

Dear Ms. Palazzolo:

Thank you for the opportunity to respond to the referenced RFP.

As we discussed, Leon Uniform Company will be responding as a potential "Tier 2" vendor.

We hope that when reviewing our response that our ability to deliver "in stock" items within minutes is a service that the State of Missouri will value.

As I also mentioned during our telephone conversation, the category that Leon Uniform Company has responded to is one comprised of uniform and very personal equipment items. (Items that can be worn in or on a person.) I believe that our successful history of providing these types of items on previous State of Missouri contracts should help bolster that position. (We also believe that Section 3.7.1 allows for the merging of these sub-categories seamlessly for the State.)

While compiling pricing for this response, it became very clear that limiting the entire response to one static discount would not benefit the State or any Agency that chooses to purchase items using this contract. It is obvious that if a 20%, 25% or even 30% discount is available on a singular manufacturer's items, the State should desire that extended discount while still enjoying lower discounts on other lines.

Of course, this can be further discussed through the "best and final offer" phase.

Thank you again for this opportunity and I look forward to working with you in the future.

Sincerely,

Howard Roper

Instructions for Submitting a Solicitation Response

The Division of Purchasing is now posting all of its bid solicitation documents on the new MissouriBUYS Bid Board (<https://www.missouribuys.mo.gov>). MissouriBUYS is the State of Missouri's web-based statewide eProcurement system which is powered by WebProcure, through our partner, Perfect Commerce.

For all bid solicitations, vendors now have the option of submitting their solicitation response either as an electronic response or as a hard copy response. As a means to save vendors the expense of submitting a hard copy response and to provide vendors both the ease and the timeliness of responding from a computer, vendors are encouraged to submit an electronic response. Both methods of submission are explained briefly below and in more detail in the step-by-step instructions provided at https://missouribuys.mo.gov/pdfs/how_to_respond_to_a_solicitation.pdf. (This document is also on the Bid Board referenced above.)

- **ELECTRONIC RESPONSES:** To respond electronically to a solicitation, the vendor must first register with MissouriBUYS by going to the MissouriBUYS Home Page (<https://missouribuys.mo.gov>), clicking the "Register" button at the top of the page, and completing the Vendor Registration. Once registered the vendor accesses their account by clicking the "Login" button at the top of the MissouriBUYS Home Page. After locating the desired solicitation on the Bid Board, at a minimum, the vendor must read and accept the Original Solicitation Documents and complete pricing and any other identified requirements. In addition, the vendor should download and save all of the Original Solicitation Documents on their computer so that they can prepare their response to these documents. Vendors should upload their completed response to these downloaded documents (including exhibits, forms, and other information concerning the solicitation) as an attachment to the electronic solicitation response. Step-by-step instructions for how a registered vendor responds to a solicitation electronically are available on the MissouriBUYS system at: https://missouribuys.mo.gov/pdfs/how_to_respond_to_a_solicitation.pdf. Any such electronic submissions must be received prior to the specified end date and time.
 - a. Vendors are encouraged to submit their entire proposal electronically; however in lieu of attaching exhibits, forms, pricing, etc. to the electronic solicitation response, a vendor may submit the exhibits, forms, pricing, etc. through mail or courier service. However, any such submission must be received prior to the solicitation's specified end date and time. Be sure to include the solicitation/opportunity (OPP) number, company name, and a contact name on any hard copy solicitation response documents submitted through mail or courier service.
 - b. In the event a registered vendor electronically submits a solicitation response and also mails hard copy documents that are not identical, the vendor should explain which response is valid for the state's consideration. - a. If it is determined that the contractor has charged prices to state agencies in excess of those agreed to in the contract, the state shall consider this just cause for cancellation of the contract in its entirety, and may result in the contractor being removed from the list of eligible vendors who may do business with the state – either for a specific period of time, or permanently – at the discretion of the state. Any money paid by state agencies above product pricing determined in compliance with the contract shall be issued back to the state as a "credit."

The date and time of the audit investigation shall be coordinated with the contractor, and shall be scheduled to the mutual agreement of the state and the contractor although the contractor must guarantee and provide timely access as requested by the state.
- d. Unless otherwise provided by applicable statute, the contractor, from the effective date of final payment or termination hereunder, shall preserve and make available to the State of Missouri for a period of three (3) years thereafter, at all reasonable times at the office of the contractor but without direct charge to the state, all its books, records, documents, and other evidence bearing on the costs and expenses of the services and supplies relating to the work hereunder.

The offeror agrees that in the event of conflict between any of the offeror's terms and conditions and those contained in the RFP, that the RFP shall govern. Taking exception to the State's terms and conditions may render an offeror's proposal unacceptable and remove it from consideration for award.
 - 4.4.2 Offerors are cautioned that the State of Missouri will not award a non-compliant proposal and, as a result, any offeror indicating non-compliance with any requirements, terms, conditions and provisions of the RFP will be eliminated from further consideration for award unless the State exercises its sole option to competitively negotiate the respective proposal(s) and the offeror resolves the noncompliant issues.
- 4.5 **Evaluation and Award Process:**
 - 4.5.1 After determining that a proposal satisfies the mandatory requirements stated in the Request for Proposal, the evaluator(s) shall use both objective analysis and subjective judgment in conducting a comparative assessment of the proposals in accordance with the evaluation criteria stated below. A separate evaluation shall be conducted for Tier One and Tier Two proposals; only Tier One proposals shall be compared to Tier One proposals; and only Tier Two proposals shall be compared to Tier Two proposals. The evaluation criteria applies the same to both Tier One and Tier Two proposals:

Cost/Discount Pricing	70 Total Points
Offeror's Experience and Reliability	20 Total Points
Proposed Method of Performance, Contractor Support, Product Variety and Product Exclusions	100 Total Points
MBE/WBE Participation	10 Total Points

4.5.2 The State of Missouri intends to award multiple contracts: the state intends to award contracts to the top two (2) scoring offerors for Tier One, and the state reserves the right to award contracts to one, some or all Tier Two offerors, as deemed in its best interests. In the event the state does not award to all Tier Two offerors, the state will award to one or more of the top scoring offerors based on highest to lowest scoring aggregate evaluation points.

4.6 Competitive Negotiation of Proposals:

4.6.1 The offeror is advised that under the provisions of this Request for Proposal, the Division of Purchasing reserves the right to conduct negotiations of the proposals received or to award a contract without negotiations. If such negotiations are conducted, the following conditions shall apply:

- a. Negotiations may be conducted in person, in writing, or by telephone.
- b. Negotiations will only be conducted with potentially acceptable proposals. The Division of Purchasing reserves the right to limit negotiations to those proposals which received the highest rankings during the initial evaluation phase. All offerors involved in the negotiation process will be invited to submit a best and final offer.
- c. Terms, conditions, prices, methodology, or other features of the offeror's proposal may be subject to negotiation and subsequent revision. As part of the negotiations, the offeror may be required to submit supporting financial, pricing and other data in order to allow a detailed evaluation of the feasibility, reasonableness, and acceptability of the proposal.
- d. The mandatory requirements of the Request for Proposal shall not be negotiable and shall remain unchanged unless the Division of Purchasing determines that a change in such requirements is in the best interest of the State of Missouri.

4.7 Discount Pricing Submission and Evaluation of Cost:

4.7.1 The offeror has the option of submitting a proposal and related firm, fixed discount pricing for Tier One or for Tier Two. The offeror must not offer both Tier One and Tier Two proposals. All discount pricing must conform to RFP requirements.

- a. If submitting a hardcopy proposal, the offeror must submit pricing on the RFP Pricing Page and submit the completed Pricing Page with the offeror's proposal; if the offeror is using the MissouriBUYS system to submit its proposal, then the offeror must complete all required pricing.

4.7.2 The following applies to both Tier One and Tier Two proposals:

- a. Missouri Statewide Contract Quarterly Administrative Fee Payment: The offeror's pricing stated herein shall include all applicable costs associated with the provision of the products/services specified herein, including but not limited to payment of the required administrative fee specified in section 2.18 of the RFP.

4.7.3 A separate cost evaluation will be done for Tier One and Tier Two. Tier One is defined as a proposal that covers all identified public safety and law enforcement equipment, supplies and gear subcategories (see below). Tier Two is defined as a proposal that only covers one public safety and law enforcement equipment, supplies and gear subcategory, that may or may not be defined in the list shown below. The offeror must clearly identify their proposal as being Tier One or Tier Two.

4.7.4 Tier One Discount Pricing: A Tier One proposal must offer products in all of the following identified sub-categories:

- Apparel, Outerwear, Uniforms and Footwear
- Duty Gear, Wearable
- Duty Tools, Flashlights, and Other Equipment/Gear/Supplies

- Other, Not Already Identified Above - Miscellaneous

a. Tier One Discount Pricing: The offeror must submit only one (1) firm, fixed discount percentage for each identified public safety and law enforcement equipment, supplies and gear subcategory on the Pricing Page. The quoted discount shall apply to public safety and law enforcement equipment, supplies and gear identified in the offeror's catalog or the manufacturer's current price list for the specifically identified subcategory. Multiple discounts for an identified subcategory shall be deemed unacceptable.

- The quoted discount for the subcategory shall be considered firm for the duration of the contract .
- The discount shall apply to all items in the contractor's catalogue or that may otherwise be sourced by the contractor given product exceptions noted on the Pricing Page of the contract.

4.7.5 Tier One Cost Evaluation: Discounts Cost Points Calculation: For purposes of evaluating the quoted discount, the state shall apply the discounts quoted for line items 1-10 on the Pricing Page to an arbitrary purchase price of \$100,000.00 for each identified subcategory. The resulting amount will be considered the discounted price.

a. Results from each identified subcategory will be added together to compute a total Tier One cost score.

Cost points for Tier One shall be calculated as follows:

$$\begin{array}{rcl} \text{Lowest Responsive Offeror's} & \text{Maximum Points} & \\ \text{Price/Compared Offeror's Price} & \text{Available for} & \text{Cost Evaluation Points} \\ & \text{X Discount Pricing} & \text{for Discount Pricing for} \\ & & \text{Tier One} \end{array} =$$

4.7.6 Tier Two Discount Pricing: A Tier Two proposal must offer a specialty line of public safety and law enforcement equipment, supplies and gear products. The specialty line may be one of the Tier One subcategories identified above in paragraph 4.7.4, or it may be another line, such as forensics laboratory supplies.

4.7.7 Tier Two Cost Evaluation: Discounts Cost Points Calculation: For purposes of evaluating the quoted discount, the state shall apply the discount quoted for line item 11 on the Pricing Page to an arbitrary purchase price of \$100,000.00. The resulting amount will be considered the discounted price.

Cost points for Tier Two shall be calculated as follows:

$$\begin{array}{rcl} \text{Lowest Responsive Offeror's} & \text{Maximum Points} & \\ \text{Price/Compared Offeror's Price} & \text{Available for} & \text{Cost Evaluation Points} \\ & \text{X Discount Pricing} & \text{for Discount Pricing for} \\ & & \text{Tier Two} \end{array} =$$

4.8 Evaluation of Offeror's Experience and Reliability:

4.8.1 The offeror is strongly encouraged to complete Exhibit A with detailed information, as requested. The offeror should describe at least the following details to help the state's evaluation of the offeror's experience and reliability.

- a. The length of time the offeror has been in the public safety and law enforcement equipment, supplies and gear business and the offeror's overall national and local Missouri markets presence.

- b. The offeror should provide references from accounts that possess similar characteristics to the State of Missouri's public safety and law enforcement equipment, supplies and gear needs. The offeror should provide references from accounts that are either state governments or municipalities when possible. For each reference, please specify if the business relationship is the result of a formal contract, and if the business relationship is exclusive or non-exclusive. **Exhibit A** is provided for the offeror's use in presenting this information.

4.9 Evaluation of Proposed Method of Performance, Contractor Support, Product Variety and Exclusions:

4.9.1 The offeror is strongly encouraged to complete **Exhibit B** with detailed information, as requested. The offeror should describe how the offeror intends to satisfy the requirements stated in Section 3 of the RFP. **Exhibit B** is provided to present this information.

- a. It is the offeror's responsibility to submit a proposal that meets all mandatory specifications stated herein. The offeror should clearly identify any and all deviations from both the mandatory and desirable specifications stated in the RFP. Any deviation from a mandatory requirement may render the proposal non-responsive. The offeror's ability to meet a desirable specification will be reviewed by the state subjectively.

4.9.2 The offeror should present a detailed description of all products the offeror will make available to the state for purchase.

- a. **Product Variety and Exclusions:** The breadth of the offeror's product catalog/list as well as the breadth of products the offeror will allow the state to purchase at the quoted discount will be part of the evaluation of the proposed method of performance and contractor support. It is highly desirable that the offeror not identify any exceptions of public safety equipment, supplies and gear in the offeror's catalog or product listing/sourcing that the offeror will not sell to the state applying the quoted firm, fixed discount.
- b. It is highly desirable for the offeror to provide, in response to this RFP, the offeror's catalog in hardcopy, or via website, PDF file, or Excel file of the pricing that will be used for contract discount pricing. If a catalog website is provided, the offeror should provide log-in information including passwords necessary for evaluators to fully assess the offeror's website catalog.
- c. The offeror's catalog should detail as many product categories that are available as part of the offering of public safety and law enforcement equipment, supplies and gear. It should not be assumed that the evaluator has specific knowledge of the products proposed; however, the evaluator does have sufficient technical background to conduct an evaluation when presented complete information.

4.10 Evaluation of Offeror's Minority Business Enterprise (MBE)/ Women Business Enterprise (WBE) Participation:

4.10.1 In order for the Division of Purchasing (PURCHASING) to meet the provisions of Executive Order 05-30, the offeror should secure participation of certified MBEs and WBEs in providing the products/services required in this RFP. The targets of participation recommended by the State of Missouri are 10% MBE and 5% WBE of the total dollar value of the contract.

- a. These targets can be met by a qualified MBE/WBE offeror themselves and/or through the use of qualified subcontractors, suppliers, joint ventures, or other arrangements that afford meaningful opportunities for MBE/WBE participation.
- b. The services performed or the products provided by MBE/WBEs must provide a commercially useful function related to the delivery of the contractually-required service/product in a manner that will constitute an added value to the contract and shall be performed/provided exclusive to the performance of the contract. Therefore, if the services performed or the products provided by MBE/WBEs is utilized, to any extent, in the offeror's obligations outside of the contract, it shall not be considered a valid added value to the contract and shall not qualify as participation in accordance with this clause.

- c. In order to be considered as meeting these targets, the MBE/WBEs must be “qualified” by the proposal opening date (date the proposal is due). (See below for a definition of a qualified MBE/WBE.)

4.10.2 The offeror’s proposed participation of MBE/WBE firms in meeting the targets of the RFP will be considered in the evaluation process as specified below:

- a. If Participation Meets Target: Offerors proposing MBE and WBE participation percentages that meet the State of Missouri’s target participation percentage of 10% for MBE and 5% for WBE shall be assigned the maximum stated MBE/WBE Participation evaluation points.
- b. If Participation Exceeds Target: Offerors proposing MBE and WBE participation percentages that exceed the State of Missouri’s target participation shall be assigned the same MBE/WBE Participation evaluation points as those meeting the State of Missouri’s target participation percentages stated above.
- c. If Participation Below Target: Offerors proposing MBE and WBE participation percentages that are lower than the State of Missouri’s target participation percentages of 10% for MBE and 5% for WBE shall be assigned a proportionately lower number of the MBE/WBE Participation evaluation points than the maximum MBE/WBE Participation evaluation points.
- d. If No Participation: Offerors failing to propose any commercially useful MBE/WBE participation shall be assigned a score of 0 in this evaluation category.

4.10.3 MBE/WBE Participation evaluation points shall be assigned using the following formula:

$\frac{\text{Offeror's Proposed MBE \%} \leq 10\% + \text{WBE \%} \leq 5\%}{\text{State's Target MBE \% (10) + WBE \% (5)}}$	x	Maximum MBE/WBE Participation Evaluation points (10)	=	Assigned MBE/WBE Participation points
--	---	--	---	--

4.10.4 If the offeror is proposing MBE/WBE participation, in order to receive evaluation consideration for MBE/WBE participation, the offeror must provide the following information with the proposal.

- a. **Participation Commitment** - If the offeror is proposing MBE/WBE participation, the offeror must complete **Exhibit C, Participation Commitment**, by listing each proposed MBE and WBE, the committed percentage of participation for each MBE and WBE, and the commercially useful products/services to be provided by the listed MBE and WBE. If the offeror submitting the proposal is a qualified MBE and/or WBE, the offeror must include the offeror in the appropriate table on the Participation Commitment Form.
- b. **Documentation of Intent to Participate** – The offeror must either provide a properly completed **Exhibit D, Documentation of Intent to Participate Form**, signed and dated no earlier than the RFP issuance date by each MBE and WBE proposed or must provide a recently dated letter of intent signed and dated no earlier than the RFP issuance date by each MBE and WBE proposed which: (1) must describe the products/services the MBE/WBE will provide and (2) should include evidence that the MBE/WBE is qualified, as defined herein. (i.e., the MBE/WBE Certification Number or a copy of MBE/WBE certificate issued by the Missouri OEO.)

NOTE: If the offeror submitting the proposal is a qualified MBE and/or WBE, the offeror is not required to complete **Exhibit D, Documentation of Intent to Participate Form** or provide a recently dated letter of intent.

4.10.5 **Commitment** – If the offeror’s proposal is awarded, the percentage level of MBE/WBE participation committed to by the offeror on **Exhibit C, Participation Commitment**, shall be interpreted as a contractual requirement.

4.10.6 **Definition -- Qualified MBE/WBE:**

- a. In order to be considered a qualified MBE or WBE for purposes of this RFP, the MBE/WBE must be certified by the State of Missouri, Office of Administration, Office of Equal Opportunity (OEO) by the proposal opening date.
- b. MBE or WBE means a business that is a sole proprietorship, partnership, joint venture, or corporation in which at least fifty-one percent (51%) of the ownership interest is held by minorities or women and the management and daily business operations of which are controlled by one or more minorities or women who own it.

You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective recipient of Federal assistance funds agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the DOL.
6. The prospective recipient of Federal assistance funds further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may but is not required to check the List of Parties Excluded from Procurement or Nonprocurement Programs.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntary excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the DOL may pursue available remedies, including suspension and/or debarment.

- p. **Shall** has the same meaning as the word **must**.
- q. **Should** means that a certain feature, component and/or action is desirable but not mandatory.

2. APPLICABLE LAWS AND REGULATIONS

- a. The contract shall be construed according to the laws of the State of Missouri. The contractor shall comply with all local, state, and federal laws and regulations related to the performance of the contract to the extent that the same may be applicable.
- b. To the extent that a provision of the contract is contrary to the Constitution or laws of the State of Missouri or of the United States, the provisions shall be void and unenforceable. However, the balance of the contract shall remain in force between the parties unless terminated by consent of both the contractor and Purchasing.
- c. The contractor must be registered and maintain good standing with the Secretary of State of the State of Missouri and other regulatory agencies, as may be required by law or regulations.
- d. The contractor must timely file and pay all Missouri sales, withholding, corporate and any other required Missouri tax returns and taxes, including interest and additions to tax.
- e. The exclusive venue for any legal proceeding relating to or arising out of the RFP or resulting contract shall be in the Circuit Court of Cole County, Missouri.
- f. The contractor shall only employ personnel authorized to work in the United States in accordance with applicable federal and state laws and Executive Order 07-13 for work performed in the United States.

3. OPEN COMPETITION/REQUEST FOR PROPOSAL DOCUMENT

- a. It shall be the vendor's responsibility to ask questions, request changes or clarification, or otherwise advise Purchasing if any language, specifications or requirements of an RFP appear to be ambiguous, contradictory, and/or arbitrary, or appear to inadvertently restrict or limit the requirements stated in the RFP to a single source. Any and all communication from vendors regarding specifications, requirements, competitive proposal process, etc., must be directed to the buyer from Purchasing, unless the RFP specifically refers the vendor to another contact. Such e-mail, fax, or phone communication should be received at least ten calendar days prior to the official proposal end date.
- b. Every attempt shall be made to ensure that the vendor receives an adequate and prompt response. However, in order to maintain a fair and equitable procurement process, all vendors will be advised, via the issuance of an addendum to the RFP, of any relevant or pertinent information related to the procurement. Therefore, vendors are advised that unless specified elsewhere in the RFP, any questions received less than ten calendar days prior to the RFP end date may not be answered.
- c. Vendors are cautioned that the only official position of the State of Missouri is that which is issued by Purchasing in the RFP or an addendum thereto. No other means of communication, whether oral or written, shall be construed as a formal or official response or statement.
- d. Purchasing monitors all procurement activities to detect any possibility of deliberate restraint of competition, collusion among vendors, price-fixing by vendors, or any other anticompetitive conduct by vendors which appears to violate state and federal antitrust laws. Any suspected violation shall be referred to the Missouri Attorney General's Office for appropriate action.
- e. The RFP is available for viewing and downloading on the MissouriBUYS Statewide eProcurement System. Registered vendors are electronically notified of those proposal opportunities that match the commodity codes for which the vendor registered in MissouriBUYS. If a registered vendor's e-mail address is incorrect, the vendor must update the e-mail address themselves on the state's MissouriBUYS Statewide eProcurement System at <https://missouribuy.com/>.
- f. Purchasing reserves the right to officially amend or cancel an RFP after issuance. It shall be the sole responsibility of the vendor to monitor the MissouriBUYS Statewide eProcurement System to obtain a copy of the addendum(s). Registered vendors who received e-mail notification of the proposal opportunity when the RFP was established and registered vendors who have responded to the RFP on-line prior to an addendum being issued should receive e-mail notification of the addendum(s). Registered vendors who received e-mail notification of the proposal opportunity when the RFP was established and registered vendors who have responded to the proposal on-line prior to a cancellation being issued should receive e-mail notification of a cancellation issued prior to the exact end date and time specified in the RFP.

4. PREPARATION OF PROPOSALS

- a. Vendors must examine the entire RFP carefully. Failure to do so shall be at the vendor's risk.

- b. Unless otherwise specifically stated in the RFP, all specifications and requirements constitute minimum requirements. All proposals must meet or exceed the stated specifications and requirements.
- c. Unless otherwise specifically stated in the RFP, any manufacturer names, trade names, brand names, information and/or catalog numbers listed in a specification and/or requirement are for informational purposes only and are not intended to limit competition. The vendor may offer any brand which meets or exceeds the specification for any item, but must state the manufacturer's name and model number for any such brands in the proposal. In addition, the vendor shall explain, in detail, (1) the reasons why the proposed equivalent meets or exceeds the specifications and/or requirements and (2) why the proposed equivalent should not be considered an exception thereto. Proposals which do not comply with the requirements and specifications are subject to rejection without clarification.
- d. Proposals lacking any indication of intent to offer an alternate brand or to take an exception shall be received and considered in complete compliance with the specifications and requirements as listed in the RFP.
- e. In the event that the vendor is an agency of state government or other such political subdivision which is prohibited by law or court decision from complying with certain provisions of an RFP, such a vendor may submit a proposal which contains a list of statutory limitations and identification of those prohibitive clauses. The vendor should include a complete list of statutory references and citations for each provision of the RFP, which is affected by this paragraph. The statutory limitations and prohibitive clauses may (1) be requested to be clarified in writing by Purchasing or (2) be accepted without further clarification if the statutory limitations and prohibitive clauses are deemed acceptable by Purchasing. If Purchasing determines clarification of the statutory limitations and prohibitive clauses is necessary, the clarification will be conducted in order to agree to language that reflects the intent and compliance of such law and/or court order and the RFP.
- f. All equipment and supplies offered in a proposal must be new, of current production, and available for marketing by the manufacturer unless the RFP clearly specifies that used, reconditioned, or remanufactured equipment and supplies may be offered.
- g. Prices shall include all packing, handling and shipping charges FOB destination, freight prepaid and allowed unless otherwise specified in the RFP.
- h. Proposals, including all prices therein, shall remain valid for 90 days from proposal opening or Best and Final Offer (BAFO) submission unless otherwise indicated. If the proposal is accepted, the entire proposal, including all prices, shall be firm for the specified contract period.
- i. Any foreign vendor not having an Employer Identification Number assigned by the United States Internal Revenue Service (IRS) must submit a completed IRS Form W-8 prior to or with the submission of their proposal in order to be considered for award.

5. SUBMISSION OF PROPOSALS

- a. Registered vendors may submit proposals electronically through the MissouriBUYS Statewide eProcurement System at <https://missouribuy.mo.gov/> or by delivery of a hard copy to the Purchasing office. Vendors that have not registered on the MissouriBUYS Statewide eProcurement System may submit proposals hard copy delivered to the Purchasing office. Delivered proposals must be sealed in an envelope or container, and received in the Purchasing office located at 301 West High St, Rm 630 in Jefferson City, MO no later than the exact end date and time specified in the RFP. All proposals must (1) be submitted by a duly authorized representative of the vendor's organization, (2) contain all information required by the RFP, and (3) be priced as required. Hard copy proposals may be mailed to the Purchasing post office box address. However, it shall be the responsibility of the vendor to ensure their proposal is in the Purchasing office (address listed above) no later than the exact end date and time specified in the RFP.
- b. The sealed envelope or container containing a proposal should be clearly marked on the outside with (1) the official RFP number and (2) the official end date and time. Different proposals should not be placed in the same envelope, although copies of the same proposal may be placed in the same envelope.
- c. A proposal submitted electronically by a registered vendor may be modified on-line prior to the official end date and time. A proposal which has been delivered to the Purchasing office may be modified by signed, written notice which has been received by Purchasing prior to the official end date and time specified. A proposal may also be modified in person by the vendor or its authorized representative, provided proper identification is presented before the official end date and time. Telephone or telegraphic requests to modify a proposal shall not be honored.
- d. A proposal submitted electronically by a registered vendor may be retracted on-line prior to the official end date and time. A proposal which has been delivered to the Purchasing may only be withdrawn by a signed, written document on company letterhead transmitted via mail, e-mail, or facsimile which has been received by Purchasing prior to the official end and time specified. A proposal may also be withdrawn in person by the vendor or its authorized representative, provided proper identification is presented before the official end date and time. Telephone or telegraphic requests to withdraw a proposal shall not be honored.
- e. A proposal may also be withdrawn after the proposal opening through submission of a written request by an authorized representative of the vendor. Justification of withdrawal decision may include a significant error or exposure of proposal information that may cause irreparable harm to the vendor.
- f. When submitting a proposal electronically, the registered vendor indicates acceptance of all RFP requirements, terms and conditions by clicking on the "Accept" button on the Overview tab. Vendors delivering a hard copy proposal to Purchasing must sign and return the RFP cover page or, if applicable, the cover page of the last addendum thereto in order to constitute acceptance by the vendor of all RFP requirements, terms and conditions. Failure to do so may result in rejection of the proposal unless the vendor's full compliance with those documents is indicated elsewhere within the vendor's response.
- g. Faxed proposals shall not be accepted. However, faxed and e-mail no-bid notifications shall be accepted.

6. PROPOSAL OPENING

- a. Proposal openings are public on the end date and at the opening time specified on the RFP document. Only the names of the respondents shall be read at the proposal opening. All vendors may view the same proposal response information on the MissouriBUYS Statewide eProcurement System. The contents of the responses shall not be disclosed at this time.
- b. Proposals which are not received in the Purchasing office prior to the official end date and time shall be considered late, regardless of the degree of lateness, and normally will not be opened. Late proposals may only be opened under extraordinary circumstances in accordance with 1 CSR 40-1.050.

7. PREFERENCES

- a. In the evaluation of proposals, preferences shall be applied in accordance with chapter 34, RSMo, other applicable Missouri statutes, and applicable Executive Orders. Contractors should apply the same preferences in selecting subcontractors.
- b. By virtue of statutory authority, a preference will be given to materials, products, supplies, provisions and all other articles produced, manufactured, mined, processed or grown within the State of Missouri and to all firms, corporations or individuals doing business as Missouri firms, corporations or individuals. Such preference shall be given when quality is equal or better and delivered price is the same or less.
- c. In accordance with Executive Order 05-30, contractors are encouraged to utilize certified minority and women-owned businesses in selecting subcontractors.

8. EVALUATION/AWARD

- a. Any clerical error, apparent on its face, may be corrected by the buyer before contract award. Upon discovering an apparent clerical error, the buyer shall contact the vendor and request clarification of the intended proposal. The correction shall be incorporated in the notice of award. Examples of apparent clerical errors are: 1) misplacement of a decimal point; and 2) obvious mistake in designation of unit.
- b. Any pricing information submitted by a vendor shall be subject to evaluation if deemed by Purchasing to be in the best interest of the State of Missouri.
- c. The vendor is encouraged to propose price discounts for prompt payment or propose other price discounts that would benefit the State of Missouri. However, unless otherwise specified in the RFP, pricing shall be evaluated at the maximum potential financial liability to the State of Missouri.

- d. Awards shall be made to the vendor whose proposal (1) complies with all mandatory specifications and requirements of the RFP and (2) is the lowest and best proposal, considering price, responsibility of the vendor, and all other evaluation criteria specified in the RFP and any subsequent negotiations and (3) complies with chapter 34, RSMo, other applicable Missouri statutes, and all applicable Executive Orders.
- e. In the event all vendors fail to meet the same mandatory requirement in an RFP, Purchasing reserves the right, at its sole discretion, to waive that requirement for all vendors and to proceed with the evaluation. In addition, Purchasing reserves the right to waive any minor irregularity or technicality found in any individual proposal.
- f. Purchasing reserves the right to reject any and all proposals.
- g. When evaluating a proposal, the State of Missouri reserves the right to consider relevant information and fact, whether gained from a proposal, from a vendor, from vendor's references, or from any other source.
- h. Any information submitted with the proposal, regardless of the format or placement of such information, may be considered in making decisions related to the responsiveness and merit of a proposal and the award of a contract.
- i. Negotiations may be conducted with those vendors who submit potentially acceptable proposals. Proposal revisions may be permitted for the purpose of obtaining best and final offers. In conducting negotiations, there shall be no disclosure of any information submitted by competing vendors.
- j. Any award of a contract shall be made by notification from Purchasing to the successful vendor. Purchasing reserves the right to make awards by item, group of items, or an all or none basis. The grouping of items awarded shall be determined by Purchasing based upon factors such as item similarity, location, administrative efficiency, or other considerations in the best interest of the State of Missouri.
- k. Pursuant to section 610.021, RSMo, proposals and related documents shall not be available for public review until after a contract is executed or all proposals are rejected.
- l. Purchasing posts all proposal results on the MissouriBUYS Statewide eProcurement System for all vendors to view for a reasonable period after proposal award and maintains images of all proposal file material for review. Vendors who include an e-mail address with their proposal will be notified of the award results via e-mail.
- m. Purchasing reserves the right to request clarification of any portion of the vendor's response in order to verify the intent of the vendor. The vendor is cautioned, however, that its response may be subject to acceptance or rejection without further clarification.
- n. Any proposal award protest must be received within ten (10) business days after the date of award in accordance with the requirements of 1 CSR 40-1.050 (9).
- o. The final determination of contract(s) award shall be made by Purchasing.

9. CONTRACT/PURCHASE ORDER

- a. By submitting a proposal, the vendor agrees to furnish any and all equipment, supplies and/or services specified in the RFP, at the prices quoted, pursuant to all requirements and specifications contained therein.
- b. A binding contract shall consist of: (1) the RFP, addendums thereto, and any Best and Final Offer (BAFO) request(s) with RFP changes/additions, (2) the contractor's proposal including any contractor BAFO response(s), (3) clarification of the proposal, if any, and (4) Purchasing's acceptance of the proposal by "notice of award" or by "purchase order." All Exhibits and Attachments included in the RFP shall be incorporated into the contract by reference.
- c. A notice of award issued by the State of Missouri does not constitute an authorization for shipment of equipment or supplies or a directive to proceed with services. Before providing equipment, supplies and/or services for the State of Missouri, the contractor must receive a properly authorized purchase order or other form of authorization given to the contractor at the discretion of the state agency.
- d. The contract expresses the complete agreement of the parties and performance shall be governed solely by the specifications and requirements contained therein. Any change to the contract, whether by modification and/or supplementation, must be accomplished by a formal contract amendment signed and approved by and between the duly authorized representative of the contractor and Purchasing or by a modified purchase order prior to the effective date of such modification. The contractor expressly and explicitly understands and agrees that no other method and/or no other document, including correspondence, acts, and oral communications by or from any person, shall be used or construed as an amendment or modification to the contract.

10. INVOICING AND PAYMENT

- a. The State of Missouri does not pay state or federal taxes unless otherwise required under law or regulation.
- b. The statewide financial management system has been designed to capture certain receipt and payment information. For each purchase order received, an invoice must be submitted that references the purchase order number and must be itemized in accordance with items listed on the purchase order. Failure to comply with this requirement may delay processing of invoices for payment.
- c. The contractor shall not transfer any interest in the contract, whether by assignment or otherwise, without the prior written consent of Purchasing.
- d. Payment for all equipment, supplies, and/or services required herein shall be made in arrears unless otherwise indicated in the RFP.
- e. The State of Missouri assumes no obligation for equipment, supplies, and/or services shipped or provided in excess of the quantity ordered. Any unauthorized quantity is subject to the state's rejection and shall be returned at the contractor's expense.
- f. All invoices for equipment, supplies, and/or services purchased by the State of Missouri shall be subject to late payment charges as provided in section 34.055, RSMo.
- g. The State of Missouri reserves the right to purchase goods and services using the state purchasing card.

11. DELIVERY

Time is of the essence. Deliveries of equipment, supplies, and/or services must be made no later than the time stated in the contract or within a reasonable period of time, if a specific time is not stated.

12. INSPECTION AND ACCEPTANCE

- a. No equipment, supplies, and/or services received by an agency of the state pursuant to a contract shall be deemed accepted until the agency has had reasonable opportunity to inspect said equipment, supplies, and/or services.
- b. All equipment, supplies, and/or services which do not comply with the specifications and/or requirements or which are otherwise unacceptable or defective may be rejected. In addition, all equipment, supplies, and/or services which are discovered to be defective or which do not conform to any warranty of the contractor upon inspection (or at any later time if the defects contained were not reasonably ascertainable upon the initial inspection) may be rejected.
- c. The State of Missouri reserves the right to return any such rejected shipment at the contractor's expense for full credit or replacement and to specify a reasonable date by which replacements must be received.
- d. The State of Missouri's right to reject any unacceptable equipment, supplies, and/or services shall not exclude any other legal, equitable or contractual remedies the state may have.

13. WARRANTY

- a. The contractor expressly warrants that all equipment, supplies, and/or services provided shall: (1) conform to each and every specification, drawing, sample or other description which was furnished to or adopted by Purchasing, (2) be fit and sufficient for the purpose expressed in the RFP, (3) be merchantable, (4) be of good materials and workmanship, and (5) be free from defect.

- b. Such warranty shall survive delivery and shall not be deemed waived either by reason of the state's acceptance of or payment for said equipment, supplies, and/or services.

14. CONFLICT OF INTEREST

- a. Elected or appointed officials or employees of the State of Missouri or any political subdivision thereof, serving in an executive or administrative capacity, must comply with sections 105.452 and 105.454, RSMo, regarding conflict of interest.
- b. The contractor hereby covenants that at the time of the submission of the proposal the contractor has no other contractual relationships which would create any actual or perceived conflict of interest. The contractor further agrees that during the term of the contract neither the contractor nor any of its employees shall acquire any other contractual relationships which create such a conflict.

15. REMEDIES AND RIGHTS

- a. No provision in the contract shall be construed, expressly or implied, as a waiver by the State of Missouri of any existing or future right and/or remedy available by law in the event of any claim by the State of Missouri of the contractor's default or breach of contract.
- b. The contractor agrees and understands that the contract shall constitute an assignment by the contractor to the State of Missouri of all rights, title and interest in and to all causes of action that the contractor may have under the antitrust laws of the United States or the State of Missouri for which causes of action have accrued or will accrue as the result of or in relation to the particular equipment, supplies, and/or services purchased or procured by the contractor in the fulfillment of the contract with the State of Missouri.

16. CANCELLATION OF CONTRACT

- a. In the event of material breach of the contractual obligations by the contractor, Purchasing may cancel the contract. At its sole discretion, Purchasing may give the contractor an opportunity to cure the breach or to explain how the breach will be cured. The actual cure must be completed within no more than 10 working days from notification, or at a minimum the contractor must provide Purchasing within 10 working days from notification a written plan detailing how the contractor intends to cure the breach.
- b. If the contractor fails to cure the breach or if circumstances demand immediate action, Purchasing will issue a notice of cancellation terminating the contract immediately. If it is determined Purchasing improperly cancelled the contract, such cancellation shall be deemed a termination for convenience in accordance with the contract.
- c. If Purchasing cancels the contract for breach, Purchasing reserves the right to obtain the equipment, supplies, and/or services to be provided pursuant to the contract from other sources and upon such terms and in such manner as Purchasing deems appropriate and charge the contractor for any additional costs incurred thereby.
- d. The contractor understands and agrees that funds required to fund the contract must be appropriated by the General Assembly of the State of Missouri for each fiscal year included within the contract period. The contract shall not be binding upon the state for any period in which funds have not been appropriated, and the state shall not be liable for any costs associated with termination caused by lack of appropriations.

17. COMMUNICATIONS AND NOTICES

Any notice to the vendor/contractor shall be deemed sufficient when deposited in the United States mail postage prepaid, transmitted by facsimile, transmitted by e-mail or hand-carried and presented to an authorized employee of the vendor/contractor.

18. BANKRUPTCY OR INSOLVENCY

- a. Upon filing for any bankruptcy or insolvency proceeding by or against the contractor, whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assignee for the benefit of creditors, the contractor must notify Purchasing immediately.
- b. Upon learning of any such actions, Purchasing reserves the right, at its sole discretion, to either cancel the contract or affirm the contract and hold the contractor responsible for damages.

19. INVENTIONS, PATENTS AND COPYRIGHTS

The contractor shall defend, protect, and hold harmless the State of Missouri, its officers, agents, and employees against all suits of law or in equity resulting from patent and copyright infringement concerning the contractor's performance or products produced under the terms of the contract.

20. NON-DISCRIMINATION AND AFFIRMATIVE ACTION

In connection with the furnishing of equipment, supplies, and/or services under the contract, the contractor and all subcontractors shall agree not to discriminate against recipients of services or employees or applicants for employment on the basis of race, color, religion, national origin, sex, age, disability, or veteran status unless otherwise provided by law. If the contractor or subcontractor employs at least 50 persons, they shall have and maintain an affirmative action program which shall include:

- a. A written policy statement committing the organization to affirmative action and assigning management responsibilities and procedures for evaluation and dissemination;
- b. The identification of a person designated to handle affirmative action;
- c. The establishment of non-discriminatory selection standards, objective measures to analyze recruitment, an upward mobility system, a wage and salary structure, and standards applicable to layoff, recall, discharge, demotion, and discipline;
- d. The exclusion of discrimination from all collective bargaining agreements; and
- e. Performance of an internal audit of the reporting system to monitor execution and to provide for future planning.

If discrimination by a contractor is found to exist, Purchasing shall take appropriate enforcement action which may include, but not necessarily be limited to, cancellation of the contract, suspension, or debarment by Purchasing until corrective action by the contractor is made and ensured, and referral to the Attorney General's Office, whichever enforcement action may be deemed most appropriate.

21. AMERICANS WITH DISABILITIES ACT

In connection with the furnishing of equipment, supplies, and/or services under the contract, the contractor and all subcontractors shall comply with all applicable requirements and provisions of the Americans with Disabilities Act (ADA).

22. FILING AND PAYMENT OF TAXES

The commissioner of administration and other agencies to which the state purchasing law applies shall not contract for goods or services with a vendor if the vendor or an affiliate of the vendor makes sales at retail of tangible personal property or for the purpose of storage, use, or consumption in this state but fails to collect and properly pay the tax as provided in chapter 144, RSMo. For the purposes of this section, "affiliate of the vendor" shall mean any person or entity that is controlled by or is under common control with the vendor, whether through stock ownership or otherwise. Therefore the vendor's failure to maintain compliance with chapter 144, RSMo, may eliminate their proposal from consideration for award.

Titles of paragraphs used herein are for the purpose of facilitating reference only and shall not be construed to infer a contractual construction of language.

Any company's ability to service the needs of its Customers is the sum of its assets. In order to provide framework for the ability to handle the Missouri State Contract we provide the following listing of assets:

First Asset:

15,742 sq. ft. Distribution Center and Retail Showroom located at 142 Hanley Industrial Court, Brentwood, Missouri 63144. Hours of Operation are Monday through Friday from 8:00 AM until 5:30 PM, and Saturdays from 8:00 AM until Noon from Labor Day until Memorial Day including 17 dedicated automobile parking spaces. (Adjacent parking is available to accommodate larger vehicles.) The building is fully fire alarmed and handicap accessible. A state-of-the-art security system is currently in use and includes 24 hour monitoring, 14 cameras and remote visual access via the Internet.

Application of First Asset:

The Retail Showroom, located at 142 Hanley Industrial Court, is large enough to accommodate dozens of Customers at one time. The items currently in stock are on display for convenient review. There are five separate fitting rooms (one handicap accessible) available during the Hours of Operation. There are three network connected personal computers and two network connected point of sale computers in the showroom that have immediate and constant access to Missouri State Contract information.

The Distribution Center (and Warehouse) is large enough to accommodate enough inventories to successfully service all anticipated orders. As new Departments utilize the Missouri State Contract, their specific needs for uniforms and equipment will be carefully analyzed and stock will be available accordingly. The Warehouse is well organized to adequately support the items also located in the Retail Showroom. The Distribution Center is also efficiently arranged to process incoming shipments and quickly convert those shipments into available merchandise for all Customers.

The Tailor Shop is strategically located between the Retail Showroom and the Distribution Center. There are five single needle flat-bed machines, one single needle post machine, two blind stitch machines, one automatic button machine, one 5-thread serge machine, two gravity-fed steam irons and a rotary blade cutting table. All machines are in excellent working order and are regularly serviced by experts.

The entire facility has an automatic sprinkler system for fire suppression. The system is regularly serviced and inspected per City of Brentwood and St. Louis County regulations. The entire facility is monitored by 14 separate cameras that are recorded onto a hard drive for up to 30 days. The software allows for remote access 24 hours a day. With Public Safety being a

particularly constant Homeland Security threat, this system affords unparalleled security of items that could certainly affect our region's security. (An overwhelming majority of local Law Enforcement agencies trust Leon Uniform to provide their uniforms and equipment, and the security of their badges and emblems.)

Second Asset:

The most experienced knowledgeable and professionally trained personnel in the industry.

The Retail Showroom has at least four full time dedicated representatives to service any personnel that want to ask questions regarding any items on the Missouri State Contract. In addition, they can be expertly fitted in their uniforms and have their orders filled immediately.

Each employee in the Showroom has been expertly trained in clothing measurement, accessing Contract information, Customer Service and operation of the internal software.

The Customer Service Department has four full time dedicated Representatives to answer any phone requests, process any orders and assist the Retail personnel when needed. (An efficient system of support is in place for the instances when the Customer demand in the Showroom exceeds the available Retail personnel.) All Retail and Customer Service personnel are constantly involved in updated training.

The Distribution Center has at least seven full time dedicated representatives to purchase adequate replacement inventories, receive incoming shipments, process any garments for alteration, prepare and ship any orders and assist the Retail personnel when needed. Each has been expertly trained in clothing measurement and operation of the internal software.

The Tailor Shop has at least seven full time dedicated operators to run the machinery and perform alterations to garments as needed. Each has been expertly trained in clothing measurement and tailored clothing alterations.

The Leon Uniform management team has combined for over 80 years of experience in the uniform distribution business. While implementing efficient systems, the management team has continued to recognize changing trends and adapt accordingly.

Application of Second Asset:

The Retail Showroom personnel are on hand to professionally greet every Customer that enters. Once positive and verifiable identification of each Customer is obtained, the needs of the Customer are ascertained. The Retail Showroom personnel will professionally and

cheerfully assist each Customer with their needs. Each Retail Showroom representative has the experience and knowledge to discuss the needs of each Customer and suggest which garments will fulfill those needs. Additionally, any questions regarding garment construction or material content can be answered as well. Each Customer can expect to be expertly fitted in the garments they have chosen because the Retail Showroom representatives are adept at selecting correct sizes for try on and determining what, if any, additional alterations are necessary. The Retail Showroom also provides a comfortable experience for Customers while they wait for their uniforms to be altered and pressed. (Most Customers leave with their stock items completely altered and embellished...while they wait...on their first trip.)

The Customer Service personnel are on hand to professionally answer every phone, email, mail, fax or Internet request for information or to place an order. If desired, Customers can place an order via email, fax, mail or Internet. Once the order is initiated, the Customer Service representative will accurately enter the order into the internal system. Until the order is completed within the designated time frame, the Customer Service representative monitors the progress to ensure timely delivery. To further ease the ordering process, the Customer Service Supervisor will create an electronic ordering form for each Agency, which can be distributed to all personnel. This form will include the items and pricing available on the Missouri State Contract.

The sizing and ordering process carried out by the Retail Showroom and Customer Service personnel should reduce incorrect sizing and returns to a minimum, if not eliminate them completely. Customers are able to try on their uniform before and after alterations should they choose to do so. If, however, there is still a cause for exchanging a garment, the Retail Showroom personnel will properly fit the individual and make any necessary alterations while he or she waits.

Leon Uniform Company will maintain all manufacturer warranties. If any garment purchased at Leon Uniform Company is determined to be defective, the garment will be repaired or replaced while the Customer waits if possible.

The Distribution Center personnel have several various functions. Primarily, the Purchasing Agents systematically regulates inventories based on minimum and maximum quantities that have been determined based on forecasts from Customers. In addition, the Purchasing Agents orders any "special order" merchandise that is not considered regular stock. While regularly reviewing consumption data, the Purchasing Agents can quickly spot changing or developing trends and react accordingly. If an Agency is able to provide historical data regarding purchases, the initial Leon Uniform Company inventories would reflect that data.

The Tailor Shop personnel can alter any and all garments as requested in a timely and professional manner. The alterations that can be performed while the Customer waits include: emblem application, trouser hemming, etc.

Third Asset:

Leon Uniform Company utilizes a Linux-based internal software system (PRISM) that allows for maximum Customer efficiency, accurate reporting and unparalleled stability.

Application of Third Asset:

Once the Missouri State Contract specifications and pricing are entered, the PRISM system ensures that each employee will receive the correct approved garments and be charged the correct price. As an employee places an order, accurate records are kept, which will not allow the Agency to be invoiced for more than the employee is authorized. Order entry is simple and intuitive. Additionally, orders cannot be entered for items that don't exist, or sizes that are not available. These strict order standards apply whether the order is received by a walk-in Customer employee or by phone, fax, email or Internet.

Additionally, PRISM immediately previews whether an item on the Missouri State Contract is available to be sold when an order is placed. To aid in the efficiency of this part of the process, when shipments are received in the Distribution Center, the items are immediately placed into inventory and made available for sale. Consequently, immediately upon issue to a Customer, an item is removed from inventory and removes that item's availability for sale.

PRISM also gives the Retail Showroom and Customer Service personnel the ability to access an individual's history of purchases. In addition to the actual garments purchased, sizing records are kept. After an initial fitting, an individual can simply fax, e-mail, direct mail or call in any orders and the Customer Service personnel will be able to provide garments that are sized and hemmed to the proper lengths for that individual. Customers get the added convenience of Customer Service notifying them that the order is ready to be picked up without ever having stepped foot in the Retail Showroom.

Leon Uniform Company employees systematically review PRISM instant reporting for inventory replenishment, open orders by date, average delivery time by order and sales numbers for any date range. These reports, and any other pertinent information, are available instantly via the PRISM system for any authorized personnel.

PRISM is written on a Linux platform which provides an enhanced level of stability and much less "down time". In addition, PRISM backs up to digital media that is securely removed nightly off premises.

Fourth Asset:

Leon Uniform Company, a fifth generation family owned company, has been a viable business since 1907.

Application of Fourth Asset:

Leon Uniform Company, as a well-respected member of the St. Louis business community since 1907, has very strong relationships with a multitude of Vendors across many different product categories. Over time, Leon Uniform Company has put these Vendors through rigorous evaluation and only partners with manufacturers that provide garments of the highest quality and hold backup inventory levels with continuous flow of product to ensure delivery to the end users. These relationships and Leon Uniform Company's industry leading Customer Service team guarantee that MSHP personnel will receive the best possible value from their uniform shopping experience. In addition, Leon Uniform Company has had a strong business ally in Commerce Bank, which dates back to Commerce Bank's inception. Currently, with over a million and a half dollars in inventory located in Missouri, Leon Uniform Company is uniquely positioned to service MSHP and its personnel without financial restrictions.

Additionally, with that century of business experience, the management team at Leon Uniform Company has been tested by natural disasters, economic depressions and innovations in technology and not only survived, but thrived.

Leon Uniform currently has on staff several employees that are capable, and have previously performed "on-site measurements" for similar uniform items and accessories. The Leon Uniform Company employees are equipped with an expense reimbursement protocol and/or a corporate credit card that will allow them to travel efficiently. In addition, "on-site" measurements include bringing fit samples of the contracted garments to each fitting location.

Leon Uniform Company utilizes a Chevrolet Suburban to transport employees, fit samples, rolling garment racks to each fitting location. Once "on-site" the employees are well equipped with laptops for order taking and remote access to the Leon Uniform Company system, portable rolling garment racks, tape measures and tailor chalk. Very capable and well experienced female employees are available to fit female Customers that feel more comfortable with that scenario. By employing a rotating schedule of the following employees, the daily operations at Leon Uniform Company will not be interrupted by their absence while being "on-site". In every instance, veteran Leon Uniform Company employees will be "on-site" to supervise fittings.

One method for the "ordering process" is via an "electronic" order form that can be transferred via electronic mail to Customer Service from authorized personnel. This "electronic" order form will include all pertinent contractual information and will be formatted to work with Microsoft

Excel. The "electronic" order form will include each item offered on the contract with the contractual price automatically prompted. The "electronic" order form will calculate (automatically) the total as the items are added to the form. An "electronic" order form will also clearly state if the order is to be immediately filled, or to be held for authorized personnel to be accurately measured and/or fitted. A return electronic mail must be sent to acknowledge receipt of each order. All orders will be systematically reviewed by Customer Service for additional attention to detail before a PO is requested or a "P-card" charged.

A second *alternative* ordering process is actually printing the electronic order form and transmitting it via facsimile to Leon Uniform Company. The facsimile machine will be accessible 24 hours a day, 7 days a week. The facsimile phone number is a "stand alone" line to a machine with sufficient memory to store incoming transmissions to avoid delays. A return facsimile confirmation or electronic mail is required to acknowledge receipt of each order. The facsimile number is 314-535-8159. All orders will be systematically reviewed by Customer Service for additional attention to detail before a PO is requested or a "P-card" charged.

A third *alternative* is for the "electronic" order form to be printed and delivered via the authorized personnel. Leon Uniform Company is open to all personnel from the hours of 8:00 AM to 5:30 PM Monday through Friday, and from 8:00 AM to 12 Noon on Saturday. Saturday hours will be conducted September through May. The showroom is located at 142 Hanley Industrial Court, St. Louis, Missouri 63144. All orders will be systematically reviewed by Customer Service for additional attention to detail before a PO is requested or a "P-card" charged.

A fourth *alternative* for placing an order is via telephone. A phone order can only be placed by authorized personnel. This type of order will be accepted between 8:00 AM and 5:30 PM Monday through Friday, and from 8:00 AM to 12 Noon on Saturday. Saturday hours will be conducted September through May. The toll free number is 800-395-5366. Locally, Leon Uniform Company can be reached by dialing 314-535-8133. Additionally, all Leon Uniform personnel have a direct dial phone number to easily access the person you need directly. All orders will be systematically reviewed by Customer Service for additional attention to detail before a PO is requested or a "P-card" charged.

The last *alternate* for placing an order is to be implemented in an emergency situation. Emergency contact phone numbers will be distributed and all authorized personnel can access them 24 hours a day, 7 days a week. All orders will be systematically reviewed by Customer Service for additional attention to detail before a PO is requested or a "P-card" charged.

In addition, if awarded this opportunity, Leon Uniform Company will make a specialized catalog section of all contract items for the Missouri State Contract. This will allow authorized personnel to "shop" at their leisure and prepare for future orders.

As a successful Tier 2 vendor, Leon Uniform Company will provide all authorized personnel with access to review contract items and place orders online at www.leonuniform.com. (In the area as indicated in the screen capture below.)

Orders can be transmitted directly from this site to Leon Uniform Company. As you can imagine, the web site will only provide the exact contract pricing and provide accurate calculations. All orders will be systematically reviewed by Customer Service for additional attention to detail before a PO is requested or a "P-card" charged.

The invoicing and billing process is very simple and easy to understand. Our operating software will only allow the items on the Missouri State Contract to be invoiced at the agreed upon price. This ensures consistency and makes the invoice easy to reconcile with the packing list. In order to create an invoice, the packing list is verified by a Leon Uniform Company Shipping clerk and again verified by an Accounts Receivable clerk. In fact, the invoice is merely the packing list with pricing added when it is "printed" and sent. An invoice is only generated after a shipment is made. All pertinent information is available on every invoice.

In the event of a backorder, the Customer will be advised via email of the delay and will be provided with the best available delivery information. Should that information change, the Customer will be re-notified with the updated information.

The return process is very simple. In the unlikely event there is something "wrong" with the items received by any Customer, there are several options to rectify the situation. ("Wrong" can mean improper fit, wrong item, wrong emblem, incorrect rank, material defect, changed preference, etc.) The Customer can call Leon Uniform Customer Service and receive information regarding the solution in a consistent and efficient manner. If the item was received by the Customer and the error is with Leon Uniform Company, we will immediately send a FedEx label for its return. (This can be done instantly via email.)

If the error is a result of a mistake by a Customer, we will take every measure to rectify the problem, but returning the item in new and unused condition is the Customer's responsibility. In addition, at any time any Customer can return the item to Leon Uniform Company with a note and contact information. No prior authorization is required at any time.

Leon Uniform Company is capable of providing any Customer using the Missouri State Contract with extensive reporting.

Any combination of ad hoc reporting is available as well as these instant reports:

- Inventory availability by item

- Inventory availability by category
 - This will help determine if a certain category is being ordered more frequently than another

Leon Uniform Company began as a custom-tailored clothier in 1907. Since then, Leon Uniform Company has developed into one of the largest independent uniform distributors in the country. Our financial position, as well as our valued relationships with our vendor partners makes Leon Uniform Company uniquely qualified to service any agency in Missouri. As one of the largest independent dealers in the country, the "basic stock" items are available to Leon Uniform Company.

With the region's largest facility we are also capable of warehousing and processing large amounts of uniform orders. Employing quality team members and continually evaluating distribution methods uniquely position Leon Uniform Company at the forefront of uniform distribution.

Delivery:

Leon Uniform Company is uniquely positioned to deliver "in-stock" items in *minutes*, not "days" after receiving an order. By utilizing the Retail Showroom, and ordering "in-stock" items that only need emblems applied or trousers hemmed, an individual Customer can exit the Showroom in possession of the items on that same visit! This should also fulfill any emergency requirements. Slightly larger orders for items that are "in-stock" can be delivered in 10 days after receiving an order.

If "out-of-stock" items are ordered, every Distributor is at the mercy of their Vendors. (That is why it is vital to our business model to only align ourselves with competent and efficient Vendors.) In most cases, those orders can be fulfilled within 30 days. In all cases, the Customer will be notified of the exact time frame.

Emergency delivery requests for items "out-of-stock" are routine. Leon Uniform Company is prepared and well-versed in handling these situations. If the item is available in a Vendor's inventory, "next day" capability is possible. By having an inventory that exceeds \$1.5 million, in many cases immediate delivery is available.

Returns:

To return any item, simply contact any Leon Uniform Company Customer Service Representative by phone, email, fax or in person. Any return with no impact on accounting, will be recorded and the latest sizes noted.

Returns are handled expediently and are reviewed regularly by management to inhibit the causes of the return.

The Leon Uniform Company Return Policy is:

Each manufacturer listed above has a corresponding "retail price list" attached to this RFP in .pdf format. (In addition, the manufacturer's website will be used to "electronically" offer a full catalog to each Customer or potential Customer.) Oversize charges on some garments may apply.

In the "Missouri State Contract" section of the website, there will be the complete listing of manufacturers, the corresponding links to each page and a complete "Missouri State Contract price list". By using the manufacturers' own websites and corresponding item codes, there will be no confusion as to which item is requested or priced.

As explained in the cover letter with this RFP, by offering different discount levels, the Customers (and the State of Missouri) benefit from receiving larger discounts when they are

available. (If only one discount level is offered, logically the lowest discount percentage would be used.)

Again, by using the manufacturers' website, the "catalog" should only be change when a manufacturer discontinues or adds items. This can happen invariably, but particularly in the uniform industry, those changes are minimal and usually on an annual basis. The pricing is usually firm for a year as well.

When a price or item is changed, the entire corresponding price list will be updated and posted both internally at Leon Uniform Company and on the website.

Leon Uniform Company's Missouri-based team of professionals will be of particular value in assisting with these issues, and any other "help" situations. Upon request, potential Customers or Customers can be directed to the website or sent hard copies of the information instantly. As we do now, Leon Uniform Company will utilize the toll free phone number, email, Facebook messaging, Twitter or personal visit to resolve any issues or answer any questions.

Online		

Ordering Department-specific uniforms online can be problematic due to the amount of detail required to properly fulfill an order. Many of these details aren't easily explained or indicated by drop down choices or text boxes. (Width and shade of stripe on trousers, exact emblem placement, colors for chevrons, etc.) Of course, some items are easier to describe, identify and replicate than others.

Although some Agencies have P-Cards to actually pay for items online, it is our understanding that this may be a frowned upon practice for security reasons. (We're also unaware of a method of receiving payment via fax.)

Missouri Economic Impact:

The response to this RFP was generated in Missouri. (Leon Uniform Company has always been a Missouri-based company.) Any questions regarding this contract will be answered by Missourians in a facility in Missouri. Every aspect of order fulfillment will be performed in Missouri. Although we have three employees that reside in Illinois, the remainder of our workforce lives, and pays taxes in Missouri. (Income, personal property and sales taxes at least.)

If Leon Uniform Company does not have a Tier 2 Missouri State Contract, our ability to compete and thrive will be made much more difficult and the State of Missouri will suffer as well.

As a business, Leon Uniform Company pays substantial Missouri taxes and a loss of sales revenue will result in a loss of revenue to Missouri. In this regard, Leon Uniform Company is uniquely positioned to be of most benefit as a Missouri State Contract holder. As Agencies purchase off of the Contract, of course Leon Uniform will pay the required 1% Service Fee. In addition, Leon Uniform Company pays more corporate taxes as a more profitable entity. The current employees generate more income, which also results in more Missouri tax payments. The current employees also purchase and use more Missouri goods and services that generate Missouri taxes. In a "better case scenario", Leon Uniform Company would hire, train and employ even more team members that would also add to the Missouri coffers.

As the State is aware, many of the products offered for this RFP are produced outside the United States. A detailed listing of exactly which products are constructed abroad can be made available, and even posted for potential Customers' review. The only manufacturers that are offered for this RFP that manufacture exclusively in the United States are Blackinton, Sabre and Gould & Goodrich. (Sabre manufactures in Missouri.) Blauer, Flying Cross and Elbeco have some domestically produced items and they will be noted.

Proudly serving the Public Safety market since 1852!

Warranty, Badge Refinishing & Modification

We have worked to clarify and enhance our warranty and repair policies in an effort to make them more customer centric. Please make note of the enhancements below. We have included with this price book a sheet that further outlines our new guidelines. Should you misplace or need another copy throughout the year please contact customer service. All returns should be sent to:

Attn: Repairs Department, V.H. Blackinton & Co., Inc., 221 John L. Dietsch Blvd., Attleboro Falls, MA 02763
(Dealers may add additional handling charges to the below costs)

CUSTOMER SATISFACTION GUARANTEE:

We continue to stand behind the quality and manufacturing of our badges, as our policies show.

- **100% Customer Satisfaction Guarantee:** If upon receipt of your order you receive a damaged badge we will replace and/or fix all flawed and defective material free of charge.
- **Lifetime Manufacturing Warranty:** In addition to our customer satisfaction guarantee we offer a lifetime warranty on all badge attachments, and on seals and panels dislodging from your badge. If this occurs during the lifetime of your badge we will repair your badge for free, no questions asked.
- **Enamel Warranty:** Because HARD enamel is glass if a badge is dropped the hard enamel could shatter like a drinking glass, this is beyond our control. See our refinishing policy to understand how hard enamel is covered by Blackinton®. If REGULAR enamel dislodges during the lifetime of your badge we will repair your badge for free.

For manufacturing defect returns we offer a prepaid ship label for the return of your item, please call customer service (800) 699-4436.

BADGE REFINISHING SERVICE:

The badge refinishing and modification services listed below are performed at the owners own risk. All requests are subject to inspection and acceptance by our factory. We reserve the right to refuse your badge if we feel it can not be restored to suitable condition for reuse.

- **Our high-end badge finishes:** HI-Glo®, Rho-Glo®, Two-Tone, and VHB KK® continue to be refinished for free, and *enamel is fixed for free, although all high-end badges will incur a shipping and handling charge of \$7.50 per style per order.
- **Pricing for non-warranty finishes** is now easier to understand - One price for all finishes with shipping and handling included in the price at \$32.00/badge wholesale.

Refinishing Information:

- Refinishing will not remove deep scratches or digs in the metal but will restore the badge finish to a bright luster.
- When a badge is refinished the detail in the design, lettering, and enamel are re-polished, so after a badge is refinished more than once the design and lettering will be less distinct and may not be able to hold enamel due to the shallowness of the incised lettering.
- *Enamel on a badge may crack or chip when a badge is refinished. Refinishing is done at the owner's risk.
- We will only refinish a badge manufactured by Blackinton®.

**Enamel: Because hard enamel is fired in an oven at 1500 degrees we cannot re-enamel hard enamel because this process must occur at the beginning stage of badge manufacturing. We will make every effort to fix the enamel with an alternate material if it chips, but it may look inconsistent with hard fired enamel. Regular enamel can be re-enameled and the cost to do so is included in the refinishing charge.*

BADGE MODIFICATION SERVICE:

We understand there are times when you would like to modify an existing badge, so we offer a badge modification service. We've enhanced our pricing and our services, so please be sure to review the details below.

- **New easier to understand pricing** for all badge modifications including: Changing a seal, adding a panel, changing a finish**, and changing an attachment. All finishes, all modifications are one price with shipping and handling & refinishing included in the price at \$32.00/badge wholesale.
- Changing the color of REGULAR enamel is \$10.00/badge wholesale (the badge is not refinished as part of this service and we can not change the color of HARD enamel)

Because, of the intricate make up of a badge some modifications require us to completely reverse manufacture the badge, making the operation more labor intensive and costly than just making a new badge. In many situations a badge is destroyed during a modification. Our experience has taught us that we must limit what we can offer in order to maintain the quality and integrity of our products.

Below is our list of limitations and things we CAN NOT perform:

- Change or add lettering on a badge
- Change applied figures at bottom or center of badge (i.e.; B615, B617, B315, B589 etc)
- Change a shell back badge to a solid badge or vice versa
- Change shape or dap of badge
- Change a panel on a badge, *This is new as of 1/1/13 - we no longer will change a panel on a badge. The operation is overly destructive to the badge. 90% of the time this service is performed the result is the destruction and complete remake of a badge.*
- Change letters or remove periods on cut out letters
- **Change a plated badge to a HI-Glo®, Rho-Glo®, Sil-Tone®, or Gol-Tone® finish
- Change or repair badge cases
- Make modifications to a badge manufactured by someone other than Blackinton®

DEALER ORDER INFORMATION

Placing An Order:

The Blackinton® Wizard™ Order Entry System should be used by dealers when placing an order with Blackinton®. If you need a copy of our PC based Wizard™ System go to www.blackinton.com/wizard and request a FREE copy today. The Wizard™ System walks dealers through the order entry process; enabling orders to be entered efficiently, while helping to eliminate accidental mistakes or omissions that can delay shipment.

Orders will only be accepted on an official Blackinton® order form. If you are not using the Wizard™ Order Entry System, you MUST use an official Blackinton® order form or your order will not be processed. Do not combine badge orders with other items as it will simply delay processing of your orders. Order forms can be requested via sending an email to customerservice@blackinton.com. To ensure your order is processed error free, and promptly, we request that you TYPE your orders, we are not responsible for illegible orders. Due to the volume of orders Blackinton® receives on a daily basis handwritten orders will not be accepted.

Quotations

We invite you to work with your Blackinton® sales representative on opportunities pertaining to bids, contracts, large volume orders, and custom product design. Your sales team is available to help you with pricing and the entire quotation process.

How To Fill Out An Order Form:

For your convenience, the inside back cover of this price book offers detailed instructions pertaining to filling out a badge order form. Please review this page for tips on completing the order form. It is imperative that you do a thorough review of your order form, to ensure details are not omitted. Each section of the order form must be completed in full. Double check to ensure you choose a finish, enamel color and type, attachment, and be sure to check your spelling!

When submitting orders please provide all information required for processing, or the order will be delayed. We can not honor orders that specify "AS HAD" or "AS PREVIOUSLY SUPPLIED".

Cancellations and Changes to Existing Orders:

The process of producing a hand-crafted quality badge is unavoidably time consuming. Although we carry a large inventory of stock components, they are in the raw state and require additional work prior to assembly. To ensure the promptest delivery of your order, we process all orders within 24 hours upon receipt. Therefore changes to orders, or cancellations, can only be accepted if they are received within 24 hours after Blackinton® receives your original order. After this time orders will be processed as received, and you will be responsible for payment in full.

Shipping:

Shipping Cost

Shipping is added to the total cost of your order. Shipments are made via UPS, FedEx, or parcel post unless otherwise requested. Express mail and next day shipments are available at an additional charge. We will drop ship, but will not be responsible for delivery on drop shipments to your customers. Shipping charges vary depending upon order size, destination, and shipping method desired.

All prices are F.O.B. Attleboro Falls, Massachusetts, and are subject to change without notice.

Order Shipment

At Blackinton® we strive to attain 100% on-time delivery of all orders - all the time. Under our QuickShip™ program badge orders are shipped within 5 working days or they are free. To qualify under the QuickShip™ program, orders must be placed through the Blackinton® Wizard™ Order Entry System. Blackinton® has expanded this program to include eighteen of our most popular badge styles; with additional styles being added regularly. Additional information about this program can be found at www.blackinton.com/quickship.

Badge orders, outside the QuickShip™ program, typically ship within 3 - 5 weeks. However, if custom badge styles, panels, or other components are needed the lead time may be extended. Blackinton® J stock items typically ship within 5-7 working days of order placement, and items such as custom insignia and custom coins will ship within 3 weeks of order placement.

Order Tracking

Dealers can track their order status by logging into the dealer layer at www.blackinton.com, clicking on Dealer Login and going to "Shipment Tracking".

DIES, DESIGNS & LETTERING

Dies:

Precision dies are the backbone to creating a custom Blackinton® badge. We welcome all requests for new dies. The request must include information as to proper ownership, so Blackinton® can record this data for exclusivity purposes. The die owner, whether it be an authorized dealer, or an end user, has the exclusive right to determine actual usage of the die.

Die charges are billed directly to the customer. V. H. Blackinton & Co., Inc. maintains possession of the die for its client. If a client requests their die from Blackinton® they are charged a service and handling fee. This fee is generally 25% of the original die cost.

Custom Design:

Blackinton® has a full service in-house design staff that can transform your ideas and concepts into an artist rendering of a new custom badge, coin, or seal design. There is no charge for custom badge, coin, or seal artwork. Our sales team will work with you, and our designers, to help transform your concept into a computer generated rendering. A rough drawing of your idea is generally all that is needed to get started on your custom design. The possibilities are endless.

All artwork remains the property of V. H. Blackinton & Co., Inc. and cannot be copied or used for competitive bidding without the express written consent of V. H. Blackinton & Co., Inc.

Custom Text:

Depending upon the badge style you are ordering there are anywhere from 1 - 7 panels that can be customized with text. Blackinton® offers both Roman and Block style lettering. The size of the lettering is determined by the item chosen and the number of characters to be used. Block style lettering is standard on one piece construction badges and Roman style lettering is standard on all applied panel badges.

Words often have more than one spelling (i.e.; Attleboro, Attleborough) so we have to assume you have checked your order, and it contains the proper spelling. We will not be responsible for errors resulting from illegibility or spelling mistakes.

We reserve the right to change the character style and/or abbreviate text as necessary to fit the item.

Design Punches:

The designs shown below can be stamped into badge panels in place of text.

The designs are shown actual size, please ensure the design punch fits in the appropriate area on the badge you are ordering.

FINISHES IN WHICH BLACKINTON® PRODUCT IS AVAILABLE

SHOWN ON PAGES 86 & 87 OF LAW ENFORCEMENT CATALOG

AND ON PAGES 44 & 45 OF FIRE-RESCUE CATALOG

NICKEL PLATE is a hot nickel solution applied by the electroplating process to the polished base metal of a badge. It is silver in color and has a fair degree of hardness. Nickel plate will sometimes lose some of its luster with age.

RHODIUM PLATE, an element within the platinum metal group, is a precious metal that is applied by the electroplating process over a bright nickel base. Rhodium can be distinguished by its brilliant white finish and is tarnish resistant. It will not discolor or peel from the surface of a badge.

GOLD PLATE is a deposit of 22K+ fine gold electroplate on base material for a rich, bright appearance.

RHO-GLO® is a base material which has a solid silver color throughout and requires no surface plating. Highly polished to a brilliant luster, a clear coating is then applied to enhance its durability.*

HI-GLO® is a base material which has a golden color throughout and requires no surface plating. Highly polished to a brilliant luster, a clear coating is then applied to enhance its durability.*

TWO-TONE is a combination of gold and silver colors. Badges with applied panels will normally consist of Hi-Glo® material for the gold color and Rho-Glo® material for silver color. Badges of one piece construction will consist of Hi-Glo® panels and rhodium plate background or Rho-Glo® panels and gold plate background.*

V.H.B. KK® is a heavy gold electroplate (HGE) is the ultimate in fine gold plate. This process applies a uniformly thick coating of tarnish proof high karat gold, purer and more durable than gold plate.*

ROSE GOLD is a darkened gold electroplated base material which is hand rubbed to create the appearance of an antique gold finish. Use Gold plate price plus ADD-ON code #30.

V.H.B. BLACK is a subdued black finish over a base material which is then lacquered to provide a durable finish and also minimizes reflection. Use Nickel plate price.

V.H.B. BRONZE is a base material, blackened and hand rubbed leaving the appearance of natural oxidation from age. A clear coating is applied to enhance its finish and durability. Use Nickel plate price.

GUN METAL: Our newest charcoal finish features a hint of blue, unlike the matte finish of V.H.B. Black, Gunmetal has a slight sheen. A clear coating is applied to enhance its finish and durability. Use Nickel plate price.

PINK: Vibrant pink finish over a base material. Developed as part of our Breast Cancer Awareness line. A clear coating is applied to enhance its finish and durability. Use Nickel plate price.

SOLID BACK BADGES COME STANDARD WITH A SATIN BACK FINISH UNLESS OTHERWISE SPECIFIED. SEE ADD ON CODE #81

I wanted our agency to recognize Breast Cancer Awareness Month but having a pink uniform wasn't practical, said Sheriff Hamilton. When the pink badge idea was presented I knew that it would be a prominent and sincere way we could let everyone know how much we believe in this worthwhile cause.

Instructions for Submitting a Solicitation Response

The Division of Purchasing is now posting all of its bid solicitation documents on the new MissouriBUYS Bid Board (<https://www.missouribuys.mo.gov>). MissouriBUYS is the State of Missouri's web-based statewide eProcurement system which is powered by WebProcure, through our partner, Perfect Commerce.

For all bid solicitations, vendors now have the option of submitting their solicitation response either as an electronic response or as a hard copy response. As a means to save vendors the expense of submitting a hard copy response and to provide vendors both the ease and the timeliness of responding from a computer, vendors are encouraged to submit an electronic response. Both methods of submission are explained briefly below and in more detail in the step-by-step instructions provided at https://missouribuys.mo.gov/pdfs/how_to_respond_to_a_solicitation.pdf. (This document is also on the Bid Board referenced above.)

- **ELECTRONIC RESPONSES:** To respond electronically to a solicitation, the vendor must first register with MissouriBUYS by going to the MissouriBUYS Home Page (<https://missouribuys.mo.gov>), clicking the "Register" button at the top of the page, and completing the Vendor Registration. Once registered the vendor accesses their account by clicking the "Login" button at the top of the MissouriBUYS Home Page. After locating the desired solicitation on the Bid Board, at a minimum, the vendor must read and accept the Original Solicitation Documents and complete pricing and any other identified requirements. In addition, the vendor should download and save all of the Original Solicitation Documents on their computer so that they can prepare their response to these documents. Vendors should upload their completed response to these downloaded documents (including exhibits, forms, and other information concerning the solicitation) as an attachment to the electronic solicitation response. Step-by-step instructions for how a registered vendor responds to a solicitation electronically are available on the MissouriBUYS system at: https://missouribuys.mo.gov/pdfs/how_to_respond_to_a_solicitation.pdf. Any such electronic submissions must be received prior to the specified end date and time.
 - a. Vendors are encouraged to submit their entire proposal electronically; however in lieu of attaching exhibits, forms, pricing, etc. to the electronic solicitation response, a vendor may submit the exhibits, forms, pricing, etc. through mail or courier service. However, any such submission must be received prior to the solicitation's specified end date and time. Be sure to include the solicitation/opportunity (OPP) number, company name, and a contact name on any hard copy solicitation response documents submitted through mail or courier service.
 - b. In the event a registered vendor electronically submits a solicitation response and also mails hard copy documents that are not identical, the vendor should explain which response is valid for the state's consideration. In the absence of such explanation, the state reserves the right to evaluate and award the response which serves its best interest.
- **HARD COPY RESPONSES:** When responding with a hard copy response, any such submission must be received prior to the specified end date and time. Be sure to include the solicitation/opportunity (OPP) number, company name, and a contact name on any hard copy solicitation response documents.

2. CONTRACTUAL REQUIREMENTS

2.1 Contract:

- 2.1.1 A binding contract shall consist of: (1) the RFP, addendums thereto, and any Best and Final Offer (BAFO) request(s) with RFP changes/additions, (2) the contractor's proposal including any contractor BAFO response(s), (3) clarification of the proposal, if any, and (4) the Division of Purchasing's acceptance of the proposal by "notice of award". All Exhibits and Attachments included in the RFP shall be incorporated into the contract by reference.
- 2.1.2 A notice of award issued by the State of Missouri does not constitute an authorization for shipment of equipment or supplies or a directive to proceed with services. Before providing equipment, supplies and/or services for the State of Missouri, the contractor must receive a properly authorized purchase order or other form of authorization given to the contractor at the discretion of the state agency.
- 2.1.3 The contract expresses the complete agreement of the parties and performance shall be governed solely by the specifications and requirements contained therein.
- 2.1.4 Any change to the contract, whether by modification and/or supplementation, must be accomplished by a formal contract amendment signed and approved by and between the duly authorized representative of the contractor and the Division of Purchasing prior to the effective date of such modification. The contractor expressly and explicitly understands and agrees that no other method and/or no other document, including correspondence, acts, and oral communications by or from any person, shall be used or construed as an amendment or modification to the contract.

2.2 Contract Period:

- 2.2.1 The original contract period shall be as stated on the Notice of Award. The contract shall not bind, nor purport to bind, the state for any contractual commitment in excess of the original contract period. The Division of Purchasing shall have the right, at its sole option, to renew the contract for two (2) additional one-year periods, or any portion thereof. In the event the Division of Purchasing exercises such right, all terms and conditions, requirements and specifications of the contract, including discounts, shall remain the same and apply during the renewal period.

2.3 Termination:

- 2.3.1 The Division of Purchasing reserves the right to terminate the contract at any time, for the convenience of the State of Missouri, without penalty or recourse, by giving written notice to the contractor at least thirty (30) calendar days prior to the effective date of such termination. The contractor shall be entitled to receive compensation for services and/or supplies delivered to and accepted by the State of Missouri pursuant to the contract prior to the effective date of termination.

2.4 Contract Prices and Percentages:

- 2.4.1 Pricing for the contract shall be determined by applying the quoted firm, fixed discount indicated on the Pricing Page of the contract to the contractor's current catalogue price or the manufacturer's suggested retail price, whichever is lower. The discount shall apply to all items in the contractor's catalogue or that may otherwise be sourced by the contractor given product exceptions noted on the Pricing Page of the contract.
- 2.4.2 The state shall not pay nor be liable for any other additional costs including but not limited to taxes, shipping charges, insurance, interest, penalties, termination payments, attorney fees, liquidated damages, etc.
- 2.4.3 In the event that a price list/catalog lists more than one price for the same item, the applicable quoted firm, fixed discount shall be applied to the lowest listed price for the item(s).

- 2.4.4 The contractor shall furnish current price lists/catalog(s) that clearly identify public safety and law enforcement products to the state agency upon request. Price lists/catalogs shall also be promptly provided to the state agency as the catalogs/price lists change and/or pricing is updated.
- 2.4.5 The discount shall apply as quoted to all items in the contractor's current catalog or price list. The contractor shall not impose a discount "floor."
- 2.4.6 The contractor shall understand and agree that the purpose of the discount is only for the purchase of public safety and law enforcement products; any product sourcing that the contractor performs must be for products within the same manufacturer lines identified in the contract, or must be for product that falls within the industry definition of public safety and law enforcement equipment, supplies and gear. Law enforcement/public safety/rescue vehicles, guns and ammunition are explicitly excluded from the contract.
- 2.4.7 The contractor shall understand and agree that all firm, fixed discount percentages shall remain the same throughout the duration of the contract, including during renewal periods.
- a. Catalog/list pricing may change during the course of the contract period however it is highly preferred that catalog/price list pricing not change more frequently than on a 12-month basis.

2.5 Payment Terms:

- 2.5.1 The contractor shall understand and agree the state reserves the right to make contract payments to the contractor through electronic funds transfer (EFT). Therefore, prior to any payments becoming due under the contract, the contractor must update their vendor registration with their ACH-EFT payment information at <https://MissouriBUYS.mo.gov>. Each contractor invoice must be on the contractor's original descriptive business invoice form and must contain a unique invoice number. The invoice number will be listed on the state's EFT addendum record to enable the contractor to properly apply state payments to invoices. The contractor must comply with all other invoicing requirements stated in the RFP.
- 2.5.2 The contractor may obtain detailed information for payments issued for the past 24 months from the State of Missouri's central accounting system (SAM II) on the Vendor Services Portal at <https://www.vendorservices.mo.gov/vendorservices/Portal/Default.aspx>.
- 2.5.3 All payment terms shall be as stated in the Terms and Conditions of the contract (see paragraph 10, "Invoicing and Payment") unless otherwise addressed in the RFP, or mutually agreed to by the state and the contractor. Payment terms should be net 30 days unless otherwise stated in the RFP. No late charges shall be applied which are not in compliance with Chapter 34.055 RSMo. This statute may be found at <http://www.moga.mo.gov/mostatutes/ChaptersIndex/chaptIndex034.html>

2.7 Coordination:

- 2.7.1 The contractor shall fully coordinate all contract activities with those activities of the state agency. As the work of the contractor progresses, advice and information on matters covered by the contract shall be made available by the contractor to the state agency or the Division of Purchasing throughout the effective period of the contract.

2.8 Participation by Other Organizations:

- 2.8.1 The contractor must comply with any Organization for the Blind/Sheltered Workshop, Service-Disabled Veteran Business Enterprise (SDVE), and/or Minority Business Enterprise/Women Business Enterprise (MBE/WBE) participation levels committed to in the contractor's awarded proposal.
- 2.8.2 The contractor shall prepare and submit to the Division of Purchasing a report detailing all payments made by the contractor to Organizations for the Blind/Sheltered Workshops, SDVEs, and/or MBE/WBEs participating in the contract for the reporting period. The contractor must submit the report on a monthly basis, unless otherwise determined by the Division of Purchasing.
- 2.8.3 The Division of Purchasing will monitor the contractor's compliance in meeting the Organizations for the Blind/Sheltered Workshop and SDVE participation levels committed to in the contractor's awarded proposal. The Division of Purchasing in conjunction with the Office of Equal Opportunity (OEO) will monitor the contractor's compliance in meeting the MBE/WBE participation levels committed to in the contractor's awarded proposal. If the contractor's payments to the participating entities are less than the amount committed, the state may cancel the contract and/or suspend or debar the contractor from participating in future state procurements, or retain payments to the contractor in an amount equal to the value of the participation commitment less actual payments made by the contractor to the participating entity. If the Division of Purchasing determines that the contractor becomes compliant with the commitment, any funds retained as stated above, will be released.
- 2.8.4 If a participating entity fails to retain the required certification or is unable to satisfactorily perform, the contractor must obtain other certified MBE/WBEs or other organizations for the blind/sheltered workshops or other SDVEs to fulfill the participation requirements committed to in the contractor's awarded proposal.
- a. The contractor must obtain the written approval of the Division of Purchasing for any new entities. This approval shall not be arbitrarily withheld.
 - b. If the contractor cannot obtain a replacement entity, the contractor must submit documentation to the Division of Purchasing detailing all efforts made to secure a replacement. The Division of Purchasing shall have sole discretion in determining if the actions taken by the contractor constitute a good faith effort to secure the required participation and whether the contract will be amended to change the contractor's participation commitment.
- 2.8.5 No later than 30 days after the effective date of the first renewal period the contractor must submit an affidavit to the Division of Purchasing. The affidavit must be signed by the director or manager of the participating Organizations for the Blind/Sheltered Workshop verifying provision of products and/or services and compliance of all contractor payments made to the Organizations for the Blind/Sheltered Workshops. - 2.9.3 The contractor shall agree to fully cooperate with any audit or investigation from federal, state, or local law enforcement agencies.

The contractor shall expressly understand and agree that he/she shall assume and be solely responsible for all legal and financial responsibilities related to the execution of a subcontract. The contractor shall agree and understand that utilization of a subcontractor to provide any of the products/services in the contract shall in no way relieve the contractor of the responsibility for providing the products/services as described and set forth herein. The contractor must obtain the approval of the State of Missouri prior to establishing any new subcontracting arrangements and before changing any subcontractors. The approval shall not be arbitrarily withheld.
- 2.10.2 Pursuant to subsection 1 of section 285.530, RSMo, no contractor or subcontractor shall knowingly employ, hire for employment, or continue to employ an unauthorized alien to perform work within the state of Missouri. In accordance with sections 285.525 to 285.550, RSMo, a general contractor or subcontractor of any tier shall not be liable when such contractor or subcontractor contracts with its direct subcontractor who violates subsection 1 of section 285.530, RSMo, if the contract binding the contractor and subcontractor affirmatively states that

 - shall not henceforth be in such violation and
 - the contractor or subcontractor receives a sworn affidavit under the penalty of perjury attesting to the fact that the direct subcontractor's employees are lawfully present in the United States.

- 2.11.1 The quantities indicated in this Request for Proposal are estimates that pertain to the total aggregate quantities that may be ordered throughout the stated contract period. The estimates do not indicate single order amounts unless otherwise stated. The State of Missouri makes no guarantees about single order quantities or total aggregate order quantities.

2.12 Contractor Liability:

- 2.12.1 The contractor shall be responsible for any and all personal injury (including death) or property damage as a result of the contractor's negligence involving any equipment or service provided under the terms and conditions, requirements and specifications of the contract. In addition, the contractor assumes the obligation to save the State of Missouri, including its agencies, employees, and assignees, from every expense, liability, or payment arising out of such negligent act. The contractor also agrees to hold the State of Missouri, including its agencies, employees, and assignees, harmless for any negligent act or omission committed by any subcontractor or other person employed by or under the supervision of the contractor under the terms of the contract.
- 2.12.2 The contractor shall not be responsible for any injury or damage occurring as a result of any negligent act or omission committed by the State of Missouri, including its agencies, employees, and assignees.
- 2.12.3 Under no circumstances shall the contractor be liable for any of the following: (1) third party claims against the state for losses or damages (other than those listed above); (2) loss of, or damage to, the state's records or data; or (3) economic consequential damages (including lost profits or savings) or incidental damages, even if the contractor is informed of their possibility.

2.13 Insurance:

- 2.13.1 The contractor shall understand and agree that the State of Missouri cannot save and hold harmless and/or indemnify the contractor or employees against any liability incurred or arising as a result of any activity of the contractor or any activity of the contractor's employees related to the contractor's performance under the contract. Therefore, the contractor must acquire and maintain adequate liability insurance in the form(s) and amount(s) sufficient to protect the State of Missouri, its agencies, its employees, its clients, and the general public against any

4.5 Evaluation and Award Process:

- 4.5.1 After determining that a proposal satisfies the mandatory requirements stated in the Request for Proposal, the evaluator(s) shall use both objective analysis and subjective judgment in conducting a comparative assessment of the proposals in accordance with the evaluation criteria stated below. A separate evaluation shall be conducted for Tier One and Tier Two proposals; only Tier One proposals shall be compared to Tier One proposals; and only Tier Two proposals shall be compared to Tier Two proposals. All offerors involved in the negotiation process will be invited to submit a best and final offer.
- c. Terms, conditions, prices, methodology, or other features of the offeror's proposal may be subject to negotiation and subsequent revision. As part of the negotiations, the offeror may be required to submit supporting financial, pricing and other data in order to allow a detailed evaluation of the feasibility, reasonableness, and acceptability of the proposal.

4.8 **Evaluation of Offeror's Experience and Reliability:**

REVISED BY BAFO REQUEST #001

- 4.8.1 The offeror is strongly encouraged to complete *and submit Exhibit A* with detailed information, as requested. The offeror should describe at least the following details to help the state's evaluation of the offeror's experience and reliability.
- a. The length of time the offeror has been in the public safety and law enforcement equipment, supplies and gear business and the offeror's overall national and local Missouri markets presence.
 - b. The offeror should provide references from accounts that possess similar characteristics to the State of Missouri's public safety and law enforcement equipment, supplies and gear needs. The offeror should provide references from accounts that are either state governments or municipalities when possible. For each reference, please specify if the business relationship is the result of a formal contract, and if the business relationship is exclusive or non-exclusive. **Exhibit A** is provided for the offeror's use in presenting this information.
- 4.9 **Evaluation of Proposed Method of Performance, Contractor Support, Product Variety and Exclusions:**

REVISED BY BAFO REQUEST #001

- 4.9.1 The offeror is strongly encouraged to complete *and submit Exhibit B* with detailed information, as requested. The offeror should describe how the offeror intends to satisfy the requirements stated in Section 3 of the RFP. **Exhibit B** is provided to present this information.
- a. It is the offeror's responsibility to submit a proposal that meets all mandatory specifications stated herein. The offeror should clearly identify any and all deviations from both the mandatory and desirable specifications stated in the RFP. Any deviation from a mandatory requirement may render the proposal non-responsive. The offeror's ability to meet a desirable specification will be reviewed by the state subjectively.
- 4.9.2 The offeror should present a detailed description of all products the offeror will make available to the state for purchase.
- a. **Product Variety and Exclusions:** The breadth of the offeror's product catalog/list as well as the breadth of products the offeror will allow the state to purchase at the quoted discount will be part of the evaluation of the proposed method of performance and contractor support. It is highly desirable that the offeror not identify any exceptions of public safety equipment, supplies and gear in the offeror's catalog or product listing/sourcing that the offeror will not sell to the state applying the quoted firm, fixed discount.
 - b. It is highly desirable for the offeror to provide, in response to this RFP, the offeror's catalog in hardcopy, or via website, PDF file, or Excel file of the pricing that will be used for contract discount pricing. If a catalog website is provided, the offeror should provide log-in information including passwords necessary for evaluators to fully assess the offeror's website catalog.
 - c. The offeror's catalog should detail as many product categories that are available as part of the offering of public safety and law enforcement equipment, supplies and gear. It should not be assumed that the evaluator has specific knowledge of the products proposed; however, the evaluator does have sufficient technical background to conduct an evaluation when presented complete information.
- 4.10 **Evaluation of Offeror's Minority Business Enterprise (MBE)/ Women Business Enterprise (WBE) Participation:**
- 4.10.1 In order for the Division of Purchasing (PURCHASING) to meet the provisions of Executive Order 05-30, the offeror should secure participation of certified MBEs and WBEs in providing the products/services required in this RFP. The targets of participation recommended by the State of Missouri are 10% MBE and 5% WBE of the total dollar value of the contract.

- a. These targets can be met by a qualified MBE/WBE offeror themselves and/or through the use of qualified subcontractors, suppliers, joint ventures, or other arrangements that afford meaningful opportunities for MBE/WBE participation.
- b. The services performed or the products provided by MBE/WBEs must provide a commercially useful function related to the delivery of the contractually-required service/product in a manner that will constitute an added value to the contract and shall be performed/provided exclusive to the performance of the contract. Therefore, if the services performed or the products provided by MBE/WBEs is utilized, to any extent, in the offeror's obligations outside of the contract, it shall not be considered a valid added value to the contract and shall not qualify as participation in accordance with this clause.
- c. In order to be considered as meeting these targets, the MBE/WBEs must be "qualified" by the proposal opening date (date the proposal is due). (See below for a definition of a qualified MBE/WBE.)

4.10.2 The offeror's proposed participation of MBE/WBE firms in meeting the targets of the RFP will be considered in the evaluation process as specified below:

The offeror should address each item stated below. Additional information can be submitted as the offeror deems necessary. (BEFORE COMPLETING CERTIFICATION, READ INSTRUCTIONS FOR CERTIFICATION)

Instructions for Certification

- 1. By signing and submitting this proposal, the prospective recipient of Federal assistance funds is providing the certification as set out below.
- 2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective recipient of Federal assistance funds knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Department of Labor (DOL) may pursue available remedies, including suspension and/or debarment.
- 3. The prospective recipient of Federal assistance funds shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective recipient of Federal assistance funds learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- 4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. - 7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may but is not required to check the List of Parties Excluded from Procurement or Nonprocurement Programs.
- 8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the DOL may pursue available remedies, including suspension and/or debarment.

2. APPLICABLE LAWS AND REGULATIONS

- a. The contract shall be construed according to the laws of the State of Missouri. The contractor shall comply with all local, state, and federal laws and regulations related to the performance of the contract to the extent that the same may be applicable.
- b. To the extent that a provision of the contract is contrary to the Constitution or laws of the State of Missouri or of the United States, the provisions shall be void and unenforceable. However, the balance of the contract shall remain in force between the parties unless terminated by consent of both the contractor and Purchasing.
- c. The contractor must be registered and maintain good standing with the Secretary of State of the State of Missouri and other regulatory agencies, as may be required by law or regulations.
- d. The contractor must timely file and pay all Missouri sales, withholding, corporate and any other required Missouri tax returns and taxes, including interest and additions to tax.

- f. The contractor shall only employ personnel authorized to work in the United States in accordance with applicable federal and state laws and Executive Order 07-13 for work performed in the United States.

3. OPEN COMPETITION/REQUEST FOR PROPOSAL DOCUMENT

- a. It shall be the vendor's responsibility to ask questions, request changes or clarification, or otherwise advise Purchasing if any language, specifications or requirements of an RFP appear to be ambiguous, contradictory, and/or arbitrary, or appear to inadvertently restrict or limit the requirements stated in the RFP to a single source. Any and all communication from vendors regarding specifications, requirements, competitive proposal process, etc., must be directed to the buyer from Purchasing, unless the RFP specifically refers the vendor to another contact. Such e-mail, fax, or phone communication should be received at least ten calendar days prior to the official proposal end date.
- b. Every attempt shall be made to ensure that the vendor receives an adequate and prompt response. However, in order to maintain a fair and equitable procurement process, all vendors will be advised, via the issuance of an addendum to the RFP, of any relevant or pertinent information related to the procurement. Therefore, vendors are advised that unless specified elsewhere in the RFP, any questions received less than ten calendar days prior to the RFP end date may not be answered.
- c. Vendors are cautioned that the only official position of the State of Missouri is that which is issued by Purchasing in the RFP or an addendum thereto. No other means of communication, whether oral or written, shall be construed as a formal or official response or statement.
- d. Purchasing monitors all procurement activities to detect any possibility of deliberate restraint of competition, collusion among vendors, price-fixing by vendors, or any other anticompetitive conduct by vendors which appears to violate state and federal antitrust laws. Any suspected violation shall be referred to the Missouri Attorney General's Office for appropriate action.
- e. The RFP is available for viewing and downloading on the MissouriBUYS Statewide eProcurement System. Registered vendors are electronically notified of those proposal opportunities that match the commodity codes for which the vendor registered in MissouriBUYS. If a registered vendor's e-mail address is incorrect, the vendor must update the e-mail address themselves on the state's MissouriBUYS Statewide eProcurement System at <https://missouribuy.com>.
- f. Purchasing reserves the right to officially amend or cancel an RFP after issuance. It shall be the sole responsibility of the vendor to monitor the MissouriBUYS Statewide eProcurement System to obtain a copy of the addendum(s). Registered vendors who received e-mail notification of the proposal opportunity when the RFP was established and registered vendors who have responded to the RFP on-line prior to an addendum being issued should receive e-mail notification of the addendum(s). Registered vendors who received e-mail notification of the proposal opportunity when the RFP was established and registered vendors who have responded to the proposal on-line prior to a cancellation being issued should receive e-mail notification of a cancellation issued prior to the exact end date and time specified in the RFP.

4. PREPARATION OF PROPOSALS

- a. Vendors must examine the entire RFP carefully. Failure to do so shall be at the vendor's risk.
- b. Unless otherwise specifically stated in the RFP, all specifications and requirements constitute minimum requirements. All proposals must meet or exceed the stated specifications and requirements.
- c. Unless otherwise specifically stated in the RFP, any manufacturer names, trade names, brand names, information and/or catalog numbers listed in a specification and/or requirement are for informational purposes only and are not intended to limit competition. The vendor may offer any brand which meets or exceeds the specification for any item, but must state the manufacturer's name and model number for any such brands in the proposal. In addition, the vendor shall explain, in detail, (1) the reasons why the proposed equivalent meets or exceeds the specifications and/or requirements and (2) why the proposed equivalent should not be considered an exception thereto. Proposals which do not comply with the requirements and specifications are subject to rejection without clarification.
- d. Proposals lacking any indication of intent to offer an alternate brand or to take an exception shall be received and considered in complete compliance with the specifications and requirements as listed in the RFP.
- e. In the event that the vendor is an agency of state government or other such political subdivision which is prohibited by law or court decision from complying with certain provisions of an RFP, such a vendor may submit a proposal which contains a list of statutory limitations and identification of those prohibitive clauses. The vendor should include a complete list of statutory references and citations for each provision of the RFP, which is affected by this paragraph. The statutory limitations and prohibitive clauses may (1) be requested to be clarified in writing by Purchasing or (2) be accepted without further clarification if the statutory limitations and prohibitive clauses are deemed acceptable by Purchasing. If Purchasing determines clarification of the statutory limitations and prohibitive clauses is necessary, the clarification will be conducted in order to agree to language that reflects the intent and compliance of such law and/or court order and the RFP.
- f. All equipment and supplies offered in a proposal must be new, of current production, and available for marketing by the manufacturer unless the RFP clearly specifies that used, reconditioned, or remanufactured equipment and supplies may be offered.
- g. Prices shall include all packing, handling and shipping charges FOB destination, freight prepaid and allowed unless otherwise specified in the RFP.
- h. Proposals, including all prices therein, shall remain valid for 90 days from proposal opening or Best and Final Offer (BAFO) submission unless otherwise indicated. If the proposal is accepted, the entire proposal, including all prices, shall be firm for the specified contract period.
- i. Any foreign vendor not having an Employer Identification Number assigned by the United States Internal Revenue Service (IRS) must submit a completed IRS Form W-8 prior to or with the submission of their proposal in order to be considered for award.

5. SUBMISSION OF PROPOSALS

- a. Registered vendors may submit proposals electronically through the MissouriBUYS Statewide eProcurement System at <https://missouribuy.com> or by delivery of a hard copy to the Purchasing office. Vendors that have not registered on the MissouriBUYS Statewide eProcurement System may submit proposals hard copy delivered to the Purchasing office. Delivered proposals must be sealed in an envelope or container, and received in the Purchasing office located at 301 West High St, Rm 630 in Jefferson City, MO no later than the exact end date and time specified in the RFP. All proposals must (1) be submitted by a duly authorized representative of the vendor's organization, (2) contain all information required by the RFP, and (3) be priced as required. Hard copy proposals may be mailed to the Purchasing post office box address. However, it shall be the responsibility of the vendor to ensure their proposal is in the Purchasing office (address listed above) no later than the exact end date and time specified in the RFP.
- b. The sealed envelope or container containing a proposal should be clearly marked on the outside with (1) the official RFP number and (2) the official end date and time. Different proposals should not be placed in the same envelope, although copies of the same proposal may be placed in the same envelope.
- c. A proposal submitted electronically by a registered vendor may be modified on-line prior to the official end date and time. A proposal which has been delivered to the Purchasing office may be modified by signed, written notice which has been received by Purchasing prior to the official end date and time specified. A proposal may also be modified in person by the vendor or its authorized representative, provided proper identification is presented before the official end date and time. Telephone or telegraphic requests to modify a proposal shall not be honored.
- d. A proposal submitted electronically by a registered vendor may be retracted on-line prior to the official end date and time. A proposal which has been delivered to the Purchasing may only be withdrawn by a signed, written document on company letterhead transmitted via mail, e-mail, or facsimile which has been received by Purchasing prior to the official end and time specified. A proposal may also be withdrawn in person by the vendor or its authorized representative, provided proper identification is presented before the official end date and time. Telephone or telegraphic requests to withdraw a proposal shall not be honored.
- e. A proposal may also be withdrawn after the proposal opening through submission of a written request by an authorized representative of the vendor. Justification of withdrawal decision may include a significant error or exposure of proposal information that may cause irreparable harm to the vendor.
- f. When submitting a proposal electronically, the registered vendor indicates acceptance of all RFP requirements, terms and conditions by clicking on the "Accept" button on the Overview tab. Vendors delivering a hard copy proposal to Purchasing must sign and return the RFP cover page or, if applicable, the cover page of the last addendum thereto in order to constitute acceptance by the vendor of all RFP requirements, terms and conditions. Failure to do so may result in rejection of the proposal unless the vendor's full compliance with those documents is indicated elsewhere within the vendor's response.
- g. Faxed proposals shall not be accepted. However, faxed and e-mail no-bid notifications shall be accepted.

6. PROPOSAL OPENING

- a. Proposal openings are public on the end date and at the opening time specified on the RFP document. Only the names of the respondents shall be read at the proposal opening. All vendors may view the same proposal response information on the MissouriBUYS Statewide eProcurement System. The contents of the responses shall not be disclosed at this time.
- b. Proposals which are not received in the Purchasing office prior to the official end date and time shall be considered late, regardless of the degree of lateness, and normally will not be opened. Late proposals may only be opened under extraordinary circumstances in accordance with 1 CSR 40-1.050.

7. PREFERENCES

- a. In the evaluation of proposals, preferences shall be applied in accordance with chapter 34, RSMo, other applicable Missouri statutes, and applicable Executive Orders. Contractors should apply the same preferences in selecting subcontractors.
- b. By virtue of statutory authority, a preference will be given to materials, products, supplies, provisions and all other articles produced, manufactured, mined, processed or grown within the State of Missouri and to all firms, corporations or individuals doing business as Missouri firms, corporations or individuals. Such preference shall be given when quality is equal or better and delivered price is the same or less.
- c. In accordance with Executive Order 05-30, contractors are encouraged to utilize certified minority and women-owned businesses in selecting subcontractors.

8. EVALUATION/AWARD

- a. Any clerical error, apparent on its face, may be corrected by the buyer before contract award. Upon discovering an apparent clerical error, the buyer shall contact the vendor and request clarification of the intended proposal. The correction shall be incorporated in the notice of award. Examples of apparent clerical errors are: 1) misplacement of a decimal point; and 2) obvious mistake in designation of unit.
- b. Any pricing information submitted by a vendor shall be subject to evaluation if deemed by Purchasing to be in the best interest of the State of Missouri.

- c. The vendor is encouraged to propose price discounts for prompt payment or propose other price discounts that would benefit the State of Missouri. However, unless otherwise specified in the RFP, pricing shall be evaluated at the maximum potential financial liability to the State of Missouri.
- d. Awards shall be made to the vendor whose proposal (1) complies with all mandatory specifications and requirements of the RFP and (2) is the lowest and best proposal, considering price, responsibility of the vendor, and all other evaluation criteria specified in the RFP and any subsequent negotiations and (3) complies with chapter 34, RSMo, other applicable Missouri statutes, and all applicable Executive Orders.
- e. In the event all vendors fail to meet the same mandatory requirement in an RFP, Purchasing reserves the right, at its sole discretion, to waive that requirement for all vendors and to proceed with the evaluation. In addition, Purchasing reserves the right to waive any minor irregularity or technicality found in any individual proposal.
- f. Purchasing reserves the right to reject any and all proposals.
- g. When evaluating a proposal, the State of Missouri reserves the right to consider relevant information and fact, whether gained from a proposal, from a vendor, from vendor's references, or from any other source.
- h. Any information submitted with the proposal, regardless of the format or placement of such information, may be considered in making decisions related to the responsiveness and merit of a proposal and the award of a contract.
- i. Negotiations may be conducted with those vendors who submit potentially acceptable proposals. Proposal revisions may be permitted for the purpose of obtaining best and final offers. In conducting negotiations, there shall be no disclosure of any information submitted by competing vendors.
- j. Any award of a contract shall be made by notification from Purchasing to the successful vendor. Purchasing reserves the right to make awards by item, group of items, or an all or none basis. The grouping of items awarded shall be determined by Purchasing based upon factors such as item similarity, location, administrative efficiency, or other considerations in the best interest of the State of Missouri.
- k. Pursuant to section 610.021, RSMo, proposals and related documents shall not be available for public review until after a contract is executed or all proposals are rejected.
- l. Purchasing posts all proposal results on the MissouriBUYS Statewide eProcurement System for all vendors to view for a reasonable period after proposal award and maintains images of all proposal file material for review. Vendors who include an e-mail address with their proposal will be notified of the award results via e-mail.
- m. Purchasing reserves the right to request clarification of any portion of the vendor's response in order to verify the intent of the vendor. The vendor is cautioned, however, that its response may be subject to acceptance or rejection without further clarification.
- n. Any proposal award protest must be received within ten (10) business days after the date of award in accordance with the requirements of 1 CSR 40-1.050 (9).
- o. The final determination of contract(s) award shall be made by Purchasing.

9. CONTRACT/PURCHASE ORDER

- a. By submitting a proposal, the vendor agrees to furnish any and all equipment, supplies and/or services specified in the RFP, at the prices quoted, pursuant to all requirements and specifications contained therein.
- b. A binding contract shall consist of: (1) the RFP, addendums thereto, and any Best and Final Offer (BAFO) request(s) with RFP changes/additions, (2) the contractor's proposal including any contractor BAFO response(s), (3) clarification of the proposal, if any, and (4) Purchasing's acceptance of the proposal by "notice of award" or by "purchase order." All Exhibits and Attachments included in the RFP shall be incorporated into the contract by reference.
- c. A notice of award issued by the State of Missouri does not constitute an authorization for shipment of equipment or supplies or a directive to proceed with services. Before providing equipment, supplies and/or services for the State of Missouri, the contractor must receive a properly authorized purchase order or other form of authorization given to the contractor at the discretion of the state agency.
- d. The contract expresses the complete agreement of the parties and performance shall be governed solely by the specifications and requirements contained therein. Any change to the contract, whether by modification and/or supplementation, must be accomplished by a formal contract amendment signed and approved by and between the duly authorized representative of the contractor and Purchasing or by a modified purchase order prior to the effective date of such modification. The contractor expressly and explicitly understands and agrees that no other method and/or no other document, including correspondence, acts, and oral communications by or from any person, shall be used or construed as an amendment or modification to the contract.

10. INVOICING AND PAYMENT

- a. The State of Missouri does not pay state or federal taxes unless otherwise required under law or regulation.
- b. The statewide financial management system has been designed to capture certain receipt and payment information. For each purchase order received, an invoice must be submitted that references the purchase order number and must be itemized in accordance with items listed on the purchase order. Failure to comply with this requirement may delay processing of invoices for payment.
- c. The contractor shall not transfer any interest in the contract, whether by assignment or otherwise, without the prior written consent of Purchasing.
- d. Payment for all equipment, supplies, and/or services required herein shall be made in arrears unless otherwise indicated in the RFP.
- e. The State of Missouri assumes no obligation for equipment, supplies, and/or services shipped or provided in excess of the quantity ordered. Any unauthorized quantity is subject to the state's rejection and shall be returned at the contractor's expense.
- f. All invoices for equipment, supplies, and/or services purchased by the State of Missouri shall be subject to late payment charges as provided in section 34.055, RSMo.
- g. The State of Missouri reserves the right to purchase goods and services using the state purchasing card.

11. DELIVERY

Time is of the essence. Deliveries of equipment, supplies, and/or services must be made no later than the time stated in the contract or within a reasonable period of time, if a specific time is not stated.

12. INSPECTION AND ACCEPTANCE

- a. No equipment, supplies, and/or services received by an agency of the state pursuant to a contract shall be deemed accepted until the agency has had reasonable opportunity to inspect said equipment, supplies, and/or services.
- b. All equipment, supplies, and/or services which do not comply with the specifications and/or requirements or which are otherwise unacceptable or defective may be rejected. In addition, all equipment, supplies, and/or services which are discovered to be defective or which do not conform to any warranty of the contractor upon inspection (or at any later time if the defects contained were not reasonably ascertainable upon the initial inspection) may be rejected.
- c. The State of Missouri reserves the right to return any such rejected shipment at the contractor's expense for full credit or replacement and to specify a reasonable date by which replacements must be received.
- d. The State of Missouri's right to reject any unacceptable equipment, supplies, and/or services shall not exclude any other legal, equitable or contractual remedies the state may have.

13. WARRANTY

- a. The contractor expressly warrants that all equipment, supplies, and/or services provided shall: (1) conform to each and every specification, drawing, sample or other description which was furnished to or adopted by Purchasing, (2) be fit and sufficient for the purpose expressed in the RFP, (3) be merchantable, (4) be of good materials and workmanship, and (5) be free from defect.
- b. Such warranty shall survive delivery and shall not be deemed waived either by reason of the state's acceptance of or payment for said equipment, supplies, and/or services.

14. CONFLICT OF INTEREST

- a. Elected or appointed officials or employees of the State of Missouri or any political subdivision thereof, serving in an executive or administrative capacity, must comply with sections 105.452 and 105.454, RSMo, regarding conflict of interest.
- b. The contractor hereby covenants that at the time of the submission of the proposal the contractor has no other contractual relationships which would create any actual or perceived conflict of interest. The contractor further agrees that during the term of the contract neither the contractor nor any of its employees shall acquire any other contractual relationships which create such a conflict.

15. REMEDIES AND RIGHTS

- a. No provision in the contract shall be construed, expressly or implied, as a waiver by the State of Missouri of any existing or future right and/or remedy available by law in the event of any claim by the State of Missouri of the contractor's default or breach of contract.
- b. The contractor agrees and understands that the contract shall constitute an assignment by the contractor to the State of Missouri of all rights, title and interest in and to all causes of action that the contractor may have under the antitrust laws of the United States or the State of Missouri for which causes of action have accrued or will accrue as the result of or in relation to the particular equipment, supplies, and/or services purchased or procured by the contractor in the fulfillment of the contract with the State of Missouri.

16. CANCELLATION OF CONTRACT

- a. In the event of material breach of the contractual obligations by the contractor, Purchasing may cancel the contract. At its sole discretion, Purchasing may give the contractor an opportunity to cure the breach or to explain how the breach will be cured. The actual cure must be completed within no more than 10 working days from notification, or at a minimum the contractor must provide Purchasing within 10 working days from notification a written plan detailing how the contractor intends to cure the breach.
- b. If the contractor fails to cure the breach or if circumstances demand immediate action, Purchasing will issue a notice of cancellation terminating the contract immediately. If it is determined Purchasing improperly cancelled the contract, such cancellation shall be deemed a termination for convenience in accordance with the contract.
- c. If Purchasing cancels the contract for breach, Purchasing reserves the right to obtain the equipment, supplies, and/or services to be provided pursuant to the contract from other sources and upon such terms and in such manner as Purchasing deems appropriate and charge the contractor for any additional costs incurred thereby.
- d. The contractor understands and agrees that funds required to fund the contract must be appropriated by the General Assembly of the State of Missouri for each fiscal year included within the contract period. The contract shall not be binding upon the state for any period in which funds have not been appropriated, and the state shall not be liable for any costs associated with termination caused by lack of appropriations.

17. COMMUNICATIONS AND NOTICES

Any notice to the vendor/contractor shall be deemed sufficient when deposited in the United States mail postage prepaid, transmitted by facsimile, transmitted by e-mail or hand-carried and presented to an authorized employee of the vendor/contractor.

18. BANKRUPTCY OR INSOLVENCY

- a. Upon filing for any bankruptcy or insolvency proceeding by or against the contractor, whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assignee for the benefit of creditors, the contractor must notify Purchasing immediately.
- b. Upon learning of any such actions, Purchasing reserves the right, at its sole discretion, to either cancel the contract or affirm the contract and hold the contractor responsible for damages.

19. INVENTIONS, PATENTS AND COPYRIGHTS

The contractor shall defend, protect, and hold harmless the State of Missouri, its officers, agents, and employees against all suits of law or in equity resulting from patent and copyright infringement concerning the contractor's performance or products produced under the terms of the contract.

20. NON-DISCRIMINATION AND AFFIRMATIVE ACTION

In connection with the furnishing of equipment, supplies, and/or services under the contract, the contractor and all subcontractors shall agree not to discriminate against recipients of services or employees or applicants for employment on the basis of race, color, religion, national origin, sex, age, disability, or veteran status unless otherwise provided by law. If the contractor or subcontractor employs at least 50 persons, they shall have and maintain an affirmative action program which shall include:

- a. A written policy statement committing the organization to affirmative action and assigning management responsibilities and procedures for evaluation and dissemination;
- b. The identification of a person designated to handle affirmative action;
- c. The establishment of non-discriminatory selection standards, objective measures to analyze recruitment, an upward mobility system, a wage and salary structure, and standards applicable to layoff, recall, discharge, demotion, and discipline;
- d. The exclusion of discrimination from all collective bargaining agreements; and
- e. Performance of an internal audit of the reporting system to monitor execution and to provide for future planning.

If discrimination by a contractor is found to exist, Purchasing shall take appropriate enforcement action which may include, but not necessarily be limited to, cancellation of the contract, suspension, or debarment by Purchasing until corrective action by the contractor is made and ensured, and referral to the Attorney General's Office, whichever enforcement action may be deemed most appropriate.

21. AMERICANS WITH DISABILITIES ACT

In connection with the furnishing of equipment, supplies, and/or services under the contract, the contractor and all subcontractors shall comply with all applicable requirements and provisions of the Americans with Disabilities Act (ADA).

22. FILING AND PAYMENT OF TAXES

The commissioner of administration and other agencies to which the state purchasing law applies shall not contract for goods or services with a vendor if the vendor or an affiliate of the vendor makes sales at retail of tangible personal property or for the purpose of storage, use, or consumption in this state but fails to collect and properly pay the tax as provided in chapter 144, RSMo. For the purposes of this section, "affiliate of the vendor" shall mean any person or entity that is controlled by or is under common control with the vendor, whether through stock ownership or otherwise. Therefore the vendor's failure to maintain compliance with chapter 144, RSMo, may eliminate their proposal from consideration for award.
