Media Release website update

Incident: Reported Incident Viewer

Location: www.showmeboone.com

Date & time: 8-26-09 1620 hours

Case Number:

Details;

In early 2009 the Boone County Sheriff's Department began working with the Boone County Information Technology Department on mapping incidents. The information on the reported incident viewer is only those incidents reported to the Boone County Sheriff's Department where a report was taken.

There were several factors that lead to the development of the viewer including: an increase in inquiries from the public, neighborhood watch groups, and the media.

Capt. German said, "We (The Sheriff's Department) are seeing an increase in calls from the public checking on their neighborhood and from potential home buyers or renters that are new to the area."

The project was completed entirely in-house by the Boone County Information Technology Department using existing resources.

The Reported Incident Viewer can be seen at www.showmeboone.com and following the links to the Sheriff's Department page. At the bottom of the page under "Public Information" click on "Reported Incident Viewer." The Reported Incident Viewer can also be accessed from www.showmeboone.com by clicking on the drop down menu labeled "Boone County Services and Data" and selecting "Reported Incident Viewer – Sheriff."

Release date & time: 8-25-09 1620 hours

Release authorized by: Capt. Gary German
