The funds will be used to reduce disparities through improved family well-being and access to resources. Collective impact is a powerful approach for addressing complex social issues because educational success is not solely a product of what happens in school buildings. This is evidenced by the same populations of families and children showing chronic disparities at birth, as infants and toddlers, and through rates of graduation and employment. As a member of the national Strive Together Cradle to Career Network, we use results from local educational data as gauge for identifying areas showing disparities in need of our prioritized attention, convene stakeholders to identify solutions through strategic action planning, and build implementation plans aligned to local context. Cradle to Career Alliance

Application for Strategic Innovation Opportunities Health Fund

Introduction

The Cradle to Career Alliance (C2CA) of Boone County requests one year of funding to support a unique cross-sector partnership working to improve family well-being through increased access to resources, and children's social / emotional, academic and career outcomes by using local and national data to identify and replicate proven practices. The specific services or deliverables that we will provide over this one-year period include (1) continuing or initiating strategic action planning for two interrelated milestones with strong connections to health and educational / economic mobility; (2) gathering data on local and national outcomes, combined with a variety of local needs assessments to help identify and replicate effective practices in a process of continuous quality improvement, (3) the annual publication of a community status report tying together education, health, mobility; and (4) continuing to convene our unique cross-sector data team of local leaders to focus on special, ad hoc topics emerging from local needs assessments and to annually reassess its list of community-level outcomes.

These services will advance the mission of and serve the goals of this pool of funding. Each area of our work is a launchpad for enhancing community well-being and health by improving access to underserved populations, and increasing service agency efficiency through reduced duplication and shared goals with a common target population. Like many communities, we are program rich and systems poor. While implementing a collective impact initiative is not a solution to every issue, continuous improvement activities connected with our planning process are vital to reaching underserved populations due to poor coordination, duplication of work, unclear community goals and processes. Because our role is to improve the practices of providers working to improve family

well-being, the population we will serve consists of all students in the county focused in our two milestones, especially our most underrepresented families and students. Because Brilliant Beginnings focuses on creating a support infrastructure beginning prenatal, this year, our population also includes pregnant women and children 0-5.

The Cradle to Career Alliance

C2CA is a unique forum that brings together community leaders in the areas of business and education as well as representatives from service agencies and local governments. Our mission is to improve Boone County student success and to reduce long-standing disparities by helping community organizations and schools work more closely together and by fostering the use of local and national data to identify practices that work. C2CA uses the collective impact methods used successfully by communities in the Strive Together Cradle to Career Network.

C2CA has identified five stages of the cradle to career pathway at which to track the success of Boone County children and youth: kindergarten entry, third grade, the transitions into and out of middle school, graduation from high school, and completion of college or career training. For each stage, our collaborative working groups identified both social-emotional and academic indicators by which to measure community progress. (See our outcomes and indicators at <u>www.cradletocareeralliance.org</u>.) Along with these metrics, we often conduct needs assessments or systems-analyses new to this community, while combining outcomes across sectors to show the relationship between education, poverty, health and well-being, and barriers in our mobility systems. This work is a complex and much-needed element to finding solutions that will actually work in unique local contexts. Over the previous two years, we have run original analyses showing plain connections between these factors.

Our Proposal

We request \$75,000 for one year for the following deliverables:

- 1. <u>An Annual Community Report Card.</u> We will publish an annual report on our community outcomes disaggregated by income and race, along with original research showing various connections between education; well-being and health; poverty; and system / mobility barriers. Our annual reports have moved toward featuring results from more in-depth research development agendas on one milestone area. We believe it is critical to understand local patterns in service distribution, efficiency in interagency processes across service and education sectors, and to create inventories of existing programs when we need to understand access barriers. Our 2018 report has been used as an exemplar for other communities in the U.S.; on state needs assessment panels; and by StriveTogether as a way to introduce new communities.
- 2. Continue planning and implementation support within Kindergarten Readiness milestone.

After conducting strategic planning in Kindergarten Readiness and conducting a variety of local needs assessments, we identified 4 goals for improving the health, well-being and success of our children and families: 1) improving access to affordable childcare; 2) community-wide trauma-informed and culturally responsive training for all early childhood spaces; and 3) opening a communication and literacy pipeline between PreK- districts. There have been direct results or initiatives coming out of each of these smaller strategic planning teams. Our fourth goal, increased family support, has involved a longer strategic planning process to design local infrastructure.

Currently, disparities in infant mortality and low-birthweight are twice as high for black babies, where we see a 40% gap in literacy between this population and white students when they enter Kindergarten. The gaps grew to 50% for sixth grade students in 2017. Brilliant Beginnings is a collaborative project with Boone County, through a Pritzker Family Foundation grant to increase family support leading to Kindergarten Readiness by proposing the development of a universal

connection and referral home visiting system beginning prenatal that focuses on increasing the support in well-visits, maternal mental health, access to healthcare, and nurturing optimal development for our most high-risk families. With a team representing the Community Services Department, home visiting, our medical community, the Columbia Housing Authority, Public Health and Human Services and the City of Refuge, we have reached the end of 8 months of strategic planning. The Children's Trust Fund has expressed interest in funding capacity building for this Boone County project, in collaboration with Kansas City. Cradle to Career is intended to serve as the backbone.

Launch strategic action planning for College, Career Readiness and Workforce Development. We are preparing to launch our next status report, Opportunity Pathways, on November 19 at a community symposium featuring keynote, Mardy Leathers, Director of Workforce Development. As with the previous report, this information is intended for increasing public awareness and building political will to remove barriers associated with chronic intergenerational poverty impacting the health and vitality of this community. The report contains original research connecting mobility with available local infrastructure, various risk factors (housing, childcare, transportation) and employment opportunities promoting advancement from those with fewer credentials trying to support their families. The report is also used as a basis for inviting planning team members at national, state and local levels to launch our collective impact work in College, Career Readiness and workforce development. As a way to build two-generation interventions for families, strategic planning will move beyond high school and college graduate success, to improving system access for low-income parents to eliminate intergenerational poverty, as this stands at the heart of almost every disparity in our community: physical and social emotional health; optimal development; successful entrance and transition into our education system; and

successful completion of educational or career training. There is considerable interest in this milestone from state leadership, local educational institutions, and state and community agencies working with families.

Cradle to Career Alliance

Application for Strategic Innovation Opportunities Health Fund

Introduction

The Cradle to Career Alliance (C2CA) of Boone County requests one year of funding to support a unique cross-sector partnership working to improve family well-being through increased access to resources, and children's social / emotional, academic and career outcomes by using local and national data to identify and replicate proven practices. The Cradle to Career Alliance

C2CA is a unique forum that brings together community leaders in the areas of business and education as well as representatives from service agencies and local governments. Our mission is to improve Boone County student success and to reduce long-standing disparities by helping community organizations and schools work more closely together and by fostering the use of local and national data to identify practices that work. C2CA uses the collective impact methods used successfully by communities in the Strive Together Cradle to Career Network.

C2CA has identified five stages of the cradle to career pathway at which to track the success of Boone County children and youth: kindergarten entry, third grade, the transitions into and out of middle school, graduation from high school, and completion of college or career training. For each stage, our collaborative working groups identified both social-emotional and academic indicators by which to measure community progress. (See our outcomes and indicators at <u>www.cradletocareeralliance.org</u>.) Along with these metrics, we often conduct needs assessments or systems-analyses new to this community, while combining outcomes across sectors to show the relationship between education, poverty, health and well-being, and barriers in our mobility systems. This work is a complex and much-needed element to finding solutions that will actually work in unique local contexts. Over the previous two years, we have run original analyses showing plain connections between these factors.

Our Proposal

We request \$75,000 for one year for the following deliverables:

1. An Annual Community Report Card.

Cradle to Career will provide an annual report focused on Boone County's infrastructure for health. We will use results from city and county assessments as a basis for a more comprehensive analysis of barriers or gaps in community and public assistance programming and policies, and participant access. We will use these findings to form recommendations for improvements in these areas. This study will be conducted by C2CA in collaboration with the Community Services Department staff and will be launched at a community event in November 2020 according to our annual cycle.

2. Continue planning and implementation support within Kindergarten Readiness milestone.

- a. **Cradle to Career will continue early childhood advocacy and policy work** that began in 2019 to address significant barriers in access to quality early learning and other state programming in the following two areas:
 - Dr. Kroner was invited to serve as a member of Missouri's Strategic Planning advisory council, which includes 15-20 experts working with a team from University of Missouri-St. Louis contracted by the state to conduct a statewide needs assessment. Three state agencies (DESE, DFS, DHSS) are working toward a strategic plan that will centralize and coordinate their work to improve access for families with young children in quality early learning, basic needs, and home visiting.
 - C2CA collaborates on an ad hoc basis through partnered events or presentations with local and state advocacy groups to improve access to families and young children, including Kids Win Missouri; Inclusive Impact Institute; Special Education Parent Teacher Association (SEPTA); Worley Street Roundtable; Missouri Faith Voices; and in certain situations, Race Matters, Friends.

- b. C2CA will continue collaborating with HeartSpace, CPS, and early childhood providers to increase access to trauma-informed and wellness-informed training and support that is essential to incorporate into all early childhood programming. Currently, there are funding barriers to address.
- c. **C2CA will finalize work from the ad hoc data team focused on K-readiness.** Team members included: *Kelly Wallis, Steve Hollis, Phil Peters, Dave Wilson, Nicole Langston, Lou Ann Tanner-Jones, Sara Owens, Melissa Stormont (on Young-Walker's behalf), Melody Vieth, Wayne Mayfield, Tracy Huang, and Courtney Daviess.*

The purpose of the team was to create a common, operational definition of K-readiness for Boone County and to sequence current screeners (primarily being funded via the Children's Services Fund) in order to ensure we are tracking children's development and progress aligned to that definition. The Checklist's current use of checkboxes for Kreadiness are not providing accurate results because the screener was not intended for this purpose. We also wanted to ensure there was not duplication of work across various screeners. We are waiting for results from the Mental Health Coalition regarding the use of their existing screener to create reports that are more applicable to the community's needs. We are also waiting to learn about the use of AIMSweb (literacy and numeracy assessments) in the Title I preK pilot to determine whether AIMSweb results can be used to track countywide literacy and numeracy.

- 3. Launch strategic action planning for College, Career Readiness and Workforce Development.
 - a. C2CA will collaborate with local leadership that recently initiated a special task force focused on fair housing, workforce housing, and collaborative community and district planning to reduce neighborhood and school segregation, while improving conditions in

low-income neighborhoods. The taskforce includes C2CA board members: Randal Cole, Teresa Maledy, Phil Steinhouse, Darin Preis, (and Janet Thompson?) and others from the community.

- Dr. Kroner has been apprised of their activities during board meetings in anticipation of this work and will contribute to this project through awarenessraising, building political will, and any assessments or research that would assist in their efforts.
- C2CA will also be collaborating with Mr. Cole in their fair housing event March 2020.
- b. C2CA will work with community and state leadership to design a talent pipeline for high school and college-aged students, and underemployed and underrepresented adults in our community. We are building our base through the Chamber of Commerce, the Missouri Department of Higher Education and Workforce Development, REDI, Job Point, Love, Inc., Central Missouri Community Action, Columbia Career Center, Moberly Area Community College, the University of Missouri, along with business leaders from the industry areas we will focus on first: commercial construction and the health related fields. In order to promote this effort, we have been building strong relationships with these entities, including the Chamber of Commerce.
 - Dr. Kroner was a successful applicant this year to participate in the Chamber's Leadership 2020 program beginning in January through March. Along with securing recognition within the Chamber, the program introduces participants to business and industry leadership within key areas in the community, including commercial construction and health.

 Crystal will be invited to the Chamber Workforce Development Task force this spring, where we believe would be an excellent home for a talent pipeline hub. We also hope to bring in the CEO of CareerWorks Colorado, a successful paid apprenticeship hub the state of Missouri has expressed interest in.

- C2CA has a data agreement with Columbia Public Schools. This allows us to run deeper analysis than what would be typically possible for their data unit. C2CA has a close relationship with various members of CPS leadership to discuss important issues and analyses. Results from our own analyses of raw data are shared with the district, or conducted in close collaboration with their data team.
- 2. Boone Impact Dashboard (BID) has been intended to work in collaboration with C2CA to include results onto a special topics section of the dashboard for the community. C2CA's data team includes local leadership (and OSEDA) within key areas of the community. The team meets at least twice annually to discuss community indicators and outcomes. In 2019, the group created an ad hoc team focused on developing an operational definition of K-readiness

and sequencing local screeners to ensure the community is tracking children's successful development leading to kindergarten. (This included the 0-5 screener and Mental Health Coalition checklist). We also created an ad hoc team to begin defining community indicators of well-being for a redesign of the dashboard (from tables to visuals). Two meetings took place; indicators were defined.

3. Heart of Missouri United Way provides meeting space, when possible, for bi-monthly C2CA leadership team meetings and other CAN meetings. C2CA staff uses the HMUW office for business mail and printing for larger print jobs (over 50 copies). Staff opted to use a home office, in lieu of the office cubical kindly offered by HMUW.

Thank you for your support. We look forward to discussing this proposal with you further.
