VENDOR INPUT FORM INSTRUCTIONS

The purpose of this form is to add a vendor record or to make changes to a vendor record. A vendor is a person or business being paid by the State of Missouri.

THESE FIELDS ARE REQUIRED TO BE COMPLETED FOR ALL CIRCUMSTANCES. (SHADED FIELDS)

Enter NAME/ADDRESS AS SHOWN ON FEDERAL TAX RETURN.

Enter the FEDERAL TAX ID NUMBER OR SOCIAL SECURITY NUMBER that is used for income taxes for the name entered.

Check the correct TYPE OF ENTITY.

Signature is required at VENDOR SIGNATURE along with PRINT NAME, TITLE, TELEPHONE, and DATE.

CONDITIONAL FIELDS

If payments are to be sent to a different address, enter a REMIT TO NAME/ADDRESS.

If purchase orders are to be sent to a different address, enter a PURCHASE ORDER NAME/ADDRESS.

If you are making a change to your vendor record, fill out these additional fields:

DATE OF CHANGE is the effective date of the change in business structure/activity

PREVIOUS FEDERAL TAX ID NUMBER OR SOCIAL SECURITY NUMBER

PREVIOUS NAME

PREVIOUS ADDRESS

COMMENTS are for additional information that may be helpful including reason for the change.

TO SET UP OR TO CHANGE DIRECT DEPOSIT INFORMATION, FILL IN THE FOLLOWING, INCLUDING THE REQUIRED FIELDS FROM ABOVE.

NAME/ADDRESS OF FINANCIAL INSTITUTION where you want the money to be deposited. A representative from the financial institution must complete and sign this section.

Check appropriate box for electronic deposits.

If changing bank account information, fill in DATE OF CHANGE.

CERTIFICATION FOR INTERNAL REVENUE SERVICE (IRS)

This certifies that the Taxpayer Identification Number (TIN) on this form is the correct number and whether backup withholding applies.

State of Missouri Public Assistance Grant Certifications Form

The individuals identified below are hereby authorized to execute and file Application for Public Assistance on behalf of the designated jurisdiction for the purpose of obtaining and administering available state and federal financial assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, (Public Law 93-288 as amended) or otherwise available. These individuals are authorized to represent and act for this jurisdiction in all dealings with the State of Missouri for all matters pertaining to such disaster assistance required by the agreements and assurances listed on FEMA Form 20-16, the SEMA Public Assistance Program Checklist, and the SEMA Audit Compliance Requirements Checklist. By signing this certification we are verifying that we have read and understand the information and requirements listed on the three documents mentioned above. We further understand that we remain responsible for compliance with all other pertinent federal, state, and local policies and procedures in the administration of Public Assistance funds received as a result of this application. Failure to comply with these requirements will result in the de-obligation of federal/state funds associated with that non-compliance.

MISSOURI STATE EMERGENCY MANAGEMENT AGENCY (SEMA) PUBLIC ASSISTANCE PROGRAM CHECKLIST

- 1. The (applicant) sub-recipient must identify and report all Disaster related damage within sixty days of their Scoping meeting with FEMA. Damages identified after FEMA has conducted the (applicant) sub-recipient exit briefing must be reported to SEMA.
- 2. (Project Worksheets/PWs/SA's) Sub-award's are written to restore disaster damaged eligible facilities to their pre-disaster condition and function.
- 3. Codes and Standards which change the pre-disaster construction of a facility are eligible for consideration only if they are in writing and they were formally adopted by the (applicant) sub-recipient **PRIOR** to the disaster declaration date or if they are a legal Federal or State requirement applicable to the type of restoration.
- 4. (Applicants) Sub-recipients must follow the Scope of Work (SOW) in the approved (PW/SA) sub-award. Work not identified in the scope of work is ineligible. The (applicant) sub-recipient is responsible for informing SEMA of any condition(s) that create a need to change the Scope of Work <u>BEFORE</u> incurring costs or proceeding with the work.
- 5. All project work must be completed by the project completion deadline assigned to the applicable (PW/SA) sub-award. Only costs incurred up to the approved completion date will be considered for reimbursement. If additional time is needed, due to circumstances beyond the control of the (applicant) sub-recipient, a written request must be sent to SEMA **PRIOR** to the existing completion date.
- 6. The (applicant) sub-recipient <u>MUST</u> submit a written request for an Improved or Alternate project to SEMA and receive a written approval prior to starting construction.
- 7. An (applicant) sub-recipient may submit an appeal for additional small project funding if the actual cost for <u>ALL</u> small projects exceeds the approved project amount for <u>ALL</u> small projects by 15% or more. The written appeal must be submitted to SEMA no later than 60 days after the last small project work was completed. The appeal must include cost documentation for ALL small projects.
- 8. The FEMA Project Completion and Certification Report P.4 must be completed, signed and returned to SEMA once the project work of the (PWs/SAs) sub-awards on the P.4 is completed.
- 9. Suspended (PWs/SAs) sub-awards will not receive funding until ALL the requirements identified in the comments section of the (PW/SA) sub-award are met.
- 10. (Applicants) Sub-recipients with large (PWs/SAs) sub-awards must submit a project cost summary and all associated invoices to SEMA following the completion of each large project. The project cost summary must list all labor, equipment, materials, and contract costs associated with the (PW's/SA's) sub-award's scope of work.
- 11. The (applicant) sub-recipient understands and accepts responsibility under the Code of Federal Regulations (CFR) Section 13.21 to minimize the time elapsing between the transfer of funds to us and the disbursement of those funds.
- 12. The (applicant) sub-recipient shall promptly, but at least quarterly, remit interest earned to SEMA for return to FEMA.

SEMA PA-1 FORM

- 13. The Missouri State Prevailing Wage Laws are applicable for all public works construction that would have previously been covered. The Governor will determine the applicability of the Missouri State Prevailing Wage Laws for each disaster.
- 14. The (applicant) sub-recipient certifies that they will not contract with any entity identified on the General Services Administration System for Award Management (SAM), <u>https://www.sam.gov/portal/SAM/#1</u>, Excluded Parties List (Debarred List) or the Missouri State Attorney General's Know MO web link, https://ago.mo.gov/app/search.
- 15. The (applicant) sub-recipient certifies they will adhere to Revised Statutes of Missouri (RSMo) Sections 285.525 through 285.555 regarding the hiring of Illegal Immigrants by the (applicant) sub-recipient or any contractor or subcontractor. We understand that failure to comply with this requirement will subject us to the penalties described in the references mentioned above.
- 16. The (applicant) sub-recipient is required to submit quarterly reports to SEMA on all projects that have not received final payment.
- 17. The (applicant) sub-recipient may appeal any determination previously made by FEMA or SEMA. The (applicant's) sub-recipient's appeal must be made in writing and submitted to SEMA within sixty (60) days after receipt of notice of the action which is being appealed.
- 18. If an (applicant) sub-recipient expends \$750,000.00 or more in total Federal financial assistance in one (applicant) sub-recipient fiscal year (including **ALL** Federal funds, not just disaster assistance) a copy of the Single Audit or Program Audit (as required by the Single Audit Act of 1984) must be submitted to SEMA.
- 19. Complete records and cost documents for all approved work and reimbursements must be maintained for at least three (3) years from the date the last project was completed or from the date the final payment was received, whichever is later. During this time, all approved (PWs/SA's) sub-awards are subject to State and Federal audit review.
- 20. No payments will be made on projects requiring a Corps of Engineers permit or Missouri Department of Natural Resources 401 permit until the approved permits are received at SEMA.
- 21. The (applicant) sub-recipient will immediately notify SEMA if/when they receive any other funds (insurance, CDBG, DNR, USACE, donations, etc.) that will be applied to the (PW/SA) sub-award Scope of Work or non-Federal share.
- 22. Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms. The (applicant) sub-recipient must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. See 2 CFR §200.321 for additional details.

SEMA PA-1 FORM

Missouri State Emergency Management Agency (SEMA) Audit Compliance Requirements Checklist

As a result of recent decisions by the U.S. Department of Homeland Security Office of the Inspector General (OIG) it has become necessary to obtain additional certification of each Public Assistance (applicants') sub-recipients' understanding of federal requirements associated with the receipt and expending of federal grants.

(IMPORTANT: Approval of your procurement procedures, cost documentation, source documents, etc..., by representatives of the Federal Emergency Management Agency (FEMA) does <u>NOT</u> provide any assurance that the U.S. Department of Homeland Security OIG auditors will not require that you return disaster grant funds should they (OIG) disagree with those procedures.)

These procedures have been implemented as a direct result of U.S. DHS OIG audit reports and to prevent the potentially devastating effects of having to return federal funds following a disaster.

The State Emergency Management Agency reserves the right (as the (grantee) recipient for federal disaster funds) to conduct periodic records reviews of any (subgrantees') sub-recipient's records and to cease payments to any (subgrantee) sub-recipient found to be non-compliant with these requirements.

The following items **must be read and understood** by each (applicant) sub-recipient **BEFORE** signing the certification. **NO** payments will be made on any (project worksheet) sub-award until this and all other required documents/forms have been completed, signed, and provided to Missouri SEMA.

- 1. The (applicant's) sub-recipient's accounting practices must identify the application of federal funds or account for costs by specific project as required by federal regulations and FEMA guidelines. The Code of Federal Regulations (CFR) 44 13.20(b) states that (subgrantees) sub-recipients must maintain records that adequately identify the source and application of funds for financially assisted activities.
- 2. Effective control and accountability must be maintained for all (grant) award and (subgrant) sub-award cash, real and personal property, and other assets.
- 3. The (applicant) sub-recipient must establish a project file (or site file for multiple-site projects) containing the corresponding (project worksheet/PW) sub-award and all documentation pertaining to the project (or site).
- 4. The (applicant) sub-recipient must follow the same or more stringent internal controls when accounting for and expending disaster grant funds as it does for its annual operating revenue.
- 5. The (applicant) sub-recipient must maintain documentation by project, reconcile source documentation to invoices, and determine the validity of all project invoices before filing claims.
- 6. The (applicant) sub-recipient must follow federal procurement standards as set forth in Code of Federal Regulations (CFR) 44 and 2 CFR Part 200, to include:
 - a. Performance of procurement transactions in a manner providing full and open competition except under certain circumstances.
 - b. (Subgrantees) Sub-recipients must maintain records sufficient to detail the significant history of the procurement, including rationale for the method of procurement, the basis of contractor selection, and basis for the contract price.

SEMA PA-1 FORM

DR - 4451

- (Subgrantees) Sub-recipients must document a cost or price analysis in connection with every procurement action including contract modifications.
- d. Time and material type contracts are prohibited unless no other contract is suitable and the contract includes a ceiling price that the contractor exceeds at its own risk. FEMA also generally limits these contracts to seventy (70) hours.
- e. The (subgrantee) sub-recipient must negotiate profits as a separate element for contracts lacking price competition and in all cases where cost analyses are performed.

c.

f.

The (subgrantee) sub-recipient must take the affirmative steps, as established in 2 C.F.R. 200.321(a).

7. The (applicant) sub-recipient understands that improperly contracted work will result in the total ineligibility for the project.

8. This checklist is NOT all inclusive and each (subgrantee) sub-recipient should be familiar with the requirements of Code of Federal Regulation (2 CFR Part 200 and 44 CFR). Particularly important are Part 13 (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments) and Part 206 (Federal Disaster Assistance for Disasters Declared On or After November 23, 1988).

Assurance of Compliance with 2 CFR 200.317 - 200.326

This Assurance of Compliance form (SEMA-PA-4) satisfies the requirements of 2 CFR 200.331 which stipulates that SEMA, as a pass-through entity, provide required information related to, but not limited to, procurement as follows:

(2) All requirements imposed by the pass-through entity on the sub-recipient so that the Federal award is used in accordance with Federal statutes, regulations and the terms and conditions of the Federal award;

(3d) Monitor the activities of the sub-recipient as necessary to ensure that the sub-award is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the sub-award; and that sub-award performance goals are achieved.

- 1. Review your **Procurement Policy** for compliance with Federal Procurement Policy Standards and 2 CFR 200.317 200.326 and submit your **Jurisdictional Review** to SEMA;
- 2. Submit a copy of your Procurement Policy to SEMA, with the submission of State Forms, for review of compliance.

3. SEMA will review your **Procurement Policy**, in accordance with your **Jurisdictional Review**, for compliance and will recommend solutions for any issue(s) which may cause risk to the preservation of eligibility.

We, the responsible parties of the Sub-Recipient, hereby certify full compliance with 2 CFR 200.317 - 200.326, as applicable to our Procurement Policy, with the intention of preserving the eligibility of funding as obligated by the Federal Public Assistance grant.

Paperwork Burden Disclosure Notice

DR - 4451

Paperwork reporting burden for this form is estimated to average 1.7 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing, reviewing, and submitting the form. You are not required to respond to this collection of information unless a valid OMB control number appears in the upper right corner of this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden estimate to: Information Collection Management, U. S. Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC 20472. NOTE: Do not send your completed form to the above address.

NOTE:

Certain of these assurances may not be applicable to your project or program. If you have any questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of the project described in this application.

2. Will give the awarding agency, the comptroller General of the United States, and if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal gain.

Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. Section 4727-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statues or regulations specified in Appendix A of OPM's Standards for Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

6. Will comply with all Federal statues relating to nondiscrimination. These Include but are not limited to: (a) TIIe VI of the Civil Rights Act of 1964 (P. L. 88-352) which prohibits discrimination on the basis of race, color, or national origin; (b) Title IV of the Education Amendments of 1972, as amended (20 U.S.C. Sections 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. Section 794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. Sections 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970,) P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) Sections 523 and 527 of the Public Health Service Act of 1912, (42 U.S.C. 290-dd-3 and 290 ee-3), as amended, relating to confidentially of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Acts of 1968 (42 U.S.C. Section 3601 et. seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provision in the specific statue(s) under which application for Federal assistance is being made; and (i) the requirements of any other nondiscrimination statue(s) which may apply to the application.

7. Will comply, or has already complied, with the requirements of Title II and III of the Uniformed Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provides for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or Federally assisted programs. These requirements apply to all interest in real property acquired for project purposes regardless of Federal participation in purchase.

 Will comply with provisions of Hatch Act (5 U.S.C. Sections 1501-1508 and 7324-7328) which limit the political activities of employees whose principle employment activities are funded in whole or in part with Federal funds. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. Sections 276a to 276a-7) the Copeland Act (40 U.S.C. Section 276c and 18 U.S.C. Sections 874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. Sections 327-333), regarding labor standards for federally assisted construction subagreements.

10. Will comply, if applicable with flood insurance purchase requirements of Section 102a of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.

11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16) U.S.C. Sections 1451 et seq.); (i) conformity of Federal actions to State (Clear Air) Implementation Plans under Section 176 (c) of the Clear Air Act of 1955, as amended (42 U.S.C. Section et seq.); (g) protection underground sources of drinking water under Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended, (P.L. 93-205).

12. Will comply with the wild and Scenic Rivers Act of 1968 (16 U.S.C. Sections 1271 et seq.) related to protecting components of the national wild and scenic rivers systems.

13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-et seq.).

14. Will comply with P.L 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. 2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.

16. Will comply with the Lead-Based Paint Poising Prevention Act (42 U.S.C. Sections 4801 et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures.

17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.

 Will comply with all applicable requirements of all other Federal laws, executive orders, regulations and policies governing this program.

19. It will comply with the minimum wage and maximum hours provisions of the Federal Fair Labor Standards Act (29 U.S.C. 201), as they apply to employees of institutions of higher education, hospitals, and other non-profit organizations.

U. S. DEPARTMENT OF HOMELAND SECURITY FEDERAL EMERGENCY MANAGEMENT AGENCY ASSURANCES-CONSTRUCTION PROGRAM

DR - 4451

O.M.B. No. 1660-0025 Expires July 31, 2007

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this form is estimated to average 1.7 hours per response. The burden estimate includes the time for reviewing instructions and searching existing data sources, gathering and maintaining the data needed and completing, and submitting the form. You are not required to respond to this collection of information unless a valid OMB control number appears in the upper right corner of this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, U. S. Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC 20472, Paperwork Reduction Project (1660-0001). NOTE: Do not send your completed form to this address.

NOTE"

Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain federal assistance awarding agencies may require applicants to certify additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. 1. 1993年1月1日 - 1月1日 - 1月1日

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal Share of project cost) to ensure proper planning, management, and completion of the project described in this application.

2. Will give the awarding agency, the comptroller General of the United States, and if appropriate, the States, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the assistance; and will establish a paper accounting system in accordance with generally accepted accounting standards or agency directives.

3. Will not dispose of, modify the use of, or change the terms of the real property title, or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure nondiscrimination during the useful life of the project.

4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.

5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progress reports and such other information as may be required by the assistance awarding agency or state.

8. Will infliate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict to interest, or personal gain.

 Will comply with Intergovernmental Personnel Act of 1970 (42 U.S.C. Sections 4728-4763) relating to prescribed standards for merit systems for programs funded under one of the nineteen statues or regulations specified in Appendix A of OPM's standards for a Marit System of Personnel Administration (5 C.F.R. 900-subpart F).

9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. Sections 4801-et seq.) which prohibits the use of lead based paint in construction or rehabilitation of residence structures. 10. Will comply with all Federal statues relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. Sections 1681-1683, and 1685-1686) which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. Sections 794) which prohibits discrimination on the basis of; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. Sections 5101-61-7) which prohibits discrimination on the basis of age; (e) the Drug Abuse Office Treatment Act of 1972 (P.L. 93-255), as amended, relating to non-discrimination on the bases of abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970

(P.L. 91-616), as amended, relating to nondiscrimination on the bases of alcohol abuse or alcoholism; (g) Sections 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. 290 dd-3 and 290.ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. Sections et seq.), as amended, relating to non-discrimination in the sale, rental or financing of housing; (i) and other non-discrimination provisions in the specific statutes(s) under which application for Federal assistance is being made, and (i) the requirements on any other non-discrimination Statues(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Title II and III of the Uniform Relocation Assistance and Real Property Acquisition policies Act of 1970 (P.L. 91-646) which provides for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and Federally assisted programs. These requirements apply to all interest in real property acquired for project purpose regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. Sections 1501-1508 and 7324-7328) which limit the political activities of employment activities are funded in whole or impart with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. Sections 27a to 276a-7), the Copeland Act (40 U.S.C. Section 276o and 18 U.S.C. Section 874), the Contract Work Hours and Safety Standards Act (40 U.S.C. Sections 327-333) regarding labor standards for Federally assisted construction subagreements.

THE STORES IN

14. Will comply with the flood Insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate In the program and to purchase flood insurance In the total cost of insurable construction and acquisition is \$ 10,000 or more.

ally all all waters and an and all all and a state of the state of th

15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Pollcy Act of 1969 (P.L. 91-19D) and Executive Order (E.O.) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management programs developed under the Coastal Zone Management Act of 1973 (16 U.S.C. Sections 1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementations Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. Section 7401et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended, (P.L. 93-523); (H) Protection of Endangered species Act of 1973, as amended, (P.L. 93-205).

16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. Sections 1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

17. Will assist the awarding agency in assuring compliance with. Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), EO 11593 (identification and preservation of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 46s-1 et seq.).

 Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act of 1984.

19. Will comply with all applicable requirements of all other Federal faws, Executive Orders, regulations and policies governing this program.

20. It will comply with the minimum wage and maximum hours provisions of the Federal Fair Labor Standards Act (29.U.S.C. 201), as they apply to employees of institutions of higher education, hospitals, and other non-profit organizations.

21. It will obtain approval by the appropriate Federal agencies of the final working drawings and specifications before the project is advertised or placed on the market for bldding; that it will construct the project, or cause it to be constructed, to final completion in accordance with the application and approved plans and specifications; that it will submit to the appropriate Federal agency for prior approval changes that after the cost of the project, use of space, or functional layout; that it will not enter into a construction contract(s) for the project or underlake other activities until the conditions of the construction grant program(s) have been met.

22. It will operate and maintain the facility in accordance with the minimum standards as may be required or prescribed by the applicable Federal, State, and local agencies for the maintenance and operation of such facilities. 23. It will require the facility to be designed to comply with the "American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped,' Number A117-1961, as modified (41CFR 101-17.703). The applicant will be responsible for conducting inspections to ensure compliance with these specifications by the contractor.

24. If any real property or structure thereon is provided or improved with the aid of Federal financial assistance extended to the applicant, this assurance shall obligate the applicant, or in the case of any transfer of such property, any transferee, for the period during which the real property or structure is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

25. In making subgrants with nonprofit institutions under this Comprehensive Cooperative Agreement, it agrees that such grants will be subject to OMB Circular A-122, "Cost Principles for Non-profit Organization" including but not limited to, the "Lobbying Revision" published in vol 49, Federal Register, pages 18260 through 18277 (April 27, 1984).

U.S. DEPARTMENT OF HOMELAND SECURITY FEDERAL EMERGENCY MANAGEMENT AGENCY CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS

O.M.B. No. 1560-0025 Expires July 31, 2007

AN ALL AND A COMMENTATION OF A THE THE

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this form is estimated to average 1.7 hours per response. The burden estimate includes the time for reviewing instructions and searching existing data sources, gathering and maintaining the data needed and completing, and submitting the form. You are not required to respond to this collection of information unless a valid OMB control number appears in the upper right corner of this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, U.S., Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC 20472, Paperwork Reduction Project (1660-0001). NOTE: Do not send your completed form to this address.

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 44 CFR Part 18, "New Restrictions on Lobbying" and 28 CFR Part 17, "Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants).." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Federal Emergency Management Agency (FEMA) determines to award the transaction, grant, or cooperative agreement.

1, LOBBYING

As required by section 1352, Title 31 of the U.S. Code, and implemented at 44 CFR Part 18, for persons entering into a grant or cooperating agreement over \$ 100,000, as defined at 44 CFR Part 18, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement.

(b) If any other funds than Federal appropriated funds have been paid or will be pald to any other person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or an employee of Congress, or employee of a member of Congress in connection with this Federal Grant or cooperative agreement, the undersigned shall complete and submit Stand Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all liers (including subgrants, contracts under grants and cooperative agreements, and subcontracts) and that all subrecipients shall certify and disclose accordingly.

Standard Form-LLL "Disclosure of Lobbying Activities" attached (This form must be attached to certification if nonappropriated funds are to be used to influence activities.)

2. DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS (DIRECT RECIPIENT)

As required by Executive Order 12549, Debarment and Suspension, and implemented at 44 CFR Part 67, for prospective participants in primary covered transactions, as defined at 44 CFR Part 17, Section 17,510-A. The applicant certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, sentenced to a denial of Federal benefits by a State or Federal court, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of a or trad a civilian judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or perform a public a public (Federal State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; (c) Are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause of default; and

B. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

3. DRUG-FREE WORKPLACE (GRANTEE OTHER THAN INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 44 CFR Part 17, Subpart F, for grantees, as defined at 44 CFR Part 17.615 and 17.620-

A. The applicant cartifies that it will continue to provide a drug-free workplace by;

(a) Publishing a statement notifying employees that the unlawful manufacture, distributions

33-22AUG19 - Credit-Debit Card Processing Services

OFFEROR #1: MSB

__X__ It has been determined that MSB has submitted a responsive RFP response meeting the requirements set forth in the original Request for Proposal.

It has been determined that MSB has submitted a non-responsive proposal.

Experience, Expertise and Reliability of Offeror

Strengths:

- They have a support location in Missouri (pg. 1).
- 99.7% customer retention rate (pg. 2).
- 99.99% uptime in the past 10 years (pg. 2).
- PCI Level-1 certified (pg. 2).
- MSB has never experienced a successful security breach since its inception (pg. 2).
- Have served over 1176 public entities across 50 states since their inception in 1991 (pg. 5).
- A+ rating with the Better Business Bureau (pg. 5).
- Provided references for counties in other states plus Osage County, Missouri (pg. 8 & Exhibit C).
- FIPS 140-2 compliant encryption.
- Presentation: Vendor has never had a breach. They will provide a written warranty addendum that they take 100% liability if they do suffer a breach.

Concerns:

Method of Performance

Strengths:

- Can build a website from scratch at no cost to the County to have the webpage look just like ours or they can simply act as a 3rd party processing gateway. Not proposed in in any other proposal.
- Good reporting capabilities. Easy to understand reports. Can input any type of parameter
 for reconciliation and their system can deliver that report in real time (pg. 11). During
 the presentation, vendor said a report can be created by any parameter we choose. If they
 don't already have the report, they can create it for us at no charge.

1

- Presentation: There is no custom work charge (except on Kiosks).
- Their fees are lower than other vendors
- Accept Apple Pay, GooglePay, AndroidPay, PayPal Prepaid cards, eCheck & ACH.
- Has a bilingual payment center. Can assist customers in a multitude of languages including Vietnamese, Chinese, Arabic, Spanish, Polish, French, and many more (pg. 32).
- Ability to accept partial payments, one-time payments, recurring payments, budget payments and to defer payments.
- Provides funds the next day.
- A single vendor able to service and manage real-time electronic payments environment (pg. 1). Certified Government PayFac so are the sole merchant of record for all contracts with their government clients (pg. 15).
- Users can set up a recurring payment portal (pg. 4).
- They do not our-source technical service. Administrative and technical support available 24/7/365 (pg. 31). Accepts payments on a toll-free number (pg. 26). Support personnel will be available 24/7/365 (pg. 84).
- The Interactive Voice Response IVR) module will be completely custom made for the County and it will have custom submenus for each individual department of the County pg. 23).
- Equipment and maintenance offered free for the duration of the contract (pg. 30, 49).
- System has no limit to historical data. Can generate reports from any date, any year (pg. 35).
- 11:59 p.m. for next day funding. Transaction settled after 11:59 p.m. are deposited the following day (pg. 35).
- Training options include in-person, webinar, manuals (pg. 38, 85).
- Have user text alerts
- Their log-in portal was user friendly
- On page 27, user friendly web site, could act as 3rd party processing gateway
- Will absorb all chargeback liability (pg. 43).
- Reports are available in HTML, Excel, PDF, XML (pg. 41).
- Cutting edge TTD/TTY phone support device for the hearing-impaired customers (pg. 24).
- Own their own network from inception to settlement, so making a change is instant. For example, adding a new employee can be done on-line by the County administrator.
- Presentation: End users receive instant refunds no waiting 3-4 days to get in their account.

Concerns:

- Want to make sure they can provide the reports and actual receipts that we need.
 Yes, per clarification response #1.
 - After hours is on-call basis versus service center being open (pg. 88).
 - Reference check said this provides fantastic customer service

OFFEROR #2: PayGov

_X___ It has been determined that PayGov has submitted a responsive RFP response meeting the requirements set forth in the original Request for Proposal.

It has been determined that PayGov has submitted a non-responsive proposal.

Note: Processed within 24-48 hours

Experience, Expertise and Reliability of Offeror

Strengths:

- Provided references for a Circuit Clerks and Sheriff Department (although none in Missouri) (page 1).
- 2,600 government clients in the U.S. (page 2)
- In the past two years have added 700 accounts (not sure if all government)

Concerns:

Method of Performance

Strengths:

- They will provide in-person training.
- County is indemnified of chargeback liability (page 11).
- Provide equipment, other than pc, at no cost and replacement at no cost (page 13).
- Maintain 24/7 Help Desk for ongoing training and support (page 13).
- National banks settled the next day.
- Mobile App can be downloaded for customers to make payments on their phones
- Can register for 1-time payments or future payments with reminders
- Good reporting capability

Concerns:

• It's hard to know for sure if this vendor is meeting all the requirements of our RFP since they did not follow our required paragraph 4.1.4.7., of our RFP which states "The method by which the proposed method of performance is written will be left to the discretion of the Offeror. However, the Offeror should address each specific paragraph and

subparagraph of the Specifications by paragraph and page number as an item for discussion. Immediately below these numbers, write descriptions of how, when, by whom, with what, to what degree, why, where, etc, the requirements will be satisfied."

They did make a general statement acknowledging at the beginning of their RFP response that they do meet all requirements, but they should have followed our outline above.

- Besides in-person training, not sure what other training they offer...webinars? Manuals? (Page 10)
- Local & small banks may take up to 48 hours to process
- Have varied fees which make it difficult to explain to end users.
 - Do their reports and actual receipts meet our requirements?
 - Yes, per clarification #1.

.

• Do they provide multi-lingual customer service for user and in what languages? And provide TTY and TDD?

4

- Per clarification 1, they do not provide multi-lingual customer service by phone and do not provide TTY or TDD services. Hearing impaired may email and contact form support option available online. Payments can be made online and via the mobile application. Customer support can be provided for all languages through the online contact form and email using Google translate.
- Need to confirm if they provide 24/7/365 customer service for the consumer.
 Yes, per clarification 1.

OFFEROR #3: nCourt

- _X__ It has been determined that nCourt has submitted a responsive RFP response meeting the requirements set forth in the original Request for Proposal.
- _____ It has been determined that **nCourt** has submitted a **non-responsive** proposal.

Experience, Expertise and Reliability of Offeror

Strengths:

- 1,900 government clients in 33 states (page 2).
- Founded in 2002 (page 32).
- Have added 200 public agencies in the past two years (page 33).
- Provided references for courts and city

Concerns:

Method of Performance

Strengths:

- Payments can be made 24/7 by IVR system. They provide fully capable on-site payment processing solutions including EMV-enabled hardware and the latest software (page 23).
- Hardware and software provided by vendor free including upgrades (page 23, 29, 30, 31).
- System up 99.9% of the time (page 23).
- Training options include in-person, webinar and training materials (page 25).
- Card readers become the property of the County upon delivery (page 30).
- Support services will be available in English and Spanish via nCourt's toll-free line. nCourt's back-end telephone credit card processing system will provide the ability for a caller to opt out and speak to a live operator at their payment center. nCourt can also provide the ability to re-route the caller to the County's call center during the County's normal business hours, if desired.
- nCourt's system is compatible with Teletypewriter and Telecommunications Device for the Deaf (TTY and TDD).

Concerns:

 When giving their overall statement of understanding on page 2, they say "...collect more revenue with minimum risk..." Per paragraph 1.2.3. of our RFP, it states "The County seeks to keep service fees and/or costs as low as reasonable as possible for the cardholders".

- Does not appear as though payments can be made 24/7 by live agent per paragraph 22 which says Monday -Friday from 7 am 7 p.m. and 9 am 1 pm, Saturday and Sunday. Closed on Thanksgiving Day and Christmas Day. This would be an issue for the Sheriff Department. Want to clarify is their payment center open 24/7 with a live agent?
 - Per clarification #1, not with a live agent, but can make payment with IVR, web/mobile (via personalized website).
- Cannot meet requirement in paragraph 1.2.9. of administrative and technical support available 24/7/365. It is only available weekdays (page 24). Although on page 25, it says client support team is available 24 hours a day, 365 days per year.
 - Per clarification #1 response, live agents work 7:00 a.m. 7:00 p.m. A dedicated account representative can be called outside those hours if the system is down.
- If card readers are damaged, County responsible for a percentage of them up through year 5 (page 31). 1st year following warranty expiration 25%. 2nd year following warranty expiration 50%. 3rd year following warranty expiration 75%. 4th year following warranty expiration and beyond 100%.
- Need the backup page for E-Verify.
- Refunds and voids take a long time.
 - Credit/Debit 3-7 business days for refund 2-3 for voids.
 - Amex 3-7 business days for refund 3-5 for voids
 - Prepaid Cards Two weeks for refunds or voids
 - o 2 business days to settle
 - Delay in funds compared to other vendors
- 7% phone charge. For the Circuit Clerk's office, over 50% of their users pay by phone. Their differing fee schedule would be difficult to explain to each end user.

6

- Transaction reporting and actual receipts meet County needs?
 - Per clarification #1 response, yes.

OFFEROR #4: CourtMoney

____X_ It has been determined that CourtMoney has submitted a responsive RFP response meeting the requirements set forth in the original Request for Proposal.

_____ It has been determined that CourtMoney has submitted a non-responsive proposal.

Note: Small company compared to others Takes 48 hours to receive funds

Experience, Expertise and Reliability of Offeror

Strengths:

- Been in existence for 15 years processing cash bail transactions by credit/debit card. Have served Boone Circuit Clerk since 2010. Also served Boone County Sheriff and Prosecuting Attorney (since 2013).
- Prosecuting Attorney office: Have been very responsive to PA's office needs. PA has
 never had an issue that wasn't resolved in a timely manner. CourtMoney is prompt and
 dependable with their payments. No issues have gone unresolved.
- Currently have 100 Circuit Clerks in Missouri along with hundreds of municipalities and Sheriff's offices in the state of MO.
- Have added 10 Circuit Clerks in Illinois over the past two years.
- Provided relevant references for other Missouri Counties for Circuit Clerks, Prosecuting Attorneys, and Sheriff Departments.
- Located in Marion, IL. Able to have face-to-face meetings when needed.
- Current provider, already in place, no transition period.

Concerns:

• All vendors are PCI Level 1 certified except CourtMoney who is PCI Level 2 certified (which we believe to be less secure).

Method of Performance

Strengths:

- Meets the requirement that payments can be processed multiple ways, 24/7/365, by both phone and online (pg. 25). The operators have been trained on each specific need for each office and in the event of questions, the operators have access to a corporate officer 24/7 (pg. 29). Technical support is available 24/7/365 (pg. 23).
- Their web site has been accessible for processing 99.9% of the time.
- Training can be done in-person, besides webinars and training manuals.
- CourtMoney guarantees all transactions against Chargebacks and disputes.

7

- Reporting the specific information relative to the transaction is reported
- All hardware, updates, upgrades, and fixes provided free to County (other than Kiosk). County held harmless for the replacement of any equipment damaged or destroyed by clientele. They will provide, if have not already provided, enough card swipes for any office that needs them and will also provide extra devices for immediate install in the event one breaks (2.9.8.3.)
- Easy to understand fee schedule. No cost to County Cardholder pays fee.

Concerns:

- "Fee schedule can be amended by CourtMoney at any time with written notice to the client". That is not acceptable. Our requirement on page 18 of our RFP states "The Offeror shall provide a firm, fixed price for the Original Contract Period"
- Fee schedule is high for the cost to the consumer.
- Having to redirect a payment, stop a payment or adjust an entered amount, you have to make a phone call rather than logging in to do this.
- We are not able to run comprehensive long-term reports.
- Access to historical data is important. What is our access to this?
- Call center transactions can add \$5.00. When would this happen?
- Can they provide multi-lingual customer service for user and in what languages? Do they provide TTY and TDD?

8

• Per clarification 1 response, yes for multi-lingual customer service. They use a third-party service that offers over 240 languages. Yes, they provide TTY and TDD services.

OFFEROR #5: LexisNexis

_X___ It has been determined that LexisNexis has submitted a responsive RFP response meeting the requirements set forth in the original Request for Proposal.

It has been determined that LexisNexis has submitted a non-responsive proposal.

Experience, Expertise and Reliability of Offeror

Strengths:

- · Large company that has been in business for many years.
- Member of Mastercard Government Services Group. Meet often and provide input into government initiatives and payment processes
- · Meet regularly with VISA & American Express department heads.
- PCI Level 1 compliant
- Provided a Sheriff and Clerk reference (although not Missouri)
- Provides payment solutions for over 2,800 government agencies (pg. 20).
- Founded in 1987 (pg. 29).
- Provided Missouri counties, state agencies and city references (pg. 30).
- Added 33 public agencies in 2017 and 29 in 2018 (pg. 31).

Concerns:

Method of Performance

Strengths:

- Real-time authorization
- Same-day settlement processing on all transactions before 6:00 pm; Transactions after 6:00 pm will be processed the next day.
- No cardholder information stored on any County Device
- A certified PAYFAC, so has a refined merchant onboarding process, assumes financial risk for processed transactions, manages the chargeback and retrieval process and responsible for PCI compliancy and data breach protection (pg. 4).
- 24/7/365 available for consumers to make payments, technical support & maintenance, and administrative and technical support available (pg. 9-10). A toll-free number is available for consumers to make payments 24/7/365 (pg. 9).
- All hardware and software provided to County at no cost and they are responsible for the maintenance and repair on any supplied equipment and will facilitate any necessary returns or replacements (pg. 26).

9

- Training includes WebEx, "train the trainer" classes, manuals and onsite training (pg. 39).
- Lower fees than some of the other Offerors.
- They manage the inquiries on guaranteed payments.

Concerns:

• Can they provide transaction level reporting and meet the needs of the County for actual receipts?

• Yes, per clarification 1 response.

- They attached Terms and Conditions that would need to be reviewed by our Legal department. At a minimum, their paragraph to indemnify them needs to be deleted. Not sure about paragraph 15 that we agree to promote the use of the Service, they can cancel in 30 days' notice, and if we cancel, we may be responsible for their costs to implement the service (Exhibit A).
- Do they provide multi-lingual customer servce for user and in what languages? Do they
 provide TTY and TDD?
 - Per clarification 1 response, they provide 24/7 bilingual customer service by live operator for English and Spanish. Current IVR does not support TTY and TDD.
- Chargebacks guarantees funds for up to \$5,000 per transaction. If more than that, do they not guarantee chargebacks beyond \$5,000?
 - Per clarification 1 response, they only limit to \$5,000 to guarantee for per transaction chargebacks
- Price seems high for bonds at 5.75%.

OFFEROR #6: CSG Forte Payments

It has been determined that CSG Forte Payments has submitted a responsive RFP response meeting the requirements set forth in the original Request for Proposal.

X It has been determined that CSG Forte Payments has submitted a non-responsive proposal.

Experience, Expertise and Reliability of Offeror

Strengths:

- Past successful experience with Boone County as the electronic payment processor for the Boone County Collector, Recorder and Resource Management since 2011. (page ii)
- 20 years' experience with online credit card processing serving governments (page v).
- Added 600 new government customers in the past two years (page 21).
- Level 1 PCI Compliant

Concerns:

• Provided no references for court, law enforcement, etc. Only provided references for County Collectors (page right before Attachment A).

Method of Performance

Strengths:

- Dependable service 99.9% system uptime (page v)
- Has an on-line admin tool to view transactions in real time.
- Has self-service Kiosks
- Transactions before 7:00 pm will fund within 24 hours; Transactions after 7:00 pm will fund in 48 hours
- Real-time viewing of payments

Concerns:

- Support team available 7 am 7 pm CTS. What happens outside those hours for the Sheriff Department? (page 7). But then on page 8, it says (Forte also maintains after hours and weekend support, including holidays).
- Could not tell from the 2.2.10. reporting response if adequate information regarding case number is reported (page 8).
- Will not absorb all chargeback liability (page 12) (non-responsive proposal)

- Top of page 18 refers to "automatically capture payment details such as property tax number, cashier ID, water bill number, ticket number, etc". Those examples make me question whether they understand the scope of this RFP.
- Paragraph 2.10.1.B. do not guarantee payment (page 21). (non-responsive proposal)
- Paragraph 2.10.2.B. support desk respond within 24 hours this could be a problem for the County if unable to get an immediate resolution (page 23).
- Paragraph 2.10.4.C. will not offer a lower price guarantee (page 27).
- More complicated fee schedule than other companies. Forte has a lot of add-on fees which would be hard to tie-it to specific customer transactions and difficult to explain to end users (page 29).
- Did not provide the backup page for the E-Verify
- RFP response includes
- "Our customer service staff will assist the County staff and its customers and will be available during operational hours". However, it says there will be a toll-free number that can be accessed 24/7/365

SUMMARY:

The initial evaluation committee met on September 4, 2019. Following this meeting, the evaluation committee decided to not move forward evaluating Forte. Forte does not absorb chargeback liability and has therefore submitted a non-responsive proposal. Clarification was submitted to the other five Offerors.

The committee met again on September 13, 2019. They reviewed the clarification responses, then scored the Offerors. Following scoring, the Committee decided to receive a presentation from MSB.

MSP presented on October 15, 2019. Following presentation, the committee decided to check references on MSB.

Following a favorable reference check, the committee decided to move forward with MSB for scoring the highest on County Evaluation Form, proposing the most competitive fees, and providing excellent customer service (references).

CONTRACT AGREEMENT FOR Credit-Debit Card Processing Services for Boone County offices of Circuit Clerk, Sheriff, Prosecuting Attorney

THIS AGREEMENT dated the 29th day of october 2019 is made between Boone County, Missouri, a political subdivision of the State of Missouri through the Boone County Commission, herein "County" and **Gila, LLC, dba Municipal Services Bureau** herein "Contractor."

IN CONSIDERATION of the parties performance of the respective obligations contained herein, the parties agree as follows:

1. Contract Documents - This agreement shall consist of this Contract Agreement for Credit-Debit Card Processing Services for Circuit Clerk, Sheriff and Prosecuting Attorney, Boone County Request for Proposal with Addendums #1-#6 for Credit-Debit Card Processing Services, proposal number 33-22AUG19, Clarification #1 with Contractor's response dated September 5, 2019, as well as the Contractor's proposal response dated August 21, 2019, executed by Elye Sackmary on behalf of the Contractor. All such documents shall constitute the contract documents, which are attached hereto and incorporated herein by reference. Service or product data, specification and literature submitted with proposal response may be permanently maintained in the County Purchasing Office proposal file for this proposal if not attached. In the event of conflict between any of the foregoing documents, the terms, conditions, provisions and requirements contained in this Agreement shall prevail and control over the Contractor's Proposal and Clarification responses.

2. **Purchase** - The County agrees to purchase from the Contractor and the Contractor agrees to supply the County, Credit-Debit Card Processing Services as identified and responded to in the Contractor's Proposal Response and Clarification response. Service shall be provided as required in the proposal specifications and in conformity with the contract documents for the prices set forth in the contractor's clarification and RFP responses as needed and as ordered by the County.

Additional detail about the pricing below is provided in the Contractor's RFP response (attached).

Included (no additional fee) \$0 per operator-assisted call Included (no additional fee) \$0.03 to \$0.05 per text, based Included (no additional fee) Included (no additional fee)

3. Contract Duration - The contract duration shall extend from date of award through August 31, 2020. The contract shall have five, one-year optional renewal periods following the completion of the initial contract term. Renewal options will be subject to contract performance, technological advancements, etc. If vendor is not renewing or has a different fee structure, they MUST notify County a minimum of 90 days prior to expiration date.

4. *Binding Effect* - This agreement shall be binding upon the parties hereto and their successors and assigns for so long as this agreement remains in full force and effect.

5. Entire Agreement - This agreement constitutes the entire agreement between the parties and supersedes any prior negotiations, written or verbal, and any other bid or bid specification or contractual agreement. This agreement may only be amended by a signed writing executed with the same formality as this agreement.

6. *Termination by County* - This agreement may be terminated by the County upon thirty days advance written notice for any of the following reasons or under any of the following circumstances:

County may terminate this agreement due to material breach of any term or condition of a. this agreement, or

County may terminate this agreement if key personnel providing services are changed b. such that in the opinion of the Boone County delivery of services are or will be delayed or impaired, or if services are otherwise not in conformity with proposal specifications, or if services are deficient in quality in the sole judgment of County, or

County may terminate this agreement for convenience by providing the Contractor with c. 60 days written notice. Any transaction initiated prior to the ending date of the term of service, for which a material amount of time or expense has been incurred, will be completed by the Contractor although the closing might occur following the end of the term of service.

If appropriations are not made available and budgeted for any calendar year to fund this d. agreement.

IN WITNESS WHEREOF the parties through their duly authorized representatives have executed this agreement on the day and year first above written.

BOONE COUNTY - MISSOURI PROPOSAL NUMER AND DESCRIPTION: 33-22AUG19 - Credit-Debit Card Processing

CLARIFICATION FORM #1

This Clarification is issued in accordance with the Instructions to Offeror and is hereby incorporated into and made a part of the Request for Proposal Documents. Offeror is reminded that receipt of this Clarification must be acknowledged and submitted by e-mail to mbobbitt@boonecountymo.org.

I. CLARIFICATION - please provide a response to the following requests.

- 1) Daily Transaction Reporting: The County desires transaction level detail that includes case number/ticket number, defendant's name, amount, etc. Can you provide this detail?
- 2) Actual Receipt: The County desires that the case number/ticket number, defendant's name, amount, what it is for, transaction type (CCW, permit, filing fee, restitution), text box for notes be provided on receipt. Can you provide this detail?

512.371.9995								
Fax 512.371.9994	Dear Ms. Bobbitt,							
	Please accept this letter as our acknowledgement of receipt of the above referenced Clarification from Boone County. We at Gila LLC (d/b/a Municipal Services Bureau or 'MSB') are grateful to be considered for this procurement opportunity and our responses to the clarification questions are below.							
	1. <u>Daily Transaction</u> number/ticket numb						se	
	With MSB's payment system, the County gains access to our SaaS cloud hosted reporting platform (the 'Nexus'). This reporting platform is available to authorized County users via web session and no thin client or thick client needs to be installed on any County computer.							
	The Nexus will provide detail for daily transaction reporting related to any field we capture during the transaction process. For example, when we construct the user interface for constituents, we would have fields which capture the case number and/or ticket number, the defendants' names, amount paid, as well as other information such as the type of credit card used, time of payment down to the second, the cardholder's name (which will differ from the defendant periodically), etc.							
	The County can produce the and personnel can export the				-day or week	reporting perio	od,	
	Below is an excerpt of one such report.							
	Payment Search Results							
	n: er Page 1 of 42 er er view 1 50 of 2 068 Quisearch CRetexush &Summary Report (CSV) &Summary Report (POF) &Summary Report (01.5)

		mental Press						

In the Nexus excerpt above, you can see the column headers for reporting which will include among other items, the information requested in the Clarification letter. In addition to standard column headers, we also have six variable fields that can capture specific information for a client or even for a specific client department that rolls up under the master agreement. Each department can have its own

custom fields in this case. The 'View Details' link on the left allows an authorized County user to review all of the transaction details for a specific transaction if needed for research / audit purposes.

2. Actual Receipt: The County desires that the case number/ticket number, defendant's name, amount, what it is for, transaction type (CCW, permit, filing fee, restitution), text box for notes be provided on receipt. Can you provide this detail?

MSB is able to assign field values on our receipts based on client specifications. This means that not only can our clients define 'which' information is presented on a receipt (or not presented), but also which fields on the receipt contain that information. As an example, the County could choose to have case number/ticket number be the field on the top left or bottom right.

Below is an example of a test server receipt for reference. Each of the fields on top of the receipt can be moved around in terms of title and which information is associated. Additionally, the text box referenced in the clarification question is an optional field (populated below and preceded by ******).

RE: Clarification #1 to 33-22AUG19 - Credit-Debit Card Processing Services

Dear Mr. Sackmary:

Following review of your proposal response, the evaluation committee has identified questions for clarification. The attached Clarification Form includes any changes being made to the RFP as a result of this request. The Form must be completed, signed by an authorized representative of your organization, and returned with your detailed Clarification response. You are requested to provide written response by **2:00 p.m. September 13, 2019** by e-mail to mbobbitt@boonecountymo.org

You are reminded that pursuant to Section 610.021 RSMo, proposal documents are considered closed records and shall not be divulged in any manner until after a contract is executed or all proposals are rejected. Furthermore, you and your agents (including subcontractors, employees, consultants, or anyone else acting on their behalf) must direct all questions or comments regarding the RFP, the evaluation, etc., to the buyer of record. Neither you nor your agents may contact any other County employee or evaluation committee member regarding any of these matters during the negotiation and evaluation process. Inappropriate contacts or release of information about your proposal response(s) are grounds for suspension and/or exclusion from specific procurements.

If you have any questions regarding this Clarification request, please call (573) 886-4391 or e-mail <u>Mbobbitt@boonecountymo.org</u>. I sincerely appreciate your efforts in working with Boone County - Missouri to ensure a thorough evaluation of your proposal.

Sincerely,

Milil Both

Melinda Bobbitt, CPPO, CPPB Director of Purchasing

BOONE COUNTY - MISSOURI

PROPOSAL NUMER AND DESCRIPTION: 33-22AUG19 - Credit-Debit Card Processing

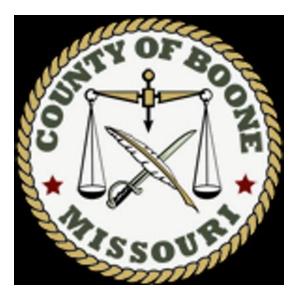

CLARIFICATION FORM #1

This Clarification is issued in accordance with the Instructions to Offeror and is hereby incorporated into and made a part of the Request for Proposal Documents. Offeror is reminded that receipt of this Clarification must be acknowledged and submitted by e-mail to mbobbitt@boonecountymo.org.

I. <u>CLARIFICATION – please provide a response to the following requests.</u>

- 1) **Daily Transaction Reporting:** The County desires transaction level detail that includes case number/ticket number, defendant's name, amount, etc. Can you provide this detail?
- 2) Actual Receipt: The County desires that the case number/ticket number, defendant's name, amount, what it is for, transaction type (CCW, permit, filing fee, restitution), text box for notes be provided on receipt. Can you provide this detail?

Proposal for Boone County, MO

Proposal to Provide Credit-Debit Card Processing Services

ORIGINAL

Submitted By: Elye Sackmary, President & CEO 512.323.4223 direct 866.283.6484 fax Elye.Sackmary@GilaCorp.com www.MuniServ.com

Due: Thursday August 22nd, 2019 at 2:30 P.M. CST

EXPERIENCE • EXECUTION • ETHICS™

In compliance with this Request for Proposal and subject to all the conditions thereof, the Offeror agrees to furnish the services/equipment/supplies requested and proposed and certifies he/she has read, understands, and agrees to all terms, conditions, and requirements of this proposal and is authorized to contract on behalf of the firm named below.

Company Name:Gila LLC d/b/a Municipal Services Bureau					
Address: <u>8325 Tuscany #4, Austin, TX 78754</u>					
Telephone: <u>(512) 323-4223</u>	Fax: <u>(512) 371-9994</u>				
Print Name: <u>Elve Sackmary</u>	Title: <u>President and CEO</u>				
Signature:	Date: <u>August 22, 2019</u>				

Note: This form must be signed. All signatures must be original and not photocopies.

The Offeror shall provide a firm, fixed price for the Original Contract Period. All costs associated with the required services/equipment shall be included in the prices. All deliveries shall be made FOB Destination with freight charges fully included and prepaid. The seller pays and bears the freight charges.

In the event of any decrease in processing fees charge to taxpayers, either by market change or if the contractor shall charge a lower price to other customers, Boone County shall be notified promptly, and the citizens of Boone County shall receive such decreases. Implementation of any changes in fees will be coordinated by the County and the processor.

FEES

- (a.) Provide the fee schedule that would apply to this account. All fees MUST be listed.
- (b.) Identify any expenses that would not be covered through this fee structure and would be required in order to implement the firm's program
- (c.) If applicable, please clearly identify reductions in fees that would occur in years 2, 3, 4 & 5 if a contract were awarded and extended by the County.
- (d.) Describe any additional available equipment/supplies for purchase with pricing (e.g. terminal/printer, reader(s):

ADDENDA

MSB has received all addenda and has included in the following pages per RFP instructions.

BOONE COUNTY, MISSOURI

Request for Proposal #: 33-22AUG19 – Credit-Debit Card Processing Services for the Boone County, Missouri Offices of Circuit Clerk, Sheriff, and Prosecuting Attorney

ADDENDUM #1 - Issued July 18, 2019

This addendum is issued in accordance with the RFP Response Page in the Request for Proposal and is hereby incorporated into and made a part of the Request for Proposal Documents. Offerors are reminded that receipt of this addendum <u>should be acknowledged</u> and submitted with Offeror's *Response Form*.

Specifications for the above noted Request for Proposal and the work covered thereby are herein modified as follows, and except as set forth herein, otherwise remain unchanged and in full force and effect.

- I. The attached usage report for the Boone County Circuit Clerk is attached for informational purpose.
- II. The County received the following questions and is providing a response:
 - 1. Paragraph 2.2.11. Is "48" hours to mean business days?

Response: Business days.

2. Paragraph 2.4.1. – Does "multiple payors and assemble a payment over multiple accounts" mean multiple card holders or multiple offices taking payments?

Response: Multiple offices taking payments.

3. Paragraph 2.9.1. – Equipment: earlier in the RFP it mentions the offeror is required to provide computers, printers, faxes, and other equipment for the use of Credit/Debit Cards. How will an Offeror provide such equipment when all equipment for the county is purchased by the county on the county network to county specifications and kept up to date by the county? 2.9.8 mentions hardware. Is the Offeror required to place the hardware for each office or will the county's computers, printers, faxes be used for the processing of credit/debit cards?

Response: Delete paragraphs 2.9.8.1., 2.9.8.2. and 2.9.8.4. The Contractor will not be required to provide computers, printers or faxes. Any other paragraphs referencing hardware shall mean Card Reader Devices.

Offeror shall outline clearly in their proposal response any hardware needed to be used whether County owned, or Vendor owned that is needed to successfully handle credit-debit card processing.

4. Are the County's phone lines over VOIP or standard land lines?

Response: The County has both available including analog and digital on the standard land lines. Our preference for phones is VOIP, our preference for data is analog land lines.

BOONE COUNTY, MISSOURI

Request for Proposal #: 33-22AUG19 – Credit-Debit Card Processing Services for the Boone County, Missouri Offices of Circuit Clerk, Sheriff, and Prosecuting Attorney

ADDENDUM #3 - Issued July 25, 2019

This addendum is issued in accordance with the RFP Response Page in the Request for Proposal and is hereby incorporated into and made a part of the Request for Proposal Documents. Offerors are reminded that receipt of this addendum <u>should be acknowledged</u> and submitted with Offeror's *Response Form*.

Specifications for the above noted Request for Proposal and the work covered thereby are herein modified as follows, and except as set forth herein, otherwise remain unchanged and in full force and effect.

The County received the following questions and is providing a response below:

1) Provide the transaction count for the Circuit Clerk and Sheriff offices. This information will assist bidders in providing the most competitive pricing to the County.

Response: See attached spreadsheet for the Circuit Clerk and Sheriff Department.

2) Regarding the Sheriff, how many transactions were there in 2017 which totaled the \$262,173? Can the number of transactions be broken down by Conceal and Carry, Sheriff Fees, Out of Bounty Bonds, and Boone County Bonds?

Response: See attached spreadsheet for the Sheriff Department.

3) How many of these transactions were from home versus in person for the Sheriff Department?

Response: For the Sheriff Department, they mainly do in-person transactions or people can call current provider CourtMoney and post bail over the phone. There were no "At Home" transactions in 2019. We were not able to check "At Home" prior to 2019.

4) The Circuit Court in 2018 had \$664, 314 in volume, what are the number of transactions which accounted for this total? Can the number of transactions be broken down by Conceal Carry, Sherriff fees, Out of County Bonds and Boone County Bonds?

Response: See attached spreadsheet for the Circuit Clerk and Sheriff Department.

RFP #: 33-22AUG19

5) How many of these transactions for the Circuit Court were from home versus in person?

Response: See attached spreadsheet for the Circuit Clerk.

6) Do each office of the Circuit Clerk, Sheriff Department, and Prosecuting Attorney have Internet access?

Response: Yes

7) How many chargebacks did the Circuit Court, Sheriff, and Prosecuting Attorney experience in 2017 or 2018?

Response: Current provider guarntees all payments and we are not always made aware of a chargeback. Current provider assumes all the risk for chargebacks, and that is not passed on to the County.

8) Which of these "products" Out of County Bonds, Boone County Bonds, or the Circuit Courts product "Bail", is currently at 7%?

Response: All of the above

By:

Melinda Bobbitt, CPPO, CPPB Director of Purchasing

BOONE COUNTY, MISSOURI

Request for Proposal #: 33-22AUG19 – Credit-Debit Card Processing Services for the Boone County, Missouri Offices of Circuit Clerk, Sheriff, and Prosecuting Attorney

ADDENDUM #4 - Issued August 6, 2019

This addendum is issued in accordance with the RFP Response Page in the Request for Proposal and is hereby incorporated into and made a part of the Request for Proposal Documents. Offerors are reminded that receipt of this addendum <u>should be acknowledged</u> and submitted with Offeror's *Response Form*.

Specifications for the above noted Request for Proposal and the work covered thereby are herein modified as follows, and except as set forth herein, otherwise remain unchanged and in full force and effect.

1) Delete the following paragraph from the RFP: 2.4.2. - Demonstrated ability to increase release rates through facilitating cash bail payments.

The County received the following questions and is providing a response below:

2) To clarify, each of the departments assess a service fee for use of the card. Is that to cover the cost/expense of the transaction or is it a revenue stream for the County?

Response: It's to cover the cost of transactions.

3) Does your current provider add that fee to each transaction, or do you collect the fine and the fee to cover both expenses?

Response: We show the total that they owe the Court, then tell them the fee. Their card is charged the total of those two added together. Our current provider handles taking out the fee.

BOONE COUNTY, MISSOURI

Request for Proposal #: 33-22AUG19 – Credit-Debit Card Processing Services for the Boone County, Missouri Offices of Circuit Clerk, Sheriff, and Prosecuting Attorney

ADDENDUM #5 - Issued August 12, 2019

This addendum is issued in accordance with the RFP Response Page in the Request for Proposal and is hereby incorporated into and made a part of the Request for Proposal Documents. Offerors are reminded that receipt of this addendum <u>should be acknowledged</u> and submitted with Offeror's *Response Form*.

Specifications for the above noted Request for Proposal and the work covered thereby are herein modified as follows, and except as set forth herein, otherwise remain unchanged and in full force and effect.

The County received the following questions and is providing a response below:

1. What was the single highest bail payment made in 2018? (looking for the maximum single transaction size)

Response: \$10,000

2. On page 4, paragraph two, "A flat service fee of 7% is charged to the cardholder for cash bail". Are they charged 7% even if they want to pay with cash currency?

Response: No, this only applies if they are using a card. For cash currency, there is no charge.

RFP #: 33-22AUG19

BOONE COUNTY, MISSOURI

Request for Proposal #: 33-22AUG19 – Credit-Debit Card Processing Services for the Boone County, Missouri Offices of Circuit Clerk, Sheriff, and Prosecuting Attorney

ADDENDUM #6 - Issued August 13, 2019

This addendum is issued in accordance with the RFP Response Page in the Request for Proposal and is hereby incorporated into and made a part of the Request for Proposal Documents. Offerors are reminded that receipt of this addendum <u>should be acknowledged</u> and submitted with Offeror's *Response Form*.

Specifications for the above noted Request for Proposal and the work covered thereby are herein modified as follows, and except as set forth herein, otherwise remain unchanged and in full force and effect.

The County received the following questions and is providing a response below:

1. Would the County consider the development of one IVR setup to process payments for the Sheriff, Clerk, and Prosecuting Attorney's offices for when the defendant calls into the IVR (phone)? (i.e. press one for Sheriff, press two for Clerks office)

Response: Please describe this as an option in your RFP response with additional information so the County can learn more about it.

2. How is your current provider allowed to charge a 7% fee? This rate exceeds Visa's fee limit.

Response: The Visa fee is 2.3%. The remaining 4.7% is to the current provider for functionality provided.

3. Can you explain home payments from section 2.8.3? Will the County allow for delayed settlement or manual settlement to accomplish the delayed ACH file?

Response: At home is when the defendant goes online or calls the vendor to make a payment (not speaking to a court or county employee). These need to be separate from all other electronic money coming in so that the court can tell the difference. The court needs the information ahead of receiving the ACH to ensure it in fact does belong to us. (People think they owe it to Boone County when actually it is a City of Columbia ticket. We need to review these before we get the money so if it is not ours then we can contact the vendor and let them know the money does not belong to us.)

4. Would the inability to provide 24/7/365 support automatically disqualify an Offeror?

Response: Yes. Our jail is included in this service and they are ea 24/7/365 facility.

5. In addendum #3 question #7; a question was asked of the number of chargebacks, in which the County responded, "Current provider guarantees all payments and we are not always made aware of a chargeback. Current provider assumes all the risk for chargebacks, and that is not passed on to the County." In the best interest of the County as regards to the lowest rate to its constituents, can the County ask incumbent vendor how many chargebacks occurred in 2018, and what the respective dollars amounts were?

Response: Our current vendor says "We don't keep records that way. Once the case if finalized, it is removed from our processor".

Melinda Bobbitt Boone County Purchasing Office Boone County Annex Building 613 E. Ash Street, Room 110 Columbia, MO 65201

Re: RFP#33-22AUG19, CREDIT-DEBIT CARD PROCESSING SERVICES

Gila LLC dba Municipal Services Bureau (MSB) is pleased to present our response for **Credit-Debit Processing Services for Boone County, Missouri (the County).** Founded in 1991, MSB is headquartered in Austin, Texas with support centers in Tennessee, Colorado, New Jersey, Florida, Missouri, and Pennsylvania.

The foundation of our proposal is MSB Payments, an electronic payment and merchant services platform designed for state and local government. MSB Payments involves a High Value Comprehensive Payment Solution ready for use. MSB has reviewed the primary objectives for this project and is able to provide the required Enterprise Electronic Payment Processing solution. Our implementation offers an integrated process and system solution to include on-line and point of sale transactions. Our solution allows constituents to conveniently make payments on all bills, fees, and summonses, ensuring fees owed to the County are returned at no additional cost to the County.

We are a single vendor able to service and manage your real-time electronic payments environment. Since we own the process from inception from payment through settlement, all new clients boarded onto our platform are automatically PCI compliant. Our response will remain firm for 180 days after submission.

We look forward to further discussion of next steps with your County Officials. Should you have any questions regarding this proposal, please do not hesitate to contact the following:

Dragos C. Enea, MBA, CPP 8325 Tuscany Way, Bldg. 4 Austin, TX 78754 314..413.2828 Direct Dragos.Enea@GilaCorp.com

Respectfully,

Elye Sackmary President and CEO

Executive Summary

MSB is pleased to submit our proposal to Boone County, Missouri (the County) in response to your Request for Proposal for **Credit-Debit Processing Services**. We are confident that our solution will not only meet but exceed the County's key business requirements now and in the future. The key bullet points in our enclosed response include but are not limited to:

- To provide a seamless and convenient 24-hour online payment service to your constituents so that they can pay their fees using credit cards, debit cards and electronic checks.
- To offer the best possible pricing scenario for both the County and its citizens.
- To share our extensive 28 years of experience in the Government Payment Processing arena.
- To offer improved service and convenience to the County.
- To ensure a PCI compliant and highly secure payment service to the County;
- To offer a solution that will initially support the County, and subsequently to be available for other departments in the County.

What makes MSB unique is that a single vendor can provision, service and manage your entire real time e-payments environment end-to-end, including funds deposits and revenue flows. We offer complete payment processing services, collections, and call center services to governmental entities nationwide. MSB empowers talented employees with advanced technology, data management tools, and leadingedge business practices to exceed the expectations of its clients.

Recognized as one of the "Best government payment processing companies in North America", MSB strives to maintain 100% customer reference-ability and is proud to have a 99.7% retention rate since opening our doors. MSB currently works with more than 1176 clients in all states nationwide and is licensed for collections throughout the United States.

MSB is well positioned to execute the **Scope of Services** required by the County for its payment services. In the following pages, we will demonstrate how MSB will provide an easy-to-use, yet powerful platform for all the County's citizens. They will appreciate using a world class system that supports all payment channels and all payment methods - IVR, web, mobile/tablet and agent-assisted counter payments. The County's customers can make a one-time or recurring payment without logging in or pay through a secure customer portal. We also support dynamic e-bills and ad-hoc messages sent to customers via email or to mobile devices using SMS or IVR. MSB is proud to maintain a stellar track record of 99.99% uptime in the past 10 years. As a **PCI Level-1 certified solution**, we are equally proud to state that **MSB has never experienced a successful security breach since its inception**!

MSB offers business process outsourcing focusing on revenue enhancement services. MSB services state governments, transportation authorities, municipal government entities and other public entities, using a technology platform that delivers exceptional customer service. MSB empowers talented employees with advanced technology, data management tools and leading-edge business practices to exceed the expectations of our clients.

Figure 1: MSB Office in Austin, TX

MSB can provide a comprehensive end-to-end payment processing suite for Visa (credit/debit), MasterCard (credit/debit), Discover, and American Express credit cards. **MSB** offers the entire suite of payment processing options, including:

- 1. **Web payments** Our seamless integration allows for the continuation of payments from customers without interruption and provides your customers verification of payment.
- Face-to-face, point of sale transactions MSB provides stand-alone or integrated credit card terminals to support in-person payments. These on-site payment terminals coupled with our fully encrypted process ensures the highest level of security for your customers and reduces employee exposure to sensitive card holder information.
- 3. IVR MSB offers and hosts the telephone auto-attendant. In addition to dramatically reducing cost of service, our auto-attendant allows your customers to call the automated phone system to make payments using credit/debit cards and e-checks with the same instant approvals and authorization as our online session. Customers will find business streamlined as they obtain the information they seek. If needed, customers can switch to live agent-assisted service to receive personalized service.
- 4. ACH/E-checks Paper checks are also accepted as a payment type and are converted to an ACH e-check at the point-of-sale. Customers may choose to make an e-check payment over all payment channels including walk-up counter, IVR, mobile, web, and text.
- 5. E-billing and statement mailing Using information and data provided through system integration or batch processing (at your discretion), MSB can create PDF e-bill images for individuals to download or have emailed at specified intervals. The e-Bill feature is directly tied into our payment engine, allowing a true one-stop-shop for the entire payment experience.
- 6. **Pay-by-Text** A state-of-the-art module that will enable the County to capture payments from its constituents via text. It will also enable the County to "push" any payment, bills due, balance inquiry and/or court date notifications to its constituents through its world class multi-channel communication system.
- 7. **Pay by mobile** Offers the ability to pay via any mobile device or tablet regardless of the carrier platform.
- 8. Pay by mobile (via apps) Offers the ability to pay via mobile apps.

- 9. Recurring payment portal MSB currently deploys what is considered the gold standard in recurring payments modules. Users will have the ability to login or initiate the "Create an Account" process, reset password, all payment activities associated with a specific user are populated with all pertinent details, the portal can create custom recurring payment schedules by designated frequencies, etc.
- **10. Custom and Tablet Payment Kiosks** The most advanced payment kiosks designed to increase your revenue collection and productivity.

1.0 Offeror Experience

4.1.4.1. Experience and reliability of the Offeror's organization are considered subjectively in the evaluation process. Therefore, the Offeror is advised to submit any information, which documents successful and reliable experience in past performances, especially those performances related to the requirements of this RFP.

Response:

Sínce our inception in 1991, MSB has offered products and services exclusively for government entities for over 28 years.

MSB offers business process outsourcing that focuses on revenue enhancement services including payment processing and collections. We work exclusively with government entities and serve over 1176 state governments, transportation authorities, municipalities, and other public entities across 50 states. We attribute our success to our experience, execution, and ethics. Every project is aligned with the following guiding principles.

- 1. **Experience** Our systems have been continuously reshaped over the years based on feedback from our government clients and the constituents they serve. As a result, we can deliver the most reliable, user-friendly payment processing systems available for point of sale transactions, phone-in payments, and the internet.
- 2. Execution We set ourselves apart by executing on the premise of reliability, security, and service. We subscribe to Six Sigma philosophies for defect rates and understand that an unplanned outage or security breach could have a devastating impact on you (and for this reason, is why we offer the 99.99% uptime guarantee at no cost or risk to you). We will work closely with you to implement the necessary policies and procedures to ensure a seamless transition from any incumbent provider.
- 3. Ethics We have designed our training, quality monitoring, and escalation hand-offs to maximize compliance with the law and minimize disputes. Every process has an ethics control including an anonymous ethics hotline that is anonymous available 24 hours a day, every day. We also maintain an A+ rating with the Better Business Bureau (which we have maintained since the Better Business Bureau instituted a grading system in 2009).

The County will always have the access to support and information needed throughout the duration of the contract.

- We will be 100% transparent and will provide the County with all information required (most of which can be accessed through self-servicing).
- We welcome on-site, announced or unannounced audits, and will provide a secure, secluded area for auditors to work.
- We provide extensive reporting which allows the County to obtain a comprehensive view of daily operations.

Expertise in Government Services

We take pride in our accomplishments, talented people and award-winning technology. Our advanced technology, data management tools and leading-edge business practices are designed to exceed the expectations of our clients.

We also pride ourselves on our ability to execute based on our high ethical standards, experience and compliance with industry, government and accounting certifications including:

- Maintains an A+ rating with the Better Business Bureau
- SSAE 16 SOC 1 Type II compliant service organization
- MSB applications are PCI-DSS Level 1 Compliant
- Credit bureau reporting
- Record 100% of all inbound and outbound client service calls
- Compliance with all federal, state and local laws
- Fully licensed, insured and bonded
- Initial and ongoing employee background checks
- Confidentiality agreements signed by all employees
- Client audits and site visits available at any time

MSB has an annual audit conducted by outside, independent auditors that meets all Generally Accepted Accounting Principles (GAAP). The audit includes reviews of internal controls and other operating procedures. Current and past audited financial statements have been issued with clean opinions.

MSB is committed to ensuring our clients have the accesses they need to confirm our assertions, anytime they want, for the duration of a contract. To this end, MSB commits the following to the County:

- We will be 100% transparent.
- MSB will provide all information to our clients' auditors upon request, or at a designated interval requested by the client.
- MSB welcomes on-site audits and will provide a secure, secluded area for our clients' auditors to work.
- MSB provides extensive reporting which allows our clients to obtain a full 360° view of the operation daily.

MSB also has reshaped and continuously molded its reporting modules to suit the changing needs of government entities, based on feedback from our clients as well as changes within the payment acceptance industry. While the provision of a reliable and cost-effective payment system is at the core of our service offering, MSB provides unparalleled levels of service and support. We have worked for 28 years with our government partners and we understand the budgetary constraints that often present themselves. To this end, MSB endeavors to customize its own processes to suit our clients' needs so that our clients are not faced with hard budgetary decisions on how to allocate IT and other technology resources during implementation of our systems or redesign later in a contract.

MSB has a long history in payments, stemming from its origin in 1991 in debt recovery, later evolving to toll collection payments in 2007 and payments processing in 2010. MSB processes a wide range of payment volumes, from small rural courts to large government entities from state agencies like the

mobility authorities like the Central Texas Regional Mobility Authority, and the North East Texas Regional Mobility Authority.

MSB is processing a daily average of 9.7 million transactions on the MSB Payments platform, designed to process high volumes with no limit of capacity.

The size of our clients varies from a low of \$500,000 in processing volume to a high of \$275,000,000. Some of our notable project implementations include:

- New Mexico State Magistrate Courts with \$12.8 million in processing volume.
- Nashville, TN Metro with \$47 Million in processing volume
- Sedgwick County, KS with 56 Million in processing volume
- State of New Jersey surcharge program with \$112 Million in processing volume
- And ... of course, large Federal programs such US Department of Education, US Department of Homeland Security, etc., who process close to \$1 Billion in annual transactions combined.

In addition to MSB Payments, MSB's toll collection and payment services has grown to operate one of the largest toll collection services programs in North America, processing over 200 million transactions a year for mobility authorities including:

- Central Texas Regional Mobility Authority with 24 million transactions and \$33.3 million in dollar volume.
- North East Texas Regional Mobility Authority with 4 million transactions and \$7.4 million processing volume.

Meeting the Boone County Expectations and Technical Specifications

MSB asserts that, based on the business and technical requirements set forth in the RFP, we have the expertise, experience, skilled resources, performance plans, implementation plans and management to support the County's payments processing project.

2.0 Previous – Current Services and Contracts

4.1.4.2. The Offeror should provide the following information related to previous and current services/contracts performed by the Offeror's organization and any proposed subcontractors which are similar to the requirements of this RFP (This information may be shown on the form attached as Exhibit C to this RFP or in a similar manner):

- a. Name, address, and telephone number of client/contracting agency and a representative of that client/agency who may be contacted for verification of all information submitted;
- b. Dates and locations of the service/contract; and
- c. A brief, written description of the specific prior services performed and requirements thereof.

Response:

MSB has provided references within Exhibit C of this response document.

References we provided were for:

- Sedgwick County, KS;
- Douglas County, CO Treasurer
- Douglas County, CO Building & Permits
- Washington County, MO Collector
- Osage County, MO
- Outagamie County, WI

3.0 Licenses – Certifications

4.1.4.3. The Offeror should submit a copy of all licenses, certifications, accreditation, and/or permits, which may be required by state, federal, and/or local law, statute, or regulation in the course of conduct of the Offeror's business. If not submitted with the proposal, the County reserves the right to request and obtain a copy of any license or certification required to perform the defined services prior to contract award.

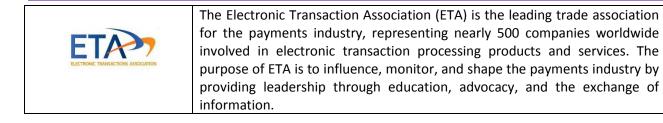

Response:

MSB has extensive experience delivering payment processing solutions exclusively to government entities throughout the United States and are confident that our solution will meet your business requirements and exceed your expectations.

Security Standards Council	MSB's payment solution is PCI Level 1 certified, which is inclusive of web applications, web services via telephone IVR, and standalone point-of-sale terminals.
ACCREDITED BBB	MSB is a Better Business Bureau (BBB) accredited business. We received an A+ rating for our ability to quickly respond to and resolve complaints. It is a testament to our quality standards that we maintain the highest rating granted by the BBB.
Committed to Excellence	The National Association for Court Management (NACM) is an organization of court management professionals dedicated to the improvement of courts and the development of court managers. NACM has been a leader in advancing the profession and MSB is a long-standing supporter.
SSAE 16 TYPE II CONVELIANT	Statement on Auditing Standards (SSAE) No. 16, <i>Service Organizations,</i> is a widely recognized auditing standard developed by the American Institute of Certified Public Accountants (AICPA). A service auditor's examination performed in accordance with SSAE No. 16 ("SSAE 16 Audit") means MSB has been through an in-depth audit of our control objectives and control activities, which often include controls over information technology and related processes.
Clentity,	MSB completed the Red Flag identity theft program and is certified Red Flag Compliant in accordance with the FTC Fair and Accurate Credit Transactions Act #114. This policy helps to identify, respond to, and mitigate identity theft from each area of the company. All individual departments at MSB have completed a Red Flag policy, and our corporate Red Flag Compliance is reviewed annually.

Figure 2: Professional Memberships and Credentials

Within **Appendix A**, we have provided copies of licenses/certifications by which we do business.

These include:

- Gila LLC Certificate of Incorporation
- Gila LLC Certificate of Business Organization Name
- Gila LLC Certificate of Conversion
- MSB Certificate of Good Standing in Missouri
- E-Verify Certificate
- Card Safe Breach Guarantee

4.0 Scope of Services (RFP Section 2)

4.1.4.4. Proposals will be subjectively evaluated based on the Offeror's distinctive plan for performing the requirements of the RFP. Therefore, the Offeror should present a written narrative, which demonstrates the method or manner in which the Offeror proposes to satisfy these requirements. The language of the narrative should be straightforward and limited to facts, solutions to problems, and plans of action.

Response:

MSB proposes our MSB Payments Processing Service which is an electronic payment platform designed specifically for city, county, and state government agencies for payment processing with multi-channel support including web, IVR, mobile, kiosk, pay-by-text, over-the-counter, lockbox, and operator-assisted call center.

MSB provides a transaction **reporting suite** that operates in real time for settlement and ad hoc reporting. The reporting portal can reconcile by department, merchant ID#, sub-department, etc. Essentially, you can input any type of parameter for reconciliation and our system can deliver that report in real time.

Daily **settlement** occurs at 11:59 PM, Central Time, each business day with funds available the following business day. You will have on-line access to all reports pertaining to merchant accounts, ACH processing accounts deposits, and transfers to your bank accounts. We provide custom reporting to ensure the County's required batch close-out reports reflect the desired reconciliation process

High Value Comprehensive Solution Package

The foundation of our solution is a **High Value Comprehensive Solution Package (**the provisioning of our complete service that is ready to be deployed for the County's use). Our **implementation** plan allows the County to address billing and payment needs without having to allocate funds for an enterprise electronic payment solution.

With our high value, comprehensive implementation, the County receives the following premium valued payment solutions:

BUSINESS SUCCESS		
Feature	Feature Solution	
Consolidated platform for multi-channel payments	Support for credit card, debit card, e-Check, manual checks, and cash payments with 99.99% uptime across web, counter, operator, IVR, mobile, kiosk, and text channels	Increases success of client's business performance management
Real-time analytics and reporting	Premium-class, real-time reporting, both scheduled and ad hoc	Allows the client to continue to make thoughtful and informed decisions

In addition to offering software as a service (SaaS), implementation includes the ability to:

- Void transactions online.
- Batch reconciliation.
- Process ACH, credit cards, EFT, pay by text, and IVR.
- Set up EBPP, auto pay, scheduled/recurring payments, and one-time payments.
- Perform Client communication and email reminders.
- Set up automatic account linking and real-time integration with your billing system

MSB Responsibilities:

MSB confirms that we will be responsible for each of the following tasks:

- Implementing a new payment portal.
- Providing a project plan for all phases of the payment portal project.
- Providing a staging site to run and test the application prior to launch.
- Ongoing maintenance and update plan.
- Installing any machines, equipment and software and make any necessary arrangements so that the County will remain operational for merchant card transactions starting on a mutually agreed date and time to be established.
- Providing training to administrators and staff.
- Providing any additional information which will be beneficial in the evaluation process.

What sets MSB Apart?

MSB distinguishes itself based on its brand: Experience, Execution and Ethics.

MSB Payment Processing provides the following advantages:

- Customization MSB will customize payment service to your requirements at no additional charge. Whether On-line portals, receipts or reports, it will allow your messaging and design to present your agency to its best advantage and ensure your constituents understand that they are partnering with you.
- Ecosystem Our robust, cloud-based processing network provides the security you expect and the ease of use for you and your constituents. It is designed to remove the PCI burdens from your plate.
- Flexibility We do not offer cookie cutter solutions. We design our systems around your requirements, instead of dictating how your system will work. This ensures that your payment system is providing the constituents with the experience you envision ensuring they process their payments when needed.
- Settlement and Funding As the merchant of record, we provide your funds the next day.
 We close batches according to your timeline and fight on your behalf in chargeback situations.
- Client Servicing Responsive and timely direct line access for your support team, guaranteeing you are up and running when your constituents need to process a payment

In closing, MSB's Payment Processing Service ensures our ability to provide the solution that the County requires. As you move forward with this project, please feel free to contact us with any questions. We do recommend that we schedule a face-to-face meeting to discuss the solution in full detail at your earliest convenience.

2. Scope of Services – Bail & Fine Payment Processor-Mandatory Requirements

2.1. Card Acceptance and Compliance:

Our payments system supports authorization and settlement of transaction over industryaccepted networks.

2.1.1. Accept major credit, debit and prepaid cards: Visa, MasterCard, American Express, Discover.

Response:

MSB complies. For networks within the United States and Canada, our payment platform accepts credit and debit card transactions for

- 1. Visa
- 2. MasterCard
- 3. Discover
- 4. American Express
- 5. ACH/e-check

Our platform can be easily integrated with multiple existing platforms. We can help identify which platform will best suit your needs based on performance and cost.

Figure 4: Forms of Payments Processed by MSB

Through the Nexus portal, our customers can define each registered user function level permissions.

2.1.2. Card association recognized as "merchant of record" for processing cash bail payments.

Response:

Since we are one of the only five truly certified Government PayFac organizations in United States, we are the sole merchant of record for all contracts we enter into with our Government clients. Therefore, we hold the highest level of compliance when it comes to daily depository times. We also offer the highest level of protection against chargebacks due to our PayFac designation.

2.1.3. Compliant with all applicable card association rules.

Response:

MSB fully complies with this requirement.

The Card Associations (e.g. Visa, MasterCard, American Express, and Discover) publish and regularly update their operating regulations and card-acceptance policies and procedures. American Express, for example, updates its two-hundred pages Merchant Regulations at least twice a year. All merchants are required to follow these rules in order to accept card payments. Platforms caught factoring, face serious penalties, including the termination of their merchant account, and/or hefty fines. MSB follows these rules. Not only must payment facilitators adhere to the operating regulations, they must force their users to adhere as well.

2.1.4. Compliant with Payment Card Industry Data Security Standards (PCI DSS).

Response:

MSB fully complies with this requirement.

The Payment Card Industry Data Security Standard (PCI DSS) is a set of requirements designed to ensure that all companies that process, store, or transmit credit card information adequately protect cardholder data. The PCI DSS is administered and managed by the Payment Card Industry Security Standards Council (PCI SSC), a non-governmental regulatory body established by the Card Associations.

We have provided a copy of our Report of Compliance within Appendix A of our response document.

PCI DSS Level 1 Compliance

We actively work to ensure that you are compliant with the industry PCI DSS Level 1, and certify all hardware supplied is PCI PED (PIN Entry Device) approved. We also offer a best in class data security solution that can significantly reduce the risk of data compromise. We have direct contact with the card brands, who establish the rules, and provide additional guidance to support your needs.

Personnel focusing on internal and external measures proactively enforce, monitor, update, and communicate card brand rules and regulations internally. Specifically, our Risk Management team consists of:

1. **Credit Portfolio Management** – Performs credit risk evaluation and supports growth initiatives while managing acceptable risk levels.

- 2. **Transaction Risk** Develops risk strategies, policies, systems, tools and metrics; ensures merchant compliance, understanding, and protection.
- 3. **Regulatory Risk** Implements end-to-end regulatory risk and compliance programs for applicable laws, driving adherence, application, and awareness. A recent change in the regulatory sphere is the new Consumer Financial Protection Bureau (CFPB).
- 4. **Industry Relations** Coordinates sponsorship and compliance teams, manages agent registration process approving sponsorship and ensures sponsorship requirements are met.

We will notify you immediately upon detecting non-compliance with Visa/MasterCard regulations or PCI security regulations. Notification is conducted via phone (direct line) and email by your Account Executive. A certified letter is also sent within 24 hours. If the Account Executive is not available, you will be notified by the next project manager included in the Escalation Roster provided upon award of contract.

We have not experienced non-compliance. However, a few reasons for non-compliance are:

- 1. Non-protection of the point-of-sale card holder data
- 2. Non-secure network and wireless access routers
- 3. Non-secure payment card data storage and transmission
- 4. Non-secure internal servers, online payment applications or shopping carts
- 5. Slow or non-responsive for one or all chargeback retrieval requests received from the issuing bank that initiated the chargeback
- 6. Inconsistent refund methods and procedures.
- 7. Processing transactions that fall outside of your designated MCC code

There is a 30-day grace period from the first day of notification to become compliant. Our compliance department manages these types of issues and regularly monitors the security and processing activity. This ensures that you are always compliant. If you become non-compliant, we will assist you with creating a plan on how to become compliant and include an allotted timeframe.

All new clients boarded onto our platform are automatically compliant since we own the transaction from inception to settlement. Even if you are not currently compliant, you will become compliant once the data migration is completed.

Security Assessments

We are periodically subjected to penetration tests by internal personnel and certified third-party assessors. This ensures proper configuration of protective systems and safeguarding of data.

On an annual basis, we are subject to review and certification by independent third-party assessors who are approved by either the Accounting Institute of Certified Public Accountants (AICPA) or the applicable card brands. These ongoing, independent reviews and certifications provide you with the assurance that transaction activity, cardholder data, and customer information is properly protected.

SSAE 16 SOC 1Type II Independent Service Auditors Report is used to validate the integrity of our internal controls. (We are currently in the process of obtaining SSAE 18.)

This review provides assurance on the effectiveness and efficiency of the processes surrounding transaction-processing, settlement, card issuance, and various regulatory requirements – all critical

operational activities used to support the services we provide. This review also ensures that an independent auditor verifies that we do what we say we do.

Payment Card Industry Data Security Standard (PCI DSS) Certification

This certification validates business control effectiveness surrounding the infrastructure used to protect cardholder information at the highest security level in all instances where information is stored, processed or transmitted. Monthly information system scans are performed to provide added assurance of the security of our information technology infrastructure. This compliance program is also a proactive security initiative to ensure that we adequately protect our information technology infrastructure against hacker intrusions and account data compromises. We employ a "defense-in-depth" methodology to ensure that data transmitted to MSB is secure and safe. Our most recent PCI-DSS certification is included with our response as **Appendix A**.

Cardholder Data Storage for PCI compliance Purposes

MSB will store all credit card information (obtained through the life of the contract plus any extensions) on its own servers, eliminating the need for the County to store this data and minimize the County's exposure to PCI related issues.

2.1.5. Minimum possible PCI DSS burden on County

Response:

We actively work to ensure that our clients are compliant with the industry PCI DSS Level 1, and certify all

hardware supplied is PCI PED (PIN Entry Device) approved. We also offer a best in class data security solution that can significantly reduce the risk of data compromise. We have direct contact with the card brands, who establish the rules, and provide additional guidance to support the County's needs.

Personnel focusing on internal and external measures proactively enforce, monitor, update, and communicate card brand rules and regulations internally. Specifically, our Risk Management team consists of:

- Credit Portfolio Management Performs credit risk evaluation and supports growth initiatives while managing acceptable risk levels.
- 2. **Transaction Risk** Develops risk strategies, policies, systems, tools and metrics; ensures merchant compliance, understanding, and protection.
- 3. **Regulatory Risk** Implements end-to-end regulatory risk and compliance programs for applicable laws, driving adherence, application, and awareness. A recent change in the regulatory sphere is the new Consumer Financial Protection Bureau (CFPB).
- 4. **Industry Relations** Coordinates sponsorship and compliance teams, manages agent registration process approving sponsorship and ensures sponsorship requirements are met.

JUST THE FACTS

LEVEL 1 COMPLIANCE

MSB's payment application is PCI Level 1 compliant. We

have never failed to meet PCI

DSS compliance criteria, nor

faced a successful breach.

Disaster Recovery Plan, Network Ownership, Overflow Capacity, Redundancy, and Performance

MSB maintains a comprehensive disaster recovery plan. Highlighted in this plan include data backups and server availability. Tape backups of all corporate data are performed on a daily basis and are shipped weekly to Iron Mountain for secure offsite data storage. Server availability is maintained by providing redundant servers for the company's most critical application. Through a 15-member peer group of which we are a member, reciprocal recovery efforts are guaranteed in the event there is a loss due to fire or an act of God. **MSB maintains an Agility partnered solution for a fully operational processing center within 48 hours of a natural disaster.**

MSB's payment system has greater than 99.99% up-time and can handle thousands of simultaneous transactions per second with no emergence of latency against the server or end-user system(s). Furthermore, MSB's transaction burst capacity has no upward threshold.

MSB's servers reside in its on-site datacenter which is monitored 24/7 by our network engineers. The datacenter itself is accessible only by authorized IT personnel, IT management, and two of MSB's corporate officers. In the event of any anomalous event in the datacenter (e.g. room temperature rises by one-degree Fahrenheit outside of allowed tolerances or an unusual volume of transaction activity outside of norms for a given hour / day), an alert is broadcast by text and email to all network engineers and IT senior management staff so the situation can be addressed prior to the emergence of a system outage.

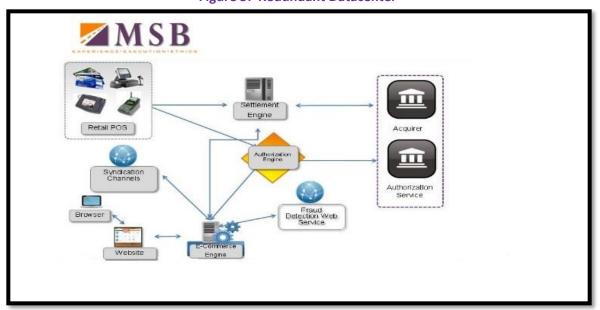

The datacenter itself is also protected by an automated fire-retardant system which will remove oxygen from the room if conditions favorable for a fire are detected.

In the event of an outage (e.g. natural disaster) at MSB's primary datacenter, MSB will switch its system functionality to one of two off site facilities (both more than one thousand miles from MSB's location and more than 700 miles from one another). In the case of an outage for any reason however, MSB relies upon its Business Continuity and Disaster Recovery Plan for next steps and processes. In this plan, to ensure redundancy of operations, a clear succession line of decision makers is listed, as well as primary, secondary, and tertiary back-up procedures.

Redundant datacenters have the same physical security measures in place as the primary datacenter. Please see redundant center diagram following:

Service Interruption

MSB employs a formal methodology for measuring and evaluating systems health and planning capacity. Given the breadth of systems that are encompassed by our services, the procedures for gathering statistics vary (e.g. network device throughput data is captured via different tools and at different logical intervals than server infrastructure). However, a common and rigorous process of quarterly evaluations includes the following assessment protocol:

- Availability- minimum 99.99% to 100%
- Performance customer experience/impacts as primary gauge
- Release Management currency as standard
- Capacity minimum of 18 months growth plus a defined margin over peak
- Disaster Recovery tests examined versus both frequency as well as efficiency standards
- Data Retention purge and schedule automation criteria

Systems are sized and all capacity-planning efforts are geared toward having sufficient capacity so that any single system outage will not affect the performance of the environment or the response times experienced by our customers during the peak hour of the peak day with significant compounded growth forecasts considered.

Capacity planning efforts are further validated using test and production systems to ensure that no capacity issues exist in the environment.

MSB has engineered its real-time, online systems to ensure that backup has been provided for all critical system components. The intent and design have been to ensure that no single component failure can adversely affect the service being offered. Essential elements of this comprehensive contingency engineering strategy include alternate data centers for front and back end services and redundant Authorization Transaction Routing systems.

2.2. Transaction Options and Services:

We have extensive experience delivering payment processing through the entire supply chain.

2.2.1. All Internet-based, card-not-present processing technology.

Response:

MSB complies. Our systems are designed to accommodate every need that the County might have when it comes to processing a transaction. That is to say, we can process transactions for the County` in a CNP (Card Not Present) environment, via web, over the phone, via IVR, via text, key-entered, etc. We can also process the transactions in a face-to-face, fully EMV and PCI compliant environment (swiped, chip enabled). Another modality is E-Commerce environment (shopping cart situations, recurring payment modules, card on file situations, etc.)

We authorize via secure SSL/TSL IP connection. It offers the fastest, most reliable conduit for authorization of electronic transactions. It also provides the perfect medium for properly encrypting the card holder data, especially in today's current chip enabled environment.

The County will also be happy to know that MSB is the only Government processor to employ the latest cutting-edge technology when it comes to offline authentication: the coveted DDA-CDA encryption. This is by far the most advanced technology to date when it comes to offline transaction authentication in an EMV, chip-enabled environment.

Please see below some examples of full transaction flow diagrams for card present, card-not-present environment.

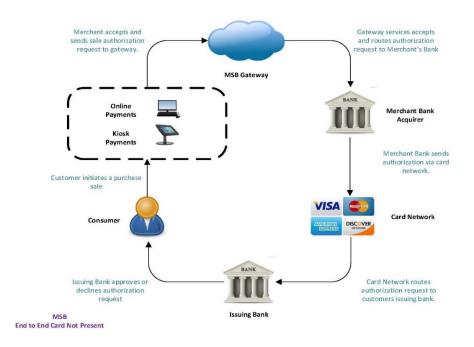

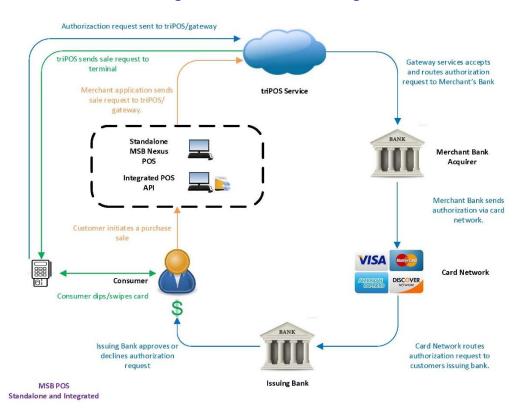

Figure 6: Standalone and Integrated

2.2.2. Online-real-time card authorization communicated to County.

Response:

MSB fully complies with this requirement as well. All of our payments are processed in real time. The authorizations are done instantaneously, and we settle in our own platform as required by the County.

2.2.3. Accept payments via Phone, Web, and on-site.

Response:

MSB complies. Services provided under this proposal include a complete credit and debit card acceptance for Visa, MasterCard, Discover Card and American Express, as well as debit cards from all the standard debit networks available in United States. MSB's IVR system is backed by industry veteran Interactive Intelligence Incorporated (I3). This acceptance is supported 24 hours a day, 7 days a week, 365 days per year for card payments through all point-of-sale services desired by the County.

Service also includes the ability to manually accept credit card processing data in an on-site environment or over the telephone should there be a power or system disruption with subsequent processing when the service is restored. All functions for processing are included such as the charging of a card, voiding a transaction and issuance of a credit or a return. Each transaction type can be secured by allowing access to that function through password or access rights when working through the internet gateway.

MSB's Processing Segments will include:

Counter Module

The Counter Module provides constituents with the ability to make payments face-to-face with County personnel using a payment device/processing terminal. MSB's software will issue unique confirmation numbers to citizens who have completed a payment transaction using the Counter Module. The Counter Module allows County Staff the ability to access reports via the web. MSB has already changed the payments landscape with the introduction to our client base of the newest technology in the EMV/NFC equipment. The traditional countertop "magnetic-stripe" readers were the revolution of this industry card, now with the EMV (Euro-Pay MasterCard Visa) enabled devices; we are ahead of the process with our advanced technological products and offerings.

MSB offers all pertinent County locations a Uniform Placement Program with the advance EMV products as well full access to 'The Nexus,' our robust Payment Center. We attest that transactions will be faster and more secure. All of our terminals, countertop, wireless, or plug-in peripheral, are fully EMV compliant with dual-interface capabilities (contact and contactless). MSB has established connections with virtually all terminal manufacturers and can support almost any terminal option.

All of our countertop, world class terminals are equipped with the standard capability of contactless ApplePay, GooglePay and AndroidPay.

MSB also supports the entire spectrum of debit network payment options for the County to select from during the program design process including but not limited to:

MasterCard-debit	Alaska Option	Pulse
Visa-debit	Credit Union 24	Money Station
Discover-debit	Interlink	Tyme
Accel	Maestro	Shazam
AFFN	NYCE	STAR

Service also includes the ability to manually accept credit card processing data in an on-site environment or over the telephone should there be a power or system disruption with subsequent processing when the service is restored. All functions for processing are included such as the charging of a card, voiding a transaction and issuance of a credit or a return. Each transaction type can be secured by allowing access to that function through a password or access rights when working through the internet gateway.

Web Module

The Web Module provides citizens the ability to make payments online using a payment device via a secure website hosted by the MSB secure server. We provide a link from the respective County department's website to our hosted website for citizens to submit payments. Unique confirmation numbers shall be issued to citizens that have completed a payment transaction using the Web Module.

The Nexus is MSB's own gateway and contains a full set of robust electronic payment features and capabilities. Through the Nexus, clients have access to typical features in a payment gateway, including a virtual payment processing terminal for card and ACH transactions, automated recurring payment functionality, stored profile and tokenization options, and a robust set of e-commerce options such as hosted web payment forms, shopping carts, and secure checkout forms. In addition, there are several distinguishing features of the Nexus that enhance the overall value to the client.

Interactive Voice Response: (IVR) Module

The Interactive Voice Response: Module will be completely custom made for the County and it will have custom submenus for each individual department within the County. MSB's world class IVR system will also provide the constituents with the ability to make payments over the phone using a payment device. The taxpayer calls a designated toll-free phone number provided by and managed by MSB. The voice Response: module will provide instructions and recognize taxpayer instructions through making a payment; the phone key will then be used to enter payment devise numbers. Unique confirmation numbers will be issued to citizens that have completed a payment transaction using the IVR Module.

MSB's IVR module has the basic capabilities required to process payments as described above. As part of our value proposition, we also allow for our clients to customize various aspects of the IVR to suit the needs of its constituents (or if applicable), constituents serviced by different departments for our clients. Customization comes with a unique toll-free number specific to each client/department which needs it, as well as custom recordings specific to each client's geographic region or policies. For example, if a client was to request custom language during a special event or disaster, MSB can add such a recording to the system which precedes the payment interface. As an additional optional service, MSB can establish an entire auto-attendant menu separate and aside from payments to facilitate additional constituent self-servicing options.

MSB's IVR flow is very intuitive for constituents, but also is designed to maximize the constituent's propensity to embrace self-service and also to remit the payment period. Standard design schema such as minimizing options on each menu, having all options no more than two menus deep, and selecting the voice for the audio prompts are part and parcel to our methodology. Beyond this, MSB can add auto-attendant prompts to the call flow that is unique to provide constituents the ability to use credit cards and e-checks online to make payments for various fines and fees.

MSB's IVR system will also offer any of the County's staff an automated outbound communications tool. This unique system was developed to address requests from our government clients to be able to send

out automated communications to customers to alleviate time and cost incurred by sending out late notices and having any County department customer service staff make outbound calls to constituents for reasons such as payment reminders, interruption messaging and emergency messaging. Messages can be targeted to the specific type of constituent so that you can help influence customer behavior.

In conclusion, MSB's IVR system will provide users with:

- a. Toll-free number to system; system can be directly accessible through the County's phone system.
- b. Cutting edge TTD/TTY phone support device for the hearing-impaired customers.
- c. Choice of options including type of transaction and method of payment.
- d. Clear and precise instructions to users in four different languages.
- e. Confirmation of all information entered into the system.
- f. Voice Response: system presents user with confirmation of payment.
- g. 7/24/365 availability.
- h. Outbound Communication Portal at no cost to the County.
- i. Customer service assistance and live operator is provided at no cost.

1. Point of Sale (POS)

MSB's Point of Sale electronic check conversion allows our Government clients to eliminate paper checks by turning them into electronic transactions at the cash register. After a customer gives a merchant a paper check, MSB immediately converts the paper check into an electronic transaction safely, securely and quickly.

The citizen signs a receipt authorizing the transaction, the paper check is stamped "void" and returned to the consumer. An image of the paper check is uploaded to MSB via our world class Nexus portal via secure file transfer.

- MSB uses the normal Automated Clearing House (ACH) network and other processes to settle the transaction.
- Funds are deposited directly into our client's bank account generally Next Day.

With MSB's electronic check service, our Government clients can reduce bank fees and improve cash flow. Our clients can choose to add MSB's Check Verification and Collection services to reduce risk, or MSB's Check Guarantee* service can be added to virtually eliminate receiving bounced checks altogether.

Benefits of Point of Sale Check Conversion:

- Reduced Bank Fees, processing costs and fewer trips to the bank
- Improved Cash Flow
- Service Fee Revenue
- Minimized risk of fraud and returned checks
- Access to MSB's extensive negative Databases and risk assessment
- Immediate and extremely accurate online reporting through our Nexus Portal

2. Check Conversion/Remote Deposit Capture (RDC)

MSB's Remote Deposit Capture solutions enable our clients to deposit checks remotely to any bank account at any institution right from their department's location.

Checks are scanned in through one of our approved and certified devices and then (depending on the type of checks received) are either converted into ACH transactions or are sent directly to the bank for clearing, just as if you were to make a deposit at the teller.

Our clients experience faster availability of funds, convenience, business process efficiencies, improved carbon footprint (from reduced trips to the bank, deposit slips, envelopes), and improved risk mitigation. Utilizing MSB's Remote Deposit Capture solution will revolutionize your department's efficiency by providing valuable data that can be intelligently fed into internal programs and applications, giving your streamlined access to the information you need to make business decisions.

What Is Remote Deposit Capture?

Remote Deposit Capture refers to the process of making bank deposits without having to go to the bank. With Remote Deposit Capture technology any and all checks, money orders, or coupons can be safely and securely deposited right from your preferred location; Home, Office, Retail POS, Back Office, Billing/Collection Department, etc.

Items are scanned into the system using an approved document scanner, their images are captured and

automatically converted into the appropriate file type. Information from the check is automatically pulled into the device or software program and is then submitted to be processed.

All items run through for deposit can be viewed in a cloud-based secure online environment where you can: view transactions, see the status of your deposits, and also extract the information for bulk upload into a preferred accounting system.

Because our solution is bank agnostic, we make it possible for you to use your existing bank account. Simply set up an MSB Merchant Account and give us your existing account information. All checks scanned through your check scanning device will be deposited directly into your preferred bank account. MSB is the simplest way for your department(s) to start utilizing a Remote Deposit Capture solution that also provides your business with a complete arsenal of diversified payment processing and reporting capabilities.

MSB RDC Advantages:

a. Work with Any Financial Institution:

Many of our competitors do not offer an RDC solution for their Government clients, with MSB RDC solution, we make RDC possible for any client!

b. No Certification Costs

The few competitors that do offer RDC typically charge a hefty certification cost in order to utilize their remote deposit capture solution, we have already gone through an extensive certification process, so you do not have to!

c. Dynamic Real-Time Reporting

View transaction and deposit details 24/7. Generate various standard and customizable reports. Export information for bulk entry into most accounting systems through our Nexus portal.

NSF items will be identified to the County in the daily report. Should the County request Guarantee services, these items will be automatically reinitiated two times and then referred to our dedicated collection department. Otherwise, the County will have the opportunity to reinitiate transactions according to their preferred business processes.

Administrative returns will also be identified to the County in a daily report. Typically, these items require contacting the taxpayer for updated information. Items which were approved as part of the check guarantee process will be paid to the County. Items which did not receive an authorization will be the responsibility of the County.

These figures vary by capture method (manual entry vs. MICR scan), SIC code, average ticket and region of the country. Administrative returns will vary based on whether or not a check verification service is used. Industry averages are in the 2% range. The average collection rate also varies based on respective vertical markets, and services elected by our clients.

The County department(s) can have the option of receiving a bcc copy of all payments from our E-Check portal solution. In addition, ACH payment transactions can be viewed in real time through our secure interface. The State department(s) can run ad hoc reports as needed through the online portal, or schedule reports to be delivered automatically.

2.2.4. Toll-free telephone number available 24/7/365.

Response:

MSB complies. MSB understands that payment processing issues require urgent resolution, and to this effect, all clients are provided with a toll-free number as well as direct extensions to multiple escalation points to ensure we provide the most rapid response possible. Each one of our Government clients gets their own Relationship Management Team composed of four (4) highly trained and specialized professionals with many years of experience in the industry. Each member of the team alternates one weekend in order to deliver a truly concierge level customer service experience.

2.2.5. User-friendly web site.

Response:

MSB complies. MSB Payments processing center will be accessible via a customized Web portal seamlessly integrated with your web site and back-end systems. We will provide various methods of interfacing

with our system and verification of a transaction, including but not limited to:

- An interface we develop and host that allows a state agency to do **branding or customizations** for the look of the site.
- An Application Program Interface (API) that provides documentation on how a state agency would pass the required information over HTTPS to their system and then receive back a Response: or payment confirmation.
- A web service that interfaces with existing state agency systems.

Our web site will be accessible as a "**click-through**" from the state agency's web site when the customer is ready to pay. We will **confirm payment** by e-mailing and/or texting users verification of payment.

Part of our comprehensive solution to our government partners is to provide a full web portal build out, if so desired. We can provide the County two different web solutions:

a. Option1:

MSB will build the website from scratch to replicate the "look and feel" of the County official site. We will also host the webpage, support the entire infrastructure of the application, be responsible for the data security and tokenization and be responsible for all PCI compliance requirements. This is the solution most of our clients choose.

b. <u>Option2:</u>

MSB will simply act as the third-party processing gateway. Once the customer is on the County official website, they will choose the payment button and they will be directed to our MSB gateway site. Needless to say, a message will be displayed prior to being transferred to our site informing them of the fact that they are in fact processing the transaction via a third party. Needless to say, in this scenario MSB will also host the webpage and support the entire infrastructure of the application.

<u>Either option is built fully at MSB's cost</u>. No IT resources or funds will be required from the County.

The customer access to the web interface will be done seamlessly via a Microsoft Windows Platform. Unless instructed by the County differently, MSB will build the interface so that the customer has a seamless experience. Our web interface is fully configurable, and our solution supports enrollment from our on-demand web interface.

Please see the following examples of web portals we've built and screen shots of our work:

Please see below screen shots for some of our other work in customizing the official sites to meet the current systems in the respective Cities, Counties:

2.2.6. On-site payment processing capability with minimal downtime, support, or equipment needs.

Response:

MSB fully complies with this requirement. As previously discussed, the Counter Module provides constituents with the ability to make payments face-to-face, on-site with County personnel using a payment device/processing terminal. MSB's software will issue unique confirmation numbers to citizens who have completed a payment transaction using the Counter Module. The Counter Module allows County Staff the ability to access reports via the web. MSB has already changed the payments landscape with the introduction to our client base of the newest technology in the EMV/NFC equipment. The traditional countertop "magnetic-stripe" readers were the revolution of this industry card, now with the EMV (Euro-Pay MasterCard Visa) enabled devices; we are ahead of the process with our advanced technological products and offerings.

MSB offers all pertinent County locations a Uniform Placement Program with the advance EMV products as well full access to 'The Nexus,' our robust Payment Center. We attest that transactions will be faster and more secure. All of our terminals, countertop, wireless, or plug-in peripheral, are fully EMV compliant with dual-interface capabilities (contact and contactless). MSB has established connections with virtually all terminal manufacturers and can support almost any terminal option.

All of our countertop, world class terminals are equipped with the standard capability of contactless ApplePay, GooglePay and AndroidPay.

MSB also supports the entire spectrum of debit network payment options for the County to select from during the program design process including but not limited to:

MasterCard-debit	Alaska Option	Pulse
Visa-debit	Credit Union 24	Money Station
Discover-debit	Interlink	Tyme
Accel	Maestro	Shazam
AFFN	NYCE	STAR

Service also includes the ability to manually accept credit card processing data in an on-site environment or over the telephone should there be a power or system disruption with subsequent processing when the service is restored. All functions for processing are included such as the charging of a card, voiding a transaction and issuance of a credit or a return. Each transaction type can be secured by allowing access to that function through a password or access rights when working through the internet gateway.

All of our equipment is <u>ALREADY capable</u> to process contactless transactions via all smart phones (**ApplePay, GooglePay, AndroidPay**, etc.). Our solution is turn-key. We will be ready to install these devices fully operational at the time of the Award notice across all State footprints.

We offer our equipment free of any additional cost. **The maintenance is provided 100% at no cost to the State for the entire duration of the contract**. Please see additional details in the pricing section.

Our world class TriPOS solution does not require any supplies. There is no thermal paper involved, there is no ink, there are no supplies needed. All receipts are printed from the normal printer that is currently used in every office (8" X 11.5" paper). This solution also allows for a whole range of receipt customization that normally is not available when standard stand-alone terminals are used.

MSB will offer all pertinent State department(s) locations a *Uniform Placement Program* with the advance EMV products as well full access to 'The Nexus,' our robust Payment Center. Our systems offer a fully automated authorization process that requires no human voice communication for either sending or receiving transaction authorizations.

2.2.7. Email receipt and confirmation available for County and Payors.

Response:

MSB complies. We will issue a **confirmation receipt** number to each customer for each completed transaction. We will **confirm payment** by e-mailing and/or texting users verification of payment.

2.2.8. Agency initiated payment Acceptance or Denial capability (fax, email, etc.).

Response:

MSB complies. Services provided under this Web portal include credit and debit card acceptance for Visa, MasterCard, Discover, American Express, and debit cards from all standard debit networks available in United States. Acceptance is supported 24 hours a day, every day for card payments through point-of-sale services.

2.2.9. Administrative and Technical Support available 24/7/365.

Response:

MSB complies. We fully understand that client service call centers have the power to improve rapport between you and your customers. Our client support staffs an entire department of technical support level employees that specifically manage transaction flow, gateway integration and web-based payment processing. Client Help Desk Support is available 24/7/365. Clients can use a live operator assisted transaction processing if needed by dialing a designated toll-free phone number assigned to your project.

Client Service Personnel

MSB understands payment processing issues require urgent resolution. As such, all Clients are provided with a toll-free number as well as direct extensions to multiple escalation points of contact to ensure the most rapid response possible.

Figure 10: Client Service Call Center

Our Client Service Department currently staffs three shifts. In addition to ensuring all time zones are sufficiently covered, fun activities are organized monthly for our employees to celebrate diversity and learn about coworkers.

Client Care

MSB has a best-in-class, 100% in-house, US based Client Care team that will provide your staff and your customers with assistance in both making payments and any payments inquiries. MSB provides support with general payment questions and issues. Our client service agents also offer complete training for your

customers on use of the self-service web, IVR and mobile channels, simplifying and enhancing their next transaction experience. This service is provided at no additional charge to you and your customers.

Our client service department provides no less than seven separate language desks. We can assist our customers in a multitude of languages including Vietnamese, Chinese, Arabic, Spanish, Polish, French and many more.

Number of Accounts Handled by Each Representative

MSB utilizes call load balancing technology to manage call volumes and work queues to minimize call wait times and achieve an above-average call center service level. Service level refers to the percentage of calls received by call center and support team that are answered by a human agent within a certain time frame. Our target metric is to have 80% of calls answered in 20 seconds. Although related to the service level, this benchmark also considers all the calls that are not answered within 20 seconds. Our objective is to answer these calls within 28 seconds. We staff accordingly to achieve better rates than these performance metrics.

MSB understands that payment processing issues require urgent resolution, and to this effect, all Clients are provided with a toll-free number as well as direct extensions to multiple escalation points to ensure we provide the most rapid response possible. Support personnel will be available 24/7/365.

JUST THE FACTS CLIENT SERVICE CENTER OPERATIONS		
Line capacity:	Unlimited	
Average automatic call distributor volume:	Over 100,000 monthly calls for all lines of business	
Maximum call Volume:	No limit; 10,000 is the highest recorded call volume during a single business day.	
Average hold times and peak hold times:	68 seconds	
Average agen t availability:	3:1	
Average first call resolution rate:	>99% This is measured by determining the originating ANI and call qualification code and if the same ANI/account in system if MSB maintains the account have had a call within the past 30 days about the same subject matter. If not, it is considered first call resolution.	

Figure 11: Client Service Center Operations Table

2.2.10. Automated reporting capabilities including *ad hoc* reports.

Response:

MSB complies. MSB provides a transaction **reporting suite** that operates in real time for settlement and ad hoc reporting. The reporting portal can reconcile by department, merchant ID#, sub-department, etc.

Essentially, you can input any type of parameter for reconciliation and our system can deliver that report in real time.

Our transaction reporting system provides the requested data and much more. Our search options also include the below which returns the dataset with the web application for review. There are also canned reports to export the returned dataset into xlsx, CSV, and summary PDF formats:

- Confirmation Code
- Last 4 of CC or ACH Account
- Consumer Name (first and last)
- Date Range
- Initiated By
- Start/End Time
- Department/Channel Filter (MID)

The reports generated through the MSB reporting tool include both transaction and payment information. MSB will provide daily electronic file transmissions of settled transactions for upload into various County Department systems. MSB is extremely familiar with the wide-range of file format requirements for Government clients and will work with the County to meet their needs. In addition to the daily file format requirements, MSB will provide reports to the County in an agreed upon format including a minimum of the payer name, payer address, payer account number, number of payments received, amount of each payment, total amount received, payment location, and the payment source. This report will be emailed daily to the designated individuals provided by the County for the prior day's transactions. The data in the reports will match the settlement dollars to the Boone County as well as the data file. **MSB is extremely flexible in providing automated daily reports.**

Real-time online reports are available via MSB's online system. An administrative account will be created to have the capability of adding and editing user's rights. Daily client defined custom reports are provided and automated by MSB via email in the format requested by the County. This cooperative reporting solution is utilized by several large entities such as the Indiana Department of Administration.

All reports are populated with "real-time" information – providing clients with up-to-the-minute views of all activity within the MSB platform. Reports are available in the following formats:

- HTML
- Excel
- PDF
- XML (MSB's Nexus portal)

The same formats apply for the remittance of incoming files. The County has a plethora of options in remitting the files to MSB. MSB will accept the County's current format or format of choice.

In conclusion, here is the summary outline for the items requested:

Data transmission of reports:Real Time		
Data transmission of raw data:Real Time		
Remote access to reports:	Real Time via designated link	
Software for automated updates:	Provided Free of Cost. Automatic Updates	
Archival Capabilities:	Unlimited. No Time limit on archived data	
Ability to provide reports on disketteMSB fully complies		
Ability to access reports through the in	nternet MSB fully complies.	

The reports that are available for the County include but are not limited to:

- Daily Activity Report provides a summary of credit, debit, EBT, gift and rewards transactions for a terminal on the selected day. Quickly review transactions for a single terminal.
- Deposit Summary provides information of deposits by MSB and 3rd parties and fees paid. Reconcile your accounts to your bank statement. Unmatched Return Summary- lists of sales transactions less the return transactions are a negative total. Watch for possible fraudulent transactions.
- **Transaction Summary** offers history of transaction card type processing for a selected date range. Includes Gift Cards and Loyalty Cards. Quickly review store volume, totals, etc.
- Card Fee Summary details of discount, item and processing fees per card type. Includes Gift Cards and Loyalty Cards. Analyze fees and income.
- Billing Fees Summary Summarized history (breakout) of monthly fees incurred, not associated with processing fees. You can review monthly fees by fee type.
- Monthly Statement Online version of MSB Merchant Processing Statement which is a financial statement of your business showing the details of sales, adjustments, processing and other types of fees, and deposits for a given month. Review previous monthly statement details.
- Card Fee Summary details of discount, item and processing fees per card type. Includes Gift Cards and Loyalty Cards (where applicable). Analyze fees and income.
- **Transaction Lookup** Transaction details for a particular sale, card number, or amount. You are able to retrieve and investigate single or multiple transactions.
- Retrieval Request Summary of first and second retrieval requests by location and retrieval fulfillment dates. This report provides the ability to track retrieval request status.
- Chargeback Details Detail history of chargeback disputes by terminal, location and customer. Track chargeback status.
- Chargeback Summary Summary of chargeback's by reason. You are capable of reviewing chargeback items by reason.
- Downgrade Summary Report Lists any transactions that were downgraded due to their interchange level. Provides the ability to review items that were downgraded.
- Banking Report Will Summarize the deposits as well as fees, chargebacks, Gift Cards (where applicable), and adjustments data for any customer, merchant, or terminal.
- Exporting Report Allows many of the previously mentioned reports to be exported in excel or data files.

The main advantage of our POS system is its sophisticated data retrieval capability, which includes payment tracking and reporting. The flexibility of the POS system and its ability to handle multiple payment types from one location increases efficiency by reducing the time needed to handle accounting tasks. All MSB services provide a customer receipt that has only the last four (4) digits of the credit card number and does not show the expiration date.

We are also proud to say that our system is the only system in United States with <u>no limit to</u> <u>historical data.</u> Our reporting tool can generate reports from any date, any year. All in a PCI compliant environment!

2.2.11. Electronic funds settlement to user facility accounts within 48 hours.

Response:

MSB complies. The standard settlement cut off time is 11:59 p.m. CST for next day funding. Transactions settled after 11:59 p.m. CST are deposited the following day. We associate each deposit to its designated MID#. If different settlement times are required for specific departments, just let us know. Nexus can be configured to accommodate a time that is best for you.

All County revenue will be segregated from the convenience fee both on the customer receipt as well as daily reconciliation reports generated for all County departments. Our convenience fee pricing model is described in detail further below in the RFP response.

MSB will be fully responsible for all transaction costs, Interchange costs and all other miscellaneous costs related to credit/debit and ACH processing. Since MSB owns its entire processing platform and network, there are no restrictions whatsoever on the transaction size.

Settlement Capabilities and Timing

- a) Funds for MasterCard, Visa, Discover and all ACH transactions are deposited into the bank of choice for each County account within 24 hours (daily) along with all American Express transactions.
- b) All debit transactions are processed at the lowest possible Interchange level (corresponding to the respective debit network). This is in cases where Interchange Plus pricing is used.
 For Boone County, we will deploy a Convenience Fee Model, which already includes the best possible Interchange levels for both debit and credit transactions (it's a Blend).
- c) Each card deposit is separated by Merchant ID (MID) and that specific MID is reported on the bank deposit statement for ease of settlement. Typically, each department within the County will receive its own unique MID for higher levels of reporting and reconciliation. While not required, this approach is recommended.
- d) Daily batches are deposited in their entirety with no deductions. The County will collect 100% of the payers' obligation(s) to the County. Chargebacks are sent as separate entries with the corresponding MID for quick identification. If fees are assessed (No Fees when deploying a convenience fee model), they are billed once monthly for the prior month's activity and the corresponding MID is present on each bank entry.
- e) All transactions regardless of size are processed and deposited within the normal timeframes. MSB does not partition small balance transactions, as is a common practice in the industry, as we know that holding settlement across months can create reconciliation issues for government entities, particularly at the end of a fiscal year.

2.3. Set-Up and Training

We leverage our own Project Management Office to map the overall scope, allocate resources towards completion of this project including training your staff on our process.

2.3.1. Ability to implement services within 30 calendar days after contract signing.

Response:

MSB fully comply with this requirement.

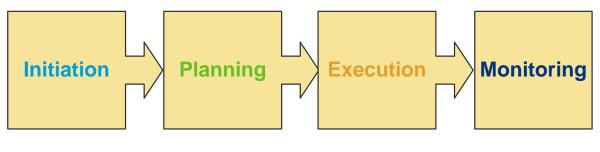

Implementation Team Methodology

The Implementation Team will assign a dedicated AE to guide the County's team through the conversion process for your location(s). Each project manager has more than 10 years of industry and project management experience and is supported by a dedicated team. Prior to implementation, the County's staff will meet with the project manager and MSB's team to ensure a smooth conversion. The project manager will walk your team step-by-step through the conversion process. During the testing process, every piece of data is verified and returned to the merchant system for comparison.

As a standard practice, our Implementation team oversees all initiatives related to the successful completion of the client conversion process including:

- Coordinating/managing the overall project schedule
- Configuring the merchant profile
- Collaborating with network operations to provision communications
- Collaborating with third-party providers to implement software and/or services
- Managing customization initiatives
- Injecting/swapping PIN pad key

MSB (Gila) utilizes the following four-phase project management methodology:

A business architect/project manager is assigned and a detailed client due diligence is conducted.

All requirements are confirmed, location demographics are compiled and the overall schedule is finalized. QA testing and store location pilots are conducted and the rollout schedule is executed.

Transaction-level monitoring occurs to ensure that all locations are processing and qualifying as expected.

Project Plan

MSB will work closely with the County to develop a project plan to migrate from your current service provider, with a goal of minimizing disruptions at the location level.

Steps that may be included in the plan are:

- Conduct due diligence and publish scope of services outlining all aspects of County's technical and operational requirements.
- Identify project stakeholders.
- Develop project plan in coordination with the County.
- Develop and schedule conversion.
- Acquire new certifications (software/hardware), develop software enhancements or modify internal applications.
- Communicate project status formally and regularly with the County and MSB staff.
- Initiate County's build on MSB's customer platform.
- Determine and develop reporting hierarchy.
- Schedule testing, as needed. Validate demographic information and processing options built by MSB; supply reports to the County to review and approve.
- Ship equipment, as needed.

In conclusion, MSB will have you complete an account setup worksheet upon declaration of intent to partner with our firm. Through this worksheet and meetings, your needs will be assessed, and a detailed project proposal will be drafted. MSB will not start development until this project proposal passes your approval. Implementation timeline will be deployed as follows:

Figure 12: High Level Implementation Plan

Week	Activity	Resources Required
Week 1	MSB Relationship Manager works with the client to confirm implementation requirements	MSB, County staff
Week 2	Project kick-off meeting is conducted	MSB, County staff
Week 3	MSB project manager finalizes technical requirements and project development cycle begins	MSB, County staff
Week 4	MSB project development cycle continues	MSB, County staff
Week 5	/eek 5 MSB project development cycle concludes; Internal testing MSB is conducted	
Week 6	The client conducts testing.	MSB, County staff
Week 6	Training session	MSB, County staff
Week 6-7	Launch Date	MSB

Resources required from the Boone County staff during implementation:

- Business Project Manager who understands the full business requirement
- IT Personnel for CIF file, posting file specification and SFTP setup, etc.
- County staff who will be using the system for testing and training before going live

Upon request, we can provide a proposed day-by-day implementation plan. We have provided a Sample Implementation Plan within Appendix A of this document.

2.3.2. Training options: in-person, webinar, manuals

Response:

MSB complies. Our client support staffs an entire department of technical support level employees that specifically manage transaction flow, gateway integration and web-based payment processing. Client Help Desk Support is available 24/7/365. Clients can use a live operator assisted transaction processing if needed by dialing a designated toll-free phone number assigned to your project. Please review for an example of our Training Plan. Once services are awarded, our Project Team with input from the County will finalize and obtain approval so training can be scheduled.

2.3.3. 24/7/365 Client Service Support

Response:

MSB complies. MSB has a best-in-class, 100% in-house, US based Client Care team that will provide your staff and your customers with assistance in both making payments and any payments inquiries. MSB provides support with general payment questions and issues. Our client service agents also offer complete training for your customers on use of the self-service web, IVR and mobile channels, simplifying and enhancing their next transaction experience. This service is provided at no additional charge to you and your customers.

Our client service department provides no less than seven separate language desks. We can assist our customers in a multitude of languages including Vietnamese, Chinese, Arabic, Spanish, Polish, French and many more.

Our Client Service Department currently spans across three shifts. In addition to ensuring all time zones are sufficiently covered, fun activities are organized monthly for our employees to celebrate diversity and learn about coworkers.

JUST THE FACTS CLIENT SERVICE CENTER OPERATIONS		
Line capacity: Unlimited		
Average automatic call Over 100,000 calls per month for all lines of busine distributor volume:		
Maximum call Volume:	No limit; 10,000 is the highest recorded call volume during a single business day.	

Figure 13: Client Service Center Operations

Average hold times and peak hold times:	68 seconds
Average agent availability:	3:1
Average first call resolution rate:	>99% This is measured by determining the originating ANI and call qualification code and if the same ANI/account in system if MSB maintains the account have had a call within the past 30 days about the same subject matter. If not, it is considered first call resolution.

2.4. Additional Capabilities

Our Goal is to develop long-term partnerships with our clients.

2.4.1. Work with multiple payors and assemble a payment over multiple accounts. County needs the ability for money to go to different bank accounts as well as have the ability to differentiate from services from each office/location. For instance, each office would have a different login that gave them the specific forms unique to that office. For example, the Circuit Clerk's office would have a specific form for fine/court costs that the Sheriff Department would not have. The Sheriff Department would have Conceal and Carry Permit fees that the Circuit Clerk office would not occur. The Prosecutor's Office would have a form for restitution payments.

Response:

MSB fully complies with this requirement. Since we are one of the only true Government PayFac organizations in United States, we are able to segregate deposits not only by respective departments within an organization, but also as granularly as sending deposits associated by each station, delimitated by different services from each office/location. **Our firm is very unique in providing this type of service**.

2.4.2. Demonstrated ability to increase release rates through facilitating cash bail payments.

Response:

N/A. This question was deleted from the RFP as a result of Addendum #4.

2.4.3. No integrating required but provide ability to integrate with user facility financial, accounting and cashiering systems.

Response:

MSB complies. The Nexus Payment Portal Application is your window to your department(s)' payment activity. Nexus easily integrates with any billing system and provides automated updates with accurate reconciliations. Integration is fast, straightforward, and we won't tie up your business resources with

complex data integration projects. We are completely responsible for most of the integration efforts.

We currently integrate with several systems across multiple departments.

MSB will bear all integration costs with the County's current software systems. No IT resources whatsoever will be required from the County.

MSB's state of the art payment portal will be able to provide all data files that include user defined parameters on a custom-made basis. Our government client(s) can choose to extract as much or as little user defined data as they deem necessary for proper integration with current CMS software. Our portal will migrate all possible user defined data to the system. From there, we will then customize the final data file that will be transmitted to your County Systems.

This solution provides a seamless interface with a given software system (in-house or 3rd party host) in real-time. After a constituent opts to make a payment, his or her payment and demographic associated information is posted to the payment screen in real-time. The constituent completes the transaction and the transaction data returns back to your system in real-time or via a daily flat file via SFTP; PDF file; Excel file; or 24/7 direct online access.

MSB's Nexus portal will update all payment information in real time unless specified differently by the existing Case Management System provider. Most of the time, MSB's custom built systems will update the payment receipt information by "**Rapid Batch Update**" method (usually every 10-15 seconds or every 1 minute). With that in mind, there are two methods for integration we will adopt: The first is via batch and the second is via a bi-directional exchange of information. The type of connection between our system and our clients' is generally dictated by the 3rd party provider of those systems and relates to their willingness and capability to do one or the other. MSB can accommodate either. Here is a summary of how both methods would work:

a) Batch Updates (The more commonly preferred from systems providers): Each day, usually between 5pm to midnight client local time, the system of record produces a data extract that contains pertinent account data constituents will use for payments. This data is uploaded to MSB's secure FTP where it is incorporated into a database against which web services queries when the website is used by the constituents. The records allow for authentication of the user and for display of non-sensitive (or partially masked sensitive) information on the screens subsequent to authentication so the constituent can determine if contact information is correct, the account number(s), the amount(s) owed, etc. MSB then aggregates each day's payments into a report (in the schema required by the existing County system in this case) which is then sent back via FTP to the County and uploaded directly to that particular system to process the updates.

b) Bi-directional: As opposed to a batch update, MSB will query information from the current systems on a per user request basis (e.g. each time a constituent accesses the website), and then provide payment data (if applicable) back to the County systems upon conclusion of the web application. The reason 3rd party providers often are reticent to pursue this option is that it involves granting MSB 'write' access to the software, which is sometimes perceived to be a threat to confidentiality of proprietary code and trade secrets. Different companies view this type of interaction differently.

There are no restrictions on the amount of data that can be uploaded to the County's systems on daily basis.

2.4.4. Ability to reconcile daily/weekly/monthly charges online.

Response:

MSB complies. MSB provides a transaction **reporting suite** that operates in real time for settlement and ad hoc reporting. The reporting portal can reconcile by department, merchant ID#, sub-department, etc. Essentially, you can input any type of parameter for reconciliation and our system can deliver that report in real time.

MSB is proud to announce that our fully integrated payment processing solution has full automation capability for reconciliation services. Our system can provide any report for any type of transaction, deposit, return, refund, void, reversal and or/charge back.

Everything is done in real time. The Nexus portal can also reconcile per department, merchant ID#, subdepartment, etc. Essentially, your staff can input any type of parameter for reconciliation and our system can deliver that report in real time. We are also proud to say that our system is the only system in United States with no limit to historical data. Our reporting tool can generate reports from any date, any year. All in a PCI compliant environment!

All reports are populated with "real-time" information – providing clients with up-to-the-minute views of all activity within the MSB platform. Reports are available in the following formats:

- HTML
- Excel •
- PDF
- XML (MSB's Nexus portal)

The same formats apply for the remittance of incoming files. The County has a plethora of options in remitting the files to MSB. MSB will accept the County's current format or format of choice.

In conclusion, here is the summary outline for the items requested:

- Data transmission of reports: --Real Time
- Data transmission of raw data: --Real Time
- Remote access to reports: --Real Time via designated link
- Software for automated updates: --Provided Free of Cost. Automatic Updates
 - --Unlimited. No Time limit on archived data
- **Archival Capabilities:** Ability to provide reports on diskette --MSB fully complies
- Ability to access reports through the internet --MSB fully complies.

2.4.5. Provide payment to the County daily via ACH or check for transactions approved.

Response:

•

MSB complies. The standard settlement cut off time is 11:59 p.m. CST for next day funding. Transactions settled after 11:59 p.m. CST are deposited the following day.

2.4.6. The system shall provide detailed daily transaction logs/reports that meet the requirements of the County. Monthly, guarterly and yearly summary reports are required.

Response:

MSB complies. MSB provides a transaction **reporting suite** that operates in real time for settlement and ad hoc reporting. At any time, reporting is available for retrieval via the Nexus platform by County employees .

2.4.7. There must be timely deposits and settlements of funds to the assigned account. Anything up to midnight that day must show for that day on the reports.

Response:

MSB complies. The standard settlement cut off time is 11:59 p.m. CST.

2.4.8. The transaction file shall contain all of a day's transactions up to an agreed upon time (e.g. **5:00p.m.)**. All transaction after that agreed upon time shall appear in the next day's transaction file. Offeror shall make the transaction file available to the County no later than **8:00a.m.** central time on the following day.

Response:

MSB's systems fully comply with this requirement.

2.5. Pricing and Liability Coverage

Every facet of our company is designed to support your processing needs.

2.5.1. No service fees paid by County. Cardholders pay all fees.

Response:

Convenience Fee Transactions

MSB's solution fully complies with this requirement. All County revenue will be segregated from the convenience fee both on the customer receipt as well as daily reconciliation reports generated for all Township departments. **Our convenience fee pricing model is described in detail in Fee Structure at the beginning of this response document.**

MSB will be fully responsible for all transaction costs, Interchange costs and all other miscellaneous costs related to credit/debit and ACH processing. Since MSB owns its entire processing platform and network, there are no restrictions whatsoever on the transaction size.

2.5.2. Absorb all chargeback liability. Awarded Contractor shall guarantee their money and if there are questions to fraud, Contractor shall deal with all the communication with cardholder and the credit card company.

Response:

MSB will fully comply with this requirement as well. We will absorb all chargeback liability. We have an entire department that will deal with all incoming chargebacks.

2.5.3. Handle all cardholder inquiries regarding payment status, errors, and claims.

Response:

MSB complies. Our client support staffs an entire department of technical support level employees that specifically manage transaction flow, gateway integration and web-based payment processing. Client Help Desk Support is available 24/7/365. Clients can use a live operator assisted transaction processing if needed by dialing a designated toll-free phone number.

2.6. History and References

From rural courts to large state agencies, we have a successful track record of processing a wide range of payment volumes.

2.6.1. History of working with law enforcement and correctional agencies.

Response:

MSB has a long history of serving Government clients and most importantly, the law enforcement agencies. Some of our law enforcement clients include but are not limited to:

- 1. Osage County, MO Sheriff Dept. and Jail
- 2. LaPlata County, CO Sheriff Dept. and Jail
- 3. Outagamie, WI Sheriff Dept.
- 4. Logan County Sheriff Dept.
- 5. Knox County Sheriff Dept.

EXPERIENCE - EXECUTION - ETHICS

2.7. Process Used

We are confident that our Payment Process Solution will meet your business requirements and expectations.

2.7.1. Describe if you have the potential for future linking/interfacing with County software in a

format acceptable to the County (i.e. csv).

Response:

As part of our solution, MSB will work with the County to implement and customize any appropriate software required by the County into our Payment Processing. Our world class portal will be able to generate all formats possible for integration to the County's software (XML, CSV, etc.)

2.7.2. State the responsibilities of the County for facilitating the use of a credit or debit card.

Response:

When a business accepts credit cards, it is agreeing to abide by the rules and regulations of those cards. It is also agreeing to the terms and conditions set by the agreement between the Government entity and the processor. By following these rules, an organization ensures it does not run into compliance issues.

Since we are a certified Government PayFac, as a client of MSB, you will not need to open up a merchant account. We are in fact the **Merchant of Record**, we issue our own MID#'s and designate the proper descriptors for each client and for each department.

Following are some of the items required from the County:

Merchant Account Checklist:

- 1. Merchant Application/Info MSB will require some basic business requirements document to be completely filled out. Leaving any required fields blank will only delay the process.
- 2. Copy of Voided Check or ACH Standard form Supply a copy of a check for the bank account you will be using to receive your deposits and/or debits. If not providing a check or an ACH Standard Form (supplied by an MSB Project Manager), you can have the bank write up a letter stating the same information a check would on their letter head. This includes your organization name, account & routing number.

We plan to mutually work with you to deliver quality services We do not just want to be a contractor, we want to be a partner. Based on our extensive experience with government sector clients, we have learned this approach is beneficial to both our clients and to MSB.

2.7.3. State the responsibilities of the cardholder for using a credit or debit card.

Response:

As a borrower, the cardholder has certain **responsibilities** to the companies issuing the cardholder **credit**. Upholding these **responsibilities** is the cardholder obligation to creditors and also helps the cardholder maintain a good **credit** score. A **credit card** is a revolving line of **credit** that allows the cardholder to make charges at any time up to the amount of a specific **credit** limit, then it is the responsibility of the cardholder to either pay their balances in full every month or make monthly payments as required by the issuing card issuer. MSB Payment Processing Service facilitates those payments for the card issuer.

2.7.4. State the responsibilities of the Offeror for the credit/debit card system.

Response:

MSB complies. MSB confirms that we will be responsible for each of the following tasks:

- Implementing a new payment portal.
- Providing a project plan for all phases of the payment portal project.
- Providing a staging site to run and test the application prior to launch.
- Ongoing maintenance and update plan.
- Installing any machines, equipment and software and make any necessary arrangements so that the County will remain operational for merchant card transactions starting on a mutually agreed date and time to be established.
- Providing training to administrators and staff.
- Providing any additional information which will be beneficial in the evaluation process.

2.7.5. List any forms, reconciliation process, etc. to be used with the system.

Response:

Our world class Nexus payment portal does not require any special forms or reconciliation process from the County staff. While this portal is extremely advanced in its capabilities, it is also extremely easy to use and simple to reconcile on daily basis. There are no additional tasks, forms or reconciliation processes required from the County.

2.7.6. State the process of transferring any funds collected in this system to the County (i.e. any time requirements, costs, etc.).

Response:

Funds for MasterCard, Visa, Discover, American Express, and ACH transactions are deposited daily into the bank of choice for each account as early as the next day following payment settlement.

Each card deposit is separated by the merchant identification number (MID#). That MID# is reported on the bank deposit statement for ease of settlement. Typically, each department receives its own MID#; this allows for higher levels of reporting and reconciliation. We highly recommend using this approach.

Daily batches are deposited in their entirety with no deductions. You collect 100% of the payers' obligation. Chargebacks are sent as separate entries with the corresponding MID# for quick identification.

2.8. Reporting Requirements:

Real-time reports are available through Nexus to accurately view every transaction, payment, and reconciliation with the associated bank deposit.

2.8.1. Should include automated generation of periodic reports from vendor website. In addition, reports should be available in Microsoft Word or Excel format.

Response:

MSB complies. Our payment processing solution has automation capability for reconciliation services. The system can provide a report for any transaction, deposit, return, refund, void, reversal, and chargeback.

Nexus can also reconcile by department, MID#, sub-department, etc. You can input any type of parameter and Nexus can deliver the report in real time, including:

- Transaction
- Payment date
- Amount due
- Balance
- Amount paid
- Name of customer

The **Automated Reporting Module** includes coding which provides you with a selection of pre-built automated reports. The coding allows you to select a report then use this input to initiate a pre-built database query to extract the appropriate data in response to your selection.

The **Manual Reporting Module** includes coding which provides you with the ability to modify various reporting criteria such as search dates, locations, sites, systems, and serial numbers. User inputs then initiate the database query to execute the desired search algorithm.

We have included Nexus Reports Screen Shots within Appendix A.

2.8.2. Reports shall include all.cash transaction information derived from each department / office.

Response:

MSB complies. Please review our response to 2.8.1 and **Appendix A** for screenshots.

2.8.3. For the Circuit Clerk, home payments need to be separated so the County can tell they are at home. This needs to be provided ahead of time so that we can review the payments before the ACH comes through to ensure it is ours and does not belong to a different court. It also needs to be separated from bail and filing fees.

Response:

MSB fully complies with this requirement.

2.9. Equipment

We provide a Uniform Placement Program with Euro-Pay Master Card-Visa (EMV) products.

2.9.1. Offeror shall provide all external equipment/hardware needed for the process including forms and marketing supplies. Offeror shall indicate what type of equipment/hardware is needed for the proposed system and how such equipment will be maintained during the term of the agreement.

Response:

Our world class solution is a cloud-based system called TriPOS, with terminals that will communicate via Ethernet directly to our network <u>without touching the County's network</u>. All transactions are processed in a completely PCI and EMV compliant environment. The proposed terminal is the state of the art Verifone Mx915. Transaction is initiated from any computer in the department (or anywhere else for that matter), the card holder inserts the card and the transaction is approved or declined directly by our network. Please see below a complete transaction flow diagram as well as a full spec sheet for the hardware proposed. Currently, this is the most cutting-edge technology available to Government clients.

We are currently the only institution in America that can offer this solution.

Figure 14: Flat File Processing-TriPOS Authorization flow (image 1)

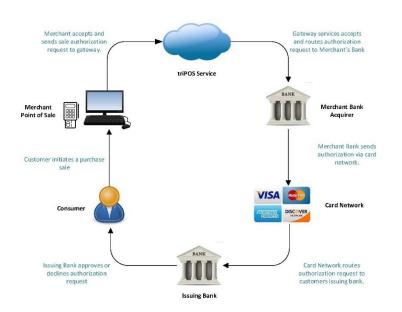

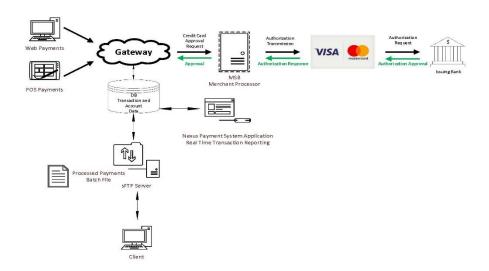

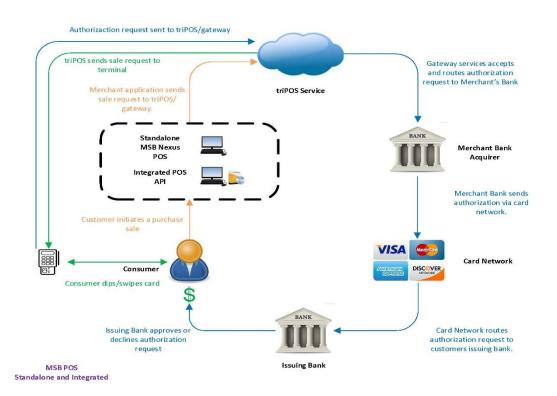

Figure 15: Flat File Processing – TriPOS Authorization Flow (image 2)

The beauty of our solution is that little or no IT resources are required from the County when implementing our TriPOS system. All we require is a live, working Ethernet connection at the site of each terminal. For the card-not-present environment as well as E-Commerce, we support all browsers, the most updated versions of I.E. and/or Chrome are preferred.

For all pin-based transactions, we have no specific requirements. Our TriPOS solution supports all chip enabled, pin-based transactions directly through our MX915 terminal without the need of an external peripheral PinPad.

The TriPOS solution does not require any supplies. There is no thermal paper involved, there is no ink, there are no supplies needed. All receipts are printed from the normal printer that is currently used in every office (8" X 11.5" paper). This solution also allows for a whole range of receipt customization that normally is not available when standard stand-alone terminals are used.

MSB hereby certifies that the maintenance is provided by MSB 100% at no cost to the County for the entire duration of the contract. Please see additional details in the pricing section

VERIFONE.COM

Proposed Hardware Solution: the coveted TriPOS cloud-based terminal: Verifone MX915:

MULTIMEDIA HARDWARE VERIFONE MX 915

MX 915 MAXIMUM PERFORMANCE. MINIMUM SPACE.

Verifone's MX 915 delivers a rich media experience with a brilliant, 4.3" color display, powerful processor and generous memory. This elegantly designed, sleek and space-saving unit is NFC/contactless enabled and supports full motion video – driving new revenue opportunities while enhancing customer interaction.

SOPHISTICATED, YET FLEXIBLE AND SECURE

- 4.3" display area efficiently accommodates optional signature capture
- along with scrolling account activity, branding and promotional offers
- · Integrated, tactile, backlit keypad speeds customers through lanes
- Ideal platform for a variety of value-added services, such as administering loyalty schemes, gift card issuance and top-up services
- · NFC/contactless enabled to support electronic wallets
- Linux-based OS and application development environment offers powerful and simple development options

SPECIFICATIONS

Processor	400 MHz ARM11 32-bit RISC processor
Memory	512MB (256MB Flash, 256MB SDRAM), Flash is field upgradable via USB or SD memory devices

2.9.2. All necessary hardware and software (including upgrades) shall be provided at no cost to the Circuit Clerk, Sheriff and Prosecuting Attorney's Offices. All hardware will be returned to the vendor at the completion of the contract.

Response:

MSB fully complies with this requirement. We will provide all hardware, supplies and all necessary marketing materials free of any cost to the County.

2.9.3. Any external equipment/hardware intended to link directly to the Boone County's network must meet the user department and Boone County Information Technology Department's approval for make, model, use of anti-virus/anti-spam software, etc.

Response:

MSB complies. We provide a Uniform Placement Program with EMV (Euro-Pay MasterCard Visa) products and access to the MSB Payments processing center, a customized Web portal seamlessly integrated with your Web site and back-end systems.

The **Web Module** provides customers the option to pay online via a secure website hosted by us. We will provide a link from your website for customers. A confirmation number is issued for completed payment transactions. For full integration with the Web-based reporting tools, we recommend Verifone MX 915. The MX 915 is PCI Vermont Systems, Inc. software.

The **Counter Module** provides customers with the option to make payments face-to-face using a payment device or terminal. A confirmation number is issued to anyone who completes a payment transaction and is available to you through the web.

We will provide the most update-to-date, dual-communication, PCI/EMV compliant Verifone terminals at no additional cost to you. All terminals (countertop, wireless, and plug-in peripheral) are EMV compliant with dual-interface capabilities. This technology can support most terminal options and is PCI PED approved.

We can provide electronic swipe devices for over-the-counter transactions. The magnetic swipe captures all available customer card details and automatically populates card information directly into MSB Payments. Employees are only required to enter the payment amount and customer account number. This fully encrypted process ensures the highest level of compliance and security and reduces employee exposure to sensitive card holder information.

Figure 17 – Various Verifone 915 Models

These devices plug into the USB port on any computer and interact with the Web-based MSB Payments portal. Designed to meet PCI DSS requirements to secure card holder data, the approved swipe devices employ the industry's best Triple DES encryption.

The tablet is now part of our mainstream lives with many conveniences, especially for point-of-sale checkout with its ease-of-use. MSB believes that the tablet kiosk will eventually become the norm for most point-of-sale check-out equipment, which is why the tablet kiosk is now replacing more and more the traditional credit card terminal.

As part of the MSB High Value Comprehensive Implementation, we now include low-cost tablet kiosks with every implementation, which means consistent usability for both your pay station operators and customers alike.

The MSB ePayment kiosk can be installed at front counters and in the back-office for your staff and payment operators, offering a convenient and dedicated line for accepting payments with the touch of a finger. The MSB ePayment kiosk is also available as a standalone payment's portal installed in your lobby and reception areas, providing ease-of-use and convenience for customers making payments without having to wait in line for an operator.

Whether you utilize the MSB ePayments kiosk for your pay station operators and staff or as a standalone payment's kiosk located in your lobby for customer payments, you will realize many benefits including:

- Customers will be able to make payments without engaging your staff, freeing your staff to focus on other impactful work streams.
- Kiosk payments will lower the cost of in-person payments while increasing customer satisfaction.
- Dedicated MSB ePayments tablet kiosks at the front counter will allow your staff and operators to leverage the benefits of a PC with the sleekness and small space profile of a card terminal.
- Your payments environment will become simpler without having to rely on complex point-ofsale applications. A single, integrated MSB payments platform can be deployed across all channels, whether it's on the MSB ePayment tablet kiosk, a desktop PC, laptop or IVR.

Figure 18: Low Cost Table Kiosk

2.9.4. The County does not currently have a Kiosk but might be interested in the future. In case of a Kiosk, Offeror will work with the County on acceptable placement. The County will provide electricity and any necessary telephone/modem data port.

Response:

MSB complies. We are the largest customized payment kiosk manufacturer and provider in the United States, which allows us to provide you with kiosk solutions at a fraction of the price of our competitors. In addition to pricing, we differ from other payment kiosks vendors.

Few items differentiate MSB from the rest of the payment kiosk vendors:

- MSB fully controls the manufacturer process from inception all the way to Installation. We
 do not use third party vendors or sub-contractors. <u>We own</u> the manufacturing process of
 the payment kiosks!
- MSB fully controls the Quality Control process
- MSB completes on-site training and installation and offers all subsequent training at no cost to the client!

The emergence of the payment kiosk demand for the government sector almost a decade ago, offered MSB the opportunity to acquire the manufacturing process at the ground level. Ever since, we have been able to refine this product and service to a world class level. Nobody in the industry can come close to our expertise in the payment kiosk field.

The most popular payment option for Cities and Counties across the nation is payments via custom made kiosks. We are very happy to say that we are one of the largest and most robust kiosk payment providers in United States. We own the entire manufacturing and distributing process therefore we can provide our government clients with exceptional kiosk solutions at a fraction of the price of our competitors. Please see below for detailed photos and pricing.

Your constituents will be able to make every type of payment via our kiosk solution: cash, credit card, debit card, checks, gift cards and stubs (acct# on stubs, barcode on stubs, scans front and back).

The parameters by which customers can identify themselves will be completely customized per County's request. They can literally enter any type of identifying parameter and our systems will be able to validate that particular customer accordingly. Not to mention, our Kiosks take an instant photograph of the person attempting the transaction for further identification.

On the same token, the customer can obtain any and all information the County deems pertinent. Our kiosk solution can also be customized to accept payments from a multitude of departments within the County, each one with their own custom menus and parameters. Example: Municipal Court payments, Engineering Department, Utility payments, Tax payments, Police (bail payments), etc.

Upon award of contract, MSB's world class Kiosk solution will be customized with the proper menus to give the Boone County customers a great and friendly user experience.

Our Kiosk solution can be configured to accept a multitude of scripts and voice commands.

There are no additional interfaces needed from the County in order to integrate with existing case management systems.

Our Kiosk solution integrates with pretty much every Billing Application Company out there:

- Harris Software (Cayenta, Northstar)
- Tyler Technologies (Incode)
- PC Charge and PC Charge Pro
- Cardinal Tracking
- Sungard Public Sector (HTE)
- STW
- UDS
- USTI
- New World

and many others ...

Here are the most important highlights and benefits/advantages of the payment kiosks:

- The Kiosk is Economical, it operates for at least 15 years for less than \$1.00 per hour; Huge ROI for a very small investment; Long term savings, immediate accrual of Benefits and collecting revenue;
- The Kiosk is incredibly convenient: it's opened 24/7, accepts cash, checks, credit cards, money orders, updates account with successful payment, prints transaction receipt indoor or outfacing models available;
- The Kiosk is always professional, it has no moods, no sick leave, no excuses, always polite, it completely eliminates your rush hour lines!
- The Kiosk is multi-lingual; it can serve up to 19 departments in one kiosk! It can serve the utility departments, the Courts, Treasury, permits, Jails, etc.
- The Kiosk offers you real time reporting and updating of all payments to the respective Case Management Systems in each department;
- The Kiosk integrates with any Billing Software Applications;
- The Kiosk can be customized, installed and operational free of charge from the client by employing a convenience fee model or "per transaction" fee model.

Hereby below are some of the important facts about our Kiosks:

Everyone's getting a kiosk

Utility Companies Phone Companies Jails Courts Cable Providers

Kiosk Functionality, Tech Specs and Pricing for Features

We use a basic model cabinet to start with and can customize from there. We have a listing below of features in "a la carte" format that the County of Boone team can review for selection. A sample kiosk image is below. The pricing assumes a basic cabinet model and the features are added from there. There really is no limit to what we can do with the cabinet, but the customization has its own price point. A basic unit to accept payments (including software) with a credit card on-site will be ~\$6k. Other features can be added.

SAMPLE (Dual screen unit with most bells and whistles)

Here are the Boone County, MO Special Pricing Discounts:

 Basic kiosk unit (no cabinet customization) with touch screen, credit card reader, receipt printer, and secure steel powder coating with locking mechanisms. Normal Price: \$7.395

-	-		• •	
Price	for	County	\$6,	957

 Bill Acceptor Add-On: An added function of the kiosk that allows constituents to pay with cash as well as credit card Normal Price: \$1,050

1,	
Price for County: \$90)0

- Bill Dispenser Add-On: Two denominations (Usually \$20 and \$50). Can hold 400 bills of each. This is ATM functionality in essence.
 Normal Price: \$3,800
 Price for County: \$2,800 (optional)
- 4. Additional Display: In the image above, this is the second screen that is mounted above the screen used for the payment interface. The purpose of this display is to provide information to constituents at a distance and is usually set up as a marquee rotating different information relevant to the kiosk's environment.

Normal Price:\$1,350Price for County:\$1,200 (optional)

- Check Imager / Reader: This allows constituents to pay obligations using checks. The unit attempts to read the check and will have the constituent confirm the amount if the system is not 100% confident in its assessment. This works for money orders as well.
 Normal Price: \$2,915
 Price for County: \$2,390 (optional)
- Base Kiosk Software to accept cash, credit card, and check payments: Same software installed regardless of which payment methods are ultimately incorporated through the hardware. Normal Price: \$3,000
 Price for County: \$2,500
- 7. Advanced Kiosk Software: Allows for real-time payment updates to the connected case management system. This is in lieu of a daily flat file being generated by MSB and transmitted the following business day to Shelby in a batch payment update.

Normal Price:	\$4,750
Price for County:	\$4,500

- 8 EMV: While this is available, the technology is still relatively expensive as an add-on to the credit card reader. No discount is available yet.
 Normal Price: \$850
 County Cost: \$850 (optional)
- 9 Denomination Coin Manager: Allows users to pay with and receive exact change outside of bills (if payments require values in cents other than \$.00) Normal Price: \$1,489 Price for County: \$1,400 (optional)
- 10Security Cameras: Installed in both the safe and outfacing to payer.Normal Price:\$1,200Price for County:\$1,143 (optional)
- 11 Annual Remote Support: Includes remote support, alerts, and monitoring 20% of total cost of kiosk (annual) Price for County: Same
- 12 Onsite setup, configuration, training: Normal Price: \$1200 Price for County: \$1200

Please see the following actual photos of some of the customized payment kiosks we installed almost in every state across United States:

County of Anna, TX

Asheboro, NC

Accepts Cash, Checks and Credit Cards for five separate departments!

Installed in a glass front

Accepts Cash, Credit Cards Gives back Change

Indoor Utility Payments

Indoor Court Payments

- 1. We control the manufacturing process from inception to installation.
- For tablet kiosks, we use Android Tablet products with only 5-star history for reliability and longevity. For upright kiosk solutions, we partner with the firm AdComp Systems to manufacture the hardware and embed our applications onto the internal drives.
- 3. We manage the quality control process.
- 4. We complete on-site training and installation at no cost.

Customers can make every type of payment including cash, credit/debit card, check, card network branded gift card, and stubs (account number and barcode on the stub, scans front and back).

The payer is also identified based on parameters set by you. Our system accepts any type of identifying parameter and can be customized to accept payments from multiple departments; each one with its own customized menus and parameters. Other features of kiosks include:

KIOSK BENEFITS

- Economical Kiosks operate for at least 15 years for less than \$1.00 per hour; this provides a huge return for a small investment; long term savings, immediate accrual of benefits, and collecting revenue.
- 2. **Convenience** Kiosks are open 24 hours a day and accepts cash, checks, credit cards, money orders, updates account with successful payment, prints transaction receipt indoor or outfacing models available.
- 3. **Multiple Departments** Kiosks can serve up to 19 departments.
- Reporting Kiosks offer real time reporting and updating of all payments to the case management system.
- 5. Integration Kiosks integrate with any billing software application.
- Accepts a multitude of scripts and voice commands
- Additional interfaces are not needed to integrate with existing case management systems
- Integration with almost every billing application company, whether the technology is leading edge or originated over 20 years in the past. Our universal port, what we refer to as Mach 10, allows us to build connections to systems with SOAP, API, Post Back, and other schema.

2.9.5. Any equipment intended for use in the detention center or lobby area or public areas in the Courthouse, should be of a rugged construction to withstand potential abuse by clientele. The County shall not be held liable for any damage, either intended or from normal use, to any equipment placed in public areas of the facilities.

Response:

MSB fully complies with this requirement. Our state-of-the-art terminals are built and designed for rugged and prolonged usage. For the law enforcement clients, the Mx915 terminals can be mounted on the wall with specialized wall mounts designed to withstand heavy duty use.

2.9.6. Offeror shall provide a re-ordering procedure for forms and marketing supplies.

Response:

MSB fully complies with this requirement. The County does not have to worry about filling out any reorder forms. A simple email of request to your assigned Relationship Manager it's all that is needed.

2.9.7. Offeror shall make additional equipment available at the County's request to expand the service provided under this contract to other departments if needed.

Response:

MSB complies. We will work with the County as payment processing expands to other departments to ensure the additional, appropriate equipment is received for use.

2.9.8. Hardware items shall include:

- **2.9.8.1.** Computer (if our system isn't capable)
- 2.9.8.2. Printers (specific to the vendor's needs)
- 2.9.8.3. Card Reader devices
- 2.9.8.4. Fax-Contractor shall have the ability to fax a receipt when internet is down.
 - a) Circuit Clerk's office five (5) each
 - b) Sheriff's Department -seven (7) each: Four (4) in the Information Center (currently have MSR-90 readers), and three (3) card readers for the Jail.
 - c) Prosecuting Attorney -two (2) card readers

Response:

MSB will fully comply with this requirement.

2.10. Additional Information

We are excited to highlight our company, and our staff.

Offeror shall provide the following information in their proposal response:

2.10.1. Organization

A. Describe your organization, including date founded, ownership, and any subsidiary relationships or relationships with other financial institutions.

Response:

Founded in 1991, Municipal Services Bureau (MSB) offers business process outsourcing focusing on revenue enhancement services including payment processing and collections. We serve state governments, transportation authorities, municipal government entities and other public entities, using a technology platform that delivers exceptional client service. MSB services over 1176 clients across all states.

Our parent company, Navient (NASDAQ: NAVI) is a Fortune 500 company that provides asset management and business processing solutions to education, healthcare and government clients at the federal, state, and local levels. Headquartered in Wilmington, Delaware, Navient employs 7,000 team members in Western New York (Perry and Arcade), Northeastern Pennsylvania, Indiana, Tennessee, Texas, Virginia,

and other locations. With nearly \$300 billion assets and more than 12 million customers. Navient was formed in 2014 by the split of Sallie Mae into two distinct entities, Sallie Mae Bank and Navient.

Locations and Hours of Operation

MSB is headquartered in Austin, Texas with support centers in Colorado, Tennessee, Pennsylvania, New Jersey, Missouri, and Florida. Our support hours are from 8:00 a.m. to 10:00 PM for all time zones, and

we are open every day except for the following holidays: New Year's, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas.

Centralizing all our human, technical and financial resources allows us to offer a superior payment processing solution to the Township. By utilizing a toll-free telephone number, e-mail, an online client web portal, and daily electronic file transfer, we provide immediate client service and coordination with the County.

MSB resides in a 50,000+ square foot world class facility, built from the ground up and specifically designed to maximize our services. Our facility provides the following suite of capabilities:

- Dual dialer hubs and VOIP allow MSB to place hundreds of thousands of calls daily while supporting agents for inbound call volume.
- Dual diesel power generators allow MSB to maintain its collection operations with a power outage up to 36 hours.
- Green operations including paper, plastic, and metal recycling and motion sensor activated area office lighting (which shuts off if no motion is detected after a few minutes).

Figure 20: MSB Office Austin, Texas

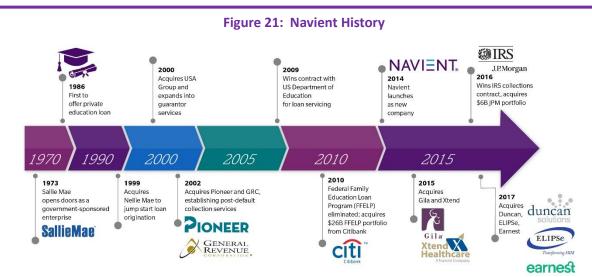

Strong Company Financials

MSB, is the most well-capitalized firm in the receivables management industry through the affiliation of our parent company, Navient Corporation (Nasdaq: NAVI), a multi-billion-dollar market cap S&P company with \$104 billion in assets. The Comptroller will have a partner in MSB that can withstand economic downturns and provide consistent, predictable, and reliable recovery performance and customer service.

In 2015 Navient acquired Gila Group/MSB. Our sister company Pioneer was acquired in 2002.

Navient History

Navient Corporation (Nasdaq: NAVI) is the successor company to SLM Corporation, commonly known as Sallie Mae. As part of a corporate reorganization implemented on May 1, 2014, Sallie Mae's consumer lending business separated from the remainder of the company, now known as Navient. Navient retained more than 85 percent of the combined 7,000 staff, greater than 90 percent of the assets, and all the critical technology systems and process expertise. Navient delivers collections, loan management, and business processing solutions for education, healthcare, and government clients at the federal, state and local levels. The company helps its clients and millions of Americans achieve financial success through services and support. Navient is a \$3 billion market cap S&P company with \$104 billion of balance sheet assets, \$300 billion in servicing assets, and \$26 billion of non-performing debt under its custodial care.

Future Growth

We are experiencing considerable growth across all lines of business and are currently hiring additional staff to handle the increased volume of accounts attributed to our growing client base for our three lines of government services:

- 1. Payment Processing/Merchant Services
- 2. Debt Recovery
- 3. Electronic Toll Collection

In addition to these lines of service, we recently acquired Duncan Solutions, a firm that specializes in onstreet and off-street parking, to complement our electronic toll collection system business.

B. Describe experience of the firm in providing credit card verification and guaranteed payment service for public agencies.

Response:

Since our inception in 1991, MSB has provided products and services exclusively for government entities. Municipal Services Bureau (MSB) offers business process outsourcing that focuses on revenue

enhancement services including payment processing and collections. We work exclusively with government entities and serve over 1172 state governments, transportation authorities, municipalities, and other public entities across 50 states. We attribute our success to our experience, execution, and ethics. Every project is aligned with the following guiding principles.

- 1. **Experience** Our systems have been continuously reshaped over the years based on feedback from our government clients and the constituents they serve. As a result, we can deliver the most reliable, user-friendly payment processing systems available for point of sale transactions, phone-in payments, and the internet.
- 2. Execution We set ourselves apart by executing on the premise of reliability, security, and service. We subscribe to Six Sigma philosophies for defect rates and understand that an unplanned outage or security breach could have a devastating impact on you (and for this reason, is why we offer the 99.99% uptime guarantee at no cost or risk to you). We will work closely with you to implement the necessary policies and procedures to ensure a seamless transition from any incumbent provider.
- 3. Ethics We have designed our training, quality monitoring, and escalation hand-offs to maximize compliance with the law and minimize disputes. Every process has an ethics control including an anonymous ethics hotline that is anonymous available 24 hours a day, every day. We also maintain an A+ rating with the Better Business Bureau (which we have maintained since the Better Business Bureau instituted a grading system in 2009).

You will always have the access to support and information you need throughout the duration of the contract.

- We will be 100% transparent and will provide you with all information you need (most of which can be accessed through self-servicing).
- We welcome on-site, announced or unannounced audits, and will provide a secure, secluded area for auditors to work.
- We provide extensive reporting which allows you to obtain a comprehensive view of daily operations.

Expertise in Government Services

We take pride in our accomplishments, talented people and award-winning technology. Our advanced technology, data management tools and leading-edge business practices are designed to exceed the expectations of our clients.

We also pride ourselves on our ability to execute based on our high ethical standards, experience and compliance with industry, government and accounting certifications including:

- Maintains an A+ rating with the Better Business Bureau
- SSAE 16 SOC 1 Type II compliant service organization
- MSB applications are PCI-DSS Level 1 Compliant
- Credit bureau reporting
- Record 100% of all inbound and outbound client service calls
- Compliance with all federal, state and local laws
- Fully licensed, insured and bonded
- Initial and ongoing employee background checks

- Confidentiality agreements signed by all employees
- Client audits and site visits available at any time

MSB has an annual audit conducted by outside, independent auditors that meets all Generally Accepted Accounting Principles (GAAP). The audit includes reviews of internal controls and other operating procedures. Current and past audited financial statements have been issued with clean opinions.

MSB is committed to ensuring our clients have the accesses they need to confirm our assertions, anytime they want, for the duration of a contract. To this end, MSB commits the following to your agency:

- We will be 100% transparent.
- MSB will provide all information to our clients' auditors upon request, or at a designated interval requested by the client.
- MSB welcomes on-site audits and will provide a secure, secluded area for our clients' auditors to work.
- MSB provides extensive reporting which allows our clients to obtain a full 360° view of the operation daily.

MSB also has reshaped and continuously molded its reporting modules to suit the changing needs of government entities, based on feedback from our clients as well as changes within the payment acceptance industry. While the provision of a reliable and cost-effective payment system is at the core of our service offering, MSB provides unparalleled levels of service and support. We have worked for 28 years with our government partners and we understand the budgetary constraints that often present themselves. To this end, MSB endeavors to customize its own processes to suit our clients' needs so that our clients are not faced with hard budgetary decisions on how to allocate IT and other technology resources during implementation of our systems or redesign later in a contract.

C. Provide a list of relevant public sector client references including contact persons and telephone numbers. Relevant would include clients with similar types of jurisdictions and transaction size. Please list any Missouri counties to which you currently provide services. *Exhibit* C - Prior *Experience* may be used.

Response:

We have provided references within **Section 2.0** of this response.

D. How many on-line credit card/debit card public agencies has the firm added in the last two years? How many of these customers has the firm lost in the past two years, and why?

Response:

Over the past 24 months, MSB is proud to announce that we have fully implemented and brought to fruition (full operational speed) 7 projects each one with multiple departments and some with extremely complex integrations and custom work.

MSB has not lost any clients during that same 24 months period.

E. Describe the type and amount of insurance coverage the firm maintains with respect to credit card and e-check activities. Include Commercial General Liability, Automobile Liability, Umbrella Liability (if applicable), Workers Compensation and Employers' Liability, Cyber Liability/E&O.

Response:

MSB will comply with all insurance requirements. We have provided copies of our certificates of insurance reflecting required coverage limits within **Appendix A** of this response document.

2.10.2. Personnel

A. Identify the key personnel who would be directly involved in providing services under the engagement. Describe their relationship with the firm, the role they would play in this engagement, their experience (specifically with public sector), and their years of service to the firm.

Response:

Team Qualifications

Dragos Enea, MBA, CPP – Vice President Payment Processing Division

As an Account Executive, Dragos Enea is a primary point of contact for information, co-ordination of new projects, and as an escalation point for unresolved issues. Dragos has the requisite product and industry experience which are necessary to meet your needs. In addition, he is cross-trained on the intricacies of our full Client portfolio to ensure that there is no service degradation while he is on vacation or leave. Although Dragos works with other Clients, he has the bandwidth to provide full relationship requirements.

Based in St. Louis - Missouri, Dragos acts as the primary liaison between MSB and your staff. He ensures all ongoing project items are completed

and provisioned consistent with your expectations. Dragos is the Account Executive de-facto and facilitates periodic project update calls funneling information between entities to ensure all communications remain streamlined.

Dragos holds a degree in mathematics from the University of Milan, Italy and an MBA in Business Management and International Finance from University of Missouri, Columbia. Dragos also possesses several coveted industry certifications (Level III processing certification, CPP certification). He is an active member of the PCI Standards Security Council Advisory Board and is fluent in three languages; English, Italian and Romanian.

In his tenure in the Government payment processing industry, Dragos supervised and directly managed 86 State, County and Municipal online payment processing applications and interfaces with a multitude of existing CMS systems. In addition, Dragos also served as a senior project manager for large government payment processing projects such as: State of New Mexico Magistrate Courts, San Joaquin County Courts in California and Orange County Court system.

Dragos' previous 21 years' experience in the payment processing industry include senior management roles at First Data, NPC/Vantiv and Bank of America. His broad experience in both issuing and acquiring segments of the industry brings advantage and insight to our team as well as our Government Clients.

Name:	Dragos C. Enea, MBA, CPP
Title:	Vice President, Payment Processing Division
Proposed project role:	Sales / Relationship Owner
% of time committed to project:	35

Education, certifications, and other distinctions:

Degree, certification, or other distinctions	Institution	Date
Management & International Finance	University of Milano, Italy	1992
Research Assistantship, Elias Saab	Royal Academy of Mathematics, London	1993
MBA, International Business	University of Missouri, Columbia	1996
Level III Processing Certification	Visa	2004
ETA CPP Certification	ETA	2010

Employment history:

Organization	Role	Dates
MSB	VP, Payment Processing Division	04/13-Present
POS Consultants	VP, Merchant Services Division	07/09-04/13
Bank of America, FDMS	AVP, Merchant Services Division	12/02-06/09
Visa, New York	Product Analyst, Global Issuing Platform	05/98-01/02

Specific experience relevant to project:

Topic	Years of	Brief description of relevant experience (e.g., specific	
	experience	projects; previous employment)	
E-Payment Services	21 yrs.	 Please see attached detailed bio sheet for full experience in the field Powering technology and payments value through developing strategic plan, while enhancing efficiencies to drive revenue for Government partner growth. Oversee internal cross functional teams to support government partner's requirements. Develop pricing, with consideration for market forces, competition and financial objectives. Develop the company's value proposition to include strategic bundled offers/marketing of products, services and solutions to promote government partner value. Develop marketing strategy, based upon market size and Net Present Value. Manage life cycle of partner to include: implementation, marketing campaigns, as well as both simplistic and complex government agency on-boarding tools. Identify and understand market trends that will affect planning process; 	

 Complete Market Plans and Forecast on an annual basis and present to senior management and Board of Directors. Complex RFP proposal preparation, industry conference presence and registration. Monitor and evaluate productivity levels and profit opportunities for the division; Attain or exceed the annual forecast sales volume and gross profit targets for assigned call load accounts by effectively qualifying account potential and focusing on those accounts that or represent the greatest opportunity for growth; Develop sales campaigns and plans to develop target accounts (quantity and quality and ideas presented to senior management);
Previous project experiences include: 91 State, County and Municipal online payment processing applications and interfaces. State of New Mexico Magistrate Courts, San Joaquin County Courts, California, etc.

Customer Service	17 yrs.	Starting with 2002, every position and role I have held, encapsulated a large amount of customer service duties and responsibilities.
Account Management	15 yrs.	Started managing regional, State and Government accounts in 2004.
Data Management	9 yrs.	Started managing data and preparing detailed reports based on innovative analytics since 2009. Initially we looked at big data parameters but as technology progressed, the need of pure data mining increased along with it in order to transform the analytics into usable intelligence for our sales force and business objectives.
General Management	8 yrs.	Managed project teams at Bank of America and POS Consultants for both business development efforts as well as national account management tasks.

- Proficient in Microsoft office: Project, Excel, PowerPoint, Word, Outlook.

Education:

- Anderson High School, Graduated in 2005
- Concordia University at Austin TX. Business Management, 2009

B. Describe the 'firm's organizational structure of personnel available as our customer account representatives, for training and to assist and resolve problems.

Strong leadership skills and people management are essential at MSB because people are the source of our energy. This philosophy is fundamental to the way we work, and it governs how we relate to each other.

The following are MSB personnel who are dedicated to the services outlined in this response:

Account Executive Support

The Account Executive is assigned as your primary point of contact for information, co-ordination of new projects, and as an escalation point for unresolved issues. He has the requisite product and industry experience which are necessary to meet your needs. In addition, he is cross-trained on the intricacies of our full client portfolio to ensure that there is no service degradation while the primary client contact is on vacation or leave.

You will be provided with an Escalation Roster to include both office and mobile contact information for your Account Executive and his back-up(s). While standard contact support hours are 8:00 a.m. through 5:00 p.m. Monday through Friday Central Time, your Account Executive is available by mobile phone afterhours, on weekends, and on holidays for urgent issues. After hours support contacts will be designated on the Escalation Roster.

Lastly, you will have direct contact information for a member of Senior Management who is assigned to the account. This Manager (Vice President or above) is responsible for the overall efficacy of the contract and will ensure that your needs are being met through the relationship management process.

Senior Management

Elye Sackmary, President and CEO

As President and CEO, Elye is responsible for the success of operations within the Payment Processing division. One aspect of his role is to oversee resources allocated to the project. This helps ensure the successful implementation and client satisfaction throughout the duration of the contract. Elye is also a direct point of contact if the assigned Senior Manager is not available.

Additional responsibilities include managing:

- State surcharge contracts
- Toll road ARM operations
- Back-office payment processing

- Lockbox functions
- MSB Contact Centers

Elye has significantly contributed to growing MSB by more than 300% since joining the team in early 2004. He received a bachelor's degree from Texas State University and is currently pursuing a Master of Science in Accounting and Information Technology. Elye graduated with 'great distinction' from BAI Graduate School of Retail Banking and was recognized as a Certified Public Manager by former Texas Governor Rick Perry.

Elye is active in the community as a professional life member and sponsor for the Future Business Leaders of America, is a member of the American Society for Public Administration and is a life member of the American Academy of Certified Public Managers.

Project Team

MSB's goal is to maximize benefits from standardizing project management policies, processes, and methods. We will work with you to identify, define, and maintain the standards of project management to accommodate your business requisites. Throughout the integration process, we will attentively communicate with you regarding the status of project activities, problems, and requirements.

A brief description of the project team with individual biographies follow:

Lori Martinez, Director of Client Operations

Lori manages client operations and business relationships. She is the point of contact for production issues or concerns. She is additionally responsible for maintaining client operations excellence and delivering outstanding client service. Lori holds a bachelor's degree and has more than 20 years of experience in relationship management exclusively with government clients.

Lori is involved in managing numerous projects from initiation through delivery; coordinating cross-functional teams through meetings and progress measurement activity. Lori managed and oversaw the implementation of the 2012 state legislative changes that included extended installment plans, continuous installment plan re-entry, reduction of minimum payment amounts, and the military deferral program for the state of Texas. She integrated CTI (Computer telephony integration) with the CRM (Customer Relationship Management tool) system over a global platform with quarterly savings of \$4,000,000 for our clients.

Lori managed the migration of over 400 state, county, and local governments' online payment applications and interfaced to a new enterprise payment processing solution on schedule and within budget.

Suzy Tanksley, Director of Payment Operations

Suzy has over 20 years of experience in the banking industry; 16 years in a supervisory role. Her current responsibilities include:

- Ensuring all physical payments received are posted in a timely and accurate manner along with payment files.
- Ensuring efficient and accurate deposits.
- Managing a staff of approximately 60 employees.

Suzy's department maintains a 99.99% rate of payment posting accuracy within 48 hours of receipt, 100% security of all entrusted funds, and 100% rate key account Client correspondence responses within 5 business days. Suzy has also worked with clients to create, decide, and record reduction applications for special programs.

Amber Fawver, Systems Development Manager

Amber is a hands-on leader for a team of ETL and SQL developers responsible for developing all inbound file processing, and automated client and internal reports and files using Pervasive, SQL Server Reporting Services (SSRS) and SQL Server Integration Services (SSIS). Reports are imported and delivered according to client specifications in various formats such as csv, text, pdf, xlsx, dat, docx, etc. She designs, develops, and supports backend data integration between SQL Server and Salesforce instances. Amber manages day to day DBA activities including SQL Job Agent configurations, role

and permissions administration, database notifications, performance tuning, and maintenance plan monitoring. She prioritizes, and delegates report requests and report related incidents along with maintaining and administering automated file and FTP/SFTP transfers.

Archana Sunder, Senior Software Developer

As a Senior Software Developer, Archana's primary focus is payment processing development. Her role involves gathering requirements, architecting, and developing websites for clients to process payments and create a reporting tool for payments with various metrics and other dimensions. Along with the UI development, payment processing development also includes creating a payment engine for processing payments and providing other functionalities such as reversal, authorization, refund.

Environment: ASP.NET 2015, SQL Server 2014, C# 6.0, Jquery, WEB API, Entity Framework, AngularJs, Restful API, XML, Web forms, MVC, Agile methodology, HTML

Orlando Sandoval, Project Coordinator

As a Project Coordinator, Orlando brings over six years of valuable, hands-on project management experience. He possesses a strong background working with others, as well as independently, to coordinate and plan projects and training. His detailed-oriented, time management, organizational and analytical skills have demonstrated his ability to build and maintain positive relationships with clients, colleagues, vendors and team members.

Orlando's system experience includes: System experience: Salesforce, Visio, MSP/

Fidelity, Web Extender, MIPS, Mosaix, CIC, AVAYA and is proficient in Microsoft office: Project, Excel, Power point, word, outlook. Orland is also bilingual (Spanish fluency). Orlando graduated from Concordia University at Austin TX. - Business Management.

Amanda Nguyen, Project Coordinator

Amanda Nguyen comes to MSB with a background in television and journalism. Her passion is in building and nurturing client partnerships, providing impeccable user experiences, and delivering seamless program implementations. She has 10+ years of in program and project management, event coordination and account management. Amanda is currently working towards her PMP and Product Owner certification.

Heather Goertz, Business Systems Analyst (Product Owner)

Successful Business Analyst and Certified Scrum Product Owner (CSPO) that possess a positive and professional presence with well-developed interpersonal skills. Over 6 years of experience with business analysis and IT/software solutions.

Proficient in coordinating product backlog, development prioritization, user story grooming, incident replication and resolution, working with cross-functional software development groups. Team Player who demonstrates the ability to take charge in situations, problem solve, balance priorities, and meet tight deadlines.

B. Describe the firm's organizational structure of personnel available as our customer account representatives, for training and to assist and resolve problems.

Response:

Please review previous question and answer to review the project team.

Our client support staffs an entire department of technical support level employees that specifically manage transaction flow, gateway integration and web-based payment processing. Client Help Desk Support is available 24/7/365. Clients can use a live operator assisted transaction processing if needed by dialing a designated toll-free phone number assigned to your project.

Client Service Personnel

MSB understands that payment processing issues require urgent resolution, and to this effect, all Clients are provided with a toll-free number as well as direct extensions to multiple escalation points to ensure we provide the most rapid response possible. Support personnel will be available 24/7/365.

Figure 22: Client Care

MSB has a best-in-class, 100% in-house, US based Client Care team that will provide your staff and your customers with assistance in both making payments and any payments inquiries. MSB provides support with general payment questions and issues. Our client service agents also offer complete training for your customers on use of the self-service web, IVR and mobile channels, simplifying and enhancing their next transaction experience. This service is provided at no additional charge to you and your customers.

MSB utilizes call load balancing technology to manage call volumes and work queues to minimize call wait times and achieve an above-average call center service level. Service level refers to the percentage of calls received by call center and support team that are answered by a human agent within a certain time frame. Our target metric is to have 80% of calls answered in 20 seconds. Although related to the service level, this benchmark also considers all the calls that are not answered within 20 seconds. Our objective is to answer these calls within 28 seconds. We staff accordingly to achieve better rates than these performance metrics.

MSB understands that payment processing issues require urgent resolution, and to this effect, all Clients are provided with a toll-free number as well as direct extensions to multiple escalation points to ensure we provide the most rapid response possible. Support personnel will be available 24/7/365.

2.10.3. Reporting Capabilities

A. Submit samples of reports which would be provided and describe their frequency and purpose.

Response:

We have provided Nexus Report Snapshots of reports within **Appendix A** of this response.

B. Describe the process the firm would go through to assist in identifying fee reduction opportunities, if applicable.

Response:

We employ the most exquisite software designed to constantly "scrub" all transactions flowing through the system to make sure they qualify at the best possible Interchange levels. We also start by making sure that all MID's are set up under the absolute best MCC code for that particular Emerging Public Sector category. We also employ very stringent AVS controls as well as entering all required data for Level II and Level III transactions (where applicable).

MSB has an entire department dedicated to ensuring that our Government clients qualify for the best Interchange levels for all transactions. We perform client audits once every 90 days and we will report our findings usually during a client visit, on a face-to-face basis.

2.10.4. Other Considerations

A. Describe any assistance the firm would provide in the set-up process if necessary.

Response:

MSB will conduct all installation and set-up in person. We do not implement our projects via webinar or "train the trainer" method.

MSB offers on-site training to all County staff and employees in the operation and function of the point of sale systems and products. All elements of the payments environment are addressed in the training including the operation of the various systems to accept all credit and debit card transactions, the proper process and procedures for the additional functions at the point of sale that may occur and the point of contact for any troubleshooting or technical issues.

The systems training will also include the "back office" elements for supervisory levels that include reporting, statement reconciliation, management of accounts and related processes. This training is provided at the establishment of the account as well as in an "as-needed" basis beyond the initial installation.

Training for the Nexus (MSB's Payment Gateway), IVR, and reporting for all modules is conducted remotely via webinar in a 'train the trainer' format. However, MSB can provide on-site training for these services as well if MSB is already on-site training County staff in the use of POS hardware.

B. Describe the training and education services that would be provided to staff.

Response:

All training provided by MSB will be provided at no cost to the County. The County shall not be required to set aside any budgetary resources for training location, training hours, etc.

MSB offers on-site training to all County staff and employees in the operation and function of the point of sale systems and products. All elements of the payments environment are addressed in the training including the operation of the various systems to accept all credit, debit card and ACH transactions, the proper process and procedures for the additional functions at the point of sale that may occur and the point of contact for any troubleshooting or technical issues.

The systems training will also include the "back office" elements for supervisory levels that include reporting, statement reconciliation, management of accounts and related processes. This training is provided at the establishment of the account as well as in an "as-needed" basis beyond the initial installation.

Training for the Nexus (MSB's Payment Gateway), IVR, and reporting for all modules is conducted remotely via webinar in a 'train the trainer' format. However, MSB can provide on-site training for these services as well if MSB is already on-site training County staff in the use of POS hardware.

Each member of the County staff will be provided with an Escalation Roster to include both office and mobile contact information for the assigned Account Executive(s) and back-up(s). While standard contact support hours are 8:00 a.m. through 6:00 p.m. Monday through Friday CST, Account Executives are available by mobile phone after-hours, on weekends, and on holidays for urgent issues. After hours support contacts will be designated on the Escalation Roster.

Minor issues are resolved within less than thirty minutes. <u>The maximum wait time for any given customer</u> is less than one minute (43 seconds to be exact).

Minor issues are resolved within less than thirty minutes. MSB has had only one major issue in the past decade which resulted in a system outage of two hours. The maximum wait time for any given customer is less than one minute (43 seconds to be exact).

- While we do not anticipate down time and our historic up time at 99.99% is amongst the best in the industry, we do support back up procedures that are available through cell/telephone processing where access is available 24/7 365. MSB can supply the County and corresponding departments with a kit that contains 24/7 customer service numbers. These contact numbers are also clearly displayed on the payment gateway and the official website.
- Internet transactions are supported through a variety of gateway relationships in addition to the Nexus gateway. MSB has relationships with several other gateway providers such as Authorize.net should those relationships need to be brought to bear for the County as a back-up.

C. Describe how a void and a refund would be handled for each of the following and the length of time before the customer receives their funds or the funds are released:
 a credit card/debit card payment

Response:

Our system is able to issue the refunds on both e-checks and on credit/debit cards the same day as the authorization. Since we own the entire network, an e-check refund will take no more than 48 hours to appear in the constituent's bank account.

For the credit/debit cards, we can issue a reversal and the refund will be immediate (within minutes). If the refund occurs the next day, the funds will be available in the cardholder's account in 24-48 hours depending on the issuing bank.

A big differentiator in our solution is the fact that we are only one of the few organizations in United States who can issue instant refunds on all debit cards through all debit/ATM networks instead of the credit card rails! That means that the funds will be available in customer's account almost instantaneously instead of the customer having to wait 3-5 business days for that amount to come off the temporary balance hold. This is a huge advantage and convenience you can offer to your customers!

D. Provide a schedule of when funds will be deposited into County's accounts once a transaction has been completed for each payment type – credit card or debit card. And, describe how funds will be identified in County's accounts.

Response:

Same Day Settlement

(we will deposit all base amounts - segregated from the convenience fees)

Settlement Schedule – 24 Hour Settlement Close prior to 12:00 A.M.CST	ACH Initiated Same Business Day as Close
Close after 12:00 A.M. Central Time	ACH Initiated Following Business Morning

- Settlement and Funding As the merchant of record, we provide your funds <u>the next day</u>.
 We close batches according to your timeline and fight on your behalf in chargeback situations.
- Daily settlement occurs at 11:59 PM, Central Time, each business day with funds available the following business day. You will have on-line access to all reports pertaining to merchant accounts, ACH processing accounts deposits, and transfers to your bank accounts. We provide custom reporting to ensure The County's required batch close-out reports reflect the desired reconciliation process

You'll be happy to know that we are one of the only Government PayFac organizations that can guarantee your State next morning deposits <u>regardless of the settlement time from previous business day</u> <u>transactional data</u>!

Please see the following for a sample of our Settlement Table SLA (comprised).

Batch Submitted By:	ACH Credit Posted to the Authority's Account (If account is with your bank)	ACH Credit Posted to the Authority's Account (If account is at third-party bank)
Monday @ 12:00 AM CT midnight	Tuesday	Wednesday
Tuesday @ 12:00 AM CT midnight	Wednesday	Thursday
Wednesday @ 12:00 AM CT midnight	Thursday	Friday
Thursday @ 12:00 AM CT midnight	Friday	Monday
Friday @ 12:00 AM CT midnight	Monday	Tuesday

We are proud to say that we have met our depository deadlines 100% of the times in the past 12 months.

E. Describe any online websites to assist County offices with tracking real-time payment information, voids, credits, reporting, payment transaction processing, etc.

Response:

Our Nexus portal will provide the County staff with all the real time data they will need. Nexus is a webbased payment gateway/portal, easily accessible from anywhere in the world where Internet is present.

F. Describe how transactions will be identified in public's accounts. Will there be one transaction that includes the processing fee? Or, will there be a separate transaction for the bail, fee, restitution payment, etc. and a separate transaction for the processing fee?

Response:

Since we're a certified PayFac, we can aggregate the transactions in one single authorization along with the convenience fee. The constituents will only see one single transaction in their bank account.

Our systems will segregate the convenience fee (processing fee) from the base amount in the backend and we will deposit the base amounts in the County's respective bank account(s).

G. Provide a schedule of available customer service hours for both County offices and the public user of the service (if different).

Response:

Each one of the County offices will be provided with an Escalation Roster to include both office and mobile contact information for the assigned Account Executive(s) and back-up(s). While standard contact support hours are **8:00 a.m. through 6:00 p.m. Monday through Friday CST**, Account Executives are available by mobile phone after-hours, on weekends, and on holidays for urgent issues. After hours support contacts will be designated on the Escalation Roster.

Lastly, all Customers will have direct contact information for a member of Senior Management who is assigned to the account. This Manager (Vice President or above) is responsible for the overall efficacy of the contract and will ensure that each of his/her Customers' needs are being met through the relationship management process.

Customer Service and Commitment to Diversity for your Constituents

MSB's customer service department is an amazing organism. It has been hailed by the industry watch dogs as one of the most exquisite customer service departments in the country. Here are some very interesting FACTS:

- Our customer service department fields at any given time of the day or night 282 people spanning in three shifts. Nobody in the industry comes even close to that level of service.
- Our customer service department has no less than seven separate language desks. We can assist our customers in a multitude of languages including Vietnamese, Chinese, Arabic, Spanish and many more.
- We organize monthly fun activities for all employees in which we celebrate diversity and learning about our fellow workers. Our last major party was organized in celebration of the Soccer World Cup. Our employee base is composed of folks from 12 different countries across the Globe.
- Our customer service department boasts a cutting-edge predictive dialer system that enables us to reach an average response time of less than 28 seconds!

Our 24/7 customer service help desk is available for your constituents during all 365 days of the year including Holidays.

2.10.5. Other Information

A. Provide proof of state registration.

Response:

We have provided Certificate of Good Standing from the State of Missouri within **Appendix A** of this response.

B. Provide verification of PCI compliance.

Response:

MSB complies as Gila LLC is as an enterprise PCI 1 compliant. We have provided a copy of our Report of Compliance within **Appendix A** of our response document.

C. Lower Price Guarantee: Should the service be offered with a lower transaction fee to any other public agency.

Response:

MSB hereby certifies that should the service be offered with a lower transaction fee to any other Public Agency, we will match that offer under our <u>Meet or Beat Guarantee Program</u>. This Program essentially guarantees our Government clients that if a better transactional cost is presented by a competitor, outside of our executed agreement, we will Meet or Beat that rate. The condition is that the competing proposal has to be in writing from the competing firm and it has to be accompanied by the associated cost comparison data (processing statements and cost analysis).

PUBLIC SECTOR EXPERIENCE

Please provide a minimum of three customers currently using your service. Please provide at least one Missouri County to which you provide services. The County reserves the right to ask for additional information.

1. Services Performed for:

Company	Sedgwick County, KS
Address	Department of Finance; 525 N. Main, Ste. 823; Wichita, KS 67203
Contact Name	Brandi Baily, Principal Accountant
Telephone Number	316-660-7132
Date of Contract	2018
Length of Contract	3 – 5 years
Description of Services	In September 2018, MSB became the sole payments provider for the County of Sedgwick and all of its affiliate departments in the State of Kansas. MSB currently serves 23 individual departments under this contract. At the beginning of 2019, MSB signed an additional contract with the County to perform payment processing services for the Lake Afton Park & Recreation locations which required complicated and exquisite custom kiosks. In July of this year, MSB will sign yet another contract for the entire DMV department in the State of Kansas to provide comprehensive custom payment kiosks across the County and State.

2. Services Performed for:

Company	Washington County, Missouri Collector/Treasury
Address	102 N. Missouri Street, Ste. A; Potosi, MO 63664;
Contact Name	Carla Zettler, Chief Treasurer
Telephone Number	573-438-7701
Date of Contract	February 2019
Length of Contract	5 years
Description of Services	Payment processing services to accept payments for fines and taxes. Face-to-
	face and web/online. Full integration with DevNet software.

3. Services Performed for:

Company	Douglas County Treasury Department
Address	100 Third Street, Ste 120; Castle Rock, CO 80104
Contact Name	Pat Neef
Telephone Number	303-663-6219
Date of Contract	2018
Length of Contract	5+ years
Description of Services	Full real time integration with Tyler Technology Eagle Treasurer software,

credit card, debit card and E-check processing. Both online/web transactions as well as IVR and face-to-face transactions. We built the online site and portal custom made.

4. Services Performed for:

Company	Douglas County Building Permits and Engineering
Address	100 Third Street, Ste 120; Castle Rock, CO 80104
Contact Name	Terry Lyons
Telephone Number	303-663-6219
Date of Contract	2018
Length of Contract	5+ years
Description of Services	Full real time integration with Tyler Technology and Computronix software,
	credit card, debit card and E-check processing. Both online/web transactions as
	well as IVR and face-to-face transactions. We built the online site and portal
	custom made

5. Services Performed for:

Company	Osage County, MO Sheriff Dept
Address	106 E. Main St.; Linn, Mo 65051
Contact Name	Mike Bonham – County Sheriff
Telephone Number	573-897-3927
Date of Contract	March 2019 - Present
Length of Contract	5+ years
Description of Services	Full POS services with online and face-to-face capability for credit, debit and e-
	check transactions. We also installed the world class Tri-POS system for the
	entire department.

6. Services Performed for:

Company	Osage County, MO Jail
Address	106 E. Main St.; Linn, Mo 65051
Contact Name	Lt. Tiffaney Hernon
Telephone Number	573-897-5750
Date of Contract	March 2019 - Present
Length of Contract	5+ years
Description of Services	Full spectrum of electronic payments capability both online and face-to-face
	transactions. Credit, debit and e-check. We also installed the world class Tri-POS
	system for the entire Jail. Wall mounted and connected directly to the Navient
	Cloud, this system is quite unique and offers the Sheriff department a
	convenience and state-of-the-art technology never before encountered.

7. Services Performed for:

Company	Outagamie County Wisconsin
Address	410 S. Walnut Street; Appleton WI
Contact Name	Trenten Woelfol
Telephone Number	920-832-5067920-832-5067
Date of Contract	2018
Length of Contract	5+ years
Description of Services	Provide a fully customized payment solution for multiple departments county
	wide, including bill presentment, payment portals and over the counter payments.

100% Uptime Guarantee

If at any time during the contract term, a department is not able to accept payments due to a system impairment or unscheduled outage that is attributable to MSB, we will remit to our Government Client an amount of money equal to normal hourly revenue for each department which is impacted.

This type of guarantee is unique in United States and it's a testament to our confidence in the reliability of our systems.

EXPERIENCE • EXECUTION • ETHICS

- MSB takes on responsibility for data security and tokenization with a PCI-DSS Level 1 compliant environment for a highly secure payment service.
- Guarantees against any fraudulent activity or security breaches.
- In the event of a breach, we take care of incurred costs including the financial impact to your customers.
- MSB has not encountered a breach through our entire operating history and we use the latest cutting-edge military grade encryption technology to keep it

Glossary of Terms/Abbreviations

The following table has been provided to establish a mutual understanding of the meaning of various words used throughout this document. This table may be updated periodically.

Term/Abbreviation	Definition				
Contract	The formal agreement between The County and Gila, LLC d/b/a MSB that allows MSB to perform services for the County 's Credit and Debit Card Processing Services				
RFP	Request for Proposal				
First Phase	Go-Live Estimated around 08-15-19				
MSB	Gila LLC d/b/a Municipal Services Bureau (MSB)				
Client	The County				
NATO Phonetic Alphabet	The International Radiotelephony Spelling Alphabet, is the most widely used radiotelephonic spelling alphabet. where code words are assigned acrophonically to the letters of the English alphabet, so that critical combinations of letters and numbers can be pronounced and understood by those who exchange voice messages by radio or telephone regardless of language barriers or the quality of the communication channel. ^[1]				
NEXUS	MSB's World Class Payment and Reconciliation System				
CSC	Client Service Center				
CSR	Client Service Representative				
BOS	Back Office System				

Table 2: Glossary

Introduction

The project undertaken by Gila LLC d/b/a Municipal Services Bureau ("MSB") to support requirements under the County's RFP and its scope of work document that requires that MSB submit deliverable credit card processing products and services to The County which are consistent with requirements listed in the RFP.

Deliverables are delineated based upon requirements of attestation and requirements of delivery. Additionally, there is one distinct phase to the project and within one or more project tranches of tasks. These tranches determine deliverable due dates.

Purpose

This *Training Plan* has been developed to assure that the implementation work of MSB's Payment Processing Solution, as defined in our Solution Overview conforms to The County's RFP requirements.

Project Overview

MSB has an established and extensive training program for The County staff covering every phase of our Payment Solution (the operation). Training includes a review of policies and procedures, PC-based exercises and overview of the back-office system. MSB's training program is geared toward empowering our Client's staff with the soft skills they need to raise customer satisfaction levels, reduce conflict, improve teamwork and manage their service effectively. MSB is to provide contact center services, administrative support, and a litany of other functions as defined by the RFP herein.

To ensure that MSB can both maintain existing operations and in a parallel path, develop and deploy system and operational enhancements consistent with requirements of the RFP, MSB must be able to communicate with one or more of the County's systems in which data is received from The County's systems and processed by MSB or information is provided by MSB to The County and processed/digested by The County's systems.

Audience

- Project team members perform tasks specified in this document and provide input and recommendations on this document.
- MSB Project Manager and Project Coordinators plan for the training activities in the overall project schedule, review the document(s), track the performance of the training per the tasks herein specified, approve the document(s), and are accountable for the results.
- Business analysts will provide their inputs on functional changes.

• The County's Contract Administrator will affirm and provide approval for all methodologies listed in this document before MSB is able to initiate execution of said methodologies.

Training Strategy

Objectives

The purpose of the training is to instruct MSB, The County, and third-party staff (if and when applicable) on various elements of our product and service offering pertinent to the respective business need and job function. This training will enable MSB, The County, and any applicable third parties to be in the best position possible to ensure that Payment Services are launched seamlessly with no down-time or other operational encumbrances generated through a transition process for effectuation by personnel.

Assumptions

To create this training plan, the following assumptions were made:

- 1. Training facilities (where applicable) are fully operational
- 2. Trainer/s are available as scheduled
- 3. There are sufficient number of trainees for the training

Data Strategy

All data is handled in a manner consistent with data management requirements set forth in the contract between MSB and The County. The training environment will be a partial replication of the production environment and will contain demo data. Trainees (The County staff members) will be exposed to training data for academic purposes and then real-data for account and call simulations all the way at the end of the training.

Timeline and Resources

The following table highlights the type of resources needed to implement this training plan and provided a timeline for each task that must be performed.

Task Name	Duration	Start	Finish	Resource Names
Nexus System Training	1 Day	TBD	TBD	Dragos C. Enea Orlando Sandoval
				Amanda Nguyen
Verifone Mx 915 Use Training	3-4 hours (depends upon size of staff to be trained)	TBD	TBD	Dragos C. Enea

Table 3: Timeline and Resources

Reporting Tools Portal Training	3-4 hours (same day as Nexus training)	TBD	TBD	Dragos C. Enea
 Recurring Payment Portal E-Bill Presentment Report Scheduler Pay-by-Text Training 	1 Day These Modules to be trained only if applicable to the scope and/or requested by The County	TBD	TBD	Dragos C. Enea Orlando Sandoval Amanda Nguyen

The tasks above are known enhancements to be trained by MSB once approved by The County and are not an all-inclusive list. As additional enhancements are proposed and approved by The County, similar timelines will be established for each project.

Systems Training for The County

MSB will provide training on Nexus to the County staff users, as outlined below. We will coordinate the schedule of training sessions with The County's Administrator.

Systems Training Topics

The trainer will cover logging into the client portal to gain access to The County and/or customer accounts. The trainer will introduce The County staff to the new features and capabilities of the Nexus upgrade.

Trainees will be introduced to the revised Nexus Reporting Tools, Chargeback mitigation tools, including how these programs acknowledge The County and industry-specific regulations before continuing, what the County Specialist sees when they are speaking with a customer (see the Nexus screenshots on the following page), and how the County Specialist inputs information into Nexus, which becomes part of the permanent documentation on the account record. Examples will include updating customer contact information, note-taking on conversations with the customers, recording payments including documenting a future date promise to pay or payment schedule, reviewing correspondence, and much more.

Proposed Training Plan for RFP Response

Execution Strategy

Scope

The County Staff members will undergo the following training:

- Nexus Portal Usage
- Reporting Tool Module(s)
- Verifone Mx915 terminal operations and procedures
- Daily Settlement and Reconciliation procedures
- PCI Compliance, Regulations and Data Security
- EBPP Module (E-Bill Presentment and Payment) if applicable
- Report Scheduler Module if applicable
- Recurring Payment Module if applicable
- Quick Reference Guide
- We will provide all marketing materials, signage and supplies.

Training Resources

There are no resources whatsoever required from The County. MSB will provide all human resources as well as software, hardware and facilities (where applicable) necessary for a complete and comprehensive training.

MSB will provide the training demo MX 915 units. When the production units arrive, the only hardware required from The County are the Ethernet cables that will plug into the router and into the terminals.

Materials

MSB will provide all marketing materials, signage and QRG's (Quick Reference Guides), cheat sheets, procedure manuals and complete contact info for all supporting MSB staff.

Staffing

MSB offers on-site training to all The County staff and employees in the operation and function of the point of sale systems and products. All elements of the payments environment are addressed in the training including the operation of the various systems to accept all credit and debit card transactions, the proper process and procedures for the additional functions at the point of sale that may occur and the point of contact for any troubleshooting or technical issues.

The systems training will also include the "back office" elements for supervisory levels that include reporting, statement reconciliation, management of accounts and related processes. This training is provided at the establishment of the account as well as in an "as-needed" basis beyond the initial installation.

Problem Management

The log of defects/issues discovered during Training will be maintained and communicated to the Testing team and Production Support resource by the Project Manager/Operations Manager.

The report will include:

- Date and time
- Issue reporter
- Problem description
- Apparent cause
- Assigned resource
- Resolution
- Test results

Each member of the County staff will be provided with an Escalation Roster to include both office and mobile contact information for the assigned Account Executive(s) and back-up(s). While standard contact support hours are 8:00 a.m. through 6:00 p.m. Monday through Friday CST, Account Executives are available by mobile phone after-hours, on weekends, and on holidays for urgent issues. After hours support contacts will be designated on the Escalation Roster.

Minor issues are resolved within less than thirty minutes. <u>The maximum wait time for any given</u> <u>customer is less than one minute (43 seconds to be exact).</u>

Exit Criteria

When the County trainee(s) can demonstrate fundamental understanding of the material and subject matters for which training was provided. Such understanding can be demonstrated by the trainee showing they can autonomously perform the function or through, formal testing on all MSB systems and hardware.

Training Management Process

Training Management Methodology

To accomplish the learning objectives of MSB's training, training will consist of a two-three (2-3) business day block of instruction and will include various training materials and scenarios. Tests will be administered throughout the training with the final test being one determining factor as to whether The County employees are confident in operating the cloud-based terminals and navigate freely through the reporting tools. Training materials will include QRG's, procedure manuals and a slide PowerPoint presentation, handouts on the various Nexus elements as well as acknowledgements of policies.

The instructor(s) will teach the Payment initiation concepts, voids, refunds, chargebacks, etc. They will also conduct thorough training on all the reporting tools and reconciliation activities the County staff will need on daily basis. At various intervals during training, the County Staff will utilize the MSB systems at their workstations which are fully loaded with the Nexus demo portal that emulates the actual portal used on the daily basis in all respects. This portal will contain only 'dummy' information during the academic portion of training and for navigational review.

However, The County Staff members will on a per call basis be given access to the actual system of record (NEXUS Production) to assist customers/cardholders during live call training. There will be ample opportunity built into the class for questions and answers as well. Supplemental handouts and Quick Reference Guides will be provided to all trainees which cover the concepts reviewed on any given training day. The informal preliminary testing will be administered at the end of the final day of training. The testing will consist of thirty (30) minutes of continued use of the NEXUS Production system followed by a Systems familiarity test and a live call test. To pass, a The County staff trainee must answer 28 questions correctly and demonstrate familiarity with the system interface and ancillary system reporting capabilities as applicable.

MSB Training Environment and Tools

The training will occur at The County's site.

In an effort to make the training as efficient as possible, The County staff members will be kindly discouraged from answering emails and phone calls on their mobile devices while training is being conducted or having the mobile device visible at all except in case of emergency situations. The County members must leave the training room and move to a designated area of the facility to address such emergencies. Frequent and adequate breaks will be granted at all times. The County Trainees will have adequate time during such breaks to check emails and make phone calls throughout the two days of training.

Ongoing Approach

MSB will hold 'train the trainer' on-site meetings at all The County departments in which any changes to the system will impact existing procedures. In such case as the County wishes end users to participate in such training sessions in lieu of trainers, this is acceptable.

MSB will also provide The County users with instructions, guides, and online help utilities to assist with procedural changes for those The County employees who are unable to attend training or not hired or assigned to the project prior to the training being scheduled. Due to the variable needs of the County departments involved with the project listed in the attached RFP and the disparate degrees of involvement, MSB will tailor the training sessions on a per agency basis, or per department basis.

Risks and Contingency Plan

The following table shows the risks we have identified for this training plan and how we will mitigate each risk identified.

No.	Risk	Mitigation
1.	Trainer not available	Backup trainer identified within MSB staff
2.	A County staff member is unable to attend	Additional class scheduled as needed to supplement within the same time period
3.	Trainee is not successful in completing the training	Trainer will continue to provide training and instruction until everyone in the respective department is comfortable in operating all systems.

Table 4: Risk and Mitigation

Roles and Responsibilities

The following table identifies the responsibilities of each person on the project team.

Name of Resource	Role	Responsibility
Dragos C. Enea	VP, Business Development Training Manager	Responsible for managing the Training program for this project. Also, the Account Manager de-facto.
Orlando Sandoval	Project Manager, II	Responsible for providing the training other than Training Manager – back up resource.
Heather Goertz	Product Owner	Responsible for supervising all back up resources and will also conduct training if needed.
Amanda Nguyen	Project Manager, Client Operations	Responsible for training. Back-up resource.
Kellie Brewer	Project Manager, Client Operations	Responsible for training. Back-up resource.

Table 5: Roles and Responsibilities

Appendix A: Training Plan Approval

The undersigned acknowledge they have reviewed the Credit/Debit Card Processing Services Program **Training Plan** and agree with the approach it presents. Changes to this **Training Plan** will be coordinated with and approved by the undersigned or their designated representatives.

Part 2b. Description of Payment Card Business Describe how and in what capacity your business Gila, LLC accepts credit card payments through stores, processes, and/or transmits cardholder data. POS, IVR / MOTO and Web payment channels. Gila, LLC transmits Track 1 and Track 2 cardholder data as a registered ISO of Fifth Third Bank to card associations inclusive of Visa, MasterCard, Discover, and American Express. Gila, LLC does not store cardholder data. Gila, LLC does access cardholder data using tokenization for research and if applicable chargeback purposes. Gila, LLC's merchant acquirer (Vantiv Corporation) and merchant acquiring bank (Fifth Third) facilitate card processing and storage. All cardholder data is transmitted using https / TLS encryption protocols for card not present, and through either https / TLS or EMV closed loop transactions for card present payments, depending upon whether a client has elected to use a virtual terminal or standalone terminal for card present. Describe how and in what capacity your business is Gila, LLC receives and transmits cardholder data, otherwise involved in or has the ability to impact the and stores customer and payment method tokens security of cardholder data. on behalf for their clients if contractual obligated.

Part 2c. Locations

List types of facilities (for example, retail outlets, corporate offices, data centers, call centers, etc.) and a summary of locations included in the PCI DSS review.

Type of facility:	Number of facilities of this type	Location(s) of facility (city, country):
Headquarters/ Call Center	1	Austin, TX, USA

Part 2d. Payment Applications

Does the organization use one or more Payment Applications? \square Yes \square No

Part 2g. Summary of Requirements Tested

For each PCI DSS Requirement, select one of the following:

- Full The requirement and all sub-requirements of that requirement were assessed, and no subrequirements were marked as "Not Tested" or "Not Applicable" in the ROC.
- **Partial** One or more sub-requirements of that requirement were marked as "Not Tested" or "Not Applicable" in the ROC.
- None All sub-requirements of that requirement were marked as "Not Tested" and/or "Not Applicable" in the ROC.

For all requirements identified as either "Partial" or "None," provide details in the "Justification for Approach" column, including:

- Details of specific sub-requirements that were marked as either "Not Tested" and/or "Not Applicable" in the ROC
- Reason why sub-requirement(s) were not tested or not applicable

Note: One table to be completed for each service covered by this AOC. Additional copies of this section are available on the PCI SSC website.

Name of Service Assessed:		Gila Payment Nexus (The Nexus)				
		.	Detail	ails of Requirements Assessed		
PCI DSS Requirement	Full	Partial	None	Justification for Approach (Required for all "Partial" and "None" responses. Identify which sub-requirements were not tested and the reason.)		
Requirement 1:				1.2.3 Not Applicable – Gila, LLC has no wireless networks directly connected to the CDE.		
				1.3.6 Not Applicable – Gila, LLC does not store cardholder data in the scope of this assessment.		
Requirement 2:				2.1.1 Not Applicable – Glia, LLC has no wireless technologies connected to the CDE.		
				2.6 Not Applicable – Gila, LLC is not a shared hosting provider.		
Requirement 3:				3.1.c Not Applicable – Gila, LLC, has no Cardholder Data stored within the CDE.		
				3.2 (a, b, c, d) Not Applicable – Gila, LLC is not an issuer.		
				3.4, 3.4.1 (all) 3.5 (all), 3.6 (all) Not Applicable – Gila, LLC has no Cardholder Data stored within the CDE.		
Requirement 4:				4.1.1 Not Applicable – Gila, LLC's Cardholder Data is not transmitted using wireless technologies.		
				4.2.a Not Applicable – Gila, LLC does not send PANs via end-user messaging technologies.		

Security Standards Council	 	
Requirement 5:		
Requirement 6:		
Requirement 7:		
Requirement 8:		8.1.5 Not Applicable – Gila, LLC does not have third parties that access, support, or maintain system components via remote access.
		8.5.1 Not Applicable – Gila, LLC does not have remote access to customer premises.
		8.6 Not Applicable – Gila, LLC does not use any additional authentication mechanisms.
		8.7 Not Applicable – Gila, LLC does not have databases that contain cardholder data.
Requirement 9:		9.1.2 Not Applicable – Gila, LLC does not have publicly accessible facilities.
		9.5.1, 9.6, 9.6.1, 9.6.2, 9.6.3, 9.7 Not Applicable – Gila, LLC does not store, transport or distribute media that contains cardholder data.
		9.8 (ALL) – Gila, LLC does not store hard-copy or electronic media with cardholder data.
		9.9, 9.9.1, 9.9.2, 9.9.3 Not Applicable – Gila, LLC does not maintain any card-interaction devices
Requirement 10:		
Requirement 11:		
Requirement 12:		
Appendix A1:		A1 (ALL) Not Applicable – Gila, LLC is not a shared hosting provider.
Appendix A2:		A2.1 Not Applicable – Gila, LLC does not have POS/POI terminals in the CDE.
		A2.2, A2.3 (ALL) Not Applicable – Glia, LLC has no instances of SSL/early TLS observed in the CDE.

Section 2: Report on Compliance

This Attestation of Compliance reflects the results of an onsite assessment, which is documented in an accompanying Report on Compliance (ROC).

The assessment documented in this attestation and in the ROC was completed on:	May 20, 2019)
Have compensating controls been used to meet any requirement in the ROC?	🗌 Yes	🖾 No
Were any requirements in the ROC identified as being not applicable (N/A)?	🛛 Yes	🗌 No
Were any requirements not tested?	🗌 Yes	🛛 No
Were any requirements in the ROC unable to be met due to a legal constraint?	🗌 Yes	🖾 No

Security * Standards Council_

Section 3: Validation and Attestation Details

Part 3. PCI DSS Validation

This AOC is based on results noted in the ROC dated May 20, 2019.

Based on the results documented in the ROC noted above, the signatories identified in Parts 3b-3d, as applicable, assert(s) the following compliance status for the entity identified in Part 2 of this document (*check one*):

Compliant: All sections of the PCI DSS ROC are complete, all questions answered affirmatively, resulting in an overall COMPLIANT rating; thereby <i>Gila, LLC</i> has demonstrated full compliance with the PCI DSS.					
Non-Compliant: Not all sections of the PCI DSS ROC are complete, or not all questions are answered affirmatively, resulting in an overall NON-COMPLIANT rating, thereby <i>(Service Provider Company Name)</i> has not demonstrated full compliance with the PCI DSS.					
Target Date for Compliance:					
An entity submitting this form with a status of Non-Compliant may be required to complete the Action Plan in Part 4 of this document. <i>Check with the payment brand(s) before completing Part 4.</i>					
Compliant but with Legal exception: One or more requirements are marked "Not in Place" due to a legal restriction that prevents the requirement from being met. This option requires additional review from acquirer or payment brand.					
If checked, complete the following:					

Details of how legal constraint prevents requirement being met

Part 3a. Acknowledgement of Status

Signatory(s) confirms:

(Check all that apply)

	The ROC was completed according to the PCI DSS Requirements and Security Assessment Procedures, Version 3.2.1 and was completed according to the instructions therein.
\boxtimes	All information within the above-referenced ROC and in this attestation fairly represents the results of my assessment in all material respects.
	I have confirmed with my payment application vendor that my payment system does not store sensitive authentication data after authorization.
	I have read the PCI DSS and I recognize that I must maintain PCI DSS compliance, as applicable to my environment, at all times.
	If my environment changes, I recognize I must reassess my environment and implement any additional PCI DSS requirements that apply.

Part 3a. Acknowledgement of Status (continued) No evidence of full track data¹, CAV2, CVC2, CID, or CVV2 data², or PIN data³ storage after \boxtimes I Iransaction authorization was found on ANY system reviewed during this assessment. ASV scans are being completed by the PCI SSC Approved Scanning Vendor Trustwave Holdings, Inc. \boxtimes 3702-01-13 Part 3b. Service Provider Attestation Dale: Signature of Service Provider Executive Officer 1 Tille: EVP & Chief Risk & Compliance Service Provider Executive Officer Name: Steve Hauber Officer Part 3c. Qualified Security Assessor (QSA) Acknowledgement (if applicable) Specialized Security Services, Inc. performed the security If a QSA was involved or assisted with this assessment and prepared the Report on Compliance in accordance assessment, describe the 'role performed: with the PCI DSS 3.2.1 Guidelines Date. Signature of QSA's Executive Officer 🛧 QSA Company: Specialized Security Services, QSA's Executive Officer Name: Milchelle Schanbaum Inc. Dale: Signature of QSA 1 OSA Company: Specialized Security Services, QSA Name; Albert Rwehumbiza Inc. Part 3d. Internal Security Assessor (ISA) Involvement (If applicable) If an ISA(s) was involved or assisted with Not Applicable this assessment, identify the ISA personnel and describe the role performed: Data encoded in the magnetic stripe or equivalent data on a chip used for authorization during a card-present transaction. Entities may not retain full track data after transaction authorization. The only elements of track data that may be retained are primary account number (PAN), expiration date, and cardholder name. The three- or four-digit value printed by the signature panel or on the face of a payment card used to verify card-not-present transactions. Personal identification number entered by cardholder during a card-present transaction, and/or encrypted PIN block present within the transaction message. June 2018

Reporting

Our fully integrated payment processing solution has automation capability for reconciliation services. The system can provide any report for any type of transaction, deposit, return, refund, void, reversal, and chargeback.

Nexus can also reconcile by department, MID#, sub-department, etc. You can input any type of parameter for reconciliation and our system can deliver the report in real time.

Reporting Modules

The **Automated Reporting Module** includes coding which provides you with a selection of pre-built automated reports. The coding allows you to select a report then use this input to initiate a pre-built database query to extract the appropriate data in response to your selection.

The **Manual Reporting Module** includes coding which provides you with the ability to modify various reporting criteria such as search dates, locations, sites, systems, and serial numbers. User inputs then initiate the database query to execute the desired search algorithm.

We have included screen shots on the following pages for some of the reporting models.

Screenshot 1: Transaction Search Report displays all the activity that has occurred in each transaction category.

ACORD [®] CERTIFICATE OF LIABILITY INSURANCE								DATE (MM/DD/YYYY) 05/24/2018	
THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.									
IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

Required Documents

- _____1. Business Requirements Form
- 2. Merchant Application
- 3. ACH Credit / Debit Vendor Client Agreement
- _____4. W-9

For a very detailed day-by-day plan, please see the following *SAMPLE Implementation Timeline* which addresses a specific segment of the proposed implementation plan including Web application design, pre-production, and data flow. (A customized timeline will be provided upon award.)

The plan assumes that tasks are performed by various implementation team members simultaneously by various implementation teams. Each task does not necessarily depend each step being completed before another task is being worked.

Sample Plan assumes contract effective date of <u>November 1, 2019</u>:

CERTIFIED COPY OF ORDER

STATE OF MISSOURI		October Sea	ssion of the Octol	oer Adjourne	d	Term. 20 19	
County of Boone) ea.						
In the County Commissi	on of said county, o	n the	29th	day of	October	20 19	

the following, among other proceedings, were had, viz:

Now on this day, the County Commission of the County of Boone does hereby approve the attached Perpetual License Agreement between Boone County and Time**C**lock Plus for Contract 65-123119C – Timeclock Plus Perpetual License Agreement.

Terms of the agreement are stipulated in the attached Agreement. It is further ordered the Presiding Commissioner is hereby authorized to sign said Agreement.

Done this 29th day of October 2019.

ATTEST:

Brianna L. Lennon Clerk of the County Commission

Daniel K. Atwill

Presiding Commissioner

Fred J. Parry

District I Complissioner

Janet M. Thompson

District II Commissioner

Boone County Purchasing

Melinda Bobbitt, CPPO Director of Purchasing

613 E. Ash, Room 110 Columbia, MO 65201 Phone: (573) 886-4391 Fax: (573) 886-4390

MEMORANDUM

TO:	Boone County Commission
FROM:	Melinda Bobbitt, CPPO, CPPB
DATE:	October 22, 2019
RE:	Purchase Agreement: 65-123119C - Timeclock Plus Perpetual License
	Agreement

Attached for signature is contract # 65-123119C - Timeclock Plus Perpetual License Agreement. Time keeping with Timeclock Plus was included in the Superion contract previously approved in Commission, commission order # 308-2019. Timeclock Plus, LLC is partnered with Superion (Central Square Technology) as the third-party tool application that collects time reporting. This software will replace payroll requisitions and timesheets. County staff will enter time into Timeclock Plus which will advance for supervisor approval through the system. Once approved this information will push into the payroll module.

Cost of Timeclock Plus that includes maintenance was included in the Superion contract for \$51,720. All the funds have been encumbered with a purchase order issued to Superion from department 1170 - Information Technology, account 92302 - Replacement Computer Software.

County Contract #: 65-123119C

TIMECLOCK PLUS PERPETUAL LICENSE AGREEMENT ("EULA")

Terms and Conditions

THIS AGREEMENT is entered into as o	10/30/2019 f	("Effective Date"), by an
between TimeClock Plus, LLC, a Dela Time Clock Drive, San Angelo, TX 7690	ware limited liability company	
Boone County, Missouri		, with
its principal office located at	llnut Street, Columbia,	MO 65201 ("Client").

WHEREAS, TCP and Client (the "Parties") desire to enter into this Agreement for the provision of hosted services by TCP to Client, as provided herein.

NOW, THEREFORE, in reliance on the mutual covenants and promises, representations and agreements set forth herein, the parties agree as follows:

1. REPRESENTATIONS OF CUSTOMER. By signing the End User Licensing Agreement governed by the Global Data Privacy Policy located at www.timeclockplus.com/privacy, collectively the agreement ("Agreement"), you represent, warrant and certify that (a) you are 18 years of age or older; (b) you are authorized to bind the company or organization named above under this Agreement, (c) you are authorized to use the payment method specified to engage in transactions relating to TimeClock Plus Services provided by TCP, including any recurring payment information and (d) you have read, understand and agree to the terms and conditions of this Agreement and TCP's Global Data Privacy Policy found at www.timeclockplus.com/privacy, which may be amended from time-to-time to adhere to changing data protection legislation.

2. DEFINITIONS.

2.1 "Active Employee" means a Client Employee who is not marked suspended or terminated. For purposes of Employee Licensing Fees, an active employee is one who has been marked as active within the TimeClock Plus system on any date, no matter the duration of being marked active, and such employee will be subject to the Employee License requirements.

2.2 "Employee" means Client's employee, agent or contractor for whom Client has agreed to pay an Employee Licensing Fee under this Agreement.

2.3 "Services" means the right to access and use TimeClock Plus Software, our website, or the User website interface provided by TCP; including, but not limited to, update servers, mobile apps, knowledge base, and support communities.

2.4 "Employee Licensing Fee" means TCP's then current fee for each of Client's Employees to access and use the Services as outlined on the Master Service Order Form.

2.5 "Software" means the TimeClock Plus Software and associated modules authorized for Client access and use under this Agreement.

2.6 "User" means Client Employees who are not added to the TimeClock Plus Software database as an Employee, but *are* physically added as Users within the Software with management rights. Users *will not* be considered Employees and will not incur Employee Licensing Fees, except Users who are added to the database as Employees <u>as well as Users</u>, who are effectively considered Employees and an Employee Licensing Fee will be assessed for each.

2.7 "Overages" means the Employee Licensing Fee due as a result of an Active Employee added to the Services in excess of those outlined on the Master Service Order Form. Client is responsible for reporting such Overages for which you will be charged the applicable Employee Licensing Fee.

2.8 "Personal Data" means any information that can be used to identify, locate or contact an Employee or User.

2.9 "Global Data Privacy Policy" means the then current TCP privacy policy published at www.timeclockplus.com/privacy.aspx. This privacy policy governs all TCP agreements in regards to the controlling, processing, and transferring of Personal Data.

2.10 "Employee License" means the Active Employee license of the Software required for a single Employee to use the Services pursuant to this EULA.

3. USE AND ACCESS. TCP grants Client a nonexclusive, non-transferable, royalty-free license to access and use the Services, where the maximum number of Active Employees in the TimeClock Plus Software does not exceed the number of Employee Licenses purchased in conjunction with Services as reflected on the Master Service Order Form, for the limited purpose of providing collection, management, and disbursement of Client's accumulated data as specified below, all solely within and subject to the terms, conditions, and limitations herein.

Client may install the Software on a single server, and the Software may be accessed via a web browser by the number of Employees equal to or less than the number of Employee Licenses purchased in conjunction with the Software license.

Client will use the Software and Services only for its internal business operations and will not permit the Services to be used by or for the benefit of anyone other than Client. Client will not have the right to relicense or sell rights to access and/or use the Services, except as expressly provided herein. Client will not transmit or share identification or password codes to persons other than authorized TimeClock Plus Employees or Users nor permit the identification or password codes to be cached in proxy servers and accessed by individuals who are not authorized Users. Client will be responsible for all equipment and software required for Client to access the Internet including, without limitation, a web browser compatible with the Services. Client acknowledges that TCP is not responsible for any use or misuse of the Services by Client or its employees or contractors.

3.1 Client's Responsibilities. Client agrees to act as the Data Controller and Data Processor, and appoint TCP as Subprocessor, of information entered by its authorized Employees and Users. Client agrees to impose similar data protection-related terms that will not be less protective than those imposed on TCP by this Agreement and the Global Data Privacy Policy.

3.2 Subprocessors. Under this perpetual licensing agreement, TCP will only process Personal Data for the purposes of supporting the Services and will not have any access to Personal Data unless provided by Client for the purposes of technical support. TCP has appointed additional third party data Subprocessors for the purposes of hosting and security services. These Subprocessors may process Personal Data in accordance with the terms of this agreement and the Global Data Privacy Policy. The Subprocessor agreements impose similar data protection-related processing terms on the third party Subprocessor that are not less protective than those imposed on TCP in this Agreement and the TCP Privacy Policy for Client Data Processing Services. TCP has publish an overview of the categories of Subprocessors involved in the performance of the relevant Services which can be found at www.timeclockplus.com/privacy.aspx.

4. FUNCTIONALITY. The Software is capable of providing the functionality found in TCP's official product documentation. Differing versions of TimeClock Plus Software, such as Small Business Edition,

Professional Edition, Enterprise Edition as well as future Products may have differing functionality as specified in their product documentation.

5. TECHNICAL SUPPORT. TCP will make available to Client access to TCP's standard instructional materials that TCP generally makes available to Clients for the Software. There may be a charge for any additional assistance or support requested by Client, including telephone and chat support. All Support is for TCP's Products and Services only, excluding third party payroll software, operating platforms, networking, Client's hardware or anything not originally created and sold by TCP to Client unless expressly agreed upon otherwise. TCP is not responsible for providing maintenance, support or assistance related to Client's operating systems, network, communications, hardware or other Client specific matters. If Client desires additional ongoing assistance, a Support Agreement must be separately negotiated and agreed to for an additional price.

6. SOFTWARE UPGRADES. From time to time TCP will release new reversions of TimeClock Plus Software. TCP will provide Client, under the terms of this Agreement, with access to updates to the Software as TCP generally makes such updates available to other similar clients. Software updates are minor additions, enhancements, or fixes to the Software. Updates do not include upgrades to newer versions of the Software. TCP will provide updates as revisions to the current version of the TimeClock Plus Software, until such time as the purchased version is deemed end-of-support or end-of-life. Future versions of TimeClock Plus Software can be purchased by Client for an additional fee.

7. HARDWARE MIGRATION, TESTING, AND BACKUPS: Client shall install the Software on a single production server. However, Client may change the particular production server in which Client is authorized to use the Software to another production server within Client's immediate business organization if the Software is no longer used on any former production server. Client may install up to three (3) copies of the Software on additional servers for backup and testing purposes only.

8. PAYMENT. Customer shall pay all fees or charges in accordance with the fees, charges, and billing terms in effect at the time a fee or charge is due and payable. Customer agrees to all correct invoices within forty-five (45) days of receipt. In the event of a billing dispute Customer reserves the right to withhold payment on the disputed amount. If the billing dispute is resolved in TCP's favor, Customer agrees to pay interest at 9% per annum on disputed amounts withheld commencing from the last date that payment was due.

9. FEES & CHARGES. Client may add additional Employee Licenses at any time, by paying the Employee Licensing Fees. Employees added in excess of the Employee Licenses purchased by Client require the purchase of an Employee License. Client is responsible for reporting these Overages and purchasing the necessary Employee Licenses for all Active Employees. If TCP is required by law to pay or collect any federal, state, local, or value-added tax on any fees charged under this Agreement, or any other similar taxes or duties levied by any governmental authority, excluding taxes levied on TCP's net income, then such taxes and/or duties will be billed to and paid by Client immediately upon Client's receipt of TCP's invoice and supporting documentation for the taxes or duties charged.

9.1 Initial Product. The fees to be paid by Client to TCP for the Product (Software and Hardware, if any) which Client is obtaining from TCP pursuant to this EULA are specified on the Master Service Order Form or Invoice Prices for software include the licensing for the Software as well as a number of Employee Licenses.

9.2 Additional Product. The fees to be paid by Client to TCP for additional Product (Software and Hardware, if any) which Client does not obtain from TCP at this time shall billed at the then current fees for Product. Prices for Product may be changed from time to time by TCP without notice to Client until the Client's new order is accepted by TCP.

9.3 Software Updates. TCP currently makes certain Software updates accessible to qualified Clients at no cost. If TCP elects in the future to charge for such updates, the fees to be paid by Client to TCP for Software updates shall be TCP's standard client level prices, as they may be changed from time

Dr

to time by TCP. TCP will provide updates as revisions to the current version of the TimeClock Plus Software, until such time as the purchased version is deemed end-of-support or end-of-life. Future versions of TimeClock Plus Software can be purchased by Client for an additional fee.

10. TERM.

10.1 Perpetual Licenses. Client's license to use the Software is delivered to Client pursuant to this EULA is perpetual, unless sooner terminated in accordance with the provisions hereof.

10.2 Other Items. Access to Software updates, receipt of support and services from TCP, purchase of Hardware and other Products or goods from TCP and all other additional tangible and intangible things or rights beyond Client's license to use the Software delivered to Client pursuant to this EULA may be conditioned upon future new and additional agreements and payments. TCP will provide updates as revisions to the current version of the TimeClock Plus Software, until such time as the purchased version is deemed end-of-support or end-of-life. Enhancements that materially add functionality to the TimeClock Plus Software and future versions of TimeClock Plus Software can be purchased by Client for an additional fee.

11. TERMINATION.

11.1 Mutual Cancellation. This EULA may be terminated by mutual agreement between TCP and Client, by both parties' mutual consent in writing to such a cancellation. Termination pursuant to mutual agreement shall have the same effect as termination generally except to the extent that the parties may otherwise agree in a signed writing.

11.2 Termination. Client may terminate this Agreement at any time by notifying TCP in writing thirty (30) days prior to the termination date. TCP may only terminate this Agreement for cause, including, without limitation, failing to pay fees when due to TCP, failing to protect TCP's proprietary rights to the Software, or Client's failure to comply with any term of this Agreement, or without limitation, any of the guidelines, requirements, or monetary terms incorporated here by reference, or Client becomes insolvent or bankrupt or ceases to do business, or TCP choosing to cease offering to license the Software to Client's class of clients in Client's county. After 120 days notice to Client. If Client commits acts which, in TCP's good faith determination, substantially adversely affect the parties' relationship after Client has been warned in writing concerning same; such as documented repeated abuse of TCP's staff, repeated publication of statements hostile to TCP or derogatory concerning the Software, or a pattern of repeated breaches of this Agreement, then TCP may terminate this Agreement.

11.3 Effect of Termination. In the event of termination, Client will, before or upon the effective date of termination, discontinue all use of the Software and remove and return all versions and copies (digital, paper, or otherwise) and all associated materials to TCP and deliver to TCP Client's unconditional verification that this has been completed. Termination does not affect any right to fees earned prior to the termination. Without limiting the general survivability of terms which, by their nature, survive terminations of warranties and liability, Intellectual Property, dispute resolution, and all other obligations which, by their terms imply that they are intended to survive termination, expressly survive termination. TCP is not liable for any termination compensation whether based on goodwill, investments made, or otherwise. If a notice of termination or a notice of intent to terminate is given by TCP, then no communication from TCP except a written communication issued directly by TCP's President is effective to delay, waive, modify, revoke, or otherwise change the notice or its effect.

12. OPERATIONS

12.1 Independent Businesses. This EULA does not create an agency, partnership or joint venture. Neither party will represent itself as an agent, representative or partner of the other. All restrictions and requirements TCP imposes on Client herein or elsewhere solely concern the relationship

between TCP and Client. Day-to-day conduct of business by Client and Client's employees including, without limitation, employee relations and safety, payment of salary, overtime, bonuses, taxes and other liabilities, work performed for customers, goods delivered to customers, Personal Data confidentiality, applicable data subject rights, etc., shall be controlled solely by Client and not by TCP. TCP has no power to instruct Client or Client's employees to do or not do any specific thing or practice except as set forth herein. The standards and restrictions herein relate solely to the parties' rights with respect to each other and do not control Client's actions or failure to act with respect to Client's customers, employees, or other third parties. Client may not use TCP's name, trademarks, or logos in a way which implies to the public, suppliers, creditors or others that Client's business is an agent for TCP or has any association with TCP beyond having a legal right to use the Software. Neither party will make any promises or representations concerning the other, or its goods or services, except as expressly authorized in writing. Each party is an independent entity solely responsible for its own management, safety, legal compliance, data protection, employee relations, taxes, hiring, firing, operations, goods, services, etc. Every contractual duty herein is subservient to the parties' obligation to the public to do all things necessary for public and employee safety and to comply with all applicable laws. Neither party is liable under any circumstance for any act. omission, contract, debt, or other obligation of the other.

12.2 Standards. Client shall comply with all applicable laws and regulations relating in any way to Client's use of the Product; keep the original Software media and all copies in Client's possession and direct control; not engage in any activity which results or may reasonably be anticipated to result in harm to the reputation of TCP or TCP's Products or litigation against or public criticism of TCP or TCP's Products; never threaten to breach the EULA or indicate to any entity that Client is not bound by it; not allow or engage in unlawful, unsafe, or unethical practices; rely solely on Client's own attorney's advice in these regards; and obtain all necessary governmental approvals and licenses for all acts taken by Client under or relating to this EULA and deliver copies of the same to TCP upon TCP's request. Client will ensure that Client's relationship with TCP is conducted in strict compliance with this EULA. Client will not enter into agreements that conflict with Client's obligations to TCP.

12.3 Data Protection and GDPR Compliance. TCP has adopted the provisions contained in the Global Data Privacy Policy for dealing with Personal Data in accordance with GDPR and other applicable data protection laws.

12.3.1 Instructions. TCP, as Subprocessor, will process certain categories and types of Personal Data only upon Client's instructions and in accordance with applicable data protection laws (e.g. GDPR). Client is responsible for ensuring those who provide instructions are authorized to do so and agrees that TCP will only perform processing activities that are necessary and relevant to support the Software. Under this perpetual licensing agreement, TCP will only process Personal Data for the purposes of supporting the Services and will not have any access to Personal Data unless provided by Client for the purposes of technical support.

12.3.2 Requests. Client will have sole responsibility for the accuracy, quality, and legality of Personal Data and the means by which is was obtained. Client agrees to adopt a balanced and reasonable policy for managing Subject Access Requests (SARs) and 3rd party disclosures which safeguard the rights of all data subjects and respects the original purpose of the data collection. Client, as both Data Controller and Data Processor, will be responsible for receiving, investigating, documenting, and responding to all data subject requests for inspection or erasure of Personal Data.

12.3.3 Assistance. Should Client receive a request from a data subject for the exercise of the data subject's rights under applicable data protection laws, and the correct and legitimate reply to such a request necessitates TCP's assistance, TCP shall assist the Client by providing the necessary information and documentation. TCP shall be given reasonable time to assist the Client with such requests in accordance with the applicable law.

12.3.4 Confidentiality. TCP shall treat all Personal Data as strictly confidential information that may not be copied, transferred, or otherwise processed without the instruction of

the Client. Transfer of Personal Data to another data controller or data processor (e.g. HRIS or Payroll application) is at the sole discretion of the Client and shall comply with applicable data protection laws.

12.3.5 Acknowledgement. Client acknowledges that TCP may not know the applicable data protection rights of any given Employee and, to the extent permitted by law, agrees to indemnify and hold harmless TCP from any and all direct claims, damages and demands, including reasonable attorney's fees, arising out of Client's violation of applicable data protection laws. Nothing in this Agreement relieves TCP of its own direct responsibilities and liabilities under the applicable data protection laws.

Further information about TCP's use of data and data retention policies can be found in the Global Data Privacy Policy at: www.timeclockplus.com/privacy.aspx.

13. WARRANTY AND DISCLAIMER. EXCEPT AS EXPRESSLY STATED HEREIN, TCP EXPRESSLY DISCLAIMS ALL REPRESENTATIONS, WARRANTIES OR CONDITIONS OF ANY KIND, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, ACCURACY OF ANY INFORMATIONAL CONTENT OR THOSE ARISING BY STATUTE, OF CONFORMITY TO ANY REPRESENTATIONS OR DESCRIPTIONS NOT CONTAINED HEREIN, OR OTHERWISE IN LAW OR FROM COURSE OF DEALING OR USAGE OF TRADE. WITHOUT LIMITING THE FOREGOING, TCP DOES NOT WARRANT THAT ANYTHING WILL MEET CUSTOMER'S REQUIREMENTS, WILL BE UNINTERRUPTED, SECURE, RELIABLE, ACCURATE OR ERROR-FREE. TCP HAS NO OBLIGATIONS CONCERNING PRODUCTS OR SERVICES USED OUTSIDE THE U.S.A. UNLESS THEY ARE STATED IN WRITING BY TCP TO BE EXPORT PROGRAM PRODUCTS AND ARE ISSUED AN EXPORT PROGRAM WARRANTY. TCP'S OBLIGATIONS, IF ANY, ARE CONDITIONAL ON CUSTOMER PROMPTLY COMPLYING WITH ALL OF THIS AGREEMENT'S TERMS AND CONDITIONS. CUSTOMER ACCEPTS SERVICES "AS IS" AND WITH ALL FAULTS. THE LIMITED WARRANTIES AND REMEDIES IN THIS AGREEMENT ARE THE SOLE AND EXCLUSIVE WARRANTIES AND REMEDIES CONCERNING ANY GOODS, SERVICES, OR INTANGIBLES, NOW OR IN THE FUTURE.

14. LIABILITY LIMITATION. IN NO EVENT SHALL TCP BE LIABLE FOR ANY INDIRECT, INCIDENTAL, EXEMPLARY, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES OR REMEDIES RELATING TO SERVICES OR ANY TCP PRODUCTS, GOODS, OR INTANGIBLES (EXCLUDED DAMAGES INCLUDE, WITHOUT LIMITATION, FOR LOST PROFITS, BUSINESS INTERRUPTION, COSTS OF DELAY, FAILURE OF DELIVERY, REVENUE, GOODWILL, LOST OR DAMAGED DATA, DOCUMENTATION OR EQUIPMENT, LOSS OF BUSINESS INFORMATION, COST OF REMOVAL OR INSTALLATION OF ANYTHING, INTERCEPTIONS, DEFECTS, VIRUSES, DELAYS, OR FAILURE OF PERFORMANCE, OTHER LOSS ARISING OUT OF USE, OR INABILITY TO USE SERVICES, LIABILITIES TO THIRD PARTIES, INABILITY TO USE TIMECLOCK PLUS ONDEMAND SERVICES, ERRORS IN THE SOFTWARE, MALFUNCTIONS OR ERRONEOUS DATA, PAYMENTS TO THIRD PARTIES WHICH ARE TOO SMALL, TOO LARGE, TOO LATE OR ARE OTHERWISE IMPROPER), EVEN IF TCP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND REGARDLESS OF THE FORM OF ACTION (INCLUDING, WITHOUT LIMITATION, CONTRACT, TORT, WARRANTY, ETC.), ANY ASSERTED TCP BREACH OF PROMISE OR WARRANTY; ANY ACT OR FAILURE TO ACT; OR ANY CLAIM MADE AGAINST CUSTOMER BY ANY OTHER PARTY. WITHOUT LIMITING THE FOREGOING, IN NO EVENT SHALL TCP'S LIABILITY (FOR ALL CAUSES OF ACTION), EXCEED THE AMOUNT PAID BY CUSTOMER TO TCP FOR TOTAL FEES PAID TO TCP FOR THE PRECEDING TWELVE (12) MONTHS FROM THE DATE OF THE INCIDENT. THESE LIMITATIONS ARE INDEPENDENT AND APPLY REGARDLESS OF THE BASIS OF THE CLAIM, INCLUDING, BUT NOT LIMITED TO, A FINDING THAT A WARRANTY, CONDITION, OR REMEDY HAS FAILED ITS ESSENTIAL PURPOSE, BREACH OF CONTRACT (INCLUDING, BUT NOT LIMITED TO, FUNDAMENTAL BREACH), TORT, (INCLUDING, BUT NOT LIMITED TO, NEGLIGENCE OR MISREPRESENTATION), BREACH OF STATUTORY DUTY, OR OTHER LEGAL OR EQUITABLE THEORY. ANY CAUSE OF ACTION CUSTOMER MAY HAVE AGAINST TCP, ITS AFFILIATES, OFFICERS AND AGENTS MUST BE COMMENCED WITHIN ONE YEAR AFTER THE CLAIM OR CAUSE OF ACTION ARISES OR SHALL BE FOREVER BARRED. TCP'S MAXIMUM AGGREGATE LIABILITY SHALL NEVER EXCEED THE AMOUNT PAID BY CUSTOMER FOR THE PRODUCTS DURING THE TWELVE (12) MONTHS IMMEDIATELY PRIOR TO THE DATE OF THE CLAIM. THIS LIMITATION OF LIABILITY SHALL APPLY REGARDLESS OF THE BASIS OF THE CLAIM.

15. INTELLECTUAL PROPERTY. The TimeClock Plus Software is licensed to Client, not sold. This EULA does not convey to Client any interest in or to the Software or Services, but only a limited right of use, revocable in accordance with the terms of this EULA. All rights not expressly granted in this EULA are reserved by TCP. All title and copyrights in and to the Software, Product, related materials and copies thereof are always only owned by TCP. All rights not specifically granted to Client under this EULA are reserved by TCP. Client will be the owner of all data or information created by Client and stored on TCP's database servers.

16. CONFIDENTIALITY. Client acknowledges that the Services and TimeClock Plus Software contain valuable confidential information that is proprietary and valuable to TCP. Client will safeguard its access to Services and Software installed on Client's servers using the same standard of care that Client uses for its own confidential information. TCP agrees to hold Client's data and information as confidential and it will not, without the prior written consent of Client and in accordance with applicable data protection laws, be disclosed or be used for any purposes other than the performance of this Agreement. TCP will safeguard the confidential information as governed by the Global Data Privacy Policy. All pricing terms are confidential, and you agree not to disclose them to any third party.

17. GOVERNING LAW. THIS AGREEMENT IS SOLELY GOVERNED BY THE LAWS OF THE STATE OF MISSOURI. EACH OF THE PARTIES HERETO IRREVOCABLY AGREES TO EXCLUSIVE JURISDICTION BY THE COURTS LOCATED IN MISSOURI.

18. U.S. GOVERNMENT RESTRICTED RIGHTS. If Client is acquiring the Software on behalf of any unit or agency of the United States Government, the following provision applies: It is acknowledged that the Software and the documentation were developed at private expense and that no part is in the public domain and that the Software and documentation are provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (C)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs c (1) and (2) of the Commercial Computer Software-Restricted Rights at 48 CFR 52.227-19, as applicable.

19. DISPUTE RESOLUTION. For any dispute, controversy or claims arising out of or relating to this Agreement or the breach, termination, interpretation or invalidity thereof or any Invoice, or Order Form, the parties shall endeavor for a period of two (2) weeks to resolve the Dispute by negotiation. This period may be extended by mutual agreement of the Parties. In the event the Dispute is not successfully resolved, the parties agree to submit the Dispute to litigation in a court of competent jurisdiction.

19.1 WAIVER OR JURY TRIAL. EACH PARTY IRREVOCABLY AND UNCONDITIONALLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY IN ANY LEGAL ACTION, PROCEEDING, CAUSE OF ACTION, OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT, INCLUDING ANY EXHIBITS, SCHEDULES, AND APPENDICES ATTACHED TO THIS AGREEMENT, OR THE TRANSACTIONS CONTEMPLATED HEREBY. EACH PARTY CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE OF THE OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT THE OTHER PARTY WOULD NOT SEEK TO ENFORCE THE FOREGOING WAIVER IN THE EVENT OF A LEGAL ACTION, (B) IT HAS CONSIDERED THE IMPLICATIONS OF THIS WAIVER, (C) IT MAKES THIS WAIVER KNOWINGLY AND VOLUNTARILY, AND (D) IT HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS SECTION.

19.2 CLASS ACTION WAIVER. THE PARTIES WAIVE ANY RIGHT TO ASSERT ANY CLAIMS AGAINST THE OTHER PARTY AS A REPRESENTATIVE OR MEMBER IN ANY CLASS OR REPRESENTATIVE ACTION, EXCEPT WHERE SUCH WAIVER IS PROHIBITED BY LAW OR DEEMED BY A COURT OF LAW TO BE AGAINST PUBLIC POLICY. TO THE EXTENT EITHER PARTY IS PERMITTED BY LAW OR COURT OF LAW TO PROCEED WITH A CLASS OR REPRESENTATIVE ACTION AGAINST THE OTHER, THE PARTIES AGREE THAT: (I) THE PREVAILING PARTY SHALL NOT BE ENTITLED TO RECOVER ATTORNEYS' FEES OR COSTS ASSOCIATED WITH PURSUING THE CLASS OR REPRESENTATIVE ACTION (NOT WITHSTANDING ANY OTHER PROVISION IN THIS AGREEMENT); AND (II) THE PARTY WHO INITIATES OR PARTICIPATES AS A MEMBER OF THE CLASS WILL NOT SUBMIT A CLAIM OR OTHERWISE PARTICIPATE IN ANY RECOVERY SECURED THROUGH THE CLASS OR REPRESENTATIVE ACTION.

20. ASSIGNMENT. This Agreement shall not be assigned by either party without the prior written consent of the other party, which shall not be unreasonably withheld; provided, however, that either party may, without the prior consent of the other, assign all of its rights under this Agreement to (i) such party's parent company or a subsidiary of such party, (ii) a purchaser of all or substantially all assets related to this Agreement, or (iii) a third party participating in a merger, acquisition, sale of assets or other corporate reorganization in which either party is participating. This Agreement shall bind and insure to the benefit of the parties and their respective successors and permitted assigns.

WAIVERS. Client shall make a timely written request to TCP whenever this Agreement requires approval, TCP's approval must be in writing to be effective and relied upon by Client. TCP assumes no liability or obligation and makes no representation or warranty by denying, granting, or providing any waiver, approval, advice, consent or suggestions to Client or for any neglect, delay or denial of any requests therefore. Failure of TCP to exercise any right, power or option or to insist on strict compliance with the terms hereof will not comprise a waiver with respect to any other or subsequent breach of the same or different nature nor a waiver of TCP's right to at any time require exact and strict compliance with all terms hereof and declare any breach or default. No custom or practice waives TCP's right to demand exact compliance with this Agreement. TCP's rights and remedies herein are cumulative with any other rights or remedies which may be granted by law or equity. It is expressly agreed that the description of any breach or default in any notice by TCP, including, without limitation, a notice of termination, will not preclude the later assertion of other additional defaults or breaches, whether known or unknown at the time of the notice. Subsequent acceptance by TCP of any payments or performance is not a waiver of any preceding breach by Client. TCP reserves the right, from time to time, to waive observance or performance of the whole or any part of an obligation imposed on Client by this Agreement. No waiver of any default of any term, proviso, covenant or condition of this Agreement by TCP constitutes a waiver by TCP of any prior, concurrent or subsequent default of the same or any other term, proviso, covenant or condition hereof.

22. Intentionally Removed

23. SAVINGS CLAUSE. This Agreement shall be construed, interpreted and reformed to avoid violating any applicable law, and to preserve its intent to the fullest possible extent. If any statute, law, by-law, ordinance or regulation promulgated by any competent authority with jurisdiction over any part of this Agreement or Client's Business or any court order pertaining to this Agreement requires a longer or different notice period than that specified herein, the notice period herein shall automatically be deemed to be amended so as to conform with the minimum requirements of such statute, law, by-law, ordinance, regulation or court order. The unenforceability of any part, segment, or clause hereof will not affect the validity of the remaining portions hereof as the parties would have executed the remaining portions of this Agreement without such portions as may be invalid except that if any portions relating to restrictions on Client's payments to TCP are finally determined to be unenforceable, TCP may elect to terminate this Agreement.

24. DISCLOSURES. Client has reviewed or had an opportunity to review TCP's website or documentation relevant to the chosen Products and conducted an independent review of all relevant matters, and decided that the same meet Client's expectations. Client accepts sole responsibility for (i) Client's Products configuration, design, and requirements, (ii) selection of the specific Products to achieve Client's intended results, (iii) any modifications or changes to the Products, and (iv) all intended interfacing between and usefulness, if any, of TCP's Products and any non-TCP software, hardware, inputs, output, personnel, or Client's requirements. TCP does not promise or represent that Client will be able to open or continue a business, or that Client's business will be successful. TCP's technical support consists of general guidelines concerning TCP's standard methods, procedures, and guidelines. TCP's technical support is not tailored to any Client's specific circumstances and is not promised or represented to provide any specific benefit or result. TCP does not promise or represent that TCP will repurchase anything from Client. No one at TCP has authority to make representations or promises which are contrary to or which modify, or extend anything stated in this Agreement except pursuant to a writing signed by TCP's President or a designated representative. Client acknowledges that it has had ample opportunity to seek legal counsel and analyze and negotiate the various provisions herein and to review, compare and analyze all aspects and characteristics of the Products.

25. Intentionally Removed

26. ACCEPTANCE. Client's acceptance of this Agreement is indicated by Client's execution of this Agreement or the Master Service Order Form, or installing or using any part of the Software, or downloading or installing any part of an update, module, fix, or revision to the Software which has been made available by TCP. Client's acceptance of the then-current EULA as then currently posted on TCP's website is made and reaffirmed each time Client performs any of these actions.

27. ENTIRE AGREEMENT. This document in conjunction with the Master Service Order Form make up this complete Agreement, and it is solely the exclusive, complete, and entire Agreement between the parties superseding all prior representations or other agreements concerning its subject matter and supersedes any and all prior communications, proposals, advertising, discussions, representations, and understandings.

28. SEVERABILITY. If any term of this Agreement is found to be unenforceable or contrary to law, the remaining portions of this Agreement will remain in full force and effect.

THE E-VERIFY MEMORANDUM OF UNDERSTANDING FOR EMPLOYERS

ARTICLE I PURPOSE AND AUTHORITY

The parties to this agreement are the Department of Homeland Security (DHS) and the TimeClock Plus, LLC (Employer). The purpose of this agreement is to set forth terms and conditions which the Employer will follow while participating in E-Verify.

E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of Form I-9, Employment Eligibility Verification (Form I-9). This Memorandum of Understanding (MOU) explains certain features of the E-Verify program and describes specific responsibilities of the Employer, the Social Security Administration (SSA), and DHS.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). The Federal Acquisition Regulation (FAR) Subpart 22.18, "Employment Eligibility Verification" and Executive Order 12989, as amended, provide authority for Federal contractors and subcontractors (Federal contractor) to use E-Verify to verify the employment eligibility of certain employees working on Federal contracts.

ARTICLE II

RESPONSIBILITIES

A. RESPONSIBILITIES OF THE EMPLOYER

1. The Employer agrees to display the following notices supplied by DHS in a prominent place that is clearly visible to prospective employees and all employees who are to be verified through the system:

- a. Notice of E-Verify Participation
- b. Notice of Right to Work

2. The Employer agrees to provide to the SSA and DHS the names, titles, addresses, and telephone numbers of the Employer representatives to be contacted about E-Verify. The Employer also agrees to keep such information current by providing updated information to SSA and DHS whenever the representatives' contact information changes.

3. The Employer agrees to grant E-Verify access only to current employees who need E-Verify access. Employers must promptly terminate an employee's E-Verify access if the employer is separated from the company or no longer needs access to E-Verify.

RE: Surplus Disposal - Interstate Trailer & Impala

Following is a 2000 Interstate Trailer that is surplus. It was originally obtained from the Department of Public Safety. All lettering and logos will be removed from trailer prior to selling on GovDeals.

The Sheriff Department is also disposing of a 2003 Chevrolet Impala through the Missouri Auto Auction. Our contract with MO Auto Auction is 15-24APR15 – Auction Services for Surplus Vehicles.

STATE OF MISSOURI DEPARTMENT OF PUBLIC SAFETY OFFICE OF THE DIRECTOR

April 12, 2019

Lt. Britt Shea Boone County Sheriff's Office 2121 E. County Drive Columbia, MO 65202

RE: Donation of Clan Lab Trailer

Dear Lieutenant Shea,

It is my understanding that your agency is in possession of a Clandestine Lab Response Unit trailer that has been identified as being purchased with state funds nearly 20 years ago. The Department of Public Safety is donating such property to your agency at no cost and is thus relinquishing ownership of such property. The Department of Public Safety will have no further entitlement or responsibility to the property.

If your agency desires to dispose of the property, the Missouri Department of Public Safety respectfully requests that you remove or cover the Missouri Department of Public Safety name from the property prior to disposition.

If you have any questions, please contact me at (573) 751-1318.

Sincerely,

Heather Haslag CJ/LE Program Manager

MEMORANDUM

TO:	Boone County Commission
FROM:	David Eagle
RE:	Computer and Peripheral Surplus Disposal
DATE:	October 22, 2019

The Purchasing Departments requests permission to dispose of the following list of surplus PC, peripheral equipment and unworking air conditioners through MRC Recycling Center. MRC Recycling will pick up our surplus at no charge. They are a State of Missouri, DNR Level Four recycling center. No computer items are land-filled. Purchasing will obtain a Certificate of Destruction, and we will let them know that we want everything recycled, not reused so nothing ends up in the landfill.

Prior to Computer surplus coming to Purchasing for disposal, Information Technology has removed the hard-drives for destruction by their department. Their procedure for PC disposal is:

Once all the data is copied or recovered for the user, IT removes the hard drive and memory from the PC. The memory is held to be used for upgrading other PCs at the county that can benefit. IT sometimes removes parts that can be used as spare if the model is current enough. (ie Power Supplies, Video Cards, etc.) The hard drive is held for a minimum of 30 days in case a user identifies something is missing. After 30 days IT may reuse the hard drive in other county PCs if there are failures. If a hard drive goes unused or fails and IT needs to physically dispose of it, they drill a 5/8" hole through the drive and the data platters. Once IT has collection of "drilled" drives, they deliver them to PC recycling vendor, MRC Recycling Center.

MRC Recycling Center certifies that they have picked up the following items and that all items will be recycled, not reused, so nothing ends up in the landfill.

201

2007

- Subrecipients are expected to use the approved equipment for t which it was acquired as long as needed.
 - If a SCCG-funded project ceases and there is still value in the property, I
 property be made available for re-authorization to another SCCG-funde

State Cybers Grant More

- Replacement: May use the equipment to be replaced as a trade-in, or may sell the equipment and use the proceeds to offset the cost of the replacement equipment.
 - Purchase of replacement property must take place soon enough after the sale of property to show that the sale and the purchase are related.
- Disposition: When original or replacement equipment acquired under an award is no longer needed for the original project, may dispose of the personal nonexpendable property.
 - Items with a current per unit fair market value of less than \$5,000 may be retained, sold; or otherwise disposed of with no further obligation to DPS.
 - Items with a current per unit fair market value of \$5,000 or more may be retained or sold, but DPS shall have a right to an amount calculated by multiplying the current market value or proceeds from the sale by DPS' share of the equipment.
 - The seller is eligible for limited sale and handling costs of \$500 or 10% of the proceeds, whichever is less.
- Records for non-expendable property acquired with grant funds shall be retained for five (5) years after final disposition of property.

- retention TRGP hiring grants. Addendum to COPS Office retention policy on retention exemptions for recipients of the Tribal Resources Grant Program hiring grants (TRGP-Hiring): When a TRGP-Hiring grantee is not able to retain their grant-funded position(s), the TRGP-Hiring grantee may apply for a retention exemption and the COPS Office will conduct a standard compliance review of the retention requirement. If the TRGP-Hiring grantee is exempted from the retention requirement, they will be notified of the opportunity to apply for continuation funding for the exempted grant position(s) through the next TRGP announcement in the Coordinated Tribal Assistance Solicitation (CTAS). The eligibility for tribal grantees seeking a continuation of TRGP-Hiring grant funding will only be for the positions that were exempted, and if the tribal grantee is approved for continuation funding, this funding will only be allowed on a one-time basis per grantee. If the tribal grantee has successfully demonstrated qualification for a retention exemption and is denied continuation funding, the one-year restriction from applying for and being awarded new grant funded positions with retention requirements will remain in effect per current compliance protocol. If the tribal grantee cannot demonstrate qualification for an exemption from the retention requirement, per current compliance protocol, the tribal grantee will be ineligible to apply for or receive any COPS Office grant funding for three years from the date of the notice of noncompliance for failure to retain, and the tribal grantee will also be ineligible for consideration for continuation funding.
- retention of equipment/equipment disposition. Each grantee must use any equipment funded through a COPS Office award for approved grant-related purposes and must retain the equipment for the life of the grant. After the conclusion of the grant period, property records must be maintained by the grantee. The records should include a description of the property; a serial number or other identification number; the source of the property; the name of the person or entity that holds the title; the acquisition date and cost of the property; the percentage of federal participation in the cost of the property; the location, use, and condition of the property; and any ultimate disposition data, including the date of disposal and sale price of the property. A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property.

When the grant has expired and original or replacement equipment obtained under the grant is no longer needed for the original project or for other activities currently or previously supported by a federal agency, disposition of the equipment shall be made as follows;

- Items of equipment with a current per-unit fair market value of less than \$5,000 may be retained, sold, or otherwise disposed of with no further obligation to the awarding agency.
- Items of equipment with a current per-unit fair market value in excess of \$5,000 may be retained or sold and the awarding agency shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency's share of the equipment.

For more information, please see 28 C.F.R. Part 66.32 or 28 C.F.R. Part 70.34, as applicable.

From: Phillip Koons <PKoons@boonecountymo.org> Sent: Tuesday, May 07, 2019 4:12 PM To: Jennifer King <jking@boonecountymo.org> Cc: Heather Acton <HActon@boonecountymo.org>; Ryan Irish <RIrish@boonecountymo.org> Subject: FW: Disposal of equipment

As long as we aren't trying to sell the equipment, we don't need any sort of approval for the Edward Byrne Memorial grant. It can be disposed of. Email attached below.

Phillip Koons • Systems Support Analyst Boone County Government, Missouri Information Technology Department 801 E Walnut, Room 220, Columbia MO 65201 tel:573-876-2136 fax:573-886-4322 pkoons@boonecountymo.org http://www.showmeboone.com

To: Phillip Koons <<u>PKoons@boonecountymo.org</u>> Subject: RE: Disposal of equipment

Hi Mr. Koons,

Thank you for contacting the Office of Justice Program, Office of the Chief Financial Officer's grantee financial ask email box. We are providing the following response to your question (reprinted below):

We have a broken UPS that was purchased with the Edward Byrne Memorial Justice Assistance grant in 12/27/2000. We'd like to move forward with disposal but since it's grant funded, I needed approval before we can do so. Can you assist?

Are you going to sell the equipment and use the proceeds to offset the expense of replacement equipment? Those are the circumstances for which you would need written approval of the awarding agency, which in this case would be the BJA program office.

DOJ Financial Guide, Post Award Requirements III, 3.7 Property Standards, Use of Equipment p. 57:

Replacement equipment. When acquiring replacement equipment, you or your subrecipients may use the equipment to be replaced as a trade-in, or may sell the equipment and use the proceeds to offset the cost of the replacement equipment, subject to the written approval of the awarding agency.

I hope this information fully answers your questions. If you have additional questions or need any additional assistance on this or any other financial aspect of your grants, please do not hesitate to contact us by telephone at 1-800-458-0786 (select option #2) or send us an email at <u>ask.OCFO@usdoj.gov</u>.

Frederick Becker Financial Analyst Grants Accounting and Customer Service Branch Office of the Chief Financial Officer Department of Justice, Office of Justice Programs Tai Pedro and Associates (Contractor) Ask.OCFO@usdoj.gov

The Office of the Chief Financial Officer's goal is to provide excellent customer service. If you have any feedback on the response we have provided, please click on the following link <u>OCFO_Follow_Up@usdoj.gov</u>

From: Phillip Koons [mailto:PKoons@boonecountymo.org] Sent: Friday, June 17, 2016 3:30 PM To: Ask.OCFO <<u>Service.Account17dd38@ojp.usdoj.gov</u>> Subject: Disposal of equipment

Hello,

We have a broken UPS that was purchased with the Edward Byrne Memorial Justice Assistance grant in 12/27/2000. We'd like to move forward with disposal but since it's grant funded, I needed approval before we can do so. Can you assist?

#### **U.S. Election Assistance Commission**

#### **Disposition of Equipment Purchased with HAVA Funds**

The purpose of this guidance is to support states and local jurisdictions in managing the disposal of HAVA-funded Special Purpose equipment for voting, voter registration or other special purposes and General Purpose equipment (i.e. vans, forklifts, copy machines, etc.) at either the end of the equipment's useful life or the end of the HAVA award period. Equipment can be disposed of either collectively as a system or individually as components, as follows¹:

- 1. States and local jurisdictions can continue to use equipment purchased with HAVA funds for its original purpose for as long as needed, even if the EAC award used to purchase the equipment has been closed. Equipment may also be used for other federally-supported activities currently or previously funded by a Federal agency. Additionally, equipment can be traded-in for replacement equipment for same purposes.
- 2. Without prior approval from the EAC, equipment purchased with HAVA funds with a current per unit fair market value of less than \$5,000, may be traded-in, sold or scrapped on an as needed basis with no further obligation to the EAC beyond recording disposition in the appropriate equipment inventory log (see point 5 below for record retention requirements).
- 3. Items of equipment with a current per unit fair market value in excess of \$5,000 may be sold with the funds credited to the state/local HAVA election accounts in an amount calculated by multiplying the current market value or proceeds from sale by the HAVA (Federal and Matching Funds) share in the cost of the equipment.
- 4. In cases where the titleholder fails to take appropriate disposition actions, the EAC retains the right to direct States to take excess and disposition actions.
- 5. The final record retention period for equipment replacement or disposition begins on the date the State submits its last Federal Financial Report (FFR) to the EAC and continues for 3 years. For equipment replacement or disposal after the end of award period, the three year record retention period begins from the time the equipment is traded-in or disposed of and continues for three additional years.

#### **Special Note for Safe Dispensation**

States and local jurisdictions should take care to follow state equipment disposal policies and any additional guidelines for disposition of sensitive equipment such as cleansing of electronic devices, etc.

Additional resources and practices outlining disposition of sensitive equipment will be provided by the EAC on an ongoing basis.

¹ See Common Rule requirements for disposition of equipment purchased with Federal funds (41 CFR 105-71.132)
