## Domestic Relations Program for Parents and Children Request for Proposal Supervised Access and Exchange Program, "Contact for Kids: A Safe Way" Budget Spending Plan & Narrative

### 2.1 Continuation of Approved Program:

For fiscal year 2019, the 13<sup>th</sup> Judicial Circuit, Family Court requested \$18,000 in funding to continue our Supervised Visitation program. The Court received \$13,000 and has continued to provide supervised exchange services through a contract with Great Circle. The Court continues to require the non-custodial parent to pay a per diem based off his/her income. It should also be noted that the Court can find a person indigent, and not require them to pay a co-pay. Each non-custodial parent is allowed up to twelve hours of supervised visitation during the grant cycle.

During the current grant cycle from July 1 through January 31, sixteen families have been referred to the program as a result of their involvement in domestic relations cases. Of those sixteen cases, ten cases have received supervised visitation program services. Of the six cases that did not receive services, three cases failed to correspond with the Great Circle representative to schedule meetings; two cases needed additional documentation prior to approval, which was not received; and one case was dismissed. Eight of the families which participated in the program completed it successfully, one family stopped responding to the visit supervisor, and the visit supervisor requested one parent and child complete individual counseling prior to participating in the program.

The 13<sup>th</sup> Circuit's Family Court supervised visitation and exchange program was established in July of 2009. The program's need has continued throughout the years. So far this year, we have had fewer cases in the program compared to last year, but there are current new referrals, where visits are ready to be scheduled. We anticipate more referrals will be made before the year ends.

As noted above, for fiscal year 2018-2019 we requested \$18,000 and were awarded \$13,000. Through January 2019, \$3,103 has been billed for supervised visitation. The number of families served has decreased compared to the same time period last year, but we anticipate additional referrals being made, and we have three families which will begin visits soon. So far this grant year, families have received 59 direct service hours. We can anticipate at least that many more hours will be billed for the remainder of the current grant year. Already for the month of January 2019, two new families are participating in the program, with three families waiting to have visits scheduled.

\*Estimates

If the current trend of increased referrals persist, the Court should be able to cover the costs of supervised visits with the approved amount of \$13,000, plus the copays each family is expected to pay.

#### Budget Spending Plan

Should our Court be awarded the full amount of \$13,000, we are confident referrals will continue to be made and we will continue the consistent level of service as shown over the last eight years. We also will continue the practice that if a party falls below poverty level, the Court may waive an hourly per diem being paid by the non-custodial party. Great Circle also has informed us that they would continue to partner with the 13<sup>th</sup> Circuit to provide this service to families.

The following chart shows the expected budget spending plan for FY19, based on predictions of families served to date, and in past years. This budget plan includes continuing to contract with Great Circle to provide the supervision by a licensed therapist at \$58.00 per hour.

# of	# of	Cost per	Total Funds	Requested	Additional
Families	Available	Visitation	needed to	funds through	Funds needed
Predicted	Visitation	Hour	provide	DRRF	outside of
to be	hours per		services		Grant to cover
Served	family				expenditures
20	12	\$58	\$13,920	\$13,000	\$920

As mentioned above, the total number of families projected to be served during this grant reporting period is twenty, based on the number of families referred so far for the first and second quarter, and based on data from past years. Currently reimbursement per hour for the therapist to provide supervised visits is \$58 per hour. If each family receives twelve hours of supervised visitation services and qualified for having no co-pay due to income levels, the maximum amount needed would be \$13,920; however the remaining \$920 needed would likely be covered through co-pays. Currently \$3,103 has been spent to provide supervised visitation services. We have collected \$283 in copays so far this year. We request \$13,000 in order to continue to support this program. It is hard, if not impossible, to determine how many referrals will be made for the rest of this year, and next year. Although, the referrals are down this year, we do not assume this trend will continue.

In an effort to continue assuming some of the responsibilities of the cost of this program, the Court will continue to work with Great Circle in having the non-custodial parent pay an hourly per diem based on their income level. For those non-custodial parents who fall below the poverty level, the Court would continue to be allowed to waive a per diem fee, therefore allowing the grant to pay the full hourly rate. It should be noted that during the first six months of the 2018-2019 grant year, \$283 has been defrayed in costs due to collection of co-pays by the non-custodial parents. We have continued to stringently monitor the collection of co-pays by Great Circle to ensure maximum use of the funds provided for families.

Our Court, in collaboration with Great Circle, previously developed a sliding scale worksheet to determine the hourly rate the participant would be required to pay. This scale continues to provide for the fee to be waived if the participant's income is below poverty guidelines as provided by the U.S. Department of Health and Human Services. For families which would be required to pay an hourly per diem, the family will continue to sign an agreement to pay a pre-determined amount before each supervised visitation and should they not be able to pay their amount, the visitation would not occur. It will continue to be up to the contract agency to collect the amount due from the family based on the sliding scale fee and the Court will agree to pay the contract agency the remaining balance of the \$58.00 per hour through contractual services through the DRRF grant. So far this grant year, three families had their fee waived as they had no income being received that could be counted towards the sliding scale and all fell below the minimum income of \$8,000 per year. As mentioned above, co-pays for the non-custodial parents have continued to help defray costs for the program and we will continue to be stringent in monitoring that families pay the appropriate co-pay for their income level. At this time, no other funding sources have been identified, but we will continue to keep the program as low cost as possible to the Courts while maintaining a high level of quality and effectiveness.

### Benefit of Funds for FY19

Ten families have received the benefit of the Supervised Visitation program from July 1, 2018 through January 31, 2019 in the 13<sup>th</sup> Circuit as a direct result of this grant. The children and visiting parents have been given an opportunity to build a lasting relationship that often might not have occurred without this program. The visiting parent has learned valuable information such as how to better communicate and/or interact with their child/children through the assistance of the licensed therapist. The custodial parent has been provided the assurance their child/children are safe and well supervised with the therapist being present.

Surveys collected by Great Circle have been positive. Participants learned new parenting strategies, and were able to establish or re-establish relationships with their children.

Regarding the need for program, Family Court Judge Leslie Schneider stated, the supervised visitation program is overwhelmingly successful in our circuit reunifying children with a non-custodial parent. Not only does the program provide the supervision of reunification, the professionals involved provide the participants, including the custodial parents, much needed parenting training that ultimately impacts on the wellbeing of the child. It has been my observation that those persons who participate in this program return to court much less frequently than other parents with parenting issues. It is one of the more successful programs we have in our circuit." Family Court Commissioner Sara Miller said, families referred to the supervised visitation program benefit tremendously from the services offered by the program. The child has the benefit of meeting a parent or re-establishing a relationship with a parent in a safe and childfriendly setting. The parents benefit from having visitation arrangements coordinated and supervised by an experienced social worker. The feedback to the parents from the visitation supervisor on how to improve visits is critical in assisting the parents in making the transition from little or no contact between the child and the parent to the emergence of a positive parent-child relationship. In situations where additional services such as counseling, treatment, or further parent education are recommended, the court is able to enter appropriate orders to direct the parents in order to achieve the best possible outcome for the family.

The program is well known among the Family Court Judges, Family Court Commissioner, guardians ad litem, and local attorneys which further ensures families will continue to be referred to the program. Our Family Court Administrative Judge Leslie Schneider has given us approval to continue applying for this grant, as it is recognized as a needed resource for domestic Court cases involving children. There is currently a need for this program as it has allowed many Court domestic relations cases such as Ex-parte Child Orders of Protection, Ex-parte Adult Abuse, Dissolutions of Marriage, Paternity, and other Family Court cases to allow visitation between parents and caregivers in a safe, therapeutic environment and helps many cases to be resolved more effectively.

## 13<sup>th</sup> Judicial Circuit Award Data Supervised Access and Exchange Program "Contact for Kids: A Safe Way"

- 1. Services can be provided only to family members where there is a domestic relations case filed in the court.
- 2. The amount of funding for your program or project for the fiscal year is \$9,000.00.

The breakdown of funding expenditure is as follows:

Funding Period	July 1, 2019 – June 30, 2020
Contractual Services	\$9,000.00
Total	\$9,000.00

- 3. If it appears that your court will not use all the funds awarded, the Family Court Committee may, in its discretion, reduce the amount of reimbursement funds to the court. OSCA shall manage funds for this program on a semi-annual basis. During each 6-month period, the award amount must be reduced either by expenditure or by OSCA retracting a percentage of the funding. The court must notify OSCA of any extenuating circumstances that would justify the retaining of funds prior to the end of the six-month period. This is necessary in order to track the fund balance so as to allow additional awards in the future.
- 4. If at any time the court is aware that a portion of the funds are not needed for the project or program, OSCA should be notified so that the excess funds can be made available for additional awards.
- 5. Family Court Committee did not approve the reimbursement of filing fees during this grant period.

Quarterly reports concerning the number of juveniles served and recidivism outcomes should be submitted with a final report being submitted at the end of the funding period. Additional information will be sent out soon.

When entering into contracts for this program, courts should determine if the individual is an employee of the state of Missouri, a member of the General Assembly a statewide elected official or county employee. If this is the case, the court must comply with sections 105.450 to 105.458, RSMo, regarding conflict of interest. Your county purchasing policies and rules will apply to the contracting with individuals that fall into this category.

The county should consider language concerning liability as it relates to the contractor. For example OSCA uses the following in its contracts. "The contractor shall agree that neither the state of Missouri nor the county shall be responsible for any liability incurred by the contractor arising out of the ownership, selection, possession, leasing, rental, operation, control, use, maintenance, delivery, return and/or installation of equipment provided by the contractor, except as otherwise provided in the contract."

Additional language OSCA utilizes in contracts concerning liability is as follows. "The contractor shall understand and agree that the state of Missouri and the county cannot save and hold

The Honorable Kevin Crane June 18, 2019 Page 2

harmless and/or indemnify the contractor against any liability incurred or arising as a result of any activity of the contractor or any activity of the contractor's employees related to the contractor's performance under the contract. Therefore, the contractor must acquire and maintain adequate liability insurance in the form(s) and amount(s) sufficient to protect the state of Missouri, its agencies, its employees, its clients and the general public against any such loss, damage and/or expense related to his/her performance under the contract."

In light of these provisions, your budget narrative is being revised to state the court will contract for personnel services and electronic monitoring services.

The following OSCA staff members have been designated to assist you and your court staff with any additional information you may need related to this program. They may be reached as indicated below:

## Juvenile Justice Program Assistance Funding Proposal-FY19-20 13<sup>th</sup> Judicial Circuit Family Court-Juvenile Division

#### Name & Brief Description of Proposed Program:

#### Supervision:

#### Evening Reporting Center Program

The ERC operates Monday through Friday from 3:30 p.m. until 7:30 p.m., and provides both supervision and a variety of programming to youth conducive towards pro-social learning and behaviors. The ERC is used for various reasons: 1) to transition juveniles leaving detention back into the community; 2) as a sanction for not complying with conditions of informal or formal supervision; 3) as an alternative to detention; or 4) as a condition of release from detention pending Court action. Moral Reconation Therapy is offered to youth two days a week, which helps youth learn pro-social thought patterns to replace anti-social thought patterns. We have also partnered in the past and present with the Boys and Girls Club; Reality House Programs, Incorporated; Compass Healthcare, Incorporated; the Youth Empowerment Zone; True North; Daniel Boone Regional Library; and a variety of other community agencies to provide quality programming for the youth. The Evening Reporting Center originally began operating in 2010 in partnership with the Intersection Youth Facility where it operated with Intersection staff until 2012. In October of 2012, the Juvenile Office began fully operating the Evening Reporting Center with its own staff in the Alternative Sentencing Building, which is owned by Boone County.

#### In-Home Monitoring Services (GPS and Cellular)

The Juvenile Division staff has used In-Home Detention for over a decade as an intervention for youth. We originally began using Voice Verification services and Electronic Monitoring through a home telephone line as provided by Behavioral Interventions, Incorporated; but we now use cellular and Global Positioning Satellite technology for tracking purposes which, incorporate the use of an ankle transmitter fitted to the juvenile's leg to monitor the juvenile's location twenty-four hours a day while allowing the juvenile to remain in the community.

#### Treatment:

Crisis Intervention Services (CIS, previously titled as Intensive Crisis Intervention Services)

This program, which began in 2012, aims to address youth in custody who are encountering domestic issues within the home or problematic behaviors in the school setting. A licensed therapist meets with the family in the home intensively for a two week period to identify issues and formulate a plan of strategies and services to help the family. A written report is completed and given to the Juvenile Officer and the family.

#### Geographic Area & Need for the Program:

The 13th Judicial Circuit is comprised of Boone and Callaway counties which are progressive counties located in the center of the state at the crossroads of major east-west and north-south highways. Demographics are of an urban, semi-urban, and rural composition with a unique degree of ethnic diversity. Boone and Callaway Counties are home to a varying number of minority

populations, including Asian, Native American, Hispanic, African American, and Multi-Racial, in addition to the Caucasian population. Population growth and prospects for additional growth are placing increasing demands on county government. Data for 2017 shows Boone County with a population of 178,271, and Callaway County with a population of 48,512. Both counties have increased in population from 2016 to 2017.

According to information posted on the Juvenile Detention Alternatives Initiative (JDAI) Help Desk website (www.jdaihelpdesk.org), studies conducted on the juvenile justice system across the United States found the system to be "arbitrary, discriminatory, and ineffective". Specifically speaking, the system of detaining youth was faulted across the U.S. In the early 1990s, two out of every three youth who were detained went to detention centers which were overcrowded and which could not provide the programs and services mandated by law. Less than one-third of the youth were in detention for violent offenses and in 1995, two-thirds of the youth in detention were minority youth. Further research posted on the JDAI help desk website shows that youth who are placed in detention with other delinquent youth are more likely to leave detention having more undesirable behaviors than when they entered and further one study conducted in Arkansas revealed that once a youth has been placed in detention one time, their likelihood of returning was high.

In 2018, there were a total of 153 13th Circuit youth admitted to detention producing an average daily population of 4.2 and an average length of stay in detention of 10 days. Youth of color made up 54% of the 13th Circuit youth detained during this period. The number of youth placed in detention has decreased slightly between 2017 and 2018. The number of youth held for felony person and misdemeanor person make up the largest number of youth in detention. The 13<sup>th</sup> Circuit has historically used the Missouri Juvenile Detention Assessment instrument to score every juvenile in custody. The 13<sup>th</sup> Circuit also has a very low over-ride rate, which indicates youth who are being detained are a risk to the community.

In addition to reviewing the 13th Circuit's assessment tools for detention, in 2011, the 13th Circuit developed a Disproportionate Minority Contact Committee to look at racial disparity in the juvenile justice system through technical assistance from the Annie E. Casey Foundation, Missouri Juvenile Justice Association, and Office of State Courts Administrator. In 2008, a study was conducted by the Office of State Courts Administrator in conjunction with the Missouri Juvenile Justice Advisory Group, Missouri Department of Public Safety, and the Missouri Juvenile Justice Association. The study found that Boone County had a relative rate index (RRI) of 7.7 for African American youth referred to the juvenile justice system. According to this report, the relative rate index measures the over or under representation of minorities at certain contact points in the juvenile justice system.

In 2008, this relative rate index shows that African American youth were referred to the juvenile justice system in Boone County Missouri 7.7 times more than their Caucasian counterparts which can lead to over representation of youth of color in juvenile detention facilities. According to a Disproportionate Minority Contact data analysis report for Boone County, Boone County's RRI was 4.8 in 2016. This is down from 5.4 in 2015. This indicates that the efforts through JDAI have had an impact on decreasing these numbers, but the 13<sup>th</sup> Circuit continues to strive to reach the statewide RRI of 2.8. As of the date of this report, RRI data for 2017 and 2018 is not available.

Admissions data for 2018 above illustrates that the top five reasons for detention were: 1) felony person, 2) misdemeanor person, 3) felony property, 4) drug offense, and 5) misdemeanor property. According to experts in the field of Juvenile Justice, professional standards suggest that secure detention should be used to make sure that the youth appears in court and to minimize the risk of serious re-offending while waiting to appear in court. Prior to January 1, 2010, in the 13th Circuit, the decision to detain youth was at the discretion of 14 different deputy juvenile officers, leaving

the decision to detain or not, to be highly subjective. At that time, the 13<sup>th</sup> Circuit had guidelines to follow when making a decision to detain, however the reason to detain was based generally on criteria such as the offense committed, how cooperative the youth/parents were, whether or not they had a suitable adult to supervise them, and the need to hold youth accountable for their actions. All these factors could be influenced by the youth's attitude, pressure from law enforcement to authorize detention, the deputy juvenile officers' frustration in not knowing what else to do with the youth as well as the responsibility to public safety.

On January 1, 2010, the Thirteenth Circuit Juvenile Division began using the Missouri Juvenile Detention Assessment (JDTA) on all youth who were presented for detention whom the juvenile office had in-person contact with. In 2012, the Missouri Juvenile Detention Assessment was implemented for all youth presented by law enforcement. The table below shows how many youth scored within each of the three risk levels on the form for the years 2015 to 2018.

Year	High	Medium	Low .	Total for Year.
2015	105	145	514	762
2016	123	129	491	743
2017	98	128	429	655
2018	107	93	323	523

Table 2: 13th Circuit JDTAs Administered 2012-2015

In 2018, there were 41 overrides of the JDTA instrument. This amounted to a total override rate of 7.8%. This percentage decreased from 2017, when our total override rate was 8.5%. JDA1 focuses on the rate of those youth eligible for release or release with a detention alternative who were placed in detention. In 2018, our override to detention rate was 5%. This rate was lower than our projected goal of 10%. Our override rate continues to remain well below our projected goal and the maximum-recommended override rate. The use of the JDTA has greatly improved our process of determining which youth are appropriate for detention. In using the JDTA form, it has helped create an objective decision making process for all youth.

While the court has strived to work on creating and maintaining alternatives to detention, one major obstacle is funding. The circuit began providing GPS and Cell Unit Monitoring in March 2011, but found that this alternative was cost prohibitive for families. The court used Title II funds to help families who were determined indigent by the Court; however, this funding ended on September 30, 2012. Title II dollars were also used to pay for Shelter Care as an alternative to detention. The circuit has provided Shelter Care as an alternative to detention since April 1, 2010. OSCA began funding CIS, Shelter Care, some ERC services, and In-Home Detention in July 2013 through the Juvenile Alternatives to Detention Program Grant. Starting in July 2014 these programs were funded through the Juvenile Justice Program Assistance Grant which continues to the present. For fiscal year 2018, we ceased use of Shelter Care, due to under-utilization of the program and due to a decrease in funding. We still utilize CIS, ERC, and In-Home Detention.

Funds are being requested to continue to pay for the use of GPS and cell units for electronic monitoring for all youth placed on In-Home Detention through cell and GPS units as an alternative to detention and a sanction.

In terms of funding requested for the Evening Reporting Center, there are two major costs: Moral Reconation Therapy ("MRT"), and meals. The circuit has an agreement with Reality House

Programs, Incorporated, which provides a licensed therapist to facilitate MRT to the youth participating in the Evening Reporting Center at a cost of \$35.80 per unit, for two days a week. A unit is equivalent to 1 hour. MRT requires the use of workbooks for which funding is needed. MRT was originally covered through a diversionary grant through the Missouri Division of Youth Services; however, funding was depleted at the end of December 2014, and a Juvenile Justice Program Assistance Grant Amendment was submitted to allow it to be covered starting in January 2015 through the end of June 2015. This continues to be funded through the Juvenile Justice Program Assistance Grant. There are also costs associated with providing daily meals for the youth at the Evening Reporting Center. The circuit uses the United States Department of Agriculture Guidelines to provide cold meals for youth which consists of two slices of bread and youth's choices of either peanut butter and jelly, or sandwich meat; snack crackers; a fruit cup or pudding and a nutritious drink with appropriate daily values of vitamin C. The circuit requests minimal funding for Evening Reporting Center supplies such as paper plates, food preparation gloves, paper towels, cups, and wet wipes for food cleanup. In addition, youth do a variety of educational and art activities and the circuit requests funding for minimal art supplies such as paper, paint, markers, colored pencils, glue, and safety scissors for these activities.

In 2011, Crisis Intervention Services were developed to address situations involving youth in custody by law enforcement for domestic related status offenses or law violations as well as disruptive school behavior. The therapist makes recommendations for additional services for the families and a final meeting is held with the family, therapist, and Juvenile Office representative to ascertain the success of the program. The therapists who provide the Crisis Intervention Services have assisted families in scheduling therapy services for families, they have provided referrals for substance abuse assessments, and have assisted families in finding pro-social activities, both in the community and at the schools. In addition a stakeholder survey is completed by the family served. These services were funded through the Annie E. Casey Foundation until 2012, juvenile diversion funds were received through OSCA that helped the 13<sup>th</sup> Circuit continue to fund these services and now have been funded through the Juvenile Justice Program Assistance Grant since July 2014.

The 13th Circuit wants to continue to offer Crisis Intervention Services, a detention alternative that addresses the immediate crisis needs facing youth age 8-16, who are in custody with law enforcement for domestic related status or law violation offenses as well as for disruptive school behavior. CIS can also be used as a sanction for youth under supervision who are experiencing disruptive behavior in school or domestic issues in the home who may not be in the custody of law enforcement, but need a more immediate response to their current issues. CIS can also be used for youth whose parents have referred them to the Juvenile Officer.

The 13th Circuit used several of these alternatives to detention more frequently as a sanction for youth in 2018 who are already under the jurisdiction of the court as a means to address dangerous or problematic behaviors in lieu of placement at the Robert L. Perry Juvenile Justice Center for detention or evaluation. Currently, the circuit regularly uses both cell and GPS In-Home Detention as well as the Evening Reporting Center as sanctions for violations of a juvenile's supervision, which overall have been very successful in addressing problematic behaviors in lieu of detention. Also several youth who have scored a release on the Missouri Juvenile Detention Assessment, but had a supervisory approved override up, were assigned to the CIS program when a simple release back to the family was not seen as suitable by the Deputy Juvenile Officer, parent, and the youth, and more intervention was needed.

In 2011, the 13th Circuit researched and worked to establish a uniform sanctions grid to respond to technical probation violations. With the creation of the sanctions grid, the Evening Reporting Center and In-Home Detention are used to respond to serious and persistent technical probation violations such as persistent school problems, youth who run away from home for extended periods of time, and youth who fail to report to see their Deputy Juvenile Officer as directed on multiple, consecutive occasions. Multiple youth who had been detained at the Robert L. Perry Juvenile Justice Center were released at the detention hearings pre-adjudication to participate in several alternatives to detention such as CIS, ERC, and In-Home Detention once it was determined that further detention was not needed pending adjudication and disposition. Furthermore, several youth were released from the Robert L. Perry Juvenile Justice Center postadjudication, pre-disposition, which were being evaluated on the program side of the Robert L. Perry Juvenile Justice Center. This allowed further evaluation of the youth in the community while participating in the Evening Reporting Center or In-Home Detention as a step down to a less secure environment, but with some restriction of movement and services in place.

Several youth have also participated in the Evening Reporting Center and In-Home Detention post-adjudication and post-disposition as a supervision sanction when it was determined that some problematic behaviors persisted that needed further restriction and monitoring, but did not rise to the level of detention or placement at the Robert L. Perry Juvenile Justice Center.

#### **Target Population & Selection Process:**

The 13th Circuit began participating in JDAI in October of 2009. It was not until January 1, 2010, that the 13th Circuit officially began using the Juvenile Detention Assessment (JDTA) to screen referrals to detention. Shortly thereafter, other JDAI core strategies were being researched and implemented in our circuit in efforts to reduce the unnecessary use of detention in the 13<sup>th</sup> Circuit and develop alternatives to detention for youth in the community.

A primary tool used by the Juvenile Division in delinquency and status offense cases is the Risk and Needs Assessment Form. A risk assessment is completed on juveniles at the point of intake and helps guide decision-making regarding disposition as well as an appropriate level of supervision. A risk/needs assessment is completed on all youth who receive a referral for status and delinquency offenses. Some of the information gathered for risk and needs is based on selfreporting information provided by parents and children as well as information gleaned from the juvenile's file. Each youth has a risk and needs level assigned which is also used in determining whether to use the Evening Reporting Center, In Home Detention, Crisis Intervention Services, or Shelter Care as a possible sanction to addresses referrals or inappropriate behaviors reported to the Juvenile Officer. A sanctions grid is employed by the 13<sup>th</sup> Judicial Family Court-Juvenile Division in determining the correct sanction for youth.

Our target population is any youth who is presented to the Juvenile Officer in custody by law enforcement, and who is subsequently assigned a score on the Missouri Juvenile Detention Assessment Form as well as any youth under Informal or Formal Supervision who has had violations of supervision and require an increased response to these violations according to the risk/needs assessment and graduated sanctions matrix.

#### Service Provider:

The 13<sup>th</sup> Circuit has been fortunate in that those agencies or individuals providing services for us have remained relatively stable over the past several years.

**CIS:** We continue to partner with two local counseling agencies to provide Crisis Intervention Services. Ellis and Associates and Affinity Counseling each provide us with a therapist that is a licensed therapist in the state of Missouri and has a master's level of education. Sarah Gray of Ellis and Associates has been providing CIS services for us since 2011. She has a Masters in Educational Psychology and is a Licensed Professional Counselor in the state of Missouri, having practiced therapy for over ten years. In addition Dr. Jacqueline Ellis, the founder and owner of Ellis and Associates, has a Doctorate in Educational Psychology and is a Licensed Psychologist in the state of Missouri. Another employee of Ellis and Associates, Pat Burns, who also offers advice on CIS cases, has a Masters in Clinical Social Work and is a Licensed Clinical Social Worker in the state of Missouri. It should be noted, as of January 1, 2019, Dr. Ellis has retired, and will no longer be providing services to families through the CIS program. Sarah Gray will continue to provide those services. Tanya Weigand also has been providing CIS services for us since 2011 through her company Affinity Counseling, LLC. She has a Masters in Clinical Social Work and is a Licensed Clinical Social Worker in the state of Missouri Is partners have been very consistent in their services.

**GPS/Cell Monitoring:** The 13<sup>th</sup> Circuit continues to partner with Behavioral Interventions, Incorporated for all of our In Home Detention Monitoring needs for well over a decade and we continue to receive consistent and innovative monitoring services from this business agency. For further information regarding their services, please review their website at <u>www.bi.com</u>.

Evening Reporting Center: Reality House Programs, Incorporated continues to provide us with Moral Reconation Therapy at our Evening Reporting Center. Blair Campier is a certified provider of both adult and juvenile MRT services. We have partnered with Reality House programs for this service since 2012. We also partner with multiple agencies in the Columbia/Boone County area to provide many other services free of charge as mentioned previously such as Compass Health, Incorporated, Daniel Boone Regional Library, Urban Agriculture, True North, Youth Empowerment Zone, Columbia Police Department, Missouri Highway Patrol, Boone County Sheriff's Department, the Columbia/Boone County Health Department, and several others as noted in our resource provider list.

#### Number of Youth Served and Hours of Service:

<u>CIS</u>: The circuit estimates that approximately thirteen youth and families would be served at \$625 per youth/family, which comes to \$8,125. Specifically, this breaks down to each family receiving approximately nine hours of service weekly for two weeks, giving each family approximately eighteen hours of crisis intervention services. This figures out to an hourly rate of \$34.72. The \$625 payment to a provisionally or fully licensed clinical social worker or professional counselor would cover any mileage or administrative cost associated with them providing this service. This would be a total of 234 estimated hours of service during the grant period.

The circuit arrived at this estimate because during the previous grant cycle, the circuit had nine youth referred to the CIS program and six youth who actually participated. Due to the reduction in grant funds for the 2018 fiscal year, we curtailed use of CIS, as we determined ERC and In-Home Detention were more beneficial, so we wanted the bulk of funds spent on those programs. During the current grant cycle, we had two families referred to the program, with one family participating in and completing the program. We plan to continue using this program as a sanction for youth who are having difficulties in the home, whose behaviors have led to a referral to the Juvenile Officer. The clinicians who provide services for this program dedicate a minimum of 16 direct-service hours to the family they are serving. The clinician provides the services for approximately 30 days. Over the years, his program is used more frequently for families in Callaway County, due to the lack of services in Callaway County, compared to Boone County.

#### **GPS/Cell Unit Monitoring:**

One of our case processing goals is to have all youth placed on in-home detention be released from the program within fourteen days. It is our Circuit's policy and practice to release youth at their first court appearance if they have had no problems or concerns while on in-home detention. The circuit continues to have the goal of setting each of these youth for first appearance within fourteen days of being placed on in-home detention. During the current grant year, July 1 through the present, the average number of days youth have been placed on home detention as an alternative to detention has been approximately eighteen, which is an increase of one day from the previous grant year, and slightly above our goal on the in-home detention program. It should be noted we had fewer participant this year who were unsuccessful on the program, therefore, our number of average days is expected to be higher. Our Circuit continues to have the goal of putting more of our technical probation violators who are in custody and who score detention on GPS or Cell Unit Monitoring, instead of those youth having to be placed in detention. If they are placed in detention, the Circuit looks to immediately release them at their detention hearing on in-home detention until their next court appearance. For the current grant year and for the coming year, we will be looking to cover all youth placed on In-Home Detention as an alternative to detention and post adjudication/post disposition sanction. Based on current usage patterns, we estimate providing 1180 days of Cell Unit Monitoring or GPS monitoring for approximately twenty days each to fifty-nine youth based on current usage patterns.

**Evening Reporting Center:** We would like to continue funding Moral Reconation Therapy through the Juvenile Justice Programming Assistance Grant as it is such an integral part of the programming at the Evening Reporting Center and would allow for greater continuity of programming and costs. Moral Reconation Therapy is an evidenced-based model of treatment. So far during this grant period, five youths have participated in the Evening Reporting Center, with an average number of days of 27.6. There are currently two youth participating in the Evening Reporting Center, who are reflected in this number. We would look to continue the use of this program as not only an alternative to detention, but also as a sanction for youth. This would entail each youth participating in MRT therapy two days a week for approximately five sessions or ten units in two weeks. MRT therapy is \$35.80 per unit or per one-hour session. Sessions are 1.5 units or \$53.70 per daily session or \$537 for ten units in a two-week period. The cost of MRT per youth increases as fewer youth participate, as it is a group therapy method. It will be our goal to have at least two youth at the ERC when it is being used. MRT workbooks are \$25.00 for each youth for a cost of \$500 for 20 youth.

We anticipate a consistent use of this program not only as an alternative to detention, but also as a sanction for youth to remain in the community with closer supervision and treatment as we have streamlined usage of the program so that youth who are referred to the Evening Reporting Center as a sanction no longer require a court order to participate. In addition, youth under Informal Supervision are now allowed to participate as a sanction for behaviors.

#### **Fidelity Plan:**

The 13<sup>th</sup> Judicial Circuit uses two main ways to ensure adequate utilization of each service. For youth who are presented to the Juvenile Officer in the custody of law enforcement and who

subsequently score between 10-14 on the JDTA, which would indicate an alternative to detention, the deputy juvenile officer must consider an alternative to detention such as In-Home Detention, the Evening Reporting Center, Crisis Intervention Services, a Conditional Release, or some other community alternative such as mental health treatment. In the event the deputy juvenile officer feels that an alternative to detention is not appropriate, an override up or down must be obtained from a supervisor with an explanation of why an override of the JDTA score is recommended.

Next, for youth who are under informal or formal supervision of the court, if the deputy juvenile officer has reviewed a youth's risk/needs score and consulted with the graduated sanctions matrix, the Deputy Juvenile Officer must obtain permission from a supervisor prior to placing a juvenile in one of the programs listed above. The deputy juvenile officer must also request permission prior to submitting a petition or motion to modify for filing in court to determine whether a sanction such as the ones listed above would be more appropriate than a formal filing in court. These methods help to ensure that youth are receiving the appropriate alternative to detention or sanction for the presenting behavior.

<u>Day Treatment Program</u> This year, we are again including in our request, funding for our Day Treatment Program. It is an alternative educational program offered since the 2015-2016 school year at the Robert L. Perry Juvenile Justice Center and in cooperation with the Columbia Public Schools. The Day Treatment Program follows the Columbia Public Schools calendar and is in session during the regular school year, Monday through Friday, from 8:15am to 3:15pm. The program provides support, supervision, and educational and therapeutic programs in a structured environment for the purpose of maintaining youth in the community. Youth who are referred to the Day Treatment Program will be provided an education, supervision, tutoring assistance with school homework assignments, programming, and breakfast and lunch. Through the Day Treatment Program, youth are expected to demonstrate appropriate school behaviors and are encouraged to make good character choices, all in a safe environment.

Youth referred to the Day Treatment Program at the Robert L. Perry Juvenile Justice Center are Wards of the Court and can be referred by school staff or their Deputy Juvenile Officer. Youth can be referred for several different issues, including being suspended or expelled from their Columbia Public Schools home school location due to a serious offense, having significant truancy issues for a variety of reasons, and other behavioral circumstances. The Day Treatment Program can also be used as an educational transition from school at the detention center as a resident is returning to the community and attending the small-scale school setting, before returning to their home school. The length of participation varies from youth to youth, anywhere from a few weeks to a full school year.

#### Need for the Program:

Providing a youth involved with the juvenile justice system an education in a safe environment has been linked to decreases in rates of recidivism and a better educational experience, including successful reintegration into the community upon leaving detention. One study found that only 12% of formerly detained youth complete a high school degree or GED after being released from detention. Youth in the 13<sup>th</sup> Circuit were leaving detention and facing extended suspensions or expulsions from their home schools and without an option to continue their education in a traditional setting. Some students qualified for homebound instruction, which included approximately five hours of educational instruction per week. The majority of the youth detained were significantly behind in their academic progress; anywhere from one to two semesters behind in earning credits. One study found that 65% of youth admitted to detention had special education needs. Problems such as low achievement, vocabulary, and verbal reasoning increased

delinquency predictions by 27%. Furthermore, while the average age of a youth in detention is 15 1/2, the average reading level is  $4^{th}$  grade.

During the last half of the 2015-2016 school year, the Day Treatment Program was started at the Robert L. Perry Juvenile Justice Center to address the lack of an educational program available to Wards of the Court facing extended suspensions and expulsions. Youth accepted into the program attend a full school day at the facility, but then return to their home in the community outside of school hours. Youth are able to participate in an online credit recovery program under the supervision and guidance of teaching staff with the Columbia Public Schools. All of the educational materials needed to participate are provided to the youth. The current program allows for ten Day Treatment students to participate. This small number is due to the supervision and educational assistance necessary to maintain a safe and secure educational environment for the youth. During the 2015-2016 school year, 16 youth were referred. During the 2016-2017 school year, 18 youth were referred. During the 2017-2018 school year, 13 youth were referred. For those thirteen youth, they completed 6 credits during their time in Day Treatment. So far, during the 2018-2019 school year, 16 youth were referred. For those thirteen youth completed 8 credits. Several youth begin the program and remain in the program for a full semester or up to a year.

Youth participating in the program thrive in the small class setting and the supervision and structure of the facility. Youth work at their own pace with the PLATO online credit recovery program and are able to pass a full semester course within 2-3 weeks. This option has allowed several youth in the program to recover lost credits and any work they start can be transitioned to their home school. Youth, their families, school officials, and 13<sup>th</sup> Circuit staff have seen the benefit of the Day Treatment Program educational option. Currently, the need for more than five student spots has outgrown the means to provide adequate supervision and educational support. Funds are being requested so that we can continue to provide this beneficial program to all youth that are referred and in need of an alternative educational setting. The Columbia Public Schools is researching means to provide an additional teacher for the program, however the need for an additional facility staff member to provide supervision and tutoring to a growing number of Day Treatment students will be needed.

#### Service Provider:

Columbia Public Schools provides the qualified teaching staff for the Robert L. Perry Juvenile Justice Center and the Day Treatment Program students. Currently, there are four different classrooms in the facility. There are two full-time teachers and one full-time instructional aide; with one of those full-time teachers dedicated to students in the Day Treatment Program.

#### Number of Youth Served and Hours of Service:

Based on the number of referrals received for youth to participate in the Day Treatment Program, we would like to have ten students, at any one time, in the Day Treatment Program. Depending on the length of participation by the student, the Day Treatment Program could provide services to an estimated 10-25 youth per school year. Funding is being sought to request a new county employee be reimbursed to provide supervision and tutoring of the Day Treatment Program students. There is a need for these services for approximately 7 hours per school day. There are approximately 172 days of school. The rate of a Program Assistant Tutor is \$10.24 per hour. We would request \$12,328.96. In the alternative, we would request funding for approximately 4 hours per school day. This would amount to \$7,045.12

#### **Fidelity Plan:**

Youth (and their parents) referred to the Day Treatment Program by their Deputy Juvenile Officer or Columbia Public School officials complete an interview for participation. The youth's educational records including attendance, grades/credits earned, special education needs, and behaviors are reviewed. If accepted, the Court is made of aware of and approves of the youth's participation. The youth sets educational and behaviors goals, which is monitored by school and facility staff during their participation. The youth will also be instrumental in creating a plan of transition from the Day Treatment Program to their home school.

#### **Budget Narrative:**

Day Treatment Program: We would like to have up to ten students in the program, at any one time. Depending on the length of participation in the program, it is estimated that 10-25 youth could participate in a school year. For the expansion of this program, a Program Assistant Tutor would be needed to provide the additional supervision and educational support to these students. There is a need for these services for approximately 7 hours per school day. There are approximately 172 days of school. The rate of a Program Assistant Tutor is \$10.24 per hour. We would request \$12,328.96. In the alternative, we would request funding for approximately 4 hours per school day. This would amount to \$7,045.12.

As a new program request, we have prioritized funding of the Day Treatment Program below the already existing programs that have been established and funded in years past. To fully fund the Day Treatment Program as previously mentioned, the \$12,328.96 would push our total amount requested beyond the initial limit of \$25,000.00 per jurisdiction. Therefore, we would alternately proposed a partially-funded Day Treatment Program at \$7,045.12 to keep within the \$25,000.00 limit. We would request the difference in funding (\$5,283.84) in the event that other jurisdictions do not use their funding.

#### **Budget Narrative:**

<u>CIS</u>: \$625/juvenile and family x 13 juvenile/families = \$8,125. This breaks down to approximately 18 hours of counseling and crisis services from a provisionally or fully licensed clinical social worker or professional counselor over a two-week period at \$34.72/hour. The \$625payment to a provisionally or fully licensed clinical social worker or professional counselor would cover any mileage or administrative cost associated with them providing this service.

<u>GPS/Cell Unit Monitoring</u>: \$4.24/day x 658 days of Cell Unit Monitoring =\$2,789.92 and \$4.35/day x 168 days of GPS monitoring = \$730.80 for a total of **\$3,520.72** The circuit estimates providing 658 days of Cell Unit Monitoring to 47 youth for approximately 14 days each which comes to \$59.36 per youth. The circuit also estimates providing 168 days of GPS monitoring to 12 youth for approximately 14 days each which comes to \$60.90 per youth.

<u>Evening Reporting Center:</u> The cost per youth is \$172.29, which includes \$147.29 for MRT per youth, and \$25.00 for an MRT workbook per youth. Therefore with 20 youth at \$172.29 for each youth. = \$3,445.80

<u>Prioritization</u>: Our prioritization would be to fund CIS, GPS/Cell Unit Monitoring, and Evening Reporting Center first, and the partial Day Treatment Program. If additional funds are available, we would request funding for the full Day Treatment Program.

Summarization:

CIS: \$8,125.00 GPS/Cell Unit Monitoring: \$3,520.72 Evening Reporting Center: \$3,445.80 Partially-funded Day Treatment Program: \$7,045.12

Total Funding Request for these programs: \$22,136.64 Funding Request for additional funds for Day Treatment: \$5,283.84

Caryn:

We have approximately \$120,000 left in 2040-26200. It looks like we could utilize up to \$100,000 to re-rock all of the flooded roads once the water subsides. There are a few areas that are on levees that are non-existent in parts, we will have to wait for the levee associations or levee boards to fix them to be able to apply rock. We also may qualify for FEMA funding but that is uncertain. If we do qualify then we may see an 80% return in funding (not just material but labor and equipment expense).

In a normal weather year, we usually expend approximately \$450,000 for rock from July to December. 450,000 minus 120,000 plus 100,000 would put the amendment amount at \$430,000.

We will still need the available funding in 2040-26201 (vendor hauled rock) for planned projects.

The reason for the need for additional funding was caused by the uncharacteristically wet winter coupled with highly variable temperatures (freeze/thaws) at the worst possible times and additionally the pending flood repair work.

If this does not make sense or needs additional thought, please let me know.

Thanks, Greg

#### 12. WITHDRAWAL OF BIDS:

Bids may be withdrawn without prejudice any time before the deadline for receipt of bids. If a mistake or error is discovered by the bidder or by the Cooperative after the bid opening, the Cooperative has the right to call this error to the bidder's attention and request verification of the bid. If the bidder acknowledges the mistake and requests relief, the Cooperative will proceed in the following manner:

a. Clerical Mistakes: Any mistake which is obviously a clerical one, such as an error in price extension, or in placement of decimal points, reversal or prices, etc., may be corrected by the Cooperative after verification is made by the bidder. However, the unit price shown shall always prevail.

b. Withdrawal: Permission to allow a bidder to withdraw his bid without prejudice may be given when clear and convincing evidence supports the existence of an error. If there is a significant and obvious disparity between the prices of the lowest bidder and of the other bidders, a bidder may be permitted to withdraw without prejudice, upon submission of evidence that a non-intentional error occurred.

c. Actual changes in bid pricing, terms or conditions will not be permitted after the deadline for receipt of bids.

13. The Cooperative reserves the right, when only one bid has been received by the bid closing date, to delay the opening of bids to another advertised date and time in order to revise specifications and/or establish further competition for the commodity or service required.

Awards will be made to the bidder whose bid (1) meets the specifications and all other requirements of the RFB and (2) is the lowest and best bid, considering price, responsibility of the bidder and all other relevant factors. Any award of a contract will be made by written notification from the Cooperative. The Cooperative reserves the right to award to one or multiple respondents.

a. The Cooperative reserves the right to award an order to the lowest aggregate bidder for all items or on an item basis, or a group of like items, whichever is found to be in the best interest of the Cooperative. If a split award is not acceptable to a bidder, it must be stated in the bid response.

b. - 9. In case of any default by the bidder, the Cooperative Member Agency may procure the product or service from other sources and hold the bidder responsible for any damages incurred including, but not limited to, excess cost or handling charge. ### 12. WITHDRAWAL OF BIDS:

Bids may be withdrawn without prejudice any time before the deadline for receipt of bids. If a mistake or error is discovered by the bidder or by the Cooperative after the bid opening, the Cooperative has the right to call this error to the bidder's attention and request verification of the bid. If the bidder acknowledges the mistake and requests relief, the Cooperative will proceed in the following manner:

a. **Clerical Mistakes:** Any mistake which is obviously a clerical one, such as an error in price extension, or in placement of decimal points, reversal or prices, etc., may be corrected by the Cooperative after verification is made by the bidder. However, the unit price shown shall always prevail.

b. **Withdrawal:** Permission to allow a bidder to withdraw his bid without prejudice may be given when clear and convincing evidence supports the existence of an error. If there is a significant and obvious disparity between the prices of the lowest bidder and of the other bidders, a bidder may be permitted to withdraw without prejudice, upon submission of evidence that a non-intentional error occurred.

c. Actual changes in bid pricing, terms or conditions will not be permitted after the deadline for receipt of bids.
